"When I fly among the stars and see the lights in the distance, I say to myself that this is my little Consuelo is calling me..." Antoine de Saint-Exupery wrote about love for his wife. A graceful Consuelo Suncin inspired an outstanding French writer, poet and pilot to create a beautiful rose in his famous all over the world book The Little Prince. Gary Hamel, world-renowned business thinker and coauthor of *Competing for the Future*, the book that set the management agenda for the 1990s, now delivers an agenda for the twenty-first century with the national bestseller, *Leading the Revolution*. Fully revised with a new introduction, this book provides an action plan for any company or individual intent on becoming and staying an industry revolutionary. Hamel argues that to thrive in the age of revolution, companies must adopt a radical new innovation agenda. The fundamental challenge companies face is reinventing themselves and their industries not just in times of crisis--but continually. Beautifully illustrated with more than 100 full-color photos and drawings, Hamel's *Leading the Revolution* is an action plan (indeed, an incendiary device) for any company or individual intent on becoming and staying an industry revolutionary. Based on experiences of world-class companies, including Charles Schwab, Cisco, Virgin, and GE Capital, *Leading the Revolution* explains the underlying principles of radical innovation, explores where revolutionary new business concepts come from, and identifies the key design criteria for building companies that are activist friendly. It will show companies how to avoid becoming "one-vision wonders"; harness the imagination of every employee; develop new financial measures that focus on creating new wealth; and create vibrant internal markets for ideas, capital, and talent. Drawing on the examples of activists who profoundly changed their companies with their bare hearts, Hamel outlines the practical steps anyone can take to lead a successful revolution in their own firm. ¿Por qué dejamos 20 céntimos de propina en los bares pero no compramos aplicaciones para el móvil que valen lo mismo? ¿Por qué tenemos un móvil de 500? pero pagar 0,89? por una aplicación nos parece un robo? Conditional cash transfer programs are based on a simple, yet powerful premise: creating adequate incentives today to stimulate the accumulation of human capital in poor families can provide future generations with the opportunity to generate their own higher incomes. Looking at the experience of Progres-Oportunidades--the oldest such program whose results after 10 years provide valuable lessons--offers the opportunity to examine whether the youth of Progres-Oportunidades, in a not too distant future, will be able to find productive jobs that allow them to escape the poverty that has trapped their parents. In this study, Santiago Levy looks at this question from an innovative perspective, analyzing how the intrinsic structure of incentives created by a set of social policies can aid or inhibit the achievement of the principal objective of Progres-Oportunidades: to break the intergenerational transmission of poverty. This study can help spark a discussion in many countries on the links between social policy, productivity growth and, in turn, poverty reduction.
