conventions of written English as determined by mechanics scoring. The introduction discusses the layout and means of evaluation: measuring fluency of writing, mechanics of writing, and expressing the differences in performance. Chapter 1 compares holistic scores in 1984 and 1996 regarding student writing fluency in informative, persuasive, and narrative writing. Chapter 2 compares mechanics scores in 1984 and 1996 to look at overall characteristics of the papers, use of sentence types, control of sentence structure, and control of word-level and punctuation conventions. A summary includes discussion of fluency in writing, grammar, spelling, and punctuation, and observations made from the research. Appendixes present an overview of scoring procedures, scoring guides, and tables with standard errors.

Bachelor Thesis from the year 2016 in the subject Pedagogy - The Teacher, Educational Leadership, grade: 8, University of Latvia, language: English, abstract: The Diploma Paper explores techniques to teach American culture in English lessons in Grade 11. The author believes that teaching American culture, especially in the 21st century, is of high importance. The chosen research method was a case study in a Riga School. Interviews, questionnaire, students' portfolios and feedback were chosen as data collection methods. The data reflect that the use of the teaching techniques enhanced students' intercultural skills. American culture contributed to Grade 11 students' ability to draw connections among ideas, justify a stand or decision as well as produce a new original work or point of view. Even though the research showed beneficial results, the author suggests carrying out further research to gather more data on the topic in other age groups.
