Es más: tu autoimagen afecta todo aquello que es lo más importante para ti: el éxito en tu familia. Hoy vas a dejar de mirarte en el espejo de la auto-imagen pobre y derrotada. Te espera una auto-imagen fuerte y fiel a ti, que traerá a tu vida las relaciones familiares más hermosas que jamás soñaste...y tu reflejo en un nuevo espejo. Ven, empecemos a caminar. "Si deseas tener la mejor imagen de ti mismo, permite que sea quien te creó quien hable de ti. Nos mira como a hijos, nos llama por nuestro nombre, nos ama incondicionalmente, y dice que somos el reflejo de su imagen. Definitivamente uno se siente mejor cuando elige el espejo correcto." —Sixto Porras // Your reflection depends on your mirror—and you attract what you reflect. Like most people, you are not aware that many of your problems are rooted in your self-image. The image you have of yourself determines your relationships: the way you choose them, how you behave, and how they treat you. As a matter of fact, your self-image influences your most important concern: success in family relationships. Today, you can stop looking in the mirror at the reflection of a poor and defeated self-image. In this compelling new book, Sixto Porras guides you through the audacious journey of changing your mirror. You will uncover the real you, the "you" that has been hiding for a long time behind a self-image that has kept you from being your best. Throughout the journey, you may feel scared, you may be tempted to go back, and

you may even feel afraid of becoming arrogant. That is what self-discovery is all about, since you have not yet seen yourself in your new mirror. But the author will remind you that if you are intentional about being and living your very best, you need to defeat your old self-image. Be confident: in the end, you will be whole and renewed. A strong and true self-image awaits, along with the most fulfilling family relationships you have ever dreamed of. Come on, let's start the journey! "If you wish to have the best image of yourself, allow your Creator to be the One who speaks about you. He looks at us as His children, calls us by our names, loves us unconditionally, and says we are a reflection of His image. You definitely feel better when you choose the right mirror." —Sixto Porras

Their technique allows readers to put aside distractions while gaining greater energy, health, and contentment. Mediating and relaxation isn't about "losing your edge"—it's about finding a new strength, deep within, that helps us think more clearly, act more calmly, and live more fully. This book teaches you how. Praise for Joel Levey and Michelle Levey: "A skillful blend of time-proven antidotes to the stress of modern life." —Daniel Goleman, Ph.D., author of Emotional Intelligence "Evocative suggestions for making use of different ways to practice relaxation, concentration, and meditation. A real gem." —Jon Kabat-Zinn, Ph.D., author of Wherever You Go, There You Are

Written over the course of three days and three nights, *The Subterraneans* was generated out of the same kind of ecstatic flash of inspiration that produced another one of Kerouac's early classics, *On The Road*. Centering around the tempestuous breakup of Leo Percepied and Mardou Fox—two denizens of the 1950s San Francisco underground—*The Subterraneans* is a tale of dark alleys and smoky rooms, of artists, visionaries, and adventurers existing outside mainstream America's field of vision. A 2018 FINALIST FOR THE PULITZER PRIZE "[Hitler in Los Angeles] is part thriller and all chiller, about how close the California Reich came to succeeding" (Los Angeles Times). No American city was more important to the Nazis than Los Angeles, home to Hollywood, the greatest propaganda machine in the world. The Nazis plotted to kill the city's Jews and to sabotage the nation's military installations: Plans existed for murdering twenty-four prominent Hollywood figures, such as Al Jolson, Charlie Chaplin, and Louis B. Mayer; for driving through Boyle Heights and machine-gunning as many Jews as possible; and for blowing up defense installations and seizing munitions from National Guard armories along the Pacific Coast. U.S. law enforcement agencies were not paying close attention—preferring to monitor Reds rather than Nazis—and only attorney Leon Lewis and his daring ring of spies stood in the way. From 1933 until the end of World War II, Lewis, the man Nazis would come to call "the most dangerous Jew in Los Angeles," ran a spy operation comprised of military veterans and their wives who infiltrated every Nazi and fascist group in Los Angeles. Often rising to leadership positions, they uncovered and foiled the Nazi's disturbing plans for death and destruction. Featuring a large cast of Nazis, undercover agents, and colorful supporting players, the Los Angeles Times bestselling *Hitler in Los Angeles*, by acclaimed historian Steven J. Ross, tells the story of Lewis's daring spy network in a time when hate groups had moved from the margins to the mainstream. A New York Times Bestseller From #1 New York Times bestselling author Julia Quinn comes the story of Francesca Bridgerton, in the sixth of her beloved Regency-set novels featuring the charming, powerful Bridgerton family, now a series created by Shondaland for Netflix.

**FRANCESCA'S STORY** In every life there is a turning point. A moment so tremendous, so sharp and breathtaking, that one knows one's life will never be the same. For Michael Stirling, London's most infamous rake, that moment came the first time he laid eyes on Francesca Bridgerton. After a lifetime of chasing women, of smiling slyly as they chased him, of allowing himself to be caught but never permitting his heart to become engaged, he took one look at Francesca Bridgerton and fell so fast and hard into love it was a wonder he managed to remain standing. Unfortunately for Michael, however, Francesca's surname was to remain Bridgerton for only a mere thirty-six hours longer—the occasion of their meeting was, lamentably, a supper celebrating her imminent wedding to his cousin. But that was then . . . Now Michael is the earl and Francesca is free, but still she thinks of him as nothing other than her dear friend

and confidant. Michael dares not speak to her of his love . . . until one dangerous night, when she steps innocently into his arms, and passion proves stronger than even the most wicked of secrets . . . The Love Yourself, Heal Your Life Workbook directly applies Louise's techniques of self-love and positive thinking to a wide range of topics that affect us all on a daily basis, including: health, fears and phobias, sex, self-esteem, money and prosperity, friendship, addictive behavior, work, and intimacy. As Louise says, "These exercises will give you new information about yourself. You will be able to make new choices. If you are willing, then you can definitely create the kind of life you say you want." La mayoría de las personas, consideran la vida como una tremenda batalla... ..Pero la vida no es un juego y Francisco Flores lo ha demostrado y ha sabido utilizar la imaginación, la razón, la inteligencia y la sensibilidad ante las adversidades de la vida para hacer de ellas algo hermoso. Y gracias a su imaginación y gran corazón Francisco Flores, ha sabido destruir obstáculos para tener el don de poder transmitir sus experiencias, y es tanto su talento que provoca en su audiencia revivir emociones y sentimientos que una vez nacieron en su corazón, y gracias a ese talento y humildad Francisco Flores nos muestra en este libro "Remedios Caseros para un corazón Herido", que a pesar de todo, el mundo sigue girando. "This feels like an Ian McEwan novel. Served on a bed of Cheever. I can't offer higher praise than that. But written by a woman. Which is even better."— Elizabeth Gilbert

Spanning the course of a single summer, *Private Means* is acclaimed memoirist Cree LeFavour's sumptuous fiction debut—a sharply observed comedy of manners and a moving meditation on marriage, money, and loss. A deliciously compulsive first novel from New York Times Editor's Choice author of *Lights On*, *Rats Out*, Cree LeFavour's *Private Means* captures the very essence of summer in a sharply observed, moving meditation on marriage, money, and loss. It's Memorial Day weekend and Alice's beloved dog Maebelle has been lost. Alice stays in New York, desperate to find her dog, while her husband Peter drives north to stay with friends in the Berkshires. Relieved to be alone, Alice isn't sure if she should remain married to Peter but she's built a life with him. For his part, Peter is pleased to have time alone—he's tired of the lost dog drama, of Alice's coolness, of New York. A psychiatrist, he ponders his patients and one, particularly attractive, woman in particular. As the summer unfolds, tensions rise as Alice and Peter struggle with infidelity, loneliness, and loss. Escaping the heat of New York City to visit wealthy friends in the Hamptons, on Cape Cod and in the Berkshires, each continues to play his or her part in the life they've chosen together. By the time Labor Day rolls around, a summer that began with isolation has transformed into something else entirely. Matching keen observations on human behavior with wry prose, *Private Means*, with its sexy, page-turning plot, will draw fans of Nora Ephron and Meg Wolitzer. At once dark, funny, sad and suspenseful, LeFavour's debut is a rare find: a tart literary indulgence with depth and intelligence. From "one of the most exciting breakout novelists" (USA TODAY) comes the first novel in an irresistible new series—a spin-off of the bestselling *Marriage to a Billionaire* series—featuring a matchmaker who falls for a man who doesn't believe in love. In charming *Verily*, New York, Kate Seymour has a smashing success with Kinnections, the matchmaking service she owns with her two best girlfriends. But Kate's more than a savvy businesswoman: She's gifted with a secret power, a jolting touch that signals when love's magic is at work. It rocked her when she picked up a strange volume of love spells in the town's used bookstore...and it zapped her again when she encountered Slade Montgomery, the hot-tempered— and hot-bodied—divorce lawyer who storms into Kinnections demanding proof that playing Cupid won't destroy his vulnerable sister, Kate's newest client. The only way to convince this cynic that she's no fraud, and that love is no mirage, is for Kate to meet his audacious challenge: find him his dream woman. Can Kate keep their relationship strictly business when her electrifying attraction nearly knocked her off her feet? Or has the matchmaker finally met her match? What is the reason why anxiety comes into our lives? What would you think if there was a solution that will not only help you coexist with your symptoms, but also to become stronger and happier? Discover the tool that will make you understand how overcoming anxiety can be easier and a lot more fun than you imagined. Do not wait any longer, because your life cannot wait! A new and quick way to relieve anxiety, few have heard it yet. Most people only worry about "controlling" their anxiety or medicating it without knowing that this book can be the answer and solution to all the pains. Cree en ti no es un libro de autoayuda, es un libro de autoempoderamiento «¿Cómo será mi vida dentro de diez años si sigo haciendo lo mismo? La respuesta fue tan clara que, con treinta y cinco años, lo dejé todo por ir en busca de

mí misma, de eso que tanto me faltaba. Dejé mi trabajo como arquitecta, mi departamento, mi ciudad, mi país y las personas que más quería. Y me fui a la Selva Negra en busca de respuestas. Allí empecé a conectar con mi esencia y con lo que yo realmente amaba. Y a partir de ahí todas las respuestas llegaron juntas. Un año antes de empezar a escribir este libro, entendí por qué mi vida había llegado hasta ese punto, por qué no había conseguido vivir mis grandes sueños. Entendí cómo las creencias que absorbió mi mente durante los siete primeros años de vida habían dirigido y condicionado el resto de mi existencia». Potencializa tus emociones y conoce la relación que existe entre tu forma de pensar y tu Vida. Your aim in life should be to achieve all of the wonderful things that are possible for you. There is no reason for you not to be earning twice as much as you are today, or even five or ten times as much. Your potential is practically limitless, if you could just learn how to utilize it. Clarity, Focus, and Concentration: Three strong, simple attributes needed to hone in your potential and hit the bull's eye! And just as you can develop your physical muscles through hard work and concentration, you can develop your mental muscles through continuous repetition. You have the ability right now to achieve more than you ever have before. Bull's Eye will teach you how to unleash your powers for success and accomplish more in the next few months than many people do in a lifetime. There are stories where the girl gets her prince, and they live happily ever after. (This is not one of those stories.) Jenna Lord's first sixteen years were not exactly a fairy tale. Her father is a controlling psycho and her mother is a drunk. She used to count on her older brother—until he shipped off to Iraq. And then, of course, there was the time she almost died in a fire. There are stories where the monster gets the girl, and everyone cries for his innocent victim. (This is not one of those stories either.) Mitch Anderson is many things: A dedicated teacher and coach. A caring husband. A man with a certain...magnetism. And there are stories where it's hard to be sure who's a prince and who's a monster, who is a victim and who should live happily ever after. (These are the most interesting stories of all.) Drowning Instinct is a novel of pain, deception, desperation, and love against the odds—and the rules. Drawn Swords in a Distant Land showcases the fascinating, untold story of the rise and fall of the Republic of Vietnam. Putting aside outdated ideological debates, it offers the first in-depth review of the South Vietnamese successes and failures in building and defending their state. Drawn Swords highlights the career of President Nguyen Van Thieu, who in many ways embodied the hopes, dreams, and innumerable tragedies of the South Vietnamese people. It details the extent to which the Vietnamese Nationalists under his leadership built a viable state after the 1968 Tet Offensive; weaves together the policy decisions made in Washington, Hanoi, and Saigon that significantly determined the course of the war; and explains why South Vietnam was defeated in April 1975. Equally important, it provides stunning new details about how the coup against Ngo Dinh Diem was almost halted, describes the backroom maneuvering that chose Thieu for the presidency over Nguyen Cao Ky, and demonstrates that Richard Nixon was not the instigator of a conspiracy with Thieu known as the "Chennault Affair" to win the 1968 election. Even more explosive, Drawn Swords reveals the last, great secret of the Vietnam War: a plot by France during the last days, in conjunction with one of Hanoi's allies, to prevent North Vietnam from conquering Saigon. This previously unknown scheme, along with many other intriguing new insights, sheds fresh light on the tumultuous struggle called the Vietnam War. Drawn Swords is the definitive and much overdue account of Thieu and the Second Republic. Motivational reading for anyone who dares to dream, this book is a powerful reminder that with self-confidence and inner strength any dream is within reach. An American woman determined to learn the Arabic language travels to the Middle East to pursue her dream in this "witty memoir" (Us Weekly). The shadda is the key difference between a pigeon (hamam) and a bathroom (hammam). Be careful, our professor advised, that you don't ask a waiter, 'Excuse me, where is the pigeon?'—or, conversely, order a roasted toilet . . . If you've ever studied a foreign language, you know what happens when you first truly and clearly communicate with another person. As Zora O'Neill recalls, you feel like a magician. If that foreign language is Arabic, you just might feel like a wizard. They say that Arabic takes seven years to learn and a lifetime to master. O'Neill had put in her time. Steeped in grammar tomes and outdated textbooks, she faced an increasing certainty that she was not only failing to master Arabic, but also driving herself crazy. She took a decade-long hiatus, but couldn't shake her fascination with the language or the cultures it had opened up to her. So she decided to jump back in—this time with a new approach. In this book, she takes us along on her grand tour through the Middle

East, from Egypt to the United Arab Emirates to Lebanon and Morocco. She's packed her dictionaries, her unsinkable sense of humor, and her talent for making fast friends of strangers. From quiet, bougainvillea-lined streets to the lively buzz of crowded medinas, from families' homes to local hotspots, she brings a part of the world thousands of miles away right to your door—and reminds us that learning another tongue leaves you rich with so much more than words. "You will travel through countries and across centuries, meeting professors and poets, revolutionaries, nomads, and nerds . . . [A] warm and hilarious book." —Annia Ciezadlo, author of Day of Honey "Her tale of her 'Year of Speaking Arabic Badly' is a genial and revealing pleasure." —The Seattle Times With more than 100 recipes for ice cream flavors and revolutionary mix-ins from a James Beard-nominated pastry chef, Hello, My Name is Ice Cream explains not only how to make amazing ice cream, but also the science behind the recipes so you can understand ice cream like a pro. Hello, My Name is Ice Cream is a combination of three books every ice cream lover needs to make delicious blends: 1) an approachable, quick-start manual to making your own ice cream, 2) a guide to help you think about how flavors work together, and 3) a dive into the science of ice cream with explanations of how it forms, how air and sugars affect texture and flavor, and how you can manipulate all of these factors to create the ice cream of your dreams. The recipes begin with the basics—super chocolately chocolate and Tahitian vanilla—then evolve into more adventurous infusions, custards, sherbets, and frozen yogurt styles. And then there are the mix-ins, simple treats elevated by Cree's pastry chef mind, including chocolate chips designed to melt on contact once you bite them and brownie bits that crunch. Narnia meets traditional Indigenous stories of the sky and constellations in an epic middle grade fantasy series from award-winning author David Robertson. Morgan and Eli, two Indigenous children forced away from their families and communities, are brought together in a foster home in Winnipeg, Manitoba. They each feel disconnected, from their culture and each other, and struggle to fit in at school and at their new home -- until they find a secret place, walled off in an unfinished attic bedroom. A portal opens to another reality, Askí, bringing them onto frozen, barren grounds, where they meet Ochek (Fisher). The only hunter supporting his starving community, Misewa, Ochek welcomes the human children, teaching them traditional ways to survive. But as the need for food becomes desperate, they embark on a dangerous mission. Accompanied by Arik, a sassy Squirrel they catch stealing from the trapline, they try to save Misewa before the icy grip of winter freezes everything -- including them. "Patrick Gale has written a book which manages to be both tender and epic, and carries the unmistakable tang of a true story. I loved it." -- Jojo Moyes A privileged elder son, and stammeringly shy, Harry Cane has followed convention at every step. Even the beginnings of an illicit, dangerous affair do little to shake the foundations of his muted existence - until the shock of discovery and the threat of arrest cost him everything. Forced to abandon his wife and child, Harry signs up for emigration to the newly colonised Canadian prairies. Remote and unforgiving, his allotted homestead in a place called Winter is a world away from the golden suburbs of turn-of-the-century Edwardian England. And yet it is here, isolated in a seemingly harsh landscape, under the threat of war, madness and an evil man of undeniable magnetism that the fight for survival will reveal in Harry an inner strength and capacity for love beyond anything he has ever known before. In this exquisite journey of self-discovery, loosely based on a real life family mystery, Patrick Gale has created an epic, intimate human drama, both brutal and breathtaking. This is a novel of secrets, sexuality and, ultimately, of great love. Dr. Joseph Murphy (20th May 1898 - 16th Dec 1981), the author of the book grew up in a devout religious home. His father, Denis Murphy, was a deacon and professor at the National School of Ireland. The major focus of Dr. Murphy was to explain things lucidly so that it would explain how it affects any individual. His basic theme was that the solution to all the problems lies within oneself. We are not affected by the outside circumstances rather by our own mindset. He wrote more than 30 books. His best seller is "The Power of your Unconscious Mind". The book, "Believe in yourself" narrates - How to fulfill your Dreams, through best utilization of your capabilities and talent. Thus achieve a big success in your life. Everyone has inborn talent and capability So it is the matter of attitude. One has to stimulate her conscious mind. The book focuses on - 'Making your dreams come true' and 'how to use Subconscious mind in business'. In the author's words - It is just as easy to imagine yourself Successful, as is to imagine failures but far more interesting". The master architect within you will project on the screen of visibility what you impress on your mind. Here mental attitude means your mental

reaction to people, circumstances and objects in space. The circumstances can affect you only as you permit them. Your capacity to imagine causes you and enables you to remove all barriers of time and space. You can reconstruct the past through your inner eye. So the most important thing is imagination. If you don't develop imagine power then all the hard work or burning midnight lamp is all fullfile. In nutshell - Always believe in yourself. This attitude surely brings success in life. Climate scientists have determined that we must act now to prevent an irreversible and catastrophic climatic tipping point, beyond which neither our own nor many other species can be assumed likely to survive. On the way to that bleak ending, moreover, extreme socio-economic injustice and associated political breakdown—now well underway in nations already hard-hit by environmental crisis—can be expected to hasten as well. The time has thus come to plan carefully, thoroughly, and on a scale commensurate with the crisis we face. This book, written by one of the key architects of the Green New Deal and prefaced by Representative Alexandria Ocasio-Cortez's former Chief of Staff, indicates how to structure Green New Deal finance in a manner that advances the cross-cutting goals of maximum financial and economic inclusion, maximally democratic decision-making, and an appropriate division of roles both among all levels of government and among public and private sector decision-makers. Integrating into one complete and coherent financial architecture such bold ideas as a 'People's Fed,' an interdepartmental National Investment Council, integrated state and regional public banks, a Democratic Digital Dollar and digital Taxpayer Savings and Transaction Accounts made part of the monetary policy transmission belt, and an economy-wide Price Stabilization Fund, this book is critical reading for policymakers and citizens looking for a fresh path forward towards a revived and sustainable, progressive and productive America. "Cree Wins the Day!" is a great tool to help all children positively embrace their differences. It is centered around a young girl named Cree who is shy, fun-loving and longs for friends. Cree has been shunned and ignored by her peers because of her occasional outbursts. Even the typical school day is filled with challenges as Cree deals with processing her various emotions. With the help of her school counselor, Cree begins to find comfort within herself and gains the necessary knowledge to succeed in social settings and positively embrace her differences! Camas Davis was at an unhappy crossroads. A longtime magazine editor, she had left New York City to pursue a simpler life in her home state of Oregon, with the man she wanted to marry, and taken an appealing job at a Portland magazine. But neither job nor man delivered on her dreams, and in the span of a year, Camas was unemployed, on her own, with nothing to fall back on. Disillusioned by the decade she had spent as a lifestyle journalist, advising other people how to live their best lives, she had little idea how best to live her own life. She did know one thing: She no longer wanted to write about the genuine article, she wanted to be it. So when a friend told her about Kate Hill, an American woman living in Gascony, France who ran a cooking school and took in strays in exchange for painting fences and making beds, it sounded like just what she needed. She discovered a forgotten credit card that had just enough credit on it to buy a plane ticket and took it as kismet. Upon her arrival, Kate introduced her to the Chapolard brothers, a family of Gascon pig farmers and butchers, who were willing to take Camas under their wing, inviting her to work alongside them in their slaughterhouse and cutting room. In the process, the Chapolards inducted her into their way of life, which prizes pleasure, compassion, community, and authenticity above all else, forcing Camas to question everything she'd believed about life, death, and dinner. So begins Camas Davis's funny, heartfelt, searching memoir of her unexpected journey from knowing magazine editor to humble butcher. It's a story that takes

her from an eye-opening stint in rural France where deep artisanal craft and whole-animal gastronomy thrive despite the rise of mass-scale agribusiness, back to a Portland in the throes of a food revolution, where Camas attempts--sometimes successfully, sometimes not--to translate much of this old-world craft and way of life into a new world setting. Along the way, Camas learns what it really means to pursue the real thing and dedicate your life to it. Alex Segura, a successful traceur and YouTuber, tells us how he found in Parkour the key to improving his self-esteem and overcome adversity and how later, he managed to overcome a serious injury. Since Europeans first encountered Native Americans, problems relating to language and text translation have been an issue. Translators needed to create the tools for translation, such as dictionaries, still a difficult undertaking today. Although the fact that many Native languages do not share even the same structures or classes of words as European languages has always made translation difficult, translating cultural values and perceptions into the idiom of another culture renders the process even more difficult. In Born in the Blood, noted translator and writer Brian Swann gathers some of the foremost scholars in the field of Native American translation to address the many and varied problems and concerns surrounding the process of translating Native American languages and texts. The essays in this collection address such important questions as, what should be translated? how should it be translated? who should do translation? and even, should the translation of Native literature be done at all? This volume also includes translations of songs and stories. Some discussions focus on the 1967 war, some go back to the creation of the state of Israel in 1948, and others look to the beginning of the British Mandate in 1929. Alan Dowty, however, traces the earliest roots of the conflict to the Ottoman Empire in the 19th century, arguing that this historical approach highlights constant clashes between religious and ethnic groups in Palestine. He demonstrates that existing Arab residents viewed new Jewish settlers as European and shares evidence of overwhelming hostility to foreigners from European lands. He shows that Jewish settlers had tremendous incentive to minimize all obstacles to settlement, including the inconvenient hostility of the existing population. Dowty's thorough research reveals how events that occurred over 125 years ago shaped the implacable conflict that dominates the Middle East today. "A harrowing, beautiful, searching, and deeply literary memoir. In these pages, we watch Cree LeFavour evolve from a wounded (and wounding) lost girl to a woman who can at last regard her existence with a modicum of mercy and forgiveness...a story of true self-salvation and transformation."—Elizabeth Gilbert As a young college graduate a year into treatment with a psychiatrist, Cree LeFavour's began to organize her days around the cruel, compulsive logic of self-harm: with each newly lit cigarette, the world would drop away as her focus narrowed to an unblemished patch of skin calling out for attention and the fierce, blooming release of pleasure-pain as the burning tip was applied to the skin. Her body was a canvas of cruelty; each scar a mark of pride and shame. In sharp and shocking language, Lights On, Rats Out brings us closely into these years, allowing us to feel the pull of a stark compulsion

taking over a mind. We see the world as Cree did—turned upside down, the richness of life muted and dulled, its pleasures perverted. The heady, vertiginous thrill of meeting with her psychiatrist, Dr. X—whose relationship with Cree is at once sustaining and paralyzing—comes to be the only bright spot in her mental solitude. Her extraordinary access to and inclusion of the notes kept by Dr. X during treatment offer concrete evidence of Cree’s transformation over 3 years of therapy. But it is her own evocative and razor-sharp prose that traces a path from a lonely and often sad childhood to her reluctant commitment to and emergence from a psychiatric hospital, to the saving refuge of literature and eventual acceptance of love. Moving deftly between the dialogue and observations from psychiatric records and elegant, incisive reflection on youth and early adulthood, *Lights On, Rats Out* illuminates a fiercely bright and independent woman’s charged attachment to a mental health professional and the dangerous compulsion to keep him in her life at all costs.
