American Indian Myths and Legends Dec 29 2019 More than 160 tales from eighty tribal groups gives us a rich and lively panorama of the Native American mythic heritage. From across the continent comes tales of creation and love; heroes and war; animals, tricksters, and the end of the world. In addition to mining the best folkloric sources of the nineteenth century, the editors have also included a broad selection of contemporary Native American voices. With black-and-white illustrations throughout
Selected and edited by Richard Erdoes and Alfonso Ortiz Part of the Pantheon Fairy Tale and Folklore Library

Advances in Battery Manufacturing, Service, and Management Systems May 06 2023 Addresses the methodology

and theoretical foundation of battery manufacturing, service and management systems (BM2S2), and discusses the issues and challenges in these areas. This book brings together experts in the field to highlight the cutting edge research advances in BM2S2 and to promote an innovative integrated research framework responding to the challenges. There are three major parts included in this book: manufacturing, service, and management. The first part focuses on battery manufacturing systems, including modeling, analysis, design and control, as well as economic and risk analyses. The second part focuses on information technology's impact on service systems, such as data-driven reliability modeling, failure prognosis, and service decision making methodologies for battery services. The third part addresses battery management systems (BMS) for control and optimization of battery cells, operations, and hybrid storage systems to ensure overall performance and safety, as well as EV management. The contributors consist of experts from universities, industry research centers, and government agency. In addition, this book: Provides comprehensive overviews of lithium-ion battery and battery electrical vehicle manufacturing, as well as economic returns and government support. Introduces integrated models for quality propagation and productivity improvement, as well as indicators for bottleneck identification and mitigation in battery manufacturing. Covers models and diagnosis algorithms for battery SOC and SOH estimation, data-driven prognosis algorithms for predicting the remaining useful life (RUL) of battery SOC and SOH. Presents mathematical models and novel structure of battery equalizers in battery management systems (BMS). Reviews the state of the art of battery, supercapacitor, and battery-supercapacitor hybrid energy storage systems (HESSs) for advanced electric vehicle applications. Advances in Battery Manufacturing, Services, and Management Systems is written for researchers and engineers.

working on battery manufacturing, service, operations, logistics, and management. It can also serve as a reference for senior undergraduate and graduate students interested in BM2S2.

US Airborne Divisions in the ETO 1944–45 Aug 17 2021 The delivery of entire divisions to battlefields behind enemy lines by parachute and glider was a unique feature of World War II, and by the end of the war the US Army deployed the largest airborne force in the world, created in only three years, and boasting such impressive units as the 82nd "All American" and 101st "Screaming Eagles." This book details the organization and operation history of these units throughout the war in Northwest Europe from 1944 to 1945, covering the desperate night drops over Normandy in support of the D-Day invasions, through the capture of Nijmegen during Operation Market-Garden to Operation Varsity, the last great airborne operation of the war to secure the crossing of the Rhine.

Portraits of the American Craftsman Aug 29 2022 DIVPortraits

of the American Craftsman is a collection of gorgeous portraits of the people and products made in small workshops all over the country, with lyrical and powerful descriptions of what they make, who they are, and the tradition embedded in their trade. The book is a celebration of the handmade at a time when it's being embraced by a new generation of DIY and local-focused consumers who are averse to the mass-produced. /div

Hope Prevails Oct 19 2021 Neuropsychologist Offers Hope to Those Struggling with Depression As a board-certified neuropsychologist, Dr. Michelle Bengtson sees the devastation of depression. Early on, she practiced the most effective treatments and prescribed them for her clients. But when she experienced depression herself, she found that the treatments she had recommended were lacking. Her experience showed her the missing component in treating depression. In *Hope Prevails*, Dr. Bengtson writes with deep compassion, blending her training and faith, to offer readers a hope grounded in God's love and grace. She helps readers understand what depression is, how it affects them spiritually, and what, by God's grace, it cannot do. The result is an approach that offers the hope of release, not just the management of symptoms. For those who struggle with depression and those who want to help them, *Hope Prevails* offers hope for the future.

Buying the Big Jets Oct 31 2022 Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. *Buying the Big Jets* has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies. This third edition brings the picture fully up to date, representing the latest developments in aircraft products and best practice in

airline fleet planning techniques. It features a new section that addresses the passenger experience and, for the first time, includes regional jet manufacturers who are now extending their product families into the 100-plus seating category. Overall, the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost-leader airlines differs from that of network carriers. *Buying the Big Jets* is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. It is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital.

High-Performance Ford Focus Builder's Handbook Feb 29

2020 The sport compact performance market is hot and getting hotter - and while the Honda Civic and Acura Integra have long been the dominant players in the market, a newcomer is emerging as a popular car for performance modifications - The Ford Focus. Well-built, inexpensive, good looking, and easy to modify, the Focus is quickly catching the Hondas in terms of market popularity.

This book shows Focus owners exactly what it takes to improve their car's performance, from simple modifications like installing a new air intake to radical mods like installing a turbocharger. The author also shows what those modifications can do, with before-and-after dyno tests for each modification. There's also extensive info on suspension and brake modifications for better handling and braking. It's a one-stop shop for those who want a sharper, faster Focus. Dimensions: 8-3/8 x 10-7/8 inches # of color photographs: None inside- color cover only # of black and white photographs: 300

Open Veins of Latin America Mar 12 2021 [In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

Tight Corner Dec 01 2022 A murder mystery set in Ottawa, Canada, where gothic Parliament buildings dominate a landscape riddled with backstabbers and cocaine sniffers. Conn Anderson, a former public servant, has turned a passion for old English sports cars into owning a shop, Britfit, that repairs them. All he wants to do is run his business -- that and get to know his landlady's niece a whole lot better. Everything is going swimmingly until a mysterious government-leased Jaguar is destroyed on the premises by an

arsonist, the shop's resident mouse catcher is kicked nearly to death, and someone tries to run Anderson off the road. As the body count mounts, Anderson is drawn deeper and deeper into the dealings of a government document production ring that feeds on the most vulnerable members of Canadian society.
