What does it mean to be a young Jewish man? Who am I? How do I feel about myself? Do I seem cool? Do I fit in? These overarching teen boys' concerns are addressed head on through the voices of contemporary Jewish teens, men, and biblical and historical stories. The JGuy's Guide helps young teens see how Judaism can help them navigate the often choppy waters of adolescence while it strengthens Jewish identity and pride. This interactive book encourages personal reflection and discussion, making it ideal for the individual teenager as well as education and discussion groups. Its candid approach explores dilemmas boys face in their daily lives: the pressure to excel at sports, school and social life; the courage to speak up when friends make questionable choices or parents act hypocritically; and more. Like the Talmud, the book offers many perspectives and reflection questions to help boys find their own truths. Is there such a thing as too much or too little parenting? How can parents tutor their kids effectively? How can students avoid procrastination? How can they battle computer addiction? What are the pros and cons of implementing K to 12? Lee-Chua addresses these questions and other topics chosen from her popular column "Eureka!" in the Learning section of the Philippine Daily Inquirer. Social Perspective explores the impact of social factors on individual health, a topic often overlooked in the practice of psychiatry, psychology, and medicine. Richard U'Ren synthesizes viewpoints and information usually dispersed among many disciplines to show how social roles, political-economic conditions, and the social stratification system all contribute to individual well-being or disorder. U'Ren investigates how access to income, education, and social affiliations buffers individuals against stress and facilitates coping. He demonstrates that those who lack access to such resources suffer the poorest health and the greatest mental distress — a problem that has only grown more challenging with rising inequality. Adding a new dimension to understandings of mental health, mental illness, and psychological distress, Social Perspective offers clinicians a concise account of society's impact on the individual. It was compiled in the third century BCE and follows the lead of the best-known and oldest of all Taoist texts, the *Tao-te-ching* (*Book of the Tao and Its Potency*). Representing the philosophy of its main author, Chuang Chou, along with several other early Taoist strands, the text has inspired spiritual seekers for over two thousand years. Using parable, anecdote, allegory and paradox, the *Chuang-tzu* presents the central message of what was to become

the Taoist school: a reverence for the Tao the "Way" of the natural world and the belief that you are not truly virtuous until you are free from the burden of circumstance, personal attachments, tradition and the desire to reform the world. In this special SkyLight Illuminations edition, leading Taoist scholar Livia Kohn, PhD, provides a fresh, modern translation of key selections from this timeless text to open up classic Taoist beliefs and practices. And for decades, clinicians and educators have recognized the value of this power, using it to respectively heal in therapy and educate in the classroom. The Cinematic Mirror for Psychology and Life Coaching mines the illustrative value of cinema, offering therapists and life coaches access to ideas that can motivate and enlighten clients. Although many movie guides exist, this volume complements the available literature by adding positive psychology, mental health, and wellness perspectives to the clinical/educational/coaching mix. The serious intent to cull from cinema its underlying psychological value has motivated noted clinicians, life coaches, and cultural critics to offer science-based analysis and intervention strategies. Readers may add their own movie insights and professional expertise to this rich foundation. The volume covers international as well as domestic cinema in a variety of genres, providing a range of film choices relevant to clients' lives. Beyond this, it expands on universal concepts of strengths, capabilities, and coping methods. Chapters in The Cinematic Mirror: analyze how movies can create and relieve trauma, challenge Hollywood's portrayal of the American family, overview the use of movies to examine relationships in therapy, explore the acclaimed Up television cinema verite series as studies in personal growth and social change, reinterprets images of disability in terms of positive psychology, examines models, or the lack thereof, for the American adolescent rite of passage, traces the history of mental illness stereotypes in film. The collective wisdom found in The Cinematic Mirror for Psychology and Life Coaching will bring professionals involved in healing, coaching, counseling, education, and mentoring not only new applications but new appreciation for the transformative power of film. That power already exists. Readers just have to "SEE" it. Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
