Southeast Asian Minorities in the Wartime Japanese Empire May 24 2022 The Japanese invasion and occupation of southeast Asia provided opportunities for the peoples of the region to pursue a wide range of agendas that had little to do with the larger issues which drove the conflict between Japan and the allies. This book explores how the occupation affected various minority groups in the region. It shows, for example, how in some areas of Burma the withdrawal of established authority led to widespread communal violence; how the Indian and Chinese populations of Malaya and Thailand had extensive and often unpleasant interactions with the Japanese; and how in Java the Chinese population fared much better.

Warnings Unheeded Apr 03 2023 The true story of two mass-casualty incidents that occurred within days of each other at a US Air Force base. Using the words of the people who experienced the tragedies, the book provides in-depth look at the before, during and after of a preventable active-shooter incident and an avoidable fatal plane crash. The base psychiatrist knew the airman was dangerous. "This is the kind of patient who ... one day ... he's going to come back and kill you." Aircrews knew the rogue pilot was dangerous. "We predicted the worst air-show disaster in history when we found out that he was gonna fly." Written by Andy Brown, the man who ended the killing spree, the result of more than seven years of research. Brown "masterfully weaves" the two stories together in a powerful narrative. He also reveals the preparations he made that enabled him to end a pistol-versus-rifle gunfight with a 70 yard shot from his handgun. Part true crime, part law-enforcement biography memoir and part military history. Warnings Unheeded is presented in an objective style that shows what can happen when authorities become complacent, when the precursors of violence are ignored and the lessons from history are forgotten.

A Purrfect Match May 04 2023 When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Tamed by Her Mar 02 2023 "I never believed in love. I am happy the way my life is right now." Jake Ryan did not look for love nor did he need love

in his life until he met Rose. Rose Thompson, an independent woman who had been burned by love once but still wishes to be in love. What will happen when two polar opposites meet? The only way to know what will happen in future is to let it unfold.

Home is where the Heart is Feb 01 2023 "Home is Where the Heart Is" makes an ideal gift for Thomas Kinkade fans and collectors, friends who have just married or moved into a new home, and anyone who delights in the joy and comfort found in their own haven of home. Kinkade brings the beauty of changing seasons and bygone times to life in his "Lighted Path Collection".

The Commonwealth Aug 27 2022 The modern British Commonwealth, linking fifty countries around the world in voluntary association, cooperation, and consultation, is a unique body in world history. The area of its member countries covers a third of the globe and collectively their peoples represent a quarter of the world's total population. Though essentially different from the British Empire from which it originated, the Commonwealth shares many common historical ties with Britain. Patricia M. Larby and Harry Hannam have assembled an unrivaled body of literature to illustrate the growth of the Empire into the Commonwealth. This extensive bibliography identifies, lists, and annotates the most important publications on the development and growth of the Commonwealth; its present status and functions; and its role in education, literature, sport, and the arts and sciences. It includes its historical origins: its cooperation in economics, politics, and international issues such as the environment; and its many spheres of professional activity including medicine, law, and architecture. Strong emphasis is placed on the role of the English language in the Commonwealth and as a medium for creative literature in many disparate cultures worldwide. "The Commonwealth "appears at a time when this unique organization is on the threshold of a new era in its history. The proposals emerging from the 1991 Commonwealth Heads of Government meeting include statements on democracy and human rights; environmental affairs; and global concerns such as international crime, drug abuse, and AIDS. No previous comprehensive bibliography of the Commonwealth exists, and this volume fills a long-standing gap in the bibliographical coverage. It will be an essential reference source for libraries and scholars involved in Commonwealth studies and will be of particular interest to historians, political scientists, economists, and educators.

The Ship Apr 22 2022 In this thought-provoking and lyrical debut novel, a young woman's only hope for survival in the dystopian future is a ship, a Noah's Ark, that can rescue 500 people. London burned for three weeks. And then it got worse. . . Young, naive, and frustratingly sheltered, Lalla has grown up in near-isolation in her parents' apartment, sheltered from the chaos of their collapsed civilization. But things are getting more dangerous outside. People are killing each other for husks of bread, and the police are detaining anyone without an identification card. On her sixteenth birthday, Lalla's father decides it's time to use their escape route -- a ship he's built that is only big enough to save five hundred people. But the utopia her father has created isn't everything it appears. There's more food than anyone can eat, but nothing grows; more clothes than anyone can wear, but no way to mend them; and no-one can tell her where they are going.
