Assistive Technology (AT) is the term used to describe products or technology-based services which support those with disabilities or other limitations to their daily activities, enabling them to enjoy a better quality of life. This book presents the proceedings of the 13th European Conference on the Advancement of Assistive Technology (AAATE 2015), held in Budapest, Hungary in September 2015. This biennial conference has established itself as a leading forum in the transdisciplinary area of Assistive Technology, providing a unique platform for the gathering of experts from around the world to review progress and challenges in the interdisciplinary fields which contribute to AT, such as research, development, manufacturing, supply, provision and policy. The theme of the 2015 conference is 'Attracting new areas and building bridges', and this book contains 138 reviewed papers and 28 poster presentations delivered at the conference, covering AT themes as diverse as aging, blindness, mobility, assisted living and accessibility for people with dementia and cognitive impairment. By 2020, we were supposed to be flying with jet backpacks and hovercrafts. If you think back to Dick Tracy in the daily newspaper comics, he flew in an Air Car that was a hovering one-man vehicle presented to him by the Moon Governor, the ruler of Moon Valley, so when do we get ours? You remember the Air Car, because you listened to Dick Tracy on Old Time Radio networks from 1934-1948, along with The Great Gildersleeve, Fibber McGee & Molly, The Fred Allen Show, and so many more. Keep thinking back. Can you name the Great Gildersleeve's niece? Ted Collins was the host of which radio show? Jerry Colonna was a second banana to what comedian? Name the operator on Fibber McGee & Molly. Where did Our Gal Sunday live? What was the name of Jack Benny's parrot? Who was known as the Toastmaster General of the United States? If you can answer these questions, you'll love pondering the myriad trivia brain teasers that have been compiled once again by the nearly legendary Mel Simmons. If you can't answer these questions, then you need the book. One of these facts could get you through the \$1 million question on Who Wants to Be a Millionaire? 40 Quiz Games interspersed with more than a hundred rare glossies of The Acts from the Airwaves keep your memories of Old Time Radio's Golden Era alive. If you enjoyed Mel's Old Time Radio Trivia Books I-IV, add this latest and greatest edition to your library.
