Can't sleep because your thoughts won't switch off? Ever walked into a room to get something, only to realise you've forgotten what you were looking for? Does a constant stream of unnecessary chatter run through your head? Do you wish you could stop that mental noise whenever you wanted to? SILENCE YOUR MIND offers a completely new approach to meditation - the experience of mental silence - that will help recharge your mental batteries and leave you feeling more positive, dynamic and wholly engaged with the world. It clearly explains how just 10 to 15 minutes of simple meditation practice each day can turn off that unnecessary mental chatter, thereby awakening your hidden abilities in work, sport, studies and creative pursuits. Scientifically based, this is fundamentally different from any meditation book you may have read before. Australian Dr Ramesh Manocha is leading the world in research into the positive impacts of the mental silence experience. His findings show that authentic meditation is easy, enjoyable, health-giving and life-changing. Meditation can unleash your potential for good mental and physical health and maximum performance, and help you to live fully in the present moment. Royalties from the sale of SILENCE YOUR MIND will be directed to further research and educational activities in the field of meditation. Balsekar is an awakened sage whose long life has been devoted to Ramana Maharshi and whose final guru was Nisargadatta Maharaj. Poignantly clear, precise, delightful, and humorous, his teaching makes life simple. - Spiritual Master Ramesh Balsekar used to speak about a concept called 'Reversing into the future'. We usually believe in a linear time sequence: because 'A' happened so 'B' happened and because 'B' happened 'C' happened and so on. But according to his concept, it worked exactly the other way around. Because 'C' had to happen, 'B' had to happen and because 'B' had to happen 'A' had to happen. Anybody who happened to meet Ramesh would aver that the proof of this concept lay in the way they were mysteriously led to meet him...a stranger mentioning his name; chancing upon a flyer nailed to a telegraph pole; reading a book authored by him which was left face down by a co-passenger on a flight; a bookshop owner recommending to a random shopper that he should meet this 'Guru from India'; accompanying a friend and staying on to becoming a fan; and so on and so forth. In one particular case, someone actually made a checklist of attributes he was looking for in a Guru - if and when he found him - and he was miraculously led to Ramesh who just happened to tick off every single criterion! These stories of how spiritual seekers happened to meet Ramesh - no, how Consciousness was led to meet Consciousness - are fascinating not just because they reveal the mysterious ways of Existence but also because they often denote the culmination of a long journey for many of them. In Hanuman Chalisa, there is a line that so wonderfully encapsulates Hanuman's love and devotion to Ram: 'Prabhu charitra sunibay ko rasiya' - 'Ever eager to hear stories about Him'. Yes, the stories themselves are so deeply satiating. • Learn to be the leader you always wanted to have. • If you own a start-up or small/medium business, this book is the only 'play-book' you will need. • A first-time manager has very unique requirements. This book can be your guide to success. • Learn what it takes for you to climb the corporate ladder. If you are a mid-level executive, this book can be your mentor and advisor. • We don't need more leaders. We need more good leaders. Research indicates that half of all senior external hires in organizations fail within the first 18 months. • Leadership is a social process of influencing others. If you are a senior leader, then learn how to walk the talk. • All leaders are not necessarily born leaders. Leadership behaviors can be learnt. This book can be a leadership guide you can rely on. The building of the no. 1 newspaper empire in India was like an architect ground plan – Ramesh Chandra Agarwal laid the foundation edition by edition, city by city, state by state, going into the den of the mightiest and slaying them without fear. That quality of never cowering was an inheritance from his father. Ramesh Chandra blended it with an unparalleled taste for risk-taking and a thirst for venturing into the unknown, throwing this molotov cocktail at his rivals who stood mocking the new entrants before it hit them. In 35 short years, he turned a modest family-owned newspaper into the prime choice of readers in 12 states with 64 editions, and built an empire with a turnover of Rs 5, 000 crore. But Ramesh Chandra Agarwal's biggest professional achievement was to revolutionise the Hindi newspaper. Replacing the pure, undistilled Hindi of the discerning litterateur with popular, colloquial words that made an easy connect, he gave the Hindi newspaper a hitherto unknown respect – to heave its chest and play the game like a champion. This is a champion's story. Our world is witnessing a major change in communication patterns, with expanding social spheres, openness in communication and professionals working in multicultural environments. It is crucial, therefore, that India's workforce remains world-class, through re-training and continuous improvement, to remain competent, competitive and successful. To create and nurture successful professionals, the acquisition, cultivation and fine-tuning of soft skills are highly essential in the given business paradigm. The ACE of Soft Skills is a part of this educational process that produces top-notch professionals. Divided into three parts-Attitude, Communication and Etiquette-this unique book provides a broad-based coverage of what constitute soft skills. The foundations of soft skills lie in a strong attitude; this attitude gets manifested as communication, which gets further refined as etiquette. This book covers a wide range of topics-a gamut of nearly 40 essential soft skills-including personal accountability, listening skills, business proposals, and the role of small talk and humour at work. The numerous case studies, cartoons, figures, tables and quotations not only offer an insightful, practical and well-rounded perspective into soft skills, but also make reading a joyful experience. Food Microbiology is the study of action of microbes on food. The book discusses in a narrative style, the interaction between microbes, food and the environment besides tracing the beneficial and harmful effects of microbial growth in food. The contents of the book have been sequentially divided into 5 units giving a detailed account of the various aspects of food as an ecosystem, preservation techniques? both traditional and advanced, importance of microbial degradation and fermentation of food along with the prevalent food-borne diseases. The laboratory diagnosis of the food-borne pathogens and their isolation, identification and characterization would be useful for students, researchers and teachers. "First and foremost, Dr. Chandra welcomes Dr. Arman Rahmim as a coauthor for this new edition of the book"-- Ramesh Balsekar's teaching is simple to grasp. He shows us the way to peace and harmony in daily living, while facing life from moment to moment. Accepting the words of the Buddha that "Events happen, deeds are done, but there is no individual doer of any deed," is a gateway to this peace. All actions are happenings which could not have happened unless they were ordained by the Source, which some identify as God. In this book, Balsekar gives the essence of his teaching in short, simple passages that everyone can understand. Subjects covered range from 'Free Will' to 'Meditation'. The book is a collection of individual quotes, some just a single sentence and others a few paragraphs long. Each quote, a sparkling jewel through which the teaching shines forth, is complete in itself. Ramesh Balsekar's focus is on the practical aspect of spirituality. Something to be lived each day of our lives, and not pursued as a lofty ideal. He draws the essence of his teaching from the Indian philosophy of Advaita (non-duality) which affirms that there is only 'One Source'. This book reflects the core concepts of the Advaita philosophy, placed in today's context by Balsekar, for the benefit of the reader. The Mahabharata is the more recent of India's two great epics, and by far the longer. First composed by the Maharishi Vyasa in verse, it has come down the centuries in the timeless oral tradition of guru and shishya, profoundly influencing the history, culture, and art of not only the Indian subcontinent but most of south-east Asia. At 100,000 couplets, it is seven times as long as the Iliad

and the Odyssey combined: far and away the greatest recorded epic known to man. The Mahabharata is the very Book of Life: in its variety, majesty and, also, in its violence and tragedy. It has been said that nothing exists that cannot be found within the pages of this awesome legend. The epic describes a great war of some 5000 years ago, and the events that led to it. The war on Kurukshetra sees ten million warriors slain, brings the dwapara yuga to an end, and ushers in a new and sinister age: this present kali yuga, modern times. At the heart of the Mahabharata nestles the Bhagavad Gita, the Song of God. Senayor ubhayer madhye, between two teeming armies, Krishna expounds the eternal dharma to his warrior of light, Arjuna. At one level, all the restless action of the Mahabharata is a quest for the Gita and its sacred stillness. After the carnage, it is the Gita that survives, immortal lotus floating upon the dark waters of desolation: the final secret! With its magnificent cast of characters, human, demonic, and divine, and its riveting narrative, the Mahabharata continues to enchant readers and scholars the world over. This new rendering brings the epic to the contemporary reader in sparkling modern prose. It brings alive all the excitement, magic, and grandeur of the original - for our times.

**HUMBLE AND DETERMINED** A quiet and well-respected man, who prefers maintaining a low-profile and loves his work, he till date is an active sportsperson. **Financial Analyst's Indispensable Pocketguide** is the first reference to give the more than 20,000 candidates who take AIMR-administered CFA exams annually—and the 60,000-plus CFAs and finance professionals who currently practice investment management—a single broad-based resource for specific terminology and information. Much more than just a dictionary, this dynamic book explains and expands upon the fundamental concepts that comprise a financial analyst's lexicon. Within each section, Ramesh arranges fundamental terms alphabetically, then provides CFA-related tips and profiles of industry leaders. Key topics include: \*Timeless tips for CFA candidates and practitioners \*Graphics and mnemonics to help with important concepts \*Derivatives, equity valuation, and portfolio management

**I Hope You'll Still Love Me** documents the multifaceted experience of being South Asian and LGBTQIA+. These narratives explore coming out to yourself and family and friends, falling in love, recovering from heartbreak, battling body image issues, searching for spaces to be simultaneously queer and South Asian, the influence of fanfiction, navigating religion, the demand for perfection, transracial adoption, being transgender and South Asian, gender confirmation surgery, finding community, and so much more. Through tales of vulnerability, heartbreak, and triumph, contributors lay their truth out for readers, to tell those going through similar experiences that they are not alone, and to guide loved ones who are invested in understanding. "The Bible is what God has made. Sermons are what we make with what God has made." This is the foundation for developing expository messages, according to Ramesh Richard. His method, explained in **Preparing Expository Sermons**, has been field-tested in training seminars for thousands of preachers around the world. Richard's book is a simple do-it-yourself resource for developing and preaching expository sermons. It guides the reader through a seven-step process, with many practical suggestions and illustrative charts along the way. In addition, there are eleven appendixes that include information on: o how to choose a text o preaching narratives o understanding your audience o forms of sermon introduction A comprehensive sermon evaluation questionnaire is included as well. **Preparing Expository Sermons**, an updated and expanded version of **Scripture Sculpture**, is ideal for beginning preachers, lay preachers without formal training, or any pastor who is looking for a refresher course in expository sermon preparation. This is a comprehensive treatise on fibroids with colour atlas presenting a selected collection of original images for undergraduate and postgraduate medical students, gynecology residents, practising gynecologists and laparoscopic surgeons.

**Studying Public Policy** develops an analytical framework for its subject for use by students in public policy courses. Instead of focussing on substantive policy issues in particular policy areas, this book examines the theoretical and conceptual foundations of, and approaches used, in the policy sciences. Divided into four parts. Part 1 outlines the scope and parameters of the policy studies field and the philosophical basis of theories most common in the discipline; Part 2 discusses the actors, institutions, and instruments found in public policy communities; Part 3 focuses on the policy process itself and how public policy is made; Part 4 examines the phenomena of policy change.

First factual account of the nation-wide kidney scams rampant for the past many decades. From an acclaimed economist and politician, a unique, never-before-seen look at the life of one of India's most well-known prime ministers—Indira Gandhi—and her work to protect the environment and champion the preservation of nature and the climate. Indira Gandhi, prime minister of India for sixteen years, was as charismatic as she was controversial—both admired and criticized for her political judgments and actions. Yet what has never been fully revealed is her lifelong commitment and love for nature and how that defined her very being. Weaving personal, political, and environmental history, politician and scholar Jairam Ramesh presents a compelling portrait of an extraordinary public figure. He chronicles how and why she made a personal passion a public calling; how her views on the environment remained steadfast even as her political and economic stances evolved; how her friendships with conservationists led to far-reaching decisions to preserve India's biodiversity; how she urged, cajoled and persuaded her colleagues in making significant decisions regarding forests and wildlife; and how her own finely developed instincts and initiatives resulted in landmark policies, programs, and laws that have endured to this day.

Drawing extensively from unpublished letters, notes, messages and memos, **Indira Gandhi: A Life in Nature** is both a lively, engaging narrative about the little-known parts of Indira Gandhi's life, and also sheds important light on climate change and sustaining the environment—today's most pressing global issues. The oldest science in the world, Astrology, is often misunderstood. For those seeking the true meaning of the zodiacal signs, their influences on us, and their connection to our evolution, **Mysteries of the Zodiac**, is a must-read. **Mysteries of the Zodiac** gives us the esoteric meaning of the components of astrology and explains it to us in an easy to understand way. Learn astrology the way the mystery schools taught it. This knowledge of the stars and the zodiac has previously been kept hidden until now. **Mysteries of the Zodiac** is the authoritative book on esoteric astrology and how to apply the influences of the zodiac to expand your consciousness. A story of how the best form of worship is through service to ones fellow beings. Do you want to better yourself to your highest potential? Have you been seeking help on how to control your mind, body, and soul and use it for your benefit? If the answer is YES to any of these two questions, then **Noetics - The Science of Reaching Man's Highest Potential** is a must read! As we enter the New Age, mankind must take the steps toward his next evolutionary stage. Evolution of the mind, body, soul, and most importantly, the consciousness is crucial at this point in man's existence. Man's consciousness must evolve, it must change. Mankind has been suppressed, and taught to live by certain imposed laws and values. It has been given ideas to absorb and taught what to think instead of HOW TO THINK. It is now time to take a step out of the box and re-evaluate these laws and values that do not serve us as individuals or as a society and start living by the laws and values which will propel us and humanity to the next step of evolution. **Noetics** shows you HOW TO THINK. We must evolve naturally, the way it was intended. **Noetics - The Science of Reaching Man's Highest Potential** is the definitive book on what must be done by individuals and the world at large so that we can take the next step. **Illuminism** is the science of knowing. The explanation of the human body, the psychology of the soul, and the power of the spirit. **Illuminism** shines a light on these concepts which, up until now, have been shrouded in darkness. **Illuminism** is the religion of the new age and is based on the science of **Noetics**. It is the way out of the cycle and into the light. Realize your highest potential in life and become what you want. **Illuminism** and **Noetics** is the way. It can be a religious doctrine, as it does serve as the doctrine for the Church of **Illuminism** but it ALSO is a self-help book, teaching how to master yourself and use your mental power to achieve what you want in life. **Noetics - The Science of Reaching Man's Highest Potential** is the ultimate guide for the self-improvement. **Illuminism** is based on concrete knowledge and science. Learning how to think is one of the most fundamentally important things that we must learn to do. "Man" is literally "one who thinks", so we must now learn how and reach the apex of using these mental faculties within us. **Illuminism** and the proper teachings of esoteric sciences has a special significance to humanity. **Noetics, The Science of Reaching Man's Highest Potential**, is the key to transmuting the world's poor modern educational systems and mental sciences with the real truth and substance of the science of the soul and esoteric psychology. This transmutation can lead mankind out of the darkness and into the light. This innovative textbook presents an experiential, holistic approach to multimedia computing along with practical algorithms. A worthy successor to **I AM THAT** Ramesh's most accessible and easy to understand book. An excellent place to start or end your search. It is highly recommended both for the newcomer to Advaita and the more knowledgeable student of the subject. Based on Bahl and Bhartia's popular 1980 classic, **Microstrip Antennas**, this all new book provides the detail antenna engineers and designers need to design any type of microstrip antenna. After

addressing essential microchip antenna theory, the authors highlight current design and engineering practices, emphasizing the most pressing issues in this area, including broadbanding, circular polarization, and active microstrip antennas in particular. Special design challenges, ranging from dual polarization, high bandwidth, and surface wave mitigation, to choosing the proper substrate, and shaping an antenna to achieve desired results are all covered. One of the most misunderstood symbols throughout history, Baphomet, holds a deep, and important meaning. Incorrect ideas from the past have continued on today about this mysterious symbol. Many people claimed that Baphomet is Satan and evil. Baphomet is featured Biblically, in the Book of Genesis, although not by that name, and is related to the mystery of the serpent. Baphomet's true meaning is an ancient arcanum which is of the highest importance to understand on anyone's quest to learn the secret knowledge of the gods. Since retiring as president of the Bank of India, Ramesh Balsekar has been teaching Advaita (non-duality) for over twenty years to seekers from around the world. He has also written a number of books on Advaita. In the conversations in this book Ramesh points to the 'intrinsic closeness' between modern physics, Hinduism and Buddhism in their similar recognition of the 'Unbroken Wholeness' of the manifest universe. In context of his concept of how life happens, Ramesh answers the question: "What is it that distinguishes a sage from an ordinary person?" His answer: "A sage enjoys the shanti (peace) of nirvana while living his life in the samsara of dukkha (misery)." In the conversations Ramesh opens the way to freedom from bondage to the conceptual universe. Apotheosis -The Journey to God is the foundational doctrine for the religion of the new age, Illuminism. Apotheosis is a truthful exposition on the condition of mankind, and offers the road of illumination, with an ultimate goal of apotheosis, as the answer. Proven scientific and spiritual concepts are discussed as being the guidelines of this new religion. Illuminism is the doctrine that we have all been searching for. Mankind must develop their beings to the highest point, to the apex of development, then only can we see what lies ahead of us. Illuminism is the religion for all mankind, it is the next step in man's evolution! In the 21st century, the world is faced with threats of global scale that cannot be confronted without collective action. Although global government as such does not exist, formal and informal institutions, practices, and initiatives—together forming "global governance"—bring a greater measure of predictability, stability, and order to trans-border issues than might be expected. Yet, there are significant gaps between many current global problems and available solutions. Thomas G. Weiss and Ramesh Thakur analyze the UN's role in addressing such knowledge, normative, policy, institutional, and compliance lapses. The UN's relationship to these five global governance gaps is explored through case studies of some of the most burning problems of our age, including terrorism, nuclear proliferation, humanitarian crises, development aid, climate change, human rights, and HIV/AIDS.
