The activist and TED speaker Megan Phelps-Roper reveals her life growing up in the most hated family in America At the age of five, Megan Phelps-Roper began protesting homosexuality and other alleged vices alongside fellow members of the Westboro Baptist Church in Topeka, Kansas. Founded by her grandfather and consisting almost entirely of her extended family, the tiny group would gain worldwide notoriety for its pickets at military funerals and celebrations of death and tragedy. As Phelps-Roper grew up, she saw that church members were close companions and accomplished debaters, applying the logic of predestination and the language of the King James Bible to everyday life with aplomb—which, as the church's Twitter spokeswoman, she learned to do with great skill. Soon, however, dialogue on Twitter caused her to begin doubting the church's leaders and message: If humans were sinful and fallible, how could the church itself be so confident about its beliefs? As she digitally jostled with critics, she started to wonder if sometimes they had a point—and then she began exchanging messages with a man

who would help change her life. A gripping memoir of escaping extremism and falling in love, Unfollow relates Phelps-Roper's moral awakening, her departure from the church, and how she exchanged the absolutes she grew up with for new forms of warmth and community. Rich with suspense and thoughtful reflection, Phelps-Roper's life story exposes the dangers of black-and-white thinking and the need for true humility in a time of angry polarization. Written in response to the demand from clients and astrology students, this book provides an introduction to the financial universe, illustrating the role of the Sun, Moon, planets, and major planet cycles in market movements. In The Beginners Guide to the Financial Universe, financial astrologer Christeen Skinner takes a step-by-step approach to understanding how the events in the solar system affect market movements. Starting with the sunspot cycle and moving on to seasonality charts and lunar trading, she presents information in an easy-to-read style. As viewed from Earth, the planets each have periods when they appear to be retrograde, i.e., moving backward relative to Earth. These periods and their correlation with market activity are considered along with the role Mars plays as it moves through each sign of the zodiac. The phases of a recognized 20-year business cycle—the exact period between one conjunction of Jupiter and Saturn and the next—are also explored. The concluding chapter offers date, time, and place data that can be used for further investigation. Chapters include the following: The Sunspot Cycle and the Markets Seasonality Charts and Key Dates Trading with Mercury and Venus The Role of Mars in Commodity Trading The Jupiter-Saturn 20-Year Business Cycle Charts of Key Markets and Indices The most comprehensive guide on postgraduate grants and professional funding globally. For thirty-four years it has been the leading source for up-to-date information on the availability of, and eligibility for, postgraduate and professional awards.
