**The Presbyterian Church of East Africa** Oct 04 2020 With over four million members, the Presbyterian Church of East Africa (PCEA) is one of the major denominations in Kenya. It was established in 1946 after the Gospel Missionary Society (GMS) from the United States of America and the Church of Scotland Mission (CSM) from Scotland merged. The two

missionary societies had been working independently in central Kenya since 1898. Consequently the GMS became the only mission in Kenya that failed to leave behind its own functioning self-propagating, self-governing, and self-supporting church with links to its American mother church. The Presbyterian Church of East Africa is, therefore, a study of the missionary work of the GMS from its inception in 1895 to 1946 when it merged with the CSM in order to establish why the mission gave up the struggle to establish its own church when victory seemed imminent. The book also uses the GMS as a case study to analyze not only how Christian missions in colonial Africa struggled to win souls for Jesus Christ, but also some of the major problems that they encountered and how they tried to solve them.

**Let It Shine** Mar 21 2022 The definitive history of solar power and technology Even as concern over climate change and energy security fuel a boom in solar technology, many still think of solar as a twentieth-century wonder. Few realize that the first photovoltaic array appeared on a New York City rooftop in 1884, or that brilliant engineers in France were using solar power in the 1860s to run steam engines, or that in 1901 an ostrich farmer in Southern California used a single solar engine to irrigate three hundred acres of citrus trees. Fewer still know that Leonardo da Vinci planned to make his fortune by building half-mile-long mirrors to heat water, or that the Bronze Age Chinese used hand-size solar-concentrating mirrors to light fires the way we use matches and lighters today. With thirteen new chapters, *Let It Shine* is a fully revised and expanded edition of *A Golden Thread*, Perlin's classic history of solar technology, detailing the past forty years of technological developments driving today's solar renaissance. This unique and compelling compendium of humankind's solar ideas tells the fascinating story of how our predecessors throughout time, again and again, have applied the sun to better their lives — and how we can too.

*16 Isn't Always Sweet* Jun 11 2021 From best friend to frenemy to flat-out enemy For her Sweet 16, Jordan Wright gets rid of the frizzy hair, the conservative clothes, and finally likes the hip new girl smiling in the mirror. So when she hears about an open casting call for the hottest rapper's new video, she has the confidence to go for it. She and her best friend, Adrienne, try out with hundreds of hopefuls, but only Jordan makes it. Adrienne seems fine with it. But when Jordan starts getting some serious attention, Adrienne turns into a hater. And after Jordan has an innocent in-the-hall conversation with Adrienne's ex-boyfriend—they dated for one week, like four years ago!—Adrienne plots to ruin Jordan's life by spreading rumors, writing stuff on the bathroom walls and telling Jordan she'd be better off dead. Suddenly Jordan's popularity is fading. Forget sweet sixteen. She soon discovers that what she needs most is to find the strength to be herself.
