Not the Girl Next Door Mar 22 2022 As Charlotte Chandler did so well in her previous biographies, she will again draw on the recorded words of Joan Crawford and those who knew her well to paint a rich portrait of the woman and the star. Joan Crawford was born Lucille LeSueur in Texas in 1908. She became a chorus girl in silent films before finding her voice in *Possessed* (1931) with Clark Gable. Their affair would continue, on and off screen, for many years. Throughout the thirties, Joan continued to earn critical acclaim for her forte of playing career women who never gave up. Her Oscar-winning film *Mildred Pierce* in 1945 began the long-running feud between Joan and Bette Davis, which reached its height with *Whatever Happened to Baby Jane* in 1962. Joan was married four times including once to Douglas Fairbanks Jr, who spoke extensively to Charlotte Chandler for this book. Following her death, Joan's decision to cut her eldest children out of her will prompted her daughter Christina to write the damning book *Mommie Dearest* which changed Joan's image forever. Charlotte Chandler spent many hours recording interviews with Joan and also those closest to her. What emerges is a subtle portrait of a complex woman and a new insight into the legendary actress.

The Murderer Next Door Apr 22 2022 As acclaimed psychological researcher and author David Buss writes, “People are mesmerized by murder. It commands our attention like no other human phenomenon, and those touched by its ugly tendrils never forget.” Though we may like to believe that murderers are pathological misfits and hardened criminals, the vast majority of murders are committed by people who, until the day they kill,

would seem to be perfectly normal. David Buss's pioneering work has made major national news in the past, and this provocative book is sure to generate a storm of attention. *The Murderer Next Door* is a riveting look into the dark underworld of the human psyche—an astonishing exploration of when and why we kill and what might push any one of us over the edge. A leader in the innovative field of evolutionary psychology, Buss conducted an unprecedented set of studies investigating the underlying motives and circumstances of murders, from the bizarre outlier cases of serial killers to those of the friendly next-door neighbor who one day kills his wife. Reporting on findings that are often startling and counterintuitive—the younger woman involved in a love triangle is at a high risk of being killed—he puts forth a bold new general theory of homicide, arguing that the human psyche has evolved specialized adaptations whose function is to kill. Taking readers through the surprising twists and turns of the evolutionary logic of murder, he explains exactly when each of us is most at risk, both of being murdered and of becoming a murderer. His findings about the high-risk situations alone will be news making. Featuring gripping storytelling about specific murder cases—including a never used FBI file of more than 400,000 murders and a highly detailed study of 400 murders conducted by Buss in collaboration with a forensic psychiatrist, and a pioneering investigation of homicidal fantasies in which Buss found that 91 percent of men and 84 percent of women have had at least one such vivid fantasy—*The Murderer Next Door* will be necessary reading for those who have been fascinated by books on profiling, lovers of true crime and murder mysteries, as well as readers intrigued by the inner workings of the human mind.

Nature Next Door Jun 24 2022 The once denuded northeastern United States is now a region of trees. *Nature Next Door* argues that the growth of cities, the construction of parks, the transformation of farming, the boom in tourism, and changes in the timber industry have together brought about a return of northeastern forests. Although historians and historical actors alike have seen urban and rural areas as distinct, they are in fact intertwined, and the dichotomies of farm and forest, agriculture and industry, and nature and culture break down when the focus is on the history of Northeastern woods. Cities, trees, mills, rivers, houses, and farms are all part of a single transformed regional landscape. In an examination of the cities and forests of the northeastern United States—with particular attention to the woods of Maine, New Hampshire, Pennsylvania, and Vermont—Ellen Stroud shows how urbanization processes there fostered a period of recovery for forests, with cities not merely consumers of nature but creators as well. Interactions between city and hinterland in the twentieth century Northeast created a new wildness of metropolitan nature: a reforested landscape intricately entangled with the region's cities and towns.

The Black Girl Next Door Aug 27 2022 A powerful, beautifully written memoir about coming of age as a black girl in an exclusive white suburb in "integrated," post-Civil Rights California in the 1970s and 1980s. At six years of age, after winning a foot race against a white classmate, Jennifer Baszile was humiliated to hear her classmate explain that black people "have something in their feet to make them run faster than white people." When she asked her teacher about it, it was confirmed as true. The next morning, Jennifer's father accompanied her to school, careful to "assert himself as an informed and concerned parent and not simply a big, black, dangerous man in a first-grade classroom." This was the first of many skirmishes in Jennifer's childhood-long struggle to define herself as "the black girl next door" while living out her parents' dreams. Success for her was being the smartest and achieving the most, with the consequence that much of her girlhood did not seem like her own but more like the "family project." But integration took a toll on everyone in the family when strain in her parents' marriage emerged in her teenage years, and the struggle to be the perfect black family became an unbearable burden. A deeply personal view of a significant period of American social history, The Black Girl Next Door deftly balances childhood experiences with adult observations, creating an illuminating and poignant look at a unique time in our country's history.

Millionaire Women Next Door Dec 31 2022 Eight years ago, Dr. Thomas J. Stanley swept aside the mythical magic curtain of wealth to reveal *The Millionaire Next Door*. America found out just who and how common the truly wealthy were in this country; and we learned the characteristics and habits that made them so. Now the author of the follow-up *The Millionaire Mind* focuses on one of the least understood but increasingly rich demographics: *Millionaire Women Next Door*. Why write another book that profiles millionaires? Stanley asks. The vast majority of the millionaire respondents (92 percent) in *The Millionaire Next Door* were men. . . . I felt that it was indeed time for successful businesswomen of the self-made variety to be heard. And heard they are in this book that is destined to become every bit as informative, quoted, and inspirational as the author's earlier works. Readers everywhere will be fascinated by Stanley's thoroughly researched findings and conclusions. More than a simple extension of his studies of male millionaires, *Millionaire Women Next Door* presents groundbreaking concepts involving the nature, lifestyle, and business choices of successful American women that reach far beyond the scope of the author's previous studies. The book examines the choice of businesses elected by self-employed women, ranking over 150 categories in terms of their profitability and probability of success. It also describes the women's background, highlighting the fact that most millionaire women were raised in nurturing family environments that were literally training grounds for success, instilling the values that make this group one of the most generous in American society as demonstrated by its level of giving to charities, family, and friends. While many characteristics such as frugality and simplicity of lifestyle are similar to those of

their male counterparts, Stanley demonstrates that most millionaire women work harder and do better; at school, in business, and in investment practices. Millionaire Women is sure to be one of the most read, reviewed, and discussed books to come out this year. Make your own wise investment for a wealth of solid sales.
