No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting book has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the

reader enthralled with every turn of the page, as he takes you on an information-packed would tour of cigars. Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! The *Ultimate Cigar Book* is the most comprehensive, factual, and up-to-date book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.

Work the System Mar 02 2023 A simple mindset tweak will change your life. It started with a midnight insight. After a fifteen-year nightmare of coping with his struggling business, Sam Carpenter discovered and then developed a simple methodology that knocked his routine 80-hour workweek down to zero, while multiplying his net income by a factor of 100. Now, in 2021, here's his bestselling business book, revised yet again, showing how you too can instantly break free to build the business and life of your dreams. In this fourth edition of Work the System, Carpenter reveals the profound insight and exact uncomplicated, mechanical steps he took to turn his business--and his life--around. Once you "get" this new vision, success and serenity will come quickly. You will learn to:

- Make a simple perception adjustment that will change your life forever.
- See your world as a logical collection of linear systems that you can control.
- Manage the systems that produce results in your business and your life.
- Stop fire killing and become a fire-control

specialist. · Maximize profit, create client loyalty, and develop enthusiastic employees. · Identify insidious "errors of omission." · Maximize your biological and mechanical "prime time" so that you are working at optimum efficiency. · Design the life you want--and then, in the real world, create it! You can keep doing what you've always done and continue getting unsatisfactory results. Or you can find the peace and freedom you've always wanted by transforming your businesses or corporate department into a finely tuned machine that runs smoothly and profitably on autopilot.
