Studies on the educational quality of schools May 03 2020 The priority program 'The educational quality of schools' has been established seven years ago by the German Research Foundation (DFG). The projects in this program investigated conditions inside and outside of school and their impact on the development of mathematical, scientific, and cross-curricular competencies. In this book major findings of the program are presented. The projects not only give an overview of their research questioning methods and findings, but also of approaches and materials that have been developed to support learning and teaching in mathematics and science class rooms. The studies reported here identify factors for weaknesses in the educational outcomes that became apparent in the international comparisons like TIMSS and PISA. The projects, however, provide empirically substantiated units on approaches that can help to improve the educational quality of schools. [Publisher, ed].

Out of the Comfort Zone Jul 05 2020 Success in careers outside the university setting depends on an individual's capacity to master professional skills and respond appropriately to dynamic situations with flexibility, adaptation, and innovative thinking. This book describes a simple, common sense method of how to include professional skills training in any curricula without compromising academic rigor. It relies on introduction of unanticipated yet manageable crises simulating scenarios commonly experienced in the workplace. The method promises to inspire both students and their teachers to conquer new territory outside their comfort zones. Examples include how to respond to a demand for innovation and teamwork, a lay-off, a re-organization, or switching jobs and projects. These situations are bound to occur for most people and in most jobs they often create stress and, perhaps, despair. Preparing and practicing a mindful and healthy response is beneficial, and now this process can be performed in the classroom, while it serves as a platform for character building prior to unexpected real-life events. Key Features: - Description of the importance of, incentives for, and rewards of exiting the comfort zone - Principles for teaching and learning professional skills - Student anecdotes and reflection - Rubric entries and assessment of learning Table of Contents: The Comfort Zone and "Being out of It" / Exiting the Comfort Zone: Reasons and Impact / Getting Educators and Students out of the Comfort Zone / Principles of "Out-of-the-Comfort-Zone" (OOC) Teaching / Anecdotes of OOC Learning / Measuring the Outcome

La Salle in Texas Mar 01 2020 The excavation of the shipwreck La Belle grabbed public attention in Texas, across the nation, and overseas. Especially enthralled with the discoveries from the ship were schoolchildren. Pam Wheat-Stranahan, named by the Texas Historical Commission to head the educational efforts associated with the excavation's traveling exhibit, continued her work on this project after leaving the THC. Now, her teacher's guide, which includes a DVD of acclaimed documentary director Alan Govenar's films The Shipwreck of La Belle and Dreams of Conquest (about Fort St. Louis and Presidio La Bahia), is available for use in an exploration and discovery unit. Ideal for grades 4-8, the teacher's guide and films are designed for use with the book From a Watery Grave. Wheat-Stranahan has incorporated the standards for national social studies and the Texas Essential Knowledge and Skills. The resulting guide is user-friendly for teachers and provides interactive learning opportunities for students not just about Texas history but also concerning the age of discovery and the precursors to the American nation.

Piano Theory, Level 2 Aug 06 2020 The Theory Books of the David Carr Glover Piano Library are written in "programed instruction" style, one of the most effective means of learning in modern education. Programed instruction is based on three generally accepted principles: 1. The material is presented in small steps called "frames." 2. The student makes an immediate written response to each frame so that his learning is constantly checked. 3. The student knows if his answer is correct. The Theory Books are written for the Preparatory Age piano student. However, the fundamentals of music are presented in a logical order making the books useful for any beginner. The Theory books are correlated to the David Carr Glover Piano Library, but can be used with any course on music of this level of advancement.
