Gran Paradiso National Park is Italy's oldest, and was instrumental in preventing the extinction of the Alpine ibex between World War I and just after World War II. Today, there are more than 30,000 ibex living in the Alps, all of which descended from that last colony protected in Gran Paradiso under Mussolini's rule. Wilko Graf von Hardenberg merges the history of conservation with the area's social history and Italy's larger political history to produce a multifaceted narrative about the park as an institution, the conflicts it triggered, and practices adopted to manage the ibex despite hurdles placed by the fascist regime. The book's central argument is that, in fascist Italy, preservation—propaganda notwithstanding—was a product of the regime's continuities with the previous liberal system. Italy's total fascist transformation, accomplished only more than a decade after Mussolini took power, virtually unmade the early successes of preservation set in place by the nascent "nature state" in the regime's early years. Despite this conflict, conservationists succeeded in preserving the ibex. Hardenberg positions this success within the broader history of science, conservation, and tourism in fascist Italy and the Alpine region, creating a comprehensive historical background and comparative reference to ongoing debates about the role of nature conservation in general and in relation to the state and its agencies. *Le Chiese Di Roma Dalle Loro Origini Sino Al Secolo Xvi* del professore Cav. Mariano Armellini Testo scientifico per infermieri si Sala

Operatoria. Analizza aspetti generali della chirurgia ortopedico/traumatologica e aspetti specifici per una adeguata assistenza chirurgica. Per studenti e infermieri di Sala

Operatoria. Vera was an extraordinary woman, mother, and wife. We explored many countries, cities, and states such as Holland, Eindhoven, New York, South Carolina, Miami, Curaçao, Germany, France, Spain, Israel, London. Settling down was never easy for me, but she made it work for us; it was a blessing. In London, she started her own personal journey to add more meaning to her life. She became a member of a parent group and then became a lollipop lady who was loved by everyone. She later endeavored on becoming a teaching assistant for age groups ranging from nursery to year 6 at Blessed Dominic Catholic Primary School. She successfully worked there until she became ill. In memory of a wonderful journey with Veneranda "Vera" Pallara, I would like to share with you a chapter in Vera's life that I can say I have had the privilege, honor, and joy to have had experienced with her and our kids—Sarah, Jacob, and Joy. Like a true champion, she ran a race with us in this world. Now she has passed her baton over to us to continue her legacy, and so we shall in God's grace. Vera departed on August 23, 2018, and so I say, "Eternal rest, grant her, Lord. Shine your perpetual light upon her. May she rest in peace now until all have been called to your glorious resurrection as it's written, when you died in Christ, you shall live in Christ. Amen." Il culto alla Dea. Scritti di Momolina Marconi

Stephen Hawking avrebbe dovuto passare più tempo ad aiutare la scienza medica a risolvere i problemi, compreso il suo, anziché cercare buchi neri nelle profondità della sua "mente brillante", criticando aspramente quella che lo ha creato. Il dramma che lo ha reso disabile avrebbe potuto spingerlo a usare la sua "mente brillante" per aiutare gli altri sulla terra, invece di cercare buchi neri e inseguire l'infinitesimo, lasciando che se ne occupino quelli che non sono in condizioni fisiche come la sua. Avrebbe potuto divertirsi con un telescopio a casa sua, come facevo io quando

abitavo a Miami, North Miami Beach, e poi a Oakland Park, mentre lo scorrere del tempo scandiva la mia vita. A quanto ne so, l'orgoglio di essere l'uomo dei buchi neri non lo sta aiutando, perché avrebbe dovuto spiegarci come difenderci da questi mostri anti Dio. Se uno di loro va fuori orbita e ci viene addosso, lui e la sua famiglia diventano cibo per buchi neri, poiché non hanno un Dio che li difende. Questi divoratori della galassia terrorizzano angeli e demoni, e turbano i sogni dei bambini.

Der Tagungsband enthält eine Auswahl von 41 Vorträgen, welche von den Wissenschaftlern der IPS am 11. Symposium Platonicum in Brasilien unter der Schirmherrschaft der University of Brasília gehalten wurden. Der Band behandelt alle wichtigen Fragen im Zusammenhang mit der Interpretation von Platons Phaidon und der Rezeption dieses zentralen Dialogs in der gesamten Antike. In den Studien zur Rezeption des Italienischen Humanismus in der deutschsprachigen Welt, besonders Petrarcas, hat Agostino Sottili eine entscheidende Rolle gespielt, ausgehend von seinem monumentalen Censimento dei codici petrarcheschi della Germania Occidentale. Der vorliegende Band versammelt Vorträge, die im Rahmen eines zu seinem wissenschaftlichen Wirken organisierten Studientags am 9. Juni 2016 an der Universität Bonn in Gedenken an ihn gehalten worden sind. Die hier vorgelegten Aufsätze zeigen die außergewöhnliche Wirkung seiner Arbeit, sowohl in Italien als auch nördlich der Alpen, und sie erinnern uns daran, dass die von Sottili eröffneten Wege der Forschung immer noch vielversprechend sind. \*\*\* A partire dal suo monumentale Censimento dei codici petrarcheschi della Germania Occidentale, Agostino Sottili ha occupato un posto di rilievo nello studio della ricezione dell'umanesimo italiano, e in particolare di quello petrarchesco, nel mondo germanofono. Questo volume raccoglie i contributi che sono stati offerti all'Università di Bonn il 9 giugno 2016 nel contesto di una giornata di studi organizzata in sua memoria. Questi articoli testimoniano l'impatto straordinario del suo impegno scientifico

in Italia e Oltralpe e ricordano quanto promettenti ancora siano i percorsi di ricerca da lui aperti.\*\*\*\*\*Agostino Sottili has played a major role in the studies on the reception of the Italian, and in particular the Petrarchan, humanism in the German-speaking world, starting from his monumental *Censimento dei codici petrarcheschi della Germania Occidentale*. This book collects the papers which were given on 9 June 2016 to the University of Bonn as part of a study day organized in his memory. These articles show the extraordinary impact of his scholarship both in Italy and beyond the Alps and they remind us how promising the research paths he opened still are. Research on Technology Enhanced Learning (TEL) investigates how information and communication technologies can be designed in order to support pedagogical activities. The workshop proceedings collects contributions concerning evidence based TEL systems, like their design following EBD principles as well as studies or best practices that educators, education stakeholders or psychologists used to diagnose or improve their students' learning skills, including students with specific difficulties. The international ebTEL'12 workshop wants to be a forum in which TEL researchers and practitioners alike can discuss ideas, projects, and lessons related to ebTEL. The workshop takes place in Salamanca, Spain, on March 28th-30th 2012. The Arthurian Archives series of texts and editions in translation, edited by Norris J. Lacy, makes a start on Italian Arthurian material, with a 14c Tristan text. This is the first critical edition with English translation of the prose compilation *Tristano panciaticiano*, preserved in a unique manuscript in the Biblioteca Nazionale of Florence (MS Panc. 33); it is the first time the Italian text has been published in its entirety in any form. Assembled by the mid-fourteenth century, the manuscript is an original compilation in Italian based on several French models: the *Queste del San Graal*, *Josephd'Arimathie*, the *Mort Artu*, and notably, the *Roman de Tristan en prose*. While the edition itself will be of great interest,

the translation into English is a major opportunity for Arthurians and other medievalists, and furnishes important new evidence for the study of Arthurian material in Italy. Apparatus includes a finding list of Arthurian manuscripts produced, owned or read by Italians; a select bibliography; and an index of proper names found in the narrative.
