***Brimstone Angels Aug 14 2021 Praise for Erin M. Evans's first book, The God Catcher:***

***“Extremely entertaining, The God Catcher was a great surprise for me. Evans' fluent style glues this book in the reader's hands. With an action-packed story and vivid characters, it quickly becomes a page-turner.” -Speculative Book Review [The story] flowed wonderfully and it was fast paced and exciting. . . . Every subplot or side story all seemed natural and fitting. . . .I loved the characters. Everything was described well enough to give you an idea and it allowed for your imagination to create the rest. It's as vivid and as abstract as you can get, all thanks to the descriptions. -Read Between the Lines “Under Evans' pen, the city of Waterdeep really comes to life on the page; full of everything that a city needs to be a thriving home for a great story. . . .***

***Evans proves to be a bit of a master at laying the seeds for one plot and then having it turn into something else when you're not expecting it (even though it ends up looking like it was going that way the whole time)."*—Graeme's Fantasy Book Review Overview: Rejected at birth and raised in a village of tiefling misfits, Farideh expects a life without friends, love, or control over her destiny. Then she makes a pact with a devil named Lorcan, and everything changes. Lorcan promises all she ever dreamed of and asks for nothing in return. Her twin sister Havilar urges Farideh to resist the devil's sway. But Farideh's not so sure. Lorcan may be dangerous but the power he offers is exhilarating. In the ruins of Neverwinter, Farideh's doubts get tangled up in a devilish snare six layers deep. A succubus playing human pawns against an otherworldly foe sees the twins as obstacles in her path. And Lorcan's monstrous sisters have their eyes on the city—and on Farideh. There's no time to question her pact with Lorcan—it will take every ounce of Farideh's newfound powers to get out of Neverwinter alive. Read More: If you are looking for more from Erin M. Both groups were deployed against the tribes of the prairies, both breaking the soil of the undeveloped hinterland. Both were striving in the years before the Civil War to found schools, churches, and towns, as well as to preserve orderly development through government and laws. ***Wi-Fi and the Bad Boys of Radio Apr 21 2022 At 36,000 feet, Wi-Fi converts our airline seats to remote offices. It lets us read email in airports, watch video in coffee shops, and listen to music at home. Wi-Fi is everywhere. But where did it come from? Wi-Fi and the Bad Boys of Radio takes us back to when the Internet was first gaining popularity, email took ten minutes to load up, and cell phones were big and unwieldy. But Alex Hills had a vision: people carrying small handheld devices that were always connected. His unwavering purpose was to change the way we use the Internet. After being a teenage "ham operator" and bringing radio, TV and telephone service to the Eskimos of northern Alaska, Dr. Hills led a small band of innovators to overcome "the bad boys of radio" - the devilishly unpredictable behavior of radio waves - and build the network that would become the forerunner to today's Wi-Fi. "I know of no one so capable of telling the Wi-Fi story and explaining so clearly how the technology works. Alex Hills is certain to capture the public imagination with this new book." Jim Geier, Principal Consultant, Wireless-Nets, Ltd. and Wi-Fi author "Alex Hills has contributed to the developing world and to developing advanced wireless technology at one of the world's most tech-savvy universities. Working on both frontiers, Dr. Hills pioneered wireless Internet and launched a revolution in***

Dr. Hills is frequently invited to speak at conventions, conferences, university seminars, corporate training sessions, and community events. His talks, with their vivid stories and clear explanations of technology, have been well-received by audiences throughout the United States and in more than twenty foreign countries. An inventor with eleven patents, Dr. Hills can write and speak in technical jargon. But in his writing, as in his talks, he speaks to everyone -- technical specialists and the public alike. People of all backgrounds have been fascinated by his contributions to Scientific American and IEEE Spectrum magazines -- articles that explain technology in a style that is clear to any reader.***

***placed you on an inflatable life-raft in the middle of the freezing Atlantic Ocean along with your most bitter enemy contrivable? Would the emotions of hatred, revenge and love of country trump the desire to survive, if killing that enemy ensured your own demise? Captain Mat Richardson, USN, and Emil Gluckler, a German submarine commander, experience that option during the 2nd World War. Mat, captain of a small destroyer, and Emil, commander of an attacking submarine, become stranded on a life-raft after each of the combatant crafts sink each other during a fierce naval engagement. They subsequently experience 38 harrowing days striving for survival. If nothing else, this required the ultimate in mutual cooperation. If the two survived, would the events have a lasting effect on their relationship?
