The book provides practical guidance for scholars in writing each genre-and in getting them published. With step-by-step directions, rubrics, student examples, templates, technology tips, and ideas for differentiation, Kopp goes beyond journals or reports to show how science teachers can use writing to develop critical-thinking skills, improve understanding of scientific concepts, assess students' progress, and hone skills in content-area writing. Her writing strategies support the Common Core Standards and, because the focus is on applying writing skills--and not teaching writing as an end in itself--science teachers can easily incorporate these strategies in any unit of study. **Assessment in the Second Language Writing Classroom** Jun 24 2020 Assessment in the Second Language Writing Classroom is a teacher and prospective teacher-friendly book, uncomplicated by the language of statistics. The book is for those who teach and assess second language writing in several different contexts: the IEP, the developmental writing classroom, and the sheltered composition classroom. In addition, teachers who experience a mixed population or teach cross-cultural composition will find the book a valuable resource. Other books have thoroughly covered the theoretical aspects of writing assessment, but none have focused as heavily as this book does on pragmatic classroom aspects of writing assessment. Further, no book to date has included an in-depth examination of the machine scoring of writing and its effects on second language writers. Crusan not only makes a compelling case for becoming knowledgeable about L2 writing assessment but offers the means to do so. Her highly accessible, thought-provoking presentation of the conceptual and practical dimensions of writing assessment, both for the classroom and on a larger scale, promises to engage readers who have previously found the technical detail of other works on assessment off-putting, as well as those who have had no previous exposure to the study of assessment at all.

The Writing Workshop Teacher's Guide to Multimodal Composition (6-12) Jan 20 2020

Multimodal composition is a meaningful and critical way for students to tell their stories, make good arguments, and share their expertise in today's world. In this helpful resource, writer, teacher, and best-selling author Angela Stockman illustrates the importance of making writing a multimodal endeavor in 6-12 workshops by providing peeks into the classrooms she teaches within. Chapters address what multimodal composition is, how to situate it in a writing workshop that is responsive to the unique needs of writers, how to handle curriculum design and assessment, and how to plan instruction. The appendix offers tangible tools and resources that will help you implement and sustain this work in your own classroom. Ideal for teachers of grades 6-12, literacy coaches, and curriculum leaders, this book will help you and your students reimagine what a workshop can be when the writers within it produce far more than written words.

**Teacher/Pizza Guy** Apr 15 2022 Teacher/Pizza Guy is a collection of autobiographical poems from the 2016–17 school year in which Jeff Kass worked as a full-time English teacher and a part-time director for a literary arts organization and still had to supplement his income by delivering pizzas a few nights a week. In the collection, Kass is unapologetically political without distracting from the poems themselves but rather adds layers and nuances to the fight for the middle class and for educators as a profession. The timing of this book is beyond relevant. As a public high school teacher in America, Kass's situation is not uncommon. In September 2018, Time published an article detailing how many public school teachers across the country and in a variety of environments work multiple jobs to help make ends meet. Teacher/Pizza Guy chronicles Kass's experience of teaching, directing, feeding people, and treading the delicate balance of holding himself accountable to his wife and kids, his students, his customers, and his own mental and physical health while working three jobs in contemporary America. The journey of that year was draining, at times daunting, at times satisfying, but always surprising. Many of the ideas for these poems were initially scribbled onto the backs of pizza receipts or scratched out during precious free moments amidst the chaos of the school day. A driving force behind the book is Philip Levine's poem "What Work Is," which Kass believes attempts to examine not only the dignity and complexity of what we think physical, tangible work is but also the exhausting, albeit sometimes fulfilling nature of emotional work. Teacher/Pizza Guy is a funny and relatable collection for readers, thinkers, educators, and pizza lovers everywhere.

**Treatment of Error in Second Language Student Writing, Second Edition** Jul 26 2020 Treatment of Error offers a realistic, well-reasoned account of what teachers of multilingual writers need to know about error and how to put what they know to use. As in the first edition, Ferris again persuasively addresses the fundamental error treatment questions that plague novice and expert writing specialists alike: What types of errors should teachers respond to? When should we respond to them? What are the most efficacious ways of responding to them? And ultimately, what role should error treatment play in the teaching of the process of writing? The second edition improves upon the first by exploring changes in the field since 2002, such as the growing diversity in what is called "L2 writers," the blurring boundaries between "native" and "non-native" speakers of English, the influence of genre studies and corpus linguistics on the teaching of writing, and the need to move beyond "error" to "second language development" in terms of approaching students and their texts. It also explores what teacher preparation programs need to do to train teachers to treat student error. The second edition features \* an updating of the literature in all chapters \* a new chapter on academic language development \* a postscript on how to integrate error treatment/language development suggestions in Chapters 4-6 into a writing class syllabus \* the addition of discussion/analysis questions at the end of each chapter, plus suggested readings, to make the book more useful in pedagogy or teacher development workshops

**Opening Doors to Quality Writing** Oct 09 2021 In *Opening Doors to Famous Poetry and Prose*, Bob Cox introduced teachers to engaging strategies which use literary heritage texts as the stimulus for excellent learning. This new companion book, *Opening Doors to Quality Writing*, for ages 6 to 9, puts the focus on pupils producing quality writing - developing their literacy skills and a love of reading in the process. In the course of his educational consultancy work, Bob has seen many teachers successfully use the scope and depth which literature can offer to inspire high standards, mastery learning and, above all, a love of language in its many forms. Schools using the 'opening doors' strategies told Bob they led to: More teacher empowerment and confidence. More knowledge building for pupils and teachers. A growing confidence with literature, including poetry. Planning from the top becoming a norm. Planning for mastery learning becoming a norm. Improved comprehension skills. Improved quality writing and associated excitement. They also asked Bob for further examples of inspiring, quality texts, and more ways in which pupils of all abilities can access them. Bob was only too happy to oblige. These 15 units of work cover poetry and prose: each unit provides exciting stimulus material, creative ideas for writing projects, and differentiation and support strategies, meaning all pupils can achieve the quality writing objectives. All the units should help teachers facilitate understanding of the challenging texts and maximise the huge potential for quality writing. Discover a multitude of ready-to-use ideas, inspired by classic literature and great writers' works, along with plenty of new strategies and advice.
