*Leonardo's Art Workshop Mar 12 2021* Leonardo's Art Workshop leads children on an interactive adventure through key art concepts by following the multidisciplinary approach of the Renaissance period polymath Leonardo da Vinci: experimenting, creating projects, and exploring how art intersects with science and nature. Photos of Leonardo's own notebooks, paintings, and drawings provide visual inspiration. More than 500 years ago, Leonardo knew that the fields of science, technology, engineering, art, and mathematics (STEAM) are all connected. The insatiably curious Leonardo examined not just the outer appearance of his art subjects, but the science that explained them. He began his studies as a painter, but his curiosity, diligence, and genius made him also a master sculptor,

architect, designer, scientist, engineer, and inventor. The *Leonardo's Workshop* series shares this spirit of multidisciplinary inquiry with children through accessible, engaging explanations and hands-on learning. Following Leonardo's example, this fascinating book harnesses children's innate curiosity to explore the foundational elements of art—color, shadow and light, lines and patterns, forms and structures, and optics and special effects—and the science behind them. After each concept is explained using science, history, and real-world examples, kids can experience the principles first-hand with step-by-step STEAM projects, including: Create paints and dyes from food Harness a rainbow with a prism Build a camera obscura Make your own sundial Practice blind contour drawing Create a one-point perspective drawing Make an infinity scope Insight from other great artists and scientists—such as Sir Isaac Newton, Sandro Botticelli, Paul Klee, and Leonardo Pisano Fibonacci—are woven into the lessons throughout. Introduce vital STEAM skills through visually rich, hands-on learning with *Leonardo's Art Workshop*.

She doesn't remember the crime she committed that landed her in the cold, twisting caverns of the prison planet Colel-Cab with only fellow prisoner Chela for company. Royal Observer Corps Jul 16 2021 The key roles played by the Royal Observer Corps in the Second World War have, all too often, been overshadowed by more glamorous arms of the defense forces. The teams in the Sector Stations, plotting the battles raging above, and the Spitfires and Hurricanes swooping upon the formations of enemy fighters and bombers, present easily imagined and dramatic scenes. Yet between the radar stations, detecting the German aircraft approaching over the Channel, and the Sector Controls were the little sandbagged posts of the Observer Corps that provided overland tracking of the enemy formations. The Royal Observer Corps (the Royal prefix being approved in 1941) proved a vital link in the communication chain in the defense of the UK, particularly in the Battle of Britain, as it provided the only means of tracking enemy aircraft once they had crossed the coastline. The highly skilled Observers were also able to identify and count the enemy aircraft, turning blips on a screen into actual types and numbers of German machines. Even after the threat from the Luftwaffe receded after the Battle of Britain and the Blitz, the ROC again came to the fore when the V1s opened a new reign of terror in 1944. Because these small, fast weapons were so hard to detect the RAF's fighter controllers moved into the ROCs operations rooms so that they could respond to the V-1 threat more rapidly. In this official history of the ROC written shortly after the war, the corps operations throughout the conflict are set out in great detail. This includes a section on the last flight of Rudolf Hess, as well as one detailing the work of those who were selected for employment as Seaborne Observers on ships during

the D-Day landings, where their specialist identification skills were used to prevent the all-too prevalent instances of friendly fire. This history provides an account of the ROC which is just as important in understanding the operations of the corps as the Observers were in the defense of the United Kingdom during the Second War.

*Eco-Urbanism and the South East Asian City* Jul 04 2020 This book traces the history of urban design in tropical South East Asia with a view to offering solutions to contemporary architectural and urban problems. The book examines how pre-colonial forms and patterns from South East Asian traditional cities, overlaid by centuries of change, recall present notions of ecological and organic urbanism. These may look disorganised, yet they reflect and suggest certain common patterns that inform eco-urban design paradigms for the development of future cities. Taking a thematic approach, the book examines how such historical findings, debates and discussions can assist designers and policy makers to interpret and then instil identities in urban design across the Asian region. The book weaves a discourse across planning, urban design, architecture and ornamentation dimensions to reconstruct forgotten forms that align with the climate of place and resynchronise with the natural world, unearthing an ecologically benign urbanism that can inform the future. Written in an accessible style, this book will be an invaluable reference for researchers and students within the fields of cultural geography, urban studies and architecture.

*The White Silhouette* Jun 26 2022 At the heart of James Harpur's *The White Silhouette* is a meditative poem inspired by the *Book of Kells* - a poem that follows threads into themes such as the nature of the divine, the efficacy of sacred art, and the way of silence. The title poem - described in the TLS as a 'compelling spiritual memoir' - is a haunting journey of 'missed encounters' in the landscapes of Wiltshire, Tipperary, and Patmos. Elsewhere, Harpur writes about pilgrimage, the Perseids, mystical experiences, and icons and iconoclasm - from Rublev's golden images to decapitated angels in Galway. He complements his explorations of the sacred with more directly personal poems, including elegies and elegiac translations from Homer and Horace. Harpur's poetry is distinguished by its lyric grace and mythohistorical resonance. The musical texture of his lines conveys the warmth, clarity and intimacy of a voice exploring

the mysteries of natural, human, and metaphysical worlds. *The White Silhouette* is the richest summation of his spiritual journey to date.

*Orange World and Other Stories* Sep 05 2020 From the Pulitzer Finalist and universally beloved author of the New York Times best sellers *Swamplandia!* and *Vampires in the Lemon Grove*, a stunning new collection of short fiction that showcases Karen Russell's extraordinary, irresistible gifts of language and imagination. Karen Russell's comedic genius and mesmerizing talent for creating outlandish predicaments that uncannily mirror our inner lives is on full display in these eight exuberant, arrestingly vivid, unforgettable stories. In "Bog Girl", a revelatory story about first love, a young man falls in love with a two thousand year old girl that he's extracted from a mass of peat in a Northern European bog. In "The Prospectors," two opportunistic young women fleeing the depression strike out for new territory, and find themselves fighting for their lives. In the brilliant, hilarious title story, a new mother desperate to ensure her infant's safety strikes a diabolical deal, agreeing to breastfeed the devil in exchange for his protection. The landscape in which these stories unfold is a feral, slippery, purgatorial space, bracketed by the void—yet within it Russell captures the exquisite beauty and tenderness of ordinary life. *Orange World* is a miracle of storytelling from a true modern master.

*Faulkner and Slavery* Nov 19 2021 Contributions by Tim Armstrong, Edward A. Chappell, W. Ralph Eubanks, Amy A. Foley, Michael Gorra, Sherita L. Johnson, Andrew B. Leiter, John T. Matthews, Julie Beth Napolin, Erin Penner, Stephanie Rountree, Julia Stern, Jay Watson, and Randall Wilhelm In 1930, the same year he moved into Rowan Oak, a slave-built former plantation home in his hometown of Oxford, Mississippi, William Faulkner published his first work of fiction that gave serious attention to the experience and perspective of an enslaved individual. For the next two decades, Faulkner repeatedly returned to the theme of slavery and to the figures of enslaved people in his fiction, probing the racial, economic, and political contours of his region, nation, and hemisphere in work such as *The Sound and the Fury*; *Light in August*; *Absalom, Absalom!*; and *Go Down, Moses*.

*Faulkner and Slavery* is the first collection to address the myriad legacies of African chattel slavery in the writings and personal history of one of the twentieth century's most incisive authors on US slavery and the long ordeal of race in the Americas. Contributors to the volume examine the constitutive links among slavery, capitalism, and modernity across Faulkner's oeuvre. They study how the history of slavery at the University of Mississippi informs writings like *Absalom, Absalom!* and trace how slavery's topologies of the rectilinear grid or square run up against the more reparative geography of the oval in Faulkner's narratives. Contributors explore how the legacies of slavery literally sound and resound across centuries of history, and across multiple novels and stories in Faulkner's fictional county of Yoknapatawpha, and they reveal how the author's remodeling work on his own residence brought him into an uncomfortable engagement with the spatial and architectural legacies of chattel slavery in north Mississippi. *Faulkner and Slavery* offers a timely intervention not only in the critical study of the writer's work but in ongoing national and global conversations about the afterlives of slavery and the necessary work of antiracism.

*The Silhouette Inside* Oct 31 2022 "the silhouette inside" is a debut collection of poetry and drawings by Kirsten Evans. The work follows a conversation between the writer and her inner self as she navigates loss, love, and self-discovery by examining relationships and the natural world.

*Data Borders Jun 02 2020* Data Borders investigates entrenched and emerging borderland technology that ensnares all people in

an intimate web of surveillance where data resides and defines citizenship. Detailing the new trend of biologically mapping undocumented people through biotechnologies, Melissa Villa-Nicholas shows how surreptitious monitoring of Latinx immigrants is the focus of and driving force behind Silicon Valley's growing industry within defense technology manufacturing. Villa-Nicholas reveals a murky network that gathers data on marginalized communities for purposes of exploitation and control that implicates law enforcement, border patrol, and ICE, but that also pulls in public workers and the general public, often without their knowledge or consent. Enriched by interviews of Latinx immigrants living in the borderlands who describe their daily use of technology and their caution around surveillance, this book argues that in order to move beyond a heavily surveilled state that dehumanizes both immigrants and citizens, we must first understand how our data is being collected, aggregated, correlated, and weaponized with artificial intelligence and then push for immigrant and citizen information privacy rights along the border and throughout the United States.

*The Grave on the Wall* Jul 28 2022 A memoir and book of mourning, a grandson's attempt to reconcile his own uncontested citizenship with his grandfather's lifelong struggle. A memoir and book of mourning, a grandson's attempt to reconcile his own uncontested citizenship with his grandfather's lifelong struggle. Award-winning poet Brandon Shimoda has crafted a lyrical portrait of his paternal grandfather, Midori Shimoda, whose life—child migrant, talented photographer, suspected enemy alien and spy, desert wanderer, American citizen—mirrors the arc of Japanese America in the twentieth century. In a series of pilgrimages, Shimoda records the search to find his grandfather, and unfolds, in the process, a moving elegy on memory and forgetting. Praise for *The Grave on the Wall*: "Shimoda brings his poetic lyricism to this moving and elegant memoir, the structure of which reflects the fragmentation of memories. ... It is at once wistful and devastating to see Midori's life come full circle ... In between is a life with tragedy, love, and the horrors unleashed by the atomic bomb."—Booklist, starred review "In a weaving meditation, Brandon Shimoda pens an elegant eulogy for his grandfather Midori, yet also for the living, we who survive on the margins of graveyards and rituals of our own making."—Karen Tei Yamashita, author of *Letters to Memory* "Sometimes a work of art functions as a dream. At other times, a work of art functions as a conscience. In the tradition of Juan Rulfo's *Pedro Páramo*, Brandon Shimoda's *The Grave on the Wall* is both. It is also the type of fragmented reckoning only America could instigate."—Myriam Gurba, author of *Mean* "Within this haunted sepulcher built out of silence, loss, and grief—its walls shadowed by the traumas of racial oppression and violence—a green river lined with peach trees flows beneath a bridge that leads back to the grandson."—Jeffrey Yang, author of *Hey, Marfa: Poems* "It is part dream, part memory, part forgetting, part identity. It is a remarkable exploration of how citizenship is forged by the brutal US imperial forces—through slave labor, forced detention, indiscriminate bombing, historical amnesia and wall. If someone asked me, Where are you from? I would answer, From *The Grave on the Wall*."—Don Mee Choi,

author of *Hardly War* "Shimoda intercedes into the absences, gaps and interstices of the present and delves the presence of mystery. This mystery is part of each of us. Shimoda outlines that mystery in silence and silhouette, in objects left behind at site-specific travels to Japan and in the disparate facts of his grandpa's FBI file. Gratitude to Brandon Shimoda for taking on the mystery which only literature accepts as the basic challenge."—Sesshu Foster, author of *City of the Future* "Shimoda is a mystic writer ... He puts what breaches itself (always) onto the page, so that the act of writing becomes akin to paper-making: an attention to fibers, coagulation, texture and the water-fire mixtures that signal irreversible alteration or change. ... he has written a book that touches the bottom of my own soul."—Bhanu Kapil, author of *Ban en Banlieue* "The Grave on the Wall is a passage of aching nostalgia and relentless assembly out of which something more important than objective truth is conjured—a ritual frisson, a veracity of spirit. I am grateful to have traveled along."—Trisha Low, *The Believer*

*Spacewear* May 02 2020 Today, we are living in the New Space Age, where mass commercial space travel is almost within our grasp. This otherworldly possibility has opened up new cultural images of space, both real and fictional, and has caused fashion design and spacesuit engineering to intersect in new, exciting ways. *Spacewear* traverses this uncharted territory by exploring the changing imagination of space in fashion—and fashion in space—from the first Space Age to the 21st century. Exploring how space travel has stylistically and technologically framed fashion design on earth and how we need to revisit established design practices for the weightless environment, *Spacewear* connects the catwalk and the space station. This book draws together speculative fantasies in sci-fi films such as *Star Trek* and *2001: A Space Odyssey*, with the engineered spacesuits *Biosuit*, and the NASA Z-2 and with catwalk interpretations by the likes of Alexander McQueen, Hussein Chalayan, André Courrèges, and Iris van Herpen. While the development of commercial space agencies has led to new concerns for style in garments for outer space that re-think fundamental design principles such as drape, high fashion has experimented with new possibilities for weightlessness that extend far beyond the 1960s vision of Space Age metallic fabrics and helmet-style headwear. *Brownie* takes the reader on a fascinating journey from fantasy to function and to form, deepening our understanding of

this new category of fashion that is prompting new approaches to garment design and construction both on earth and in outer space.

*Narrating the Global Financial Crisis* Dec 29 2019 This book analyzes how the Global Financial Crisis is portrayed in contemporary popular culture, using examples from film, literature and photography. In particular, the book explores why particular urban spaces, infrastructures and aesthetics - such as skyline shots in the opening credits of financial crisis films - recur in contemporary crisis narratives. Why are cities and finance connected in the cultural imaginary? Which ideologies do urban crisis imaginaries communicate? How do these imaginaries relate to the notion of crisis? To consider these questions, the book reads crisis narratives through the lens of myth. It combines perspectives from cultural, media and communication studies, anthropology, philosophy, geography and political economy to argue that the concept of myth can offer new and nuanced insights into the structure and politics of popular financial crisis imaginaries. In so doing, the book also asks if, how and under what conditions urban crisis imaginaries open up or foreclose systematic and political understandings of the Global Financial Crisis as a symptom of the broader process of financialization.

*The Wolves in the Walls* Dec 09 2020 Lucy hears sneaking, creeping, crumpling noises coming from inside the walls. She is sure there are wolves living in the walls of her house.

*Perceptual Ephemera* Mar 24 2022 Most research on perception has focused on the perceptual experience of three-dimensional, solid, bounded, and coherent material objects - items like tables and tomatoes. But as well as having perceptual experience of such objects, we also experience such aspects of the world as, for instance, rainbows and surfaces, shadows and absences: things that are ephemeral by contrast with material objects. This book presents fifteen new essays on the perceptual experience of such ephemera. The editors' introduction provides a detailed guide to the topic as a whole, setting out the thematic background to this emerging area of research in contemporary philosophy of perception. The volume winds a path through the ephemeral, considering such topics as sounds, smells, transparency, reflection, camouflage, solidity, and ambient vision. A general aim of the volume is to make a case that the broad range of ephemera it catalogues is far from marginal, or insubstantial with respect to their philosophical interest and value. Philosophical attention to perceptual ephemera may well suggest novel routes to arriving at a more developed understanding of perceptual experience at large and its characteristic features.

REVIEWS BOOK OF THE YEAR HONORABLE MENTION In the summer of  
1926, sixteen-year-old Garnet Richardson is sent to a lake  
resort to escape the polio epidemic in the city. She dreams of  
indulging her passion for ornithology and visiting the famous  
new amusement park--a summer of fun before she returns for her  
final year of high school, after which she's expected to marry a  
nice boy and settle into middle-class homemaking. But in the  
country, Garnet finds herself under the supervision of equally  
oppressive guardians--her father's wealthy cousin and the  
matron's stuck-up daughter. Only a liberating job in a hat shop,  
an intense, secret relationship with a daring and beautiful  
flapper, and a deep faith in her own fierce heart can save her  
from the suffocating boredom of traditional femininity.

Art Therapy and Emotion Regulation Problems Oct 07 2020 In this  
innovative work which combines theory and practice, Suzanne  
Haeyen explores how art therapy can be useful to people with  
emotion regulation problems, or 'personality disorders', in  
diagnostic terms. Covering a number of basic themes encountered  
in clients with personality disorders, it offers insight into  
the theory behind art therapy techniques and discusses the  
current state of research in the field. In its second part the  
author provides a workbook based on aspects of dialectical  
behavioural therapy skill training developed by Marsha Linehan,  
including mindfulness, emotion regulation, interpersonal  
effectiveness and distress tolerance. This section also  
discusses the use of schema-focused therapy; a method developed  
by Jeffrey Young, and offers a number of exercises for use in  
specific practice situations. Alongside summaries of the theory,  
the author explores the multidisciplinary nature of these  
therapeutic methods and provides 106 exercises which have been  
developed in practice. This book offers new ideas and practical  
tools that will be invaluable to all art therapists working with  
clients who have difficulties expressing, recognising or coping  
with their feelings, and who find expressing their feelings  
through creative work easier than with words.
