KS1 paper 1 is spelling - a test transcript is to be read by the test administrator, so the questions (fill-in-the-gaps using words read by the test administrator) are very straight forward. Paper 2 is totally different - it has nothing to be read out since all questions are on paper. This product focuses on Paper 1 - Spelling. In order to use this book your computer must be able to play MP3 files. You should listen to the files and then fill in the gaps accordingly. You are expected to spell the missing words correctly. In the real exam, the test administrator is going to read a bunch of sentences. Each sentence has one word missing, and the candidate should listen carefully to the missing word, then fill it in. The test administrator will read the word, then the

word within the sentence, then repeat the word a third time. This self practice module is slightly different. For simplicity sake each sentence (including the missing word - there are well over 100 missing words that you need to fill in!) will be read out for 3 times. You are free to replay the files as needed. To increase the level of difficulty, you will find multiple missing words on most questions. We develop practice exercises on our own without referring to any past exam questions. Our material is NOT for simulating the actual exam. The goal of this product is to reinforce learning. EFL Teachers around the world will find something of use in this book, the complete (unofficial) guide to the Cambridge Assessment main suite of English examinations. In this volume we look in depth at the B2 First & First for Schools, C1 Advanced, and C2 Proficiency exams, going through each of the papers that make up the tests, considering what needs to be done for your students to succeed, and suggesting what activities you, the teacher, can add to your lessons to help your students make the most of their time in the exam classroom. The book contains examples of each part of the test, including a full Speaking paper for each level (both in the text and as a photocopyable resource at the end of the book), and full guidance is given on how to approach every single writing type in the Writing paper. So if you have a student or a class preparing for one of the main suite exams, this book is certainly for you. About the author: Christopher Walker is an English teacher and Cambridge Assessment Speaking Examiner with ten years' experience of the EFL classroom.
