Winner of the 2014 Oklahoma Book Award for nonfiction Winner of the 2014 Pate Award from the Fort Worth Civil War Round Table. When the peoples of the Indian Territory found themselves in the midst of the American Civil War, squeezed between Union Kansas and Confederate Texas and Arkansas, they had no way to escape a conflict not of their choosing--and no alternative but to suffer its consequences. *When the Wolf Came* explores how the war in the Indian Territory involved almost every resident, killed many civilians as well as soldiers, left the country stripped and devastated, and cost Indian nations millions of acres of land. Using a solid foundation of both published and unpublished sources, including the records of Cherokee, Choctaw, and Creek nations, Mary Jane Warde details how the coming of the war set off a wave of migration into neighboring Kansas, the Red River Valley, and Texas. She describes how Indian Territory troops in Unionist regiments or as Confederate allies battled enemies--some from their own nations--in the territory and in neighboring Kansas, Missouri, and Arkansas. And she shows how post-war land cessions forced by the federal government on Indian nations formerly allied with the Confederacy allowed the removal of still more tribes to the Indian Territory, leaving millions of acres open for homesteads, railroads, and development in at least ten states. Enhanced by maps and photographs from the Oklahoma Historical Society's photographic archives, *When the Wolf Came* will be welcomed by both general readers and scholars interested in the signal public events that marked that tumultuous era and the consequences for the territory's tens of thousands of native peoples. For more than 300 years, the wolf was North America's most reviled beast, pursued to the brink of extinction throughout the

United States. Then, within the last half-century, public opinion changed and the wolf became the symbol of the wilderness, tolerated and even desired over much of its former range. insert. 2 maps. National Book Award Finalist: A “brilliant” study of the science and mythology of the wolf by the New York Times–bestselling author of Arctic Dreams (The Washington Post). When John Fowles reviewed *Of Wolves and Men*, he called it “A remarkable book, both biologically absorbing and humanly rich, and one that should be read by every concerned American.” In this National Book Award–shortlisted work, literary master Barry Lopez guides us through the world of the wolf and our often-mistaken perceptions of another species’ place on our shared planet. Throughout the centuries, the wolf has been a figure of fascination and mystery, and a major motif in literature and myth. Inspiring fear and respect, the creature has long exerted a powerful influence on the human imagination. *Of Wolves and Men* takes the reader into the world of the *Canis lupus* and its relationship to humankind through the ages. Lopez draws on science, history, mythology, and his own field research to present a compelling portrait of wolves both real and imagined, dispelling our fear of them while celebrating their place in our history, legends, and hearts. This ebook features an illustrated biography of Barry Lopez including rare images and never-before-seen documents from the author’s personal collection. **A NEW YORK TIMES BESTSELLER** • The enthralling true story of the rise and reign of O-Six, the celebrated Yellowstone wolf, and the people who loved or feared her. Before men ruled the earth, there were wolves. Once abundant in North America, these majestic creatures were hunted to near extinction in the lower 48 states by the 1920s. But in recent decades, conservationists have

brought wolves back to the Rockies, igniting a battle over the very soul of the West. With novelistic detail, Nate Blakeslee tells the gripping story of one of these wolves, O-Six, a charismatic alpha female named for the year of her birth. Uncommonly powerful, with gray fur and faint black ovals around each eye, O-Six is a kind and merciful leader, a fiercely intelligent fighter, and a doting mother. She is beloved by wolf watchers, particularly renowned naturalist Rick McIntyre, and becomes something of a social media star, with followers around the world. But as she raises her pups and protects her pack, O-Six is challenged on all fronts: by hunters, who compete with wolves for the elk they both prize; by cattle ranchers who are losing livestock and have the ear of politicians; and by other Yellowstone wolves who are vying for control of the park's stunningly beautiful Lamar Valley. These forces collide in *American Wolf*, a riveting multigenerational saga of hardship and triumph that tells a larger story about the ongoing cultural clash in the West—between those fighting for a vanishing way of life and those committed to restoring one of the country's most iconic landscapes. In the tradition of Peter Matthiessen's *Wildlife in America* or Aldo Leopold, Brenda Peterson tells the 300-year history of wild wolves in America. It is also our own history, seen through our relationship with wolves. The earliest Americans revered them. Settlers zealously exterminated them. Now, scientists, writers, and ordinary citizens are fighting to bring them back to the wild. Peterson, an eloquent voice in the battle for twenty years, makes the powerful case that without wolves, not only will our whole ecology unravel, but we'll lose much of our national soul. A New York Times bestseller! "Don't miss this dazzling tour de force."—Katherine Applegate, Newbery Medal winning author of *The*

**One and Only Ivan** This gripping novel about survival and family is based on the real story of one wolf's incredible journey to find a safe place to call home. Illustrated throughout, this irresistible tale by award-winning author Rosanne Parry is for fans of Sara Pennypacker's *Pax* and Katherine Applegate's *The One and Only Ivan*. Swift, a young wolf cub, lives with his pack in the mountains learning to hunt, competing with his brothers and sisters for hierarchy, and watching over a new litter of cubs. Then a rival pack attacks, and Swift and his family scatter. Alone and scared, Swift must flee and find a new home. His journey takes him a remarkable one thousand miles across the Pacific Northwest. The trip is full of peril, and Swift encounters forest fires, hunters, highways, and hunger before he finds his new home. Inspired by the extraordinary true story of a wolf named OR-7 (or Journey), this irresistible tale of survival invites readers to experience and imagine what it would be like to be one of the most misunderstood animals on earth. This gripping and appealing novel about family, courage, loyalty, and the natural world is for fans of Fred Gipson's *Old Yeller* and Katherine Applegate's *Endling*. Includes black-and-white illustrations throughout and a map as well as information about the real wolf who inspired the novel. Plus don't miss Rosanne Parry's stand-alone companion novel, *A Whale of the Wild*. A sweeping epic of prehistory, *People of the Wolf* is another compelling novel in the majestic North America's Forgotten Past series from New York Times and USA Today bestselling authors W. Michael Gear and Kathleen O'Neal Gear. In the dawn of history, a valiant people forged a pathway from an old world into a new one. Led by a dreamer who followed the spirit of the wolf, a handful of courageous men and women dared to cross the frozen wastes to find an untouched,

unspoiled continent. Set in what is now Alaska, this is the magnificent saga of the vision-filled man who led his people to an awesome destiny, and the courageous woman whose love and bravery drove them on in pursuit of that dream. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Voted Outstanding Academic Title in 2004 by Choice. *The Strength of the Wolf* is the first complete history of the Federal Bureau of Narcotics (FBN), which existed from 1930 until its wrenching termination in 1968. The most successful federal law enforcement agency ever, the FBN was populated by some of the most amazing characters in American history, many of whom the author interviewed for this book. Working as undercover agents and with mercenary informers around the globe, these freewheeling "case making" agents penetrated the Mafia and the French connection, breaking all the rules in the process, and uncovering the Establishment's ties to organized crime. Targeted by the FBI and the CIA, the case-makers were, ironically, victims of their own fabulous success in hunting down society's predators. An incredible, never-before-told story, *The Strength of the Wolf* provides a new, exciting, and revealing look at an important chapter in American history. A collection of legends from the Cherokee, Dakota Sioux, and other Indian tribes, centering around the spiritual power of the wolf and its interaction with man and other animals. Traces the history of the American steel industry, analyzes labor relations, and explains the factors that have brought down the industry The tale of two American teenagers recruited as killers for a Mexican cartel, and the Mexican-American detective who realizes the War on Drugs is unstoppable. "A hell of a story...undeniably gripping." (The New York Times) In this astonishing story,

journalist Dan Slater recounts the unforgettable odyssey of Gabriel Cardona. At first glance, Gabriel is the poster-boy American teenager: athletic, bright, handsome, and charismatic. But the ghettos of Laredo, Texas—his border town—are full of smugglers and gangsters and patrolled by one of the largest law-enforcement complexes in the world. It isn't long before Gabriel abandons his promising future for the allure of juvenile crime, which leads him across the river to Mexico's most dangerous drug cartel: Los Zetas. Friends from his childhood join him and eventually they catch the eye of the cartel's leadership. As the cartel wars spill over the border, Gabriel and his crew are sent to the States to work. But in Texas, the teen hit men encounter a Mexican-born homicide detective determined to keep cartel violence out of his adopted country. Detective Robert Garcia's pursuit of the boys puts him face-to-face with the urgent consequences and new security threats of a drug war he sees as unwinnable. In *Wolf Boys*, Slater takes readers on a harrowing, often brutal journey into the heart of the Mexican drug trade. Ultimately though, *Wolf Boys* is the intimate story of the lobos: teens turned into pawns for the cartels. A nonfiction thriller, it reads with the emotional clarity of a great novel, yet offers its revelations through extraordinary reporting. In this western adventure, a solitary man learns the hard way that no good deed goes unpunished. When a mysterious mountain man named Wolf comes down to a Crow village to return one of its wounded, the Crow wonder whether he is man or spirit. Wanting no part in the rampant war in the western plains, Wolf is set on returning to his mountain refuge. But his journey home is interrupted by three desperate women who need his help. What Wolf doesn't realize about these women is that they aren't what most people would

call ladies. His innocent association with these prostitutes leads to a near-deadly fight that ends with a charge of attempted murder. Chased by the most experienced deputy the marshal service has, Wolf leads him to the Black Hills, where their final showdown can only end in blood.... I could not be held responsible for desire he could not be held at all In *Calling a Wolf a Wolf*, the reality of love can all too often prove disappointing at best, and life-threateningly ineffectual at worst. As Kaveh Akbar puts it in 'Heritage', a poem dedicated to an Iranian woman executed for killing the man who was attempting to rape her: 'in books love can be war-ending/...in life we hold love up to the light/ to marvel at its impotence.' Yet, as it brings us along on its author's struggle with addiction, this darkly sumptuous first collection by an award-winning poet also shows us that there can, after all, be a power and a beauty to our desires, in the strength of their flow, in their achievements and frustrations, and in the pain and joy of denying oneself for one's own sake. These are poems of thirst: for alcohol, for other bodies, and for knowledge. They find the speaker poised between life's clatter and rattle, wanting to retreat yet hungering for more; and, though they rush forward at full tilt through a stream of reflections, memories and emotions, they are never simply indulgent. This refreshingly honest and often breathtaking addition to the canon of addiction literature will carry readers with it just as the poet is carried, and leave behind indelible images of an existence richly felt. This WWII espionage biography brings "one of America's greatest spies back to life" in a "story of derring-do and white knuckles suspense" (Patrick O'Donnell, author of *Operatives, Spies, and Saboteurs*) Virginia Hall left her comfortable Baltimore roots in 1931 with dreams of becoming a Foreign Service Officer, but her

gender—and her wooden leg—kept her from pursuing politics. As Hitler advanced across Europe, she put her gift for languages to use with the British Special Operations Executive, a secret espionage organization. She was soon deployed to occupied France where she located drop zones, helped prisoners of war flee to England, and secured safe houses for agents. Soon, wanted posters appeared throughout France, offering a reward for Hall's capture. By 1942, Hall had to flee France via the only route possible: an arduous hike on foot through the frozen Pyrénées Mountains. Upon her return to England, the American espionage organization, the Office of Special Services, recruited her and sent her back to France disguised as an old peasant woman. While there, she was responsible for killing 150 German soldiers and capturing 500 others. Sabotaging communications and directing resistance activities, her brave work helped change the course of the war. An Indian tribe learns an important lesson after it ignores a hunter's warning and settles in the heart of a great community of wolves. The intimate, involving story of the rise and reign of O-Six, the fabled Yellowstone wolf, and the people who loved or feared her. With novelistic detail, Nate Blakeslee tells the gripping story of O-Six, a charismatic alpha female wolf. She's a kind and merciful leader, a fiercely intelligent fighter, and a doting mother. Beloved by wolf watchers, particularly Yellowstone park ranger Rick McIntyre, O-Six becomes something of a social media star, with followers around the world. But as she raises her pups and protects her pack, O-Six is being challenged on all fronts: by hunters and their professional guides, who compete with wolves for the elk they all prize; by cattle ranchers who are losing livestock and have the ear of politicians; and by other Yellowstone wolves who resent her

dominance of the stunningly beautiful Lamar Valley. These forces collide in *The Wolf*, a riveting multigenerational wildlife saga that tells a larger story about the clash of values in the West-- between those fighting for a vanishing way of life and those committed to restoring one of the country's most vibrant landscapes. In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel presents a picture of a half-made society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death. The intimate, involving story of the rise and reign of O-Six, the fabled Yellowstone wolf, and the people who loved or feared her. For readers of *H is for Hawk*, captivating works of reportage, and iconic books on the American West.

Before humans ruled the Earth, there were wolves. Once abundant in the United States, these majestic creatures were hunted to near extinction by the 1920s. But in recent decades, conservationists have brought wolves from Canada back to Yellowstone National Park, igniting a battle over the very soul of the American West. With novelistic detail, Nate Blakeslee tells the gripping story of one of these wolves, a charismatic alpha female named O-Six. She's a kind and merciful leader, a fiercely intelligent fighter, and a doting mother. Beloved by wolf watchers, particularly Yellowstone park ranger Rick McIntyre, O-Six becomes something of a social media star, with followers around the world. But as she raises her pups and protects her pack, O-Six is being challenged on all fronts: by hunters and their professional guides, who compete with wolves for the elk they all prize; by cattle ranchers who are losing livestock and have the ear of politicians; and by other Yellowstone wolves who resent her dominance of the stunningly beautiful Lamar Valley. These forces collide in *The Wolf*, a riveting multigenerational wildlife saga that tells a larger story about the clash of values in the West--between those fighting for a vanishing way of life and those committed to restoring one of the country's most vibrant landscapes. This book presents a new perspective on the role of the wolf in American literature. The wolf is one of the most widely distributed canid species, historically ranging throughout most of the Northern Hemisphere. For millennia, it has also been one of the most pervasive images in human mythology, art, and psychology. ""Wolves and the Wolf Myth in American Literature"" examines the wolf's importance as a figure in literature from the perspectives of both the animal's physical reality and the ways in which writers imagine and portray it. Author S. K.

Robisch examines more than two hundred texts written in North America about wolves or including them as central figures. From this foundation, he demonstrates the wolf's role as an archetype in the collective unconscious, its importance in our national culture, and its ecological value. Robisch takes a multidisciplinary approach to his study, employing a broad range of sources: myths and legends from around the world; symbology; classic and popular literature; films; the work of scientists in a number of disciplines; human psychology; and field work conducted by himself and others. By combining the fundamentals of scientific study with close readings of wide-ranging literary texts, Robisch astutely analyzes the correlation between actual, living wolves and their representation on the page and in the human mind. He also considers the relationship between literary art and the natural world, and argues for a new approach to literary study, an ecocriticism that moves beyond anthropocentrism to examine the complicated relationship between humans and nature.

Native American learning stories designed to enable learning. *Wolf* deals with human impact on the earth. *Winter White* deals with planning for the future. *Many Circles* deals with living together in peace. The *Usborne English Readers* series is a new range of graded readers in simplified English for younger learners. They include activities glossaries and a full audio recording of the text in both British English and American English.

*Moka* is a good dog. But when Michelle, his little girl, reads him a book about wolves, being a good dog suddenly seems awfully boring. Wolves get to run around doing whatever they want. No one ever makes a wolf dress up for a tea party. So Moka decides to run away to the wild. But what will happen when the real wolves show up? For any kid who's tired of being good, Moka's

antics will be a vicarious treat. In this humorous retelling of the classic fable, Whisper the wolf explains that the shepherd boy was not lying about there being a wolf among the sheep, he just misunderstood the situation, because Whisper was just visiting the sheep who were his friends.

1996 Minnesota Book Award winner — A Native American book

The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. Neither Wolf nor Dog takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author, Kent Nerburn. "This is a sobering, humbling, cleansing, loving book, one that every American should read." — Yoga Journal

If you enjoyed Empire of the Summer Moon, Heart Berries, or You Don't Have to Say You Love Me, you'll love owning and reading Neither Wolf nor Dog by Kent Nerburn. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and

other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. An award-winning writer and photographer tells the extraordinary story of a lone black wolf who, showing up on his doorstep, returned again and again to interact with the people and dogs of Juneau, giving humans a rare chance to understand it a little more. 40,000 first printing. On her eighth birthday Betsy takes the Shepherds' Oath and is determined to be the best shepherd in Bray Valley history. Any wolf who tries to eat her sheep had better watch out. But Zimmo is no ordinary wolf—he's a hungry wolf, with a plan! In her first picture book, Newbery Honor author Gail Carson Levine puts her own spin on a traditional tale, while Scott Nash brings a comic sensibility to this hilarious retelling. The result will tickle, delight, and even leave readers with a moral or two, or three.... Reprint of the Little, Brown edition first published in 1966. Annotation copyrighted by Book News, Inc., Portland, OR This collection of Wolfe's essays, articles, and chapters from previous collections is filled with observations on U.S. popular culture in the 1960s and 1970s. "The struggle from late youth on, with and without God, agony, narcotics and love is a torment rarely recorded with such sustained eloquence and

passion as you will find in this collection." --Fanny Howe This highly-anticipated debut boldly confronts addiction and courses the strenuous path of recovery, beginning in the wilds of the mind. Poems confront craving, control, the constant battle of alcoholism and sobriety, and the questioning of the self and its instincts within the context of this never-ending fight. From "Stop Me If You've Heard This One Before" Sometimes you just have to leave whatever's real to you, you have to clomp through fields and kick the caps off all the toadstools. Sometimes you have to march all the way to Galilee or the literal foot of God himself before you realize you've already passed the place where you were supposed to die. I can no longer remember the being afraid, only that it came to an end. Kaveh Akbar is the founding editor of Divedapper. His poems appear recently or soon in The New Yorker, Poetry, APR, Tin House, Ploughshares, PBS NewsHour, and elsewhere. The recipient of a 2016 Ruth Lilly and Dorothy Sargent Rosenberg Fellowship from the Poetry Foundation and the Lucille Medwick Memorial Award from the Poetry Society of America, Akbar was born in Tehran, Iran, and currently lives and teaches in Florida. The wolf is one of the most widely distributed canid species, historically ranging throughout most of the Northern Hemisphere. For millennia, it has also been one of the most pervasive images in human mythology, art, and psychology. *Wolves and the Wolf Myth in American Literature* examines the wolf's importance as a figure in literature from the perspectives of both the animal's physical reality and the ways in which writers imagine and portray it. Author S. K. Robisch examines more than two hundred texts written in North America about wolves or including them as central figures. From this foundation, he demonstrates the wolf's role as an archetype in the collective

From New York Times bestselling author Naomi Wolf, *Outrages* explores the history of state-sponsored censorship and violations of personal freedoms through the inspiring, forgotten history of one writer's refusal to stay silenced. Newly updated, first North American edition--a paperback original

In 1857, Britain codified a new civil divorce law and passed a severe new obscenity law. An 1861 Act of Parliament streamlined the harsh criminalization of sodomy. These and other laws enshrined modern notions of state censorship and validated state intrusion into people's private lives. In 1861, John Addington Symonds, a twenty-one-year-old student at Oxford who already knew he loved and was attracted to men, hastily wrote out a seeming renunciation of the long love poem he'd written to another young man. *Outrages* chronicles the struggle and eventual triumph of Symonds—who would become a poet, biographer, and critic—at a time in British history when even private letters that could be interpreted as

homoerotic could be used as evidence in trials leading to harsh sentences under British law. Drawing on the work of a range of scholars of censorship and of LGBTQ+ legal history, Wolf depicts how state censorship, and state prosecution of same-sex sexuality, played out—decades before the infamous trial of Oscar Wilde—shadowing the lives of people who risked in new ways scrutiny by the criminal justice system. She shows how legal persecutions of writers, and of men who loved men affected Symonds and his contemporaries, including Christina and Dante Gabriel Rossetti, Algernon Charles Swinburne, Walter Pater, and the painter Simeon Solomon. All the while, Walt Whitman’s *Leaves of Grass* was illicitly crossing the Atlantic and finding its way into the hands of readers who reveled in the American poet’s celebration of freedom, democracy, and unfettered love. Inspired by Whitman, and despite terrible dangers he faced in doing so, Symonds kept trying, stubbornly, to find a way to express his message—that love and sex between men were not “morbid” and deviant, but natural and even ennobling. He persisted in various genres his entire life. He wrote a strikingly honest secret memoir—which he embargoed for a generation after his death—enclosing keys to a code that the author had used to embed hidden messages in his published work. He wrote the essay *A Problem in Modern Ethics* that was secretly shared in his lifetime and would become foundational to our modern understanding of human sexual orientation and of LGBTQ+ legal rights. This essay is now rightfully understood as one of the first gay rights manifestos in the English language. Naomi Wolf’s *Outrages* is a critically important book, not just for its role in helping to bring to new audiences the story of an oft-forgotten pioneer of LGBTQ+ rights who could not legally fully tell his own

story in his lifetime. It is also critically important for what the book has to say about the vital and often courageous roles of publishers, booksellers, and freedom of speech in an era of growing calls for censorship and ever-escalating state violations of privacy. With *Outrages*, Wolf brings us the inspiring story of one man's refusal to be silenced, and his belief in a future in which everyone would have the freedom to love and to speak without fear. An Unforgettable Journey into the Native American Experience Against an unflinching backdrop of 1990s reservation life and the majestic spaces of the western Dakotas, *Neither Wolf nor Dog* tells the story of two men, one white and one Indian, locked in their own understandings yet struggling to find a common voice. In this award-winning book, acclaimed author Kent Nerburn draws us deep into the world of a Native American elder named Dan, who leads Kent through Indian towns and down forgotten roads that swirl with the memories of the Ghost Dance and Sitting Bull. Along the way we meet a vivid cast of characters — ranging from Jumbo, a 400-pound mechanic, to Annie, an eighty-year-old Lakota woman living in a log cabin with no running water. An unlikely cross between *On the Road* and *Black Elk Speaks*, *Neither Wolf nor Dog* takes us past the myths and stereotypes of the Native American experience, revealing an America few ever see. In a stunning indictment of the Bush administration and Congress, best-selling author Naomi Wolf lays out her case for saving American democracy. In authoritative research and documentation Wolf explains how events of the last six years parallel steps taken in the early years of the 20th century's worst dictatorships such as Germany, Russia, China, and Chile. The book cuts across political parties and ideologies and speaks directly to those among us who are concerned about the ever-

tightening noose being placed around our liberties. In this timely call to arms, Naomi Wolf compels us to face the way our free America is under assault. She warns us—with the straight-to-fellow-citizens urgency of one of Thomas Paine’s revolutionary pamphlets—that we have little time to lose if our children are to live in real freedom. “Recent history has profound lessons for us in the U.S. today about how fascist, totalitarian, and other repressive leaders seize and maintain power, especially in what were once democracies. The secret is that these leaders all tend to take very similar, parallel steps. The Founders of this nation were so deeply familiar with tyranny and the habits and practices of tyrants that they set up our checks and balances precisely out of fear of what is unfolding today. We are seeing these same kinds of tactics now closing down freedoms in America, turning our nation into something that in the near future could be quite other than the open society in which we grew up and learned to love liberty,” states Wolf. Wolf is taking her message directly to the American people in the most accessible form and as part of a large national campaign to reach out to ordinary Americans about the dangers we face today. This includes a lecture and speaking tour, and being part of the nascent American Freedom Campaign, a grassroots effort to ensure that presidential candidates pledge to uphold the constitution and protect our liberties from further erosion. The End of America will shock, enrage, and motivate—spurring us to act, as the Founders would have counted on us to do in a time such as this, as rebels and patriots—to save our liberty and defend our nation. **EYE TO EYE WITH DEATH: THE WOLF PROJECT** Hordes of bloodthirsty wolves are slaughtering the arctic caribou, and the government's Wildlife Service assigns naturalist Farley Mowat to

investigate. Mowat is dropped alone onto the frozen tundra, where he begins his mission to live among the howling wolf packs and study their ways. Contact with his quarry comes quickly, and Mowat discovers not a den of marauding killers but a courageous family of skillful providers and devoted protectors of their young. As Mowat comes closer to the wolf world, he comes to fear with them the onslaught of bounty hunters and government exterminators out to erase the noble wolf community from the Arctic. *Never Cry Wolf* is one of the brilliant narratives on the myth and magic of wild wolves and man's true place among the creatures of nature. "We have doomed the wolf not for what it is, but for what we deliberately and mistakenly perceive it to be — the mythologized epitome of a savage, ruthless killer — which is, in reality, no more than the reflected image of ourself." — From the new Preface Carefully and extensively documented, a definitive history of the Federal Bureau of Narcotics. A killer. A manhunt. The triumph of justice and of the wolf. The greatest event in Yellowstone history. Greater Yellowstone was the last great truly intact ecosystem in the temperate zones of the earth—until, in the 1920s, U.S. government agents exterminated its top predator, the gray wolf. With traps and rifles, even torching pups in their dens, the killing campaign was entirely successful. The howl of the “evil” wolf was heard no more. The “good” animals—elk, deer, bison—proliferated, until they too had to be “managed.” Two decades later, recognizing that ecosystems lacking their keystone predators tend to unravel, the visionary naturalist Aldo Leopold called for the return of the wolf to Yellowstone. It would take another fifty years for his vision to come true. In the early 1990s, as the movement for Yellowstone wolf restoration gained momentum, rage against it grew apace.

When at last, in February 1995, fifteen wolves were trapped in Alberta and brought to acclimation pens in Yellowstone, even then legal and political challenges continued. There was also a lot of talk in the bars about “shoot, shovel, and shut up.” While the wolves’ enemies worked to return them to Canada, the biologists in charge of the project feared that the wolves might well return on their own. Once they were released, two packs remained in the national park, but one bore only one pup and the other none. The other, comprising Wolves Nine and Ten and Nine’s yearling daughter, disappeared. They were in fact heading home. As they emerged from protected federal land, an unemployed ne’er-do-well from Red Lodge, Montana, trained a high-powered rifle on Wolf Number Ten and shot him through the chest. Number Nine dug a den next to the body of her mate, and gave birth to eight pups. The story of their rescue and the manhunt for the killer is the heart of *The Killing of Wolf Number Ten*. + Read this book, and if you are ever fortunate enough to hear the howling of Yellowstone wolves, you will always think of Wolves Nine and Ten. If you ever see a Yellowstone wolf, chance are it will be carrying their DNA. The restoration of the wolf to Yellowstone is now recognized as one of conservation’s greatest achievements, and Wolves Nine and Ten will always be known as its emblematic heroes. A compilation of journal entries, essays, reports, government documents, and articles on the history of American attitudes towards wolves. When Small Wolf encounters settlers on the Island of Hills, now known as Manhattan, he learns that their ideas about owning land are much different from his. As timely as when it was first published in 1972, this poignant story about the impact of European settlers on Native American people is even more dramatic in this new full

color edition.
