To survive you need people watching you, following your every move. That's the only currency now: being interesting, being liked ... And, of course, you have to update every fifteen minutes. It means everyone knows where you are, what you're doing; it means that there are no secrets... Everybody watches everyone else; nothing is hidden. And for those who fail to 'update' every fifteen minutes, the consequences are deadly. Evie and Raffy may have escaped the City but they still fear for their lives. Now the only person who can help them is Frankie, a total stranger, the most popular girl in the world, watched every second by millions of people. But Frankie has other ideas... And all the time, Lucas is waiting desperately for word from Evie, word that she is coming back to him. The conclusion to Gemma Malley's terrifyingly dark vision of our near future will leave you gasping for air. Winner Trinity Schools Book Award 2018 Winner Gateshead YA Book Prize 'I love reading Sarah Govett - she's whip-smart, funny and by plugging into the hope and energy of the youth makes me feel better about these dark times.' Dame Emma Thompson Noa Blake is just another normal 15 year old with exams looming. Except in The Territory normal isn't normal. The richest children have a node on the back of their necks and can download information, bypassing the need to study. In a flooded world of dwindling resources, Noa and the other 'Norms' have their work cut out even to compete. And competing is everything - because anybody who fails the exams will be shipped off to the Wetlands, which means a life of misery, if not certain death. But how to focus when your heart is being torn in two directions at once? Bookwitch 'brilliant' Teen Librarian 'Brilliantly plotted, utterly gripping' Gemma Malley (The Declaration) One of The Telegraph's best YA books of 2015 am on the run. The police are chasing me because they think I m a terrorist. The trouble all began when my Dad hid the writer of a book called The Exploded in our house. It inspired a terrorist attack on London. That s why it s a BANNED book. We live in dangerous times. The state says books have to be sweetness and light, so they don t inspire teenagers to commit violent crime. Get caught reading a banned book and you go to jail.I thought they were wrong. How much harm can a book do? Then I read one. Now I m about to commit murder. Now I know better. In the winter of 1809 the French are winning the war in Spain & Britain's forces are retreating towards Corunna, with Napoleon's victorious armies in pursuit. Sharpe & a detachment of Riflemen are cut off from the British army & surrounded by troops. Before there were bats like Shade, Marina or even Goth, there was a young chiropter—a small arboreal glider—named Dusk. . . . It is 65 million years ago, during a cataclysmic moment in the earth's evolution, and Dusk, just months old, has no way of knowing he will play a pivotal role in creating a new world. What he does know is that he is different from the other newborn chiropters. Not content to use his large sails to glide down from the giant sequoia tree, Dusk discovers that if he flaps quickly enough, he can fly. But this strange gift that makes him feel like an outcast from the colony will also make him its saviour. After most of the colony is savagely massacred by the felids—the earth's first mammalian carnivores—Dusk must lead his fellow chiropters to a new home, and a new life. Against a tableau of disappearing dinosaurs and the ascent of the mammal kingdom, Opper has created an adventure fantasy that sets the stage for the birth of the bats, the story of the forebears of Shade, the beloved hero of the Silverwing series. As with all Silverwing books, it is impossible to simply read Opper's Darkwing; each of us enters a world of convincing characters, warring theologies, incredible natural history and a story that roars through head, heart and imagination. A tale that can be read as a stand- lone or as a prequel, Darkwing will be a welcome new classic for the millions of Kenneth Opper fans. S.A. Bodeen's The Compound is a 2009 Bank Street - Best Children's Book of the Year. Eli and his family have lived in the Compound for six years. The world they knew is gone. " "Explain to us why you wish to enter The Academy." " Anaximander, a young Academy candidate, is put through a gruelling exam. Her special subject: the life of Adam Forde, her long-dead hero. It's late in the 21st century and the island Republic has emerged from a ruined, plague-ridden

world, its citizens safe, but not free, and living in complete isolation from outside contact. Approaching planes are gunned down, refugees shot on sight. Until a man named Adam Forde rescued a girl from the sea. "Anaximander, we have asked you to consider why it is you would like to join the Academy. Is your answer ready?" To answer that question, Anaximander must struggle with everything she has ever known about herself and her beloved Republic's history, the nature of being human, of being conscious, and even what it means to have a soul. And when everything has been laid bare, she must confront the Republic's last great secret, her own surprising link to Adam Forde, and the horrifying truth about her world. The chilling, powerful sequel to Gemma Malley's acclaimed debut, *The Declaration*. For fans of *The Hunger Games* In a world where nobody dies, Peter and Anna are Opt Outs - they choose not to live for ever . . . but is that enough? To try and fight the system further, Peter infiltrates Pincent Pharma, the company behind Longevity - the drug that offers eternal life. But he finds himself involved in things he didn't think possible . . . and begins to struggle with his own family. It appears Richard Pincent will stop at nothing to get what he wants, even if it means ripping Peter and Anna's new life apart. Eine unmögliche Liebe in einer Welt, die tödlich sein kann. Ein Jahr ist vergangen, seit das System gestürzt wurde. Evie führt mit Raffy ein zufriedenes Leben außerhalb der Stadt, doch ihre Gedanken kreisen immer wieder um dessen Bruder Lucas. Sie ahnt nicht, dass in der Zwischenzeit Fremde in die Stadt eingedrungen sind und Lucas in ihrer Gewalt haben. Mit allen Mitteln wollen sie ihm ein Geheimnis entreißen - das Wissen um eine Zivilisation, welche die Stadt für ihre Zwecke benutzt hat. Als sie Lucas' Schwachpunkt aufdecken, beginnt sich ein tödliches Netz um Evie und Raffy zu spinnen . . . They say three's the charm. But charming isn't Val's style. Val Fremden is a lot of things. Quirky. Jaded. Disaster prone. But more than anything, she's afraid of commitment. When boyfriend Tom tells her he loves her - then trades her mom's ashes away for a tiki hut - Val's just not feelin' it. On the warpath with Tom, Val's forced to rely on her oddball friends to help track down her mom's cremains. But three botched stakeouts and two disasters later, she still hasn't got peanuts. Through trial (but mostly error), Val discovers it's not easy to outwit a mobile master of disguise when she's stuck driving a paddy wagon full of nutcases. She loves Tom...she loves him not. Knowing Val, she's gonna need a bigger flower.... *Three Dumb* is a satirical look at how life, over time, changes our perception of love and the things we value. It's told through the eyes of a snarky, middle-aged woman with legendary commitment issues and a gnawing reluctance toward romance. If you like deeply flawed characters and laugh-out-loud situations, you'll love *Three Dumb*. It's the fourth book in Margaret Lashley's hilarious, irreverent Val & Pals Series of seriously funny women's fiction. Evil

has been eradicated. The City has been established. And citizens may only enter after having the 'evil' part of their brain removed. They are labelled on the System according to how 'good' they are. If they show signs of the evil emerging, they are labelled a K . . . But no one knows quite what that means. Only that they disappear, never to be seen again . . . A Midlife Meltdown Leads to Southern-Fried Mayhem in this Hilarious and Heartfelt Mystery Series. After being duped out of her life savings in Germany, Val Fremden retreats home to Florida with more than just her pride in tatters. At 45, she's broke, divorced, and virtually unemployable. Starting over will be tough enough as it is. But when her only friend suddenly turns up dead, Val begins to seriously wonder if the world is out to get her. Maybe it is ?. The sugar-white sands of Sunset Beach attract weirdos like mosquitoes to a bug zapper. So when the will of Val's friend makes the local newspaper, lunatics and con artists stumble from their beach shacks to scuffle for a piece of the leftover pie. Determined to find her friend's true heir, Val reluctantly turns to three crackpots for help—a drunk, a redneck, and a snarky beach bum. Working at odds with each other, their bumbling investigation attracts the attention of a hot cop. He quickly gets into the fray and under Val's skin. Whether it's in a good way or bad only time will tell. Because sometimes, it's not until you reach the bottom of the barrel that you find out who your true friends are. A propulsive, compelling, and unsparing novel set in the grimly violent world of the human and drug trade on the US-Mexican border. On the outskirts of Juarez, Arturo scrapes together a living working odd jobs and staying out of sight. To help his friend, Arturo must face the remorseless world of drug and human traffickers that surrounds him, and contend with a murky past. Hovering over his story is the unsparing divinity Santa Muerte, Saint Death—and the relentless economic and social inequalities that haunt the border between Mexico and its rich northern neighbor. Crafted with poetry and cinematic pace and narrated with cold fury, Saint Death is a provocative tour de force from three-time Printz Award honoree Marcus Sedgwick. Everyday Violence in the Irish Civil War presents an innovative study of violence perpetrated by and against non-combatants during the Irish Civil War, 1922-3. Drawing from victim accounts of wartime injury as recorded in compensation claims, Dr Gemma Clark sheds new light on hundreds of previously neglected episodes of violence and intimidation - ranging from arson, boycott and animal maiming to assault, murder and sexual violence - that transpired amongst soldiers, civilians and revolutionaries throughout the period of conflict. The author shows us how these micro-level acts, particularly in the counties of Limerick, Tipperary and Waterford, served as an attempt to persecute and purge religious and political minorities and to force redistribution of land. Clark also assesses the international significance of the war, comparing the cruel yet arguably restrained violence that occurred in Ireland with the brutality unleashed in other European conflict zones. Marcus Sedgwick's award-winning debut novel about surviving in a sinking world. Winner of the Branford Boase Award, FLOODLAND is an unstoppable force in young adult fiction. Imagine that a few years from now England is covered by water, and Norwich is an island. Zoe, left behind in the confusion when her parents escaped, survives there as best she can. Alone and desperate among marauding gangs, she manages to dig a derelict boat out of the mud and gets away to Eels Island. But Eels Island, whose raggle-taggle inhabitants are dominated by the strange boy Dooby, is full of danger too. The belief that she will one day find her parents spurs Zoe on to a dramatic escape in a story of courage and determination that leads to an unexpected and touching conclusion. FLOODLAND has a powerful and emotive theme, handled with warmth and humanity. Second in The Territory trilogy. What if the ordinary things in life suddenly...disappeared? Aila Quinn's mother, Juliet, has always been a mystery: vibrant yet guarded, she keeps her secrets beyond Aila's reach. When Juliet dies, Aila and her younger brother Miles are sent to live in Sterling, a rural town far from home—and the place where Juliet grew up. Sterling is a place with mysteries of its own. A place where the experiences that weave life together—scents of flowers and food, reflections from mirrors and lakes, even the ability to dream—vanish every seven years. No one knows what caused these "Disappearances," or what will slip away next. But Sterling always suspected that Juliet Quinn was somehow responsible—and Aila must bear the brunt of their blame while she follows the chain of literary clues her mother left behind. As the next Disappearance nears, Aila begins to unravel the dual mystery of why the Disappearances happen and who her mother truly was. One thing is clear: Sterling isn't going to hold on to anyone's secrets for long before it starts giving them up. "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series Discover the secret missions behind America's greatest conflicts. Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters.
