The Bullet Journal Method Jan 01 2023 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

Dream Journal Notebook Feb 28 2020 This dream journal enables you to record and track your dreams, write down your interpretations, and also your thoughts before sleeping, your emotions and feelings when you wake, and more. A perfect dream diary notebook for women, girls, men, boys, it is also a great gift idea for children and adults of any age. Dreams can result from our brain processing our current situation, an insight into our subconscious and a more acute awareness of our current state of mind, and even premonitions! Through getting into the habit of recording and tracking our dreams using a dream diary, we can more accurately remember and then interpret what our dreams mean as we start to understand them and ourselves better. Dream journaling on a regular basis can be hugely beneficial as a way to analyze our thoughts, emotions, and feelings, which can then be used to look for patterns in what we dream about and how they may relate to our current situation and the relationships with those around us. The main features of this dream journal notebook include: Prompts for each dream where you can track and record the date, your thoughts and emotions before sleep, the time you woke and the quality of sleep, details of the dream, the interpretation either from yourself, once you've looked it up or after a period of time and reflection, what type of dream you had, feelings upon awakening, and any further comments you need to add. The cover is a soft matte design of the night-time view of the sky with the moon and stars. A dream journal to write in, it can be used for note taking when you wake to try and remember as much of your dream as you can, journaling your thoughts and feelings about your dreams and their possible meanings, and getting into the habit of tracking your dreams and interpretations and any recurring themes. This dream journal notebook is a great gift idea under \$10 / £10 for women, men, and kids to use as a logbook to remember and record the date and various details of each dream, analyze and have a full account to refer to in the future.

Get Untamed Mar 11 2021 This stunning hardcover journal is a bold, interactive guide to discovering and creating the truest, most beautiful lives, families, and world we can imagine, based on the #1 New York Times bestseller Untamed. "We must stop asking people for directions to places they've never been. Every life is an unprecedented experiment. We are all pioneers. I created Get Untamed: The Journal as an interactive experience in charting our own way—so we can let burn that which is not true and beautiful enough and get started building what is." —Glennon Doyle With Untamed, Glennon Doyle—writer, activist, and "patron saint of female empowerment" (People)—ignited a movement. Untamed has been described as "a wake-up call" (Tracee Ellis Ross), "an anthem for women today" (Kristen Bell), and a book that "will shake your brain and make your soul scream" (Adele). Glennon now offers a new way of journaling, one that reveals how we can stop striving to meet others' expectations—because when we finally learn that satisfying the world is impossible, we quit pleasing and start living. Whether or not you have read Untamed, this journal leads you to rediscover, and begin to trust, your own inner-voice. Full of thought-provoking exercises, beloved quotations from Untamed, compelling illustrations, playful and meditative coloring pages, and an original introduction, in Get Untamed: The Journal, Glennon guides us through the process of examining the aspects of our lives that can make us feel caged. This revolutionary method for uprooting culturally-constructed ideas shows us how to discover for ourselves what we want to keep and what we'll let burn so that we can build lives by design instead of default. A one-of-a-kind journal experience. Get Untamed proves Glennon's philosophy that "imagination is not where we go to escape reality, but where we go to remember it."
