*Destination Hope: A Travel Companion When Life Falls Apart* Nov 30 2020 *Destination Hope: A Travel Companion When Life Falls Apart* offers camaraderie and a beacon of hope for women who feel alone in loss, struggle, or change of circumstance. This book is not a self-help book filled with platitudes from people who think they have life figured out. Instead, Marilyn Nutter and April White link arms with the audience and encourage their readers through stories of their personal challenges in widowhood and chronic illness. Women are encouraged to see loss and hardship as part of life's journey and are reminded to turn their gaze upwards, to the Provider of Hope. Within the pages of *Destination Hope* comes a sisterhood, a bond, that is formed only through the mutual understanding of loss and the need to find hope in hard times. *Destination Hope* is arranged into six chapters called Milepost Markers, which address various losses, disappointments, or obstacles. Each entry concludes with a Rest Area for reflection and journaling. A Postcard with a quotation related to the topic sends readers off with an encouraging word, as they travel on towards their destination hope.

A World Torn Apart Apr 23 2020 This collection of essays derives from a conference on Violence, Culture and Identity held in St Andrews in June 2003. It is a contribution to the understanding of representations of violence in Latin American narrative. The collected essays are dedicated to the study of the problematic history of violence as a means of 'civilizing' the region: violence used by dictatorial regimes to eradicate the collective memory of their actions; violence as a result of the history of marginalizing segments of the population; sexual violence as an attempt at complete control of the victim. The essays establish a clear link between historical, political and literary constructs spanning the past five hundred years of Latin American history. Close readings of political texts, historical documents, prose, poetry and films employ identity theories, postcolonial discourse, and the principles of mimetic and sacrificial violence. The volume adds to the ongoing critical investigation of the relationship between Latin American history and narrative, and to the key role of representations of violence within that narrative tradition.

Living Together, Living Apart May 25 2020 Immigration reform remains one of the most contentious issues in the United States today. For mixed status families—families that include both citizens and noncitizens—this is more than a political issue: it's a deeply personal one. Undocumented family members and legal residents lack the rights and benefits of their family members who are US citizens, while family members and legal residents sometimes have their rights compromised by punitive immigration policies based on a strict "citizen/noncitizen" dichotomy. This collection of personal narratives and academic essays is the first to focus on the daily lives and experiences, as well as the broader social contexts, for mixed status families in the contemporary United States. Threats of raids, deportation, incarceration, and detention loom large over these families. At the same time, their lives are characterized by the resilience, perseverance, and resourcefulness necessary to maintain strong family bonds, both within the United States and across national boundaries.

**A Place Somewhat Apart** Jul 19 2022 The story of secularization and religious disestablishment in American higher education is told from the standpoint of a lively community of professors, students, and administrators at the University of Michigan in the late nineteenth century.

This campus culture--one of the most closely watched of its day--sheds new light on the personal and cultural meanings of these momentous changes in American intellectual and public life. Here we see how religion was not so much displaced or marginalized in the heyday of university reform as translated into new arenas of public service and scholarly pursuit. The main characters in this story--professors Calvin Thomas and Henry Carter Adams--underwent profound religious crises of faith accompanied by major adjustments in their interpersonal relationships. Together, with students and administrators, their lives constituted a communal biography of religious deconversion. A close examination of these private and public worlds provides a more complete understanding of the dynamics behind new academic policies and intellectual innovations in a leading public university. The non-cognitive, intersubjective, gendered, quasi-religious shadings of academic modernism and early pragmatist philosophy, in particular, come to light in vivid ways. As John Dewey later observed, Michigan became an experimental laboratory for new meanings to unfold, new acts to propose.

How We Fall Apart Aug 20 2022 In a YA thriller that is *Crazy Rich Asians* meets *One of Us is Lying*, students at an elite prep school are forced to confront their secrets when their ex-best friend turns up dead. Nancy Luo is shocked when her former best friend, Jamie Ruan, top-ranked junior at Sinclair Prep, goes missing, and then is found dead. Nancy is even more shocked when word starts to spread that she and her friends--Krystal, Akil, and Alexander--are the prime suspects, thanks to "the Proctor," someone anonymously incriminating them via the school's social media app. They all used to be Jamie's closest friends, and she knew each of their deepest, darkest secrets. Now, somehow the Proctor knows them, too. The four must uncover the true killer before The Proctor exposes more than they can bear and costs them more than they can afford, like Nancy's full scholarship. Soon, Nancy suspects that her friends may be keeping secrets from her, too. Katie Zhao's YA debut is an edge-of-your-seat drama set in the pressure-cooker world of academics and image at Sinclair Prep, where the past threatens the future these teens have carefully crafted for themselves. *How We Fall Apart* is the irresistible, addicting, Asian-American recast of *Gossip Girl* that we've all been waiting for.

States Falling Apart? Jul 27 2020 An increasing number of European countries are being faced with demands for greater autonomy or independence from regional groups. The legitimacy of nation states in Europe is thus being called into question not only by the forces of globalization and Europeanization from above, but also by growing pressure to recognize the autonomous or independent status of regional groups from below. From Scotland to Catalonia, from Flanders to South Tyrol, the movements vary in their intensity and demands, yet also have many commonalities. This book constitutes a compilation of papers presented at the international Conference "States Falling Apart? Secessionist and Autonomy Movements in Europe" at the University of Fribourg in 2013 and is a timely addition to the literature on secession, autonomy and federalism. With theoretical contributions and case studies, it presents a wide range of opinions and facts on these issues.

Set Apart Dec 20 2019 "The church must be distinct from the world to reach the world." - From Chapter 1 "But you are a chosen race, a royal priesthood, a holy nation, a people for [God's] own possession, that you may proclaim the excellencies of him who called you out of darkness into his marvelous light" (1 Peter 2:9, ESV). Holy and dedicated to declaring the excellencies of God--this is the church, or is it? Can we really call the church holy? A minority of those who claim to be born again say they believe in moral absolutes (Source: Barna Research). One third of evangelicals between the ages of 18 and 35 have no problem with unmarried men and women living together (Source: Evangelical Alliance). Evangelical Christianity is becoming increasingly worldly. Materialism, hedonism, violence, sexual misconduct, pluralism, and divorce are becoming as common within the church as without. As a result the church is losing its distinct identity as a people set apart to reach the world. In this book, R. Kent Hughes builds a case for godliness in the church--a case that echoes the biblical call to holiness. The church can reach the world only if it keeps itself from being ensnared by the world. Hughes is not simply urging Christians to say no to worldliness--he is calling the church to say yes to Christ and to his call to reach our lost world.

Oceans Apart Mar 03 2021 From May 1940, the Children's Overseas Reception Board began to move children to Australia, South Africa, Canada and New Zealand for their own safety during the Second World War. The scheme was extremely popular, and over 200,000 applications were made within just four months, while thousands of children were also sent to be privately evacuated overseas. The 'sea-vacs', as they became known, had a variety of experiences. After weeks at sea, they began new lives thousands of miles away. Letters home took up to twelve weeks to reach their destination, and many children were totally cut off from their families in the UK. While most were well cared for, others found their time abroad a miserable, difficult or frightening experience as they encountered homesickness, prejudice and even abuse. Using a range of primary source material, including diaries, letters and interviews, Penny Starns reveals in heart-breaking detail the unique and personal experiences of sea-vacs, as well as their surprising influence on international wartime policy in their power to elicit international sympathy and financial support for the British war effort.

**An Ocean Apart** Sep 09 2021 Closing a critical gap in the literature examining the strained relationship between the U.S. and Japan, this book synthesizes the economic, political, historical, and cultural factors that have led these two nations, both practitioners of capitalism, along quite different paths in search of different goals. Taking an objective, multidisciplinary approach, the author argues that there is no single explanation for Japan's domestic economic or foreign trade successes. Rather, his analysis points to a systemic mismatch that has been misdiagnosed and treated with inadequate corrective measures. This systemic mismatch in the corporate strategy, economic policies, and attitudes of the U.S. and Japan created and is perpetuating three decades of bilateral economic frictions and disequilibria. As long as both the U.S. and Japan deal more with symptoms than causes, bilateral problems will persist. This book's unique analysis will encourage a better understanding on both sides of the Pacific of what has happened, is happening, and will continue to happen if corporate executives and policymakers in the two countries do not better realize the extent of their differences and adopt better corrective measures.

A Disease Apart Sep 21 2022 This fascinating cultural and medical history of leprosy enriches our understanding of a still-feared biblical disease. It is a condition shrouded for centuries in mystery, legend, and religious fanaticism. Societies the world over have vilified its sufferers: by the sheer accident of mycobacterial infection, they have been condemned to exile and imprisonment—illness itself considered evidence of moral taint. Over the last 200 years, the story of leprosy has witnessed dramatic reversals in terms of both scientific theory and public opinion. In *A DISEASE APART*, Tony Gould traces the history of this compelling period through the lives of individual men and women: intrepid doctors, researchers, and missionaries, and a vast spectrum of patients. We meet such pioneers of treatment as the Norwegian microbe hunter, Armauer Hansen. Though Hansen discovered the leprosy bacillus in 1873, the 'heredity vs. contagion' debate raged on for decades. Meanwhile, across the world, Belgian Catholic missionary Father Damien became an international celebrity tending to his stricken flock at the Hawaiian settlement of Molokai. He contracted the disease himself. To the British, leprosy posed an "imperial danger" to their sprawling colonial system. In the 1920s Sir Leonard Rogers of the Indian Medical Service found that the ancient Hindu treatment of chaulmoogra oil could be used in an injectable form. The Cajun bayou saw the inspiring rise of leprosy's most zealous campaigner of all: a patient. At Carville, Louisiana, a Jewish Texan pharmacist named Stanley Stein was transformed by leprosy into an eloquent editor and writer. He ultimately became a thorn in the side of the U.S. Public Health Department and a close friend of Tallulah Bankhead. The personalities met on this journey are remarkable and their stories unfold against the backgrounds of Norway, Hawaii, the Philippines, Japan, South Africa, Canada, Nigeria, Nepal and Louisiana. Although since the 1950s drugs treatments have been able to cure cases caught early—and arrest advanced cases—leprosy remains a subject mired in ignorance. In this superb and enlightened book, Tony Gould throws light into the shadows.
