As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up." Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Politicians, voters, executives, and employees all want the answer to one question: How can America compete with cheap foreign labor, and restore skilled, well-paying jobs to our economy? American Drive answers that question. An executive with nearly thirty years in the trenches of the hard-nosed Detroit automobile industry, Richard E. "Dick" Dauch had long dreamed of running his own manufacturing company. From his first job on the plant floor at General Motors to his crucial role in helping to rescue Chrysler from the brink of bankruptcy, Dauch focused passionately, and relentlessly, on quality, productivity, and flexibility in manufacturing. In 1993 he took on the challenge of his life, buying a lagging axle supply and parts business from GM, along with five rusting, unprofitable, union-controlled, near-decrepit plants in the heart of a crime-ridden Detroit and a deteriorating environment in Buffalo, New York. The newly created "stand-alone" company was named American Axle and Manufacturing. Dauch set out to create a world-class industrial automotive manufacturer. He bought and bulldozed the crack, liquor, and prostitution businesses that surrounded the company and rebuilt the plants. He upward educated, trained, and expanded the skill sets of the workforce, struck tough bargains with unions, and solved massive quality problems that were costing tens of millions every year and undermining customer satisfaction. Within one year of opening the doors, AAM had turned an astounding \$66 million in profit. In American Drive, Dauch narrates the story of AAM against the backdrop of his nearly fifty years in the auto industry, from its glory days to its decline in the face of foreign competition, government bailouts, battles with unions, and the recent Great Recession. Tough, smart, inspiring, high-energy, and opinionated, Dauch offers memorable lessons on leadership, advanced product technology, communication, negotiation, and making profits in the most difficult times. Dauch's story transcends the auto industry and draws a blueprint for job creation, manufacturing competitiveness, economic growth, and excellence in America. Profiles and reviews more than one hundred cars and compact vans, offering discount price lists, complete ratings and specifications, and information on changes in the new model year. Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and

Suzuki "Covers U.S. and Canadian models of Chevrolet TrailBlazer and TrailBlazer EXT, GMC Envoy and Envoy XL, and Oldsmobile Bravada; 2 and 4 wheel drive models with a 4.2L inline six-cylinder, 5.3L V8 or 6.0L V8 engine." Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.
