Doing Documentary Work Nov 04 2020 He discusses literary documentaries: James Agee's searching portrait of Depression-era tenant farmers, Let Us Now Praise Famous Men, and George Orwell's passionate description of England's coal miners, The Road to Wigan Pier. Like many documentarians, Coles argues, Agee and Orwell did not try to be objective, but instead showered praise on the "noble" poor and contempt on the more privileged classes (including themselves) for "exploiting" these workers. Documentary photographs can be equally revealing about the observer. Coles demonstrates how famous photographers such as Walker Evans and Dorthea Lange edited and cropped their pictures to produce a desired effect.

William Christenberry Sep 26 2022 Somehow I feel like I can reach out and touch memory. Somehow it is malleable, you can manipulate it, form it, shape it. It certainly can shape you. William Christenberry Working from Memory is a collection of stories by the renowned visual artist William Christenberry. Christenberry's writings emerge from the literary tradition of the American Deep South and yet can clearly be seen as an integral part of his oeuvre. With their lucid, lyrical qualities they illuminate personal experience against a backdrop of the important political and cultural aspects of the Southern States.

Ansel Adams Jun 11 2021 Despite his significance, little scholarly attention has been paid to Adams's contributions as an artist or his place in photographic history. This handsome book addresses this gap by looking beyond his reputation as a Sierra Club environmentalist and examining in depth his life as an artist, and the complexities of his creative vision. 80 illustrations.

The Jews of New Jersey Jan 07 2021 Jews have called New Jersey home since the late seventeenth century, and they currently make up almost 6 percent of the states residents. Yet, until now, no book has paid tribute to the richness of Jewish heritage in the Garden State. *The Jews of New Jersey: A Pictorial History* redresses this lack with a lively narrative and hundreds of archival and family photographs many rare that bring this history to life. Patricia Ard and Michael Rockland focus on representative Jewish communities throughout the state, paying particular attention to the extraordinary stories of ordinary people. Through the joys and struggles of homemakers, storekeepers, factory workers, athletes, children, farmers, activists, religious leaders, and Holocaust survivors, the authors tell the stories of how these communities have evolved, thrived, and changed. They note the difficulties posed by intermarriage and assimilation and, at the same time, depict a burgeoning revival of Jewish orthodoxy and traditions. *The Jews of New Jersey* will please both the historian and general reader. Its heartwarming stories and pictures truly make the point that it is through the joys, triumphs, and defeats of everyday people that history is made.

American Exodus Jan 19 2022 In this pathbreaking book, Gregory takes us back to the Dust Bowl migration of the 1930s and the war boom influx of the 1940s to explore the experiences of the more than one million Oklahomans, Arkansans, Texans, and Missourians who sought opportunities in California. He reaches into the migrants' lives to reveal not only their economic trials but also their impact on California's culture and society. From country music to evangelical Protestantism to conservative populism, an "Okie subculture" has become an essential element in California's cultural landscape. The first book to examine the cultural implications of the massive migrations of whites out of the South and rural Midwest, "American Exodus" demonstrates the continuing importance of regionalism in the 20th Century. -- From publisher's description

Sam Shepard Oct 04 2020 Sam Shepard's outlandish, nightmarish, yet lyrical plays—*The Tooth of Crime*, *Buried Child*, *True West*, *Fool for Love*, *A Lie of the Mind*, and dozens of others—have garnered him a Pulitzer Prize and a lasting reputation as one of America's greatest living playwrights. His charismatic performances in movies like *Days of Heaven*, *The Right Stuff*, *Country*, and *Thunderheart*—as well as his screenplay for *Paris, Texas*—have made him an indelible presence in American film. Rock 'n' roller, rancher, and rodeo prizewinner, he has toured with Bob Dylan, hung out with the Rolling Stones, collaborated with Patti Smith, and raised a family with Jessica Lange. Yet throughout he has remained an enigmatic figure. In this acclaimed biography, now fully updated, Don Shewey explores the life and works of this American visionary, illuminating Shepard's unique success in straddling the divide between serious artist and pop-culture hero.
