This volume provides guidance on information acquisition, including copyright and contract matters. Originally known as a brand for greeting cards, Hallmark has seen a surge in

popularity since the early 2010s for its made-for-TV movies and television channels: the Hallmark Channel and its spinoffs, Hallmark Movie Channel (now Hallmark Movies & Mysteries) and Hallmark Drama. Hallmark's brand of comforting, often sentimental content includes standalone movies, period and contemporary television series, and mystery film series that center on strong, intuitive female leads. By creating reliable and consistent content, Hallmark offers people a calming retreat from the real world. This collection of new essays strives to fill the void in academic attention surrounding Hallmark. From the plethora of Christmas movies that are released each year to the successful faith-based scripted programming and popular cozy mysteries that air every week, there is a wealth of material to be explored. Specifically, this book explores the network's problematic relationship with race, the dominance of Christianity and heteronormativity, the significance placed on nostalgia, and the hiring and re-hiring of a group of women who thrived as child stars. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. *Get Reel* gives you tools to view the media in a completely new way that will create mental, physical, and spiritual health and happiness while you view. In a media-heavy world, you can be the producer of your life and learn how to view TV, movies, and the Internet consciously and stop being influenced by the hypnotic effects of their messages. You will become aware of the ways that viewing media causes hypnosis and how you can break any trance you may have absorbed, replacing it with your own ideas of how you want to live your life. *Get Reel* moves you from pursuing goals and ideas that you attempt to fulfill without satisfaction toward the ones that are truly your own. It provides the blueprint on how to:

- break any ineffective belief or hypnotic trance that you unconsciously absorbed from the media, your family, peers, or any outside influence;
- discover the conscious, effective, fulfilled person that you truly are, free of outside influence;
- learn conscious living skills that will enable you to view each opportunity in your life with full awareness, allowing you to make the best choices;
- continue to enjoy the entertaining, educational, and fun benefits of your favorite website, TV show, or movie;
- turn struggles into open pathways to your happiness and success with trance-breaking techniques; and
- have a great time in the process.

"This book explores the representation of Helen of Troy in Hollywood film and television, with a particular focus on her defining features: transcendent beauty and transgressive erotic agency. The first chapter, on early Hollywood, sets the scene by explaining the importance of ideas about Greek beauty at the beginning of cinema and highlighting some of the problems that continue to bedevil this topic, especially "realism" and the representation of supreme beauty. Blondell argues that the problem of Helen is baked into Hollywood from the start. In subsequent chapters Blondell examines specific screen adaptations in which Helen is featured. Each of these case studies locates a particular work in its historical, cultural, and generic context, as a framework for addressing the ways in which it approaches a range of interlocking questions about beauty, its representation, and the cinematic uses of myth. The second chapter is devoted to the sole Hellenic feature film of the silent period, Alexander Korda's *Private Life of Helen of Troy* (1927). Part II moves to the big screen epic, pairing one film from each of the two great waves of ancient world epic spanning the latter half of the 20th century: Robert Wise's 1956 epic *Helen of Troy* and Wolfgang Petersen's more recent extravaganza, *Troy* (2004). In Part III she turns to television, with a chapter on episodic tele-fantasy followed by a study of the 2003 miniseries *Helen of Troy*. In some of these works Helen is the central character (or "hero"); in others she is at the periphery of a masculine adventure. But in all of them she represents the threat of superhuman beauty as an inheritance from classical Greece"--

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. This volume examines the shift toward positive and more accurate portrayals of mental illness in entertainment media, asking where these succeed and considering where more needs to be done. With studies that identify and analyze the characters, viewpoints, and experiences of mental illness across film and television, it considers the messages conveyed about mental illness and reflects on how the different texts reflect, reinforce, or challenge sociocultural notions regarding mental illness. Presenting chapters that explore a range of texts from film and television, covering a variety of mental health conditions, including autism, post-traumatic stress disorder (PTSD), depression, and more, this book will appeal to scholars of sociology, cultural and media studies, and mental health. Histories of science fiction often discuss Fritz Lang's Metropolis as a classic work within the genre--yet the term "science fiction" had not been invented at the time of the film's release. If the genre did not have a name, did it exist? Does retroactive assignment to a genre change our understanding of a film? Do films shift in meaning and status as the name of a genre changes meaning over time? These provocative questions are at the heart of this book, whose thirteen essays examine the varying constructions of genre within film, television, and other entertainment media. Collectively, the authors argue that generic labels are largely irrelevant or even detrimental to the works to which they are applied. Part One examines the meanings of genre and reveals how the media is involved in the production and dissemination of generic definitions. Part Two considers specific films (or groups of films) and their relationships within various categorizations. Part Three focuses on the closely tied concepts of history and memory as they relate to the perceptions of genre. Draws on extensive historical and contemporary sources to provide definitions for terms from their earliest appearances, in a latest edition that has been expanded to include more than 18,000 entries. An empowering memoir that can inspire others to break the cycle of abuse and forge happiness out of extreme adversity. The ninth child of bounty hunter Duane Chapman, made famous on the A&E show Dog the Bounty Hunter, Lyssa Chapman has overcome an upbringing that can only be called tragic. In her piercing memoir, she shares the details of her harrowing childhood and her journey to faith, and offers compassionate guidance, advice, and hope to those who might feel overwhelmed in their own circumstances. As a child, Baby Lyssa's parents divorced and left her neglected. Things only got worse from there. Walking on Eggshells reveals Lyssa's nightmare passage from mental and physical abuse to

removal from school and confinement at home, flight from protective services, and teen pregnancy. Despite it all, and against incredible odds, Lyssa found her faith. She also found her way out of the spiral of bad decisions to build a healthy relationship with her parents and forge a rewarding, positive life with God. An astonishing true story of one young woman's trek from poverty and abuse to fulfillment and stardom, Walking on Eggshells is heartrending, powerful, and inspiring. The acclaimed travel and style magazine presents a curated portrait of Paris for visitors with a passion for culture, design, and architecture. Inspired by their extensive travel for the magazine, Cereal founders Rich Stapleton and Rosa Park began issuing a series of city guides that highlight their favorite places to visit. Curated rather than comprehensive, Cereal City Guide: Paris explores points of interest and venues that reflect Cereal's aesthetic and unique sensibility. Rich and Rosa have personally visited hundreds of venues in Paris, distilling their preferred locales down to their firm favorites. From lively, local cafés to design-driven boutiques that channel the inimitable Parisian savoir faire, these hidden treasures offer a more personal take on the city. Meticulously researched and illustrated with original photography, this guide includes photo essays of the city, an illustrated neighborhood map, interviews and essays from celebrated locals, essential architectural points of interest, museums, galleries, day trips outside the city, and unique goods to buy. The objective of this book is to establish schools that positively impact all aspects of the total development of students. Beginning with age four or five, most children spend the majority of their conscious hours at school. Many of the evils of our society are perpetrated by people with no vision or purpose, and no respect for other humans. Too many students leave school with no goals and employable skills. Many athletes, who were tutored or given grades to keep them eligible for sports and were discarded when the eligibility expired, ended up with or without a high school diploma or college degree and no skills. A few managed to get into professional sports, but competition, injuries, unenlightened mismanagement of funds, and early retirement left them with no skills. Young girls frequently

became parents with no homemaking skills. These individuals sometimes harbor resentment for former schoolmates who are busily working toward the achievement of their goals and this resentment is frequently manifested by some action. The aim of this book is to develop schools where students are programmed for future success, beginning in kindergarten. To do this, schools districts must interact with businesses, colleges, corporations, and any other entities where students seek careers in order to establish objectives that guide students toward those careers. Schools should provide experiences where meaningful character traits are developed. The final expected result will be a new respect for education and a society where the majority of the citizens are goal driven and wish to make a meaningful contribution, and a very few people who just exist. Citizens of a society, who are busy working toward some desirable objectives, are less likely to have time for unlikely and illegal pursuits. Smart women understand that taking care of their health is essential to maintaining an active lifestyle. woman who is motivated to become a more effective steward of her health. The authors' relaxed, personal, and insightful style makes critical health information accessible. This book is a must-have for any woman inspired to improve her health trajectory. -Mark C. Pettus MD, FACP, medical director of the Kripalu Institute for Integrated Healing and author of *It's All in Your Head* There is no doubt that women past the age of fifty have different health issues than younger women—a fact often overlooked by many physicians. These women need to know how to care for their maturing bodies. Drs. Horn and Miller explore the full spectrum of mature women's health issues in a candid, conversational manner that integrates the body, mind, and spirit. A much-needed book. -Kevin Soden, MD, host of *Healthline on Retirement Living Television* I have often wished that there were a doctor in my family I could ask for health advice. If you have shared this desire, you'll love this book. It's a practical insider's guide to what maturing women need to be thinking about, and it's written as though the authors were concerned friends talking with you. Drs. Horn and Miller have superb training and years of practical experience caring for women patients. It shows on every page of this excellent book. -Judge Glenda Hatchett, star of the nationally syndicated television program *Judge Hatchett* The authors' approach is accessible and entertaining. These are the doctor girlfriends you want to call because they know everything about the area of your concern—not only from their medical practices, but also from their own personal experiences. -Robin Wolaner, founder of *Parenting* magazine and founder and CEO of *TeeBeeDee* (tbd.com), an online network for people over forty This is the girlfriends' guide to taking charge of your health. And these girlfriends are doctors. A winning combination! -Ari Brown, MD, pediatrician and author of *Baby 411* This book traces how the American freak show has re-emerged in new visual forms in the 21st century. It explores the ways in which moving image media transmits and contextualizes, reinterprets and appropriates, the freak show model into a “new American freak show.” It investigates how new freak representations introduce narratives about sex, gender, and cultural perceptions of people with

disabilities. The chapters examine such representations found in horror films, including a prolonged look at *Freaks* (1932) and *The Texas Chainsaw Massacre* (1974), documentaries such as *Murderball* (2005) and TLC's *Push Girls* (2012-2013), disability pornography including the pornographic documentary *Sick: The Life and Death of Bob Flanagan Supermasochist* (1997), and the music icons Marilyn Manson and Lady Gaga in their portrayals of disability and freakishness. Through this book we learn that the visual culture that has emerged takes the place of the traditional freak show but opens new channels of interpretation and identification through its use of mediated images as well as the altered freak-norm relationship that it has fostered. In its illumination of the relationship between normal and freakish bodies through different media, this book will appeal to students and academics interested in disability studies, gender studies, film theory, critical race theory, and cultural studies. *Ultimate Guide to YouTube for Business* helps small business owners create marketing videos to help promote their products, share their story, build a community around their brand without spending a fortune—all the while making money. **Table of Contents** 6 **Building An IoT Device Using an ODROID-C2: Street and Home Lights Controller With SMS Notifier** 15 **How To Get Fancy Color Images From A Simple Sensor Image: Using The Bayer Pattern To Create An RGB Color Image** 17 **Alarm Central: Part 1 - RF24 Window Sensor and MIRROR Library** 22 **Ancestor: A Game Full Of Fun With Perfect Gameplay, Visuals and Details** 23 **Ultra-HD 4K Ambientlight: Create A Spectacular Synchronized Visual Background For Your Home Theater** 26 **Docker 101: Part 1 - Why Docker?** 31 **Linux Gaming: Get Serious With The Serious-Engine** 33 **Android Development: Android WiFi Stack** 36 **MythTV: Running The Open-Source Home Entertainment Application On Your ODROID-C2** 39 **Android Nougat: Impress Your Friends With The Latest Android Version** 40 **Accelerated Video Playback For Browsing On The ODROID-C2: Watch Your Web Media Content In Full HD** 44 **Meet An ODROIDian: Joachim Althof**
