Makes a great holiday gift idea. **** Kathrin, a foodie writer stuck in a corporate job, bonds with John through a mutual hatred of the cold. They discover paradise in a small town in Mexico and after three days naively buy a house there... or did they? After

months of foul ups, they struggle to survive as a couple, while falling for the charm and characters of the town. In process, Kathrin accidentally starts a "Mecca" for writers and they both learn what had been missing in their lives. Based on a true story. A ten year old and his family embark on a heroic escape from the former East Bloc Communist country of Czechoslovakia to seek a new life in the West free of oppression. Faced with unforeseen perils, heavily armored borders, three separate cultural changes, and never knowing what the next day brings, a family of four leave their entire lives behind and thrust themselves into situations with potentially devastating outcomes. Join the Rehacek family as they struggle during a journey across multiple border crossings between Czechoslovakia, Hungary, Yugoslavia, Austria, and Germany as they seek freedom and prosperity. Just imagine yourself standing in front of an open field covered with tall barbed wire fences, machinegun operated control towers, heavily armored guards with dogs, and hidden mine fields and you must somehow cross to the other side with a wife, a ten year old, and a six year old. Once you manage to cross from the Communist ruled Iron Curtain to the West alive and uninjured you have to live in a country that has a different culture, different customs, and everyone speaks a different language. As you struggle along the political channels of immigration you wonder if the next day you and your family will have a bed to sleep upon and enough food to eat. Cuban-born Ozzie Sabina often asks himself, "What would life have been like if Fidel Castro had opened a law practice in Cuba instead of starting a revolution?" There's no doubt Castro's reign in Cuba changed a lot of lives, including that of author Ozzie Sabina. He escaped the country with his thirteen-year-old brother, William, in 1962 with the help of the United States and Operation Pedro Pan-a concerted effort that relocated more than 14,000 Cuban children. My Escape from Cuba is Sabina's story of growing up in Cuba and his subsequent move to the United States when he was only sixteen years old. This memoir encompasses much of Sabina's life: from growing up in a small town in Cuba, to his school days and his love of his close-knit family, to his first airplane trip to the United States, mastering the English language, and living with a new family in St. Petersburg, Florida. A compelling story that gives firsthand insight into what life was like in Cuba in the late 1950s and early 1960s; My Escape from Cuba shows the determination and courage of a young man making the most of his new life. Large areas have been cleared of natural vegetation to accommodate new development. The “urban forest,” which consists of all city trees, natural and planted, has been severely and negatively impacted. A 2003 study indicates that we are losing through clearing and grading four trees for every one planted. This is a wake-up call for greatly increased planting in the urban forest and the need to popularize small trees (defined as trees that grow up to thirty feet high) for diminished city spaces. *Small Trees for the Tropical Landscape* describes and illustrates 129 species and subspecies and 48 named varieties, cultivars, and forms plus 23 hybrids appropriate for the home garden and confined public landscape spaces. The authors have also included a section on “Tailored Small Trees,” large shrubs that are readily transformed into small trees through intelligent, selective pruning. They identify and describe 67 species and subspecies; 40 named varieties, cultivars, and forms; and 21 hybrids that are appropriate for this conversion. Several appendices will assist the gardener with tree selection for specific purposes (screens and windbreaks, coastal gardens, edible fruit, and colorful flowers and foliage). Species that may cause skin irritation or that are poisonous are identified in the text as are those trees with the ability to fix nitrogen. The authors also warn against planting a number of species known to be invasive in Hawai‘i and advise caution when planting others that have the potential to escape cultivation and become weeds. *Designers Abroad*, Michele Keith's follow-up to her highly successful book *Designers Here and There*, features twenty-two vacation homes of today's top interior designers, exquisitely captured in over 200 lush color photographs. For some, vacation homes offer an opportunity to escape from the office, to shut off, to wind down. For decorators, however, vacation homes mean just the opposite—they provide the opportunity to bring work home as they roam the globe, honing their design sensibilities and expanding collections of treasures. *Designers Abroad* takes the reader on a tour of the world, from Sri Lanka to South Africa to Sweden, by peeking into the gorgeously appointed homes of renowned interior designers. In lively and dynamic text, Michele Keith explores how they incorporate the distinct and native character a foreign land into their second homes, all the while expressing personal style. Embracing new cultures' climates, architectural traditions, and indigenous art, fabrics, and furniture, each designer creates a space at once comfortable and glamorous, a place of solace and inspiration. *Designers Abroad* offers inside peeks into residences ranging from a chic studio in Paris to a house perched on windswept cliffs in Nova Scotia, from a beachside abode nestled among boulders in Cabo San Lucas, Mexico, to a former monastery outside Rome dating back to the fifteenth century. Each project is accompanied by the story of how its design was conceived and executed, and how the attributes of each country inspired its owners—including Lars Bolander, Alessandra Branca, Clodagh, Timothy Corrigan, Mica Ertegun, Fisher Weisman, Juan Pablo Molyneux, Juan Montoya, and Cortney and Robert Novogratz, among others. *Designers Abroad* demonstrates how these designers incorporate their passion for travel into their own interiors, and thus inspires readers to add a touch of the exotic to their own homes.

Alyssa Cole delivers another fun, sexy romance novella in the Reluctant Royals series! Regina Hobbs is nerdy by nature, businesswoman by nurture. She's finally taking her pop culture-centered media enterprise, Girls with Glasses, to the next level, but the stress is forcing her to face a familiar supervillain: insomnia. The only thing that helps her sleep when things get this bad is the deep, soothing voice of puzzle-obsessed live streamer Gustavo Nguyen. The problem? His archive has been deleted. Gus has been tasked with creating an escape room themed around a romance anime...except he knows nothing about romance or anime. Then mega-nerd and anime expert Reggie comes calling, and they make a trade: his voice for her knowledge. But when their online friendship has IRL chemistry, will they be able to escape love? An exuberant tribute to North America's architectural heritage, Rural Escapes explores how country homes have been built to reflect and

enhance the natural features of the countryside. In four parts, it showcases 24 beautiful homes that embrace the history of the land and the peoples who live and have lived on it. Each is lavishly illustrated and sympathetically described by a team of acclaimed writers led by American country expert Bo Niles. The first part, Colonial Charm, is devoted to vintage homes, including houses in Early American, Colonial, and Shaker styles. Rustic Beauty ventures deep into the forests to discover log cabins, hunting lodges, and camps from Connecticut to Colorado. In New Frontier Spirit, innovative and unusual homes show that the pioneer instinct is alive and well; they include a Vermont barn of stilts, a tropical paradise in California, and a beach house on Long Island. Finally, Contemporary Inspiration looks at how materials such as glass and steel create houses that seem to mesh with their environment just as harmoniously as their traditional predecessors. On August 28, 2011, after pounding the Caribbean and the U.S. Eastern seaboard for more than a week, Hurricane Irene finally made landfall in New Jersey. As the storm headed into New England, it was quickly downgraded to a tropical storm. And by Sunday afternoon, national news outlets were giving postmortems on the damage. Except for some flooding in low-lying areas, New York City--Irene's biggest target--had escaped its worst-case scenario. Story over. But the story wasn't over. As Irene's eye drifted north, its bands of heavy rains twisted westward over Vermont's Green Mountains. The mountains forced these bands upward, wringing the rain out of them like water from a sponge. Streams and rivers were transformed into torrents of brown water and debris, gouging mountainsides, reshaping valleys, washing out roads, pulling apart bridges, and carrying away homes, livestock, and automobiles. For weeks, mountain towns were isolated, with no way in or out, and thousands of people were left homeless. In the immediate aftermath of the disaster, it fell on the shoulders of ordinary Vermonters to help victims and rebuild the state. Deluge is the complete story of the floods, the rescue, and the recovery, as seen through the eyes of the people who lived through them: Wilmington's Lisa Sullivan, whose bookstore was flooded, and town clerk Susie Haughwout, who saved the town records; Tracy Payne, who lost her home in Jamaica--everything in it, and the land on which it sat; Geo Honigford in South Royalton, who lost his crops, but put his own mess on hold to help others in the town; the men who put U.S. Route 4 back together at breakneck speed; and the entire village of Pittsfield, completely isolated after the storm, and its inspirational story of real community. Description Bajan Affair is Pauline Pearce's 2nd publication by Chipmunka. It is written in diary format as an uplifting, humorous account of a holiday she spent on the Caribbean island of Barbados. Pauline describes how her heart was captivated, not only by this idyllic location, but by the characters she met during her daily exploits. It tells of a romance, not between two individuals but as an affair of the heart between herself, this small corner of paradise, and the beauty of spirit she discovered within those who inhabit these shores. Feel the warmth of the sun on your back and the caress of a tropical breeze, as Pauline's narration takes you, in imagination, to this vibrant island. Her words, as she sets each scene, are vivid in description, witty and, most definitely, thought provoking - a book to both relax and rejuvenate the reader and one, certainly, to be read from cover to cover.
