Includes author's own personal narrative. The US higher education system is on the verge of a revolution, so some observers claim. Archibald and Feldman, leading analysts, provide an incisive overview of the challenges facing and possibilities for America's universities and colleges in their training future generations. And they demonstrate that our higher education system is resilient and adaptable enough to weather the internal, external, and technological threats without changing campuses beyond recognition. *The Road Ahead for America's Colleges and Universities* examines the threats posed to the current health of higher education by rising tuition and falling government support, as well as from new digital technologies rippling through the entire economy. Some predict disaster, pointing to high costs, exploding debt, and a digital tsunami that supposedly will combine to disrupt and sweep away many of the nation's higher education institutions, or change them beyond recognition. Archibald and Feldman provide a more nuanced view. They argue that the bundle of services that four-year colleges and universities provide will retain its value for the traditional age range of college students. Less certain, Archibald and Feldman argue, is whether the system will continue to be a force for social and economic opportunity. The threats are most dire at schools that disproportionately serve America's most underprivileged students. At the same time, growing income inequality reduces the ability of many students and their families to pay for higher education. Archibald and Feldman suggest a range of policy options at the state and federal level that will help America's higher education system continue to fulfill its promise. Each of us knows the absolute joy that a new relationship, or the birth of a child, or fulfilling your heart's desire can bring. *The Past is Myself* Christabel Bielenberg, a niece of Lord Northcliffe, married a German lawyer in 1934. She lived through the war in Germany, as a German citizen under the horrors of Nazi rule and Allied bombings. *The Past is Myself* is her story of that experience - and an unforgettable portrait of an evil time. Published in the USA as *When I Was a German*. *The Road Ahead* Following the extraordinary success of her wartime memoir, *The Past is Myself*, Christabel Bielenberg received thousands of letters from readers begging her to describe what happened next. In *The Road Ahead* she continues her story with the outbreak of peace - a time of struggle for reconciliation with, and the rebuilding of, a defeated nation. She also tells of life in her newly adopted country, Ireland, her involvement with the Peace Women of Northern Ireland, and with characteristic modesty and gratitude, looks back on a rich, full life. *The Road Ahead and Miles Behind* follows a father and son on the road, and shares the painful, resounding conversations of the past, the healing of the present, and the promise of a new future.

Since the Indian economy was liberated from bureaucratic, socialist controls in 1991, it has developed rapidly. A country once renowned for the backwardness of its industries, its commerce and its financial market is now viewed as potentially one of the major world economies of the twenty-first century. But there are many questions which need to be asked about the sustainability of this rapid economic growth and its effect on the stability of the country. Have the changes had any impact on the poor and marginalised? Can India's democracy contain the mounting resentment of those left out of the new economic order? Can a high growth rate be sustained with India's notoriously corrupt and inefficient governance? Can the development of its creaking infrastructure be speeded up? How is India going to feed itself unless agriculture is reformed? This timely book will answer these questions through interviews with industrialists and cricketers, God men and farmers, plutocrats and former untouchables. Full of fascinating stories of real people at a time of great change, it will be of interest to economists, business people, diplomats, politicians, as well as to those who love to travel and who take an interest in the rapid growth of one of the world's largest countries, and what this means to us in the West. America's future depends on a vibrant highway system capable of supporting industry and the travel needs of its citizens. The country's highway system can trace its roots to the movements of major armies in colonial times, such as British General Braddock using George Washington's assistance in a disastrous attack of French forces defending Ft. Duquesne. These early roads developed into the engineering marvels of today's modern highway system. But this system is in serious trouble. Inadequate funding and poor management are responsible for its gradual deterioration, and along with it, the U.S. economy. A broad range of solutions can solve this problem, some of which involve transforming public transportation agencies into privately operated utilities. Many of these exciting solutions also offer the potential to solve America's funding problems. This book is must-reading for anyone concerned with America's future, as it shows us *The Road Ahead*... You are not expected to agree, but may be provoked, challenged, and occasionally outraged. The author reminds us that America is at a tipping point beyond which a whole new society awaits. Whether that will be good or bad we won't know until we are there. And, if *The Shadow Knows* she ain't tellin' The ministry is a journey. A journey of faith. A journey of grace. A journey of balance. But too often it has been marked by carnal divisions, unbalanced practices, and graceless relationships. How do we get back on track? What are the steps to authentic ministry that exalts Christ, fulfills the Great Commission, and is directed by servant leaders? Written for independent Baptists who are intent on pressing toward the mark for the prize of the high calling of God in Christ Jesus, *The Road Ahead* lays out ten steps to authentic ministry--ministry directed by faith, grace, and truth. If you are a biblical Baptist who cherishes truth, cares about revival, and is concerned for the testimony of Christ, this book is for you. In 1957 the road ahead for Bill and Mary Little led to a small company town in Sugar Land, Texas. Bill, born in Sandusky, Ohio, in 1931, was headed to his first full-time civilian job, starting his career as a junior executive in one of the nation's most respected family-owned businesses, the Imperial Sugar Company. Sugarland Industries, the Imperial Sugar Company, I. H. Kempner, his family, and their executives had decided that annexation by Houston, just twenty miles southwest, would be inevitable in the very near future. It was clear to these leaders that annexation would not be in the best interest of the company or the residents. They put into motion a series of actions that would lead to an election to convert Sugar Land to an independent city. The town of Sugar Land incorporated in 1959 and is now one of the most affluent and fastest growing cities in Texas. Bill Little served on the first city council, from 1959 to 1961. Bill taught by example and lived by the motto, "If you're good to people, they will be good to you." In 1961, at the age of thirty, Bill became the second mayor of Sugar Land. The road ahead for Sugar Land was well planned. And Bill Little was one of many people who nurtured this new community into what it is today—a place known for its ethical leadership, welcoming culture, and selfless community spirit. Bill continued his career with Sugarland Industries and Imperial Sugar,

retiring as vice president of sales for Imperial Sugar in December 1993. The road then led Bill to serve as trustee for the Fort Bend Independent School District and the George Foundation, as well as providing service to many MUD districts and community organizations. Humorist/philosopher Leo C. Rosten said, "The purpose of life is to be useful, to be responsible, to be honorable, to be compassionate. With practical, Christian-based advice on how to manage the day-to-day, students will be better equipped to adjust quickly, transition smoothly, and succeed early. This is the 10th anniversary edition, we seek to update the theoretical and empirical work and professional practice issues associated with transformational and charismatic leadership that have transpired over the past decade. Do you see women your age portrayed as puttering gardeners and docile grannies? Do you feel bombarded by anti-aging products that insist you must "defy" getting older? Do you feel invisible in professional and social situations? And have you had enough and are you ready to challenge the intertwining of sexism and ageism in our culture? Susan Douglas knows that you are not alone. She declares it is time now for the largest female generation over fifty to reinvent what it means to be an older woman and to challenge the outdated stereotypes—think doddering or shrewish—that Hollywood and TV have assigned them. She zones in on how the anti-aging cosmetics industry targets older and younger women alike with their products, and how Big Pharma ads equate getting older with disease and decline. Douglas exposes the ageism that mature women face at work and why conservatives' decades-long attacks on Social Security, Medicaid, and Medicare disproportionately affect women. With a sharp sense of justice and fresh wit, *In Our Prime* sees a social movement emerging that may help to create a different view of and life for older women. It celebrates Gray Panther Maggie Kuhn, who broke down legal barriers in the past, as well as today's activists, career women, actors, and others who defy stereotypical images by embracing their age and remaining strong and socially involved. Ultimately, Douglas calls on women of all ages to join together now to fight against gendered ageism, to secure our country's financial safety net, and to make a brighter, more welcome future for older women.
