Lord of the Flies Apr 02 2023 A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, *Lord of the Flies* is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on *Lord of the Flies* by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

Pitkern-Norfolk Nov 04 2020 This book tells the story of the language of the Bounty mutineers and their Polynesian consorts that developed on remote Pitcairn Island in the late 18th century. Most of their descendants subsequently relocated to Norfolk Island. It is an in-depth study of the complex linguistic, ecological and sociohistorical forces that have been involved in the formation and subsequent development of this unique endangered language on both islands.

The Ancient Critic at Work May 11 2021 The large but underrated corpus of Greek scholia, the marginal and interlinear notes found in manuscripts, is a very important source for ancient literary criticism. The evidence of the scholia significantly adds to and enhances the picture that can be gained from studying the relevant treatises (such as Aristotle's *Poetics*): scholia also contain concepts that are not found in the treatises, and they are indicative of how the concepts are actually put to use in the progressive interpretation of texts. This book also demonstrates that it is vital to study both ancient terminology and the cases where a particular phenomenon is simply paraphrased. Nineteen thematic chapters provide a repertoire of the various terms and concepts of ancient literary criticism. The relevant witnesses are extensively quoted in Greek and English translation. A glossary of Greek terms (with translation) and several indices enable the book also to be used for reference.

Faith and Modern Thought Jun 11 2021 Get the full picture! Understand the whole story! *Faith and Modern Thought* is a jargon-busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern world, especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired. Tim Hull provides the wider intellectual picture, the fuller philosophical story in which modern theology was forged. After an engaging introduction to the European Enlightenment and the cultural crisis it triggered, the stage is set to understand the essence of modern theology. From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored, exposing a deep-rooted indebtedness to the Enlightenment tradition.

Faithful Labourers: a Reception History of Paradise Lost, 1667-1970 Nov 28 2022 "Volume one attends to questions of style and genre. The first three chapters examine the longstanding debate about Milton's grand style and the question of whether it forfeits the native resources of English. Early critics saw Milton as the pre-eminent poet of 'apt Numbers' and 'fit quantity', whose verse is 'apt' in the specific sense of achieving harmony between sound and sense; twentieth-century anti-Miltonists faulted Milton for divorcing sound from sense; late twentieth-century theorists have denied the possibility that sound can 'enact' sense. These are extreme changes of critical perception, and yet the story of how they came about has never been told. These chronological chapters explain the roots of these changes and, in doing so, engage with the enduring theoretical question of whether it is possible for sound to enact sense"--

J.G. Ballard's Politics Jan 25 2020 This book is the first sustained investigation of the political dimension in the work of J.G. Ballard. A product of and reaction to the cultural-socio-economic moment commonly designated as the postmodern condition, Ballard's oeuvre is read as a continuous and developing meditation on the postmodern, examining it specifically as an expression of late capitalism. The book shows that at the heart of this meditation lies the question of resistance. Drawing on a wide range of concepts and ideas taken from the field of critical theory, it argues that in the face of a world marked by an unprecedented expansion of capital, in which modernity's grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness, Ballard's fiction commits itself to a deliberately irrational and extreme, pataphysical thought in order to develop a new discourse of resistance. Against past readings that have construed Ballard's writing as non-political, decadent, or quietist, the study thus reveals Ballard as a thoroughly political author, committed to a subversive politics. In this way, the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political.

Shipwrecked Feb 26 2020 *Shipwrecked: Disaster and Transformation in Homer, Shakespeare, Defoe, and the Modern World* presents the first comparative study of notable literary shipwrecks from the past four thousand years, focusing on Homer's *Odyssey*, Shakespeare's *The Tempest*, and Defoe's *Robinson Crusoe*. James V. Morrison considers the historical context as well as the "triggers" (such as the 1609 Bermuda

shipwreck) that inspired some of these works, and modern responses such as novels (Golding's *Lord of the Flies*, Coetzee's *Foe*, and Gordon's *First on Mars*, a science fiction version of the *Crusoe* story), movies, television (*Forbidden Planet*, *Cast Away*, and *Lost*), and the poetry and plays of Caribbean poets Derek Walcott and Aimé Césaire. The recurrent treatment of shipwrecks in the creative arts demonstrates an enduring fascination with this archetypal scene: a shipwreck survivor confronting the elements. It is remarkable, for example, that the characters in the 2004 television show *Lost* share so many features with those from Homer's *Odyssey* and Shakespeare's *The Tempest*. For survivors who are stranded on an island for some period of time, shipwrecks often present the possibility of a change in political and social status—as well as romance and even paradise. In each of the major shipwreck narratives examined, the poet or novelist links the castaways' arrival on a new shore with the possibility of a new sort of life. Readers will come to appreciate the shift in attitude toward the opportunities offered by shipwreck: older texts such as the *Odyssey* reveals a trajectory of returning to the previous order. In spite of enticing new temptations, Odysseus—and some of the survivors in *The Tempest*—revert to their previous lives, rejecting what many might consider paradise. Odysseus is reestablished as king; Prospero travels back to Milan. In such situations, we may more properly speak of potential transformations. In contrast, many recent shipwreck narratives instead embrace the possibility of a new sort of existence. That even now the shipwreck theme continues to be treated, in multiple media, testifies to its long-lasting appeal to a very wide audience.

The Poet X Apr 21 2022 Winner of the National Book Award for Young People's Literature, the Michael L. Printz Award, and the Pura Belpré Award! Fans of Jacqueline Woodson, Meg Medina, and Jason Reynolds will fall hard for this astonishing New York Times–bestselling novel-in-verse by an award-winning slam poet, about an Afro-Latina heroine who tells her story with blazing words and powerful truth. Xiomara Batista feels unheard and unable to hide in her Harlem neighborhood. Ever since her body grew into curves, she has learned to let her fists and her fierceness do the talking. But Xiomara has plenty she wants to say, and she pours all her frustration and passion onto the pages of a leather notebook, reciting the words to herself like prayers—especially after she catches feelings for a boy in her bio class named Aman, who her family can never know about. With Mami's determination to force her daughter to obey the laws of the church, Xiomara understands that her thoughts are best kept to herself. So when she is invited to join her school's slam poetry club, she doesn't know how she could ever attend without her mami finding out. But she still can't stop thinking about performing her poems. Because in the face of a world that may not want to hear her, Xiomara refuses to be silent. "Crackles with energy and snaps with authenticity and voice." —Justina Ireland, author of *Dread Nation* "An incredibly potent debut." —Jason Reynolds, author of the National Book Award Finalist *Ghost* "Acevedo has amplified the voices of girls en el barrio who are equal parts goddess, saint, warrior, and hero." —Ibi Zoboi, author of *American Street* This young adult novel, a selection of the Schomburg Center's Black Liberation Reading List, is an excellent choice for accelerated tween readers in grades 6 to 8. Plus don't miss Elizabeth Acevedo's *With the Fire on High* and *Clap When You Land*!

Metaphor Mar 21 2022 The literary imagination may take flight on the wings of metaphor, but hard-headed scientists are just as likely as doe-eyed poets to reach for a metaphor when the descriptive need arises. Metaphor is a pervasive aspect of every genre of text and every register of speech, and is as useful for describing the inner workings of a "black hole" (itself a metaphor) as it is the affairs of the human heart. The ubiquity of metaphor in natural language thus poses a significant challenge for Natural Language Processing (NLP) systems and their builders, who cannot afford to wait until the problems of literal language have been solved before turning their attention to figurative phenomena. This book offers a comprehensive approach to the computational treatment of metaphor and its figurative brethren—including simile, analogy, and conceptual blending—that does not shy away from their important cognitive and philosophical dimensions. Veale, Shutova, and Beigman Klebanov approach metaphor from multiple computational perspectives, providing coverage of both symbolic and statistical approaches to interpretation and paraphrase generation, while also considering key contributions from philosophy on what constitutes the "meaning" of a metaphor. This book also surveys available metaphor corpora and discusses protocols for metaphor annotation. Any reader with an interest in metaphor, from beginning researchers to seasoned scholars, will find this book to be an invaluable guide to what is a fascinating linguistic phenomenon.

Similes of the Buddha Jun 23 2022 This book is an introductory guide to the rich, wonderful, and profound world of Buddhist similes. The Buddha used many similes as a skilful means to facilitate the understanding of teachings that otherwise could appear overly abstruse and dry to his listeners. Thus, contemplation of the similes and the explanations as given in this book will widen and deepen one's understanding of the Teaching of the Buddha.

The Routledge Handbook of Literature and Space Jul 13 2021 The "spatial turn" in literary studies is transforming the way we think of the field. The Routledge Handbook of Literature and Space maps the key areas of spatiality within literary studies, offering a comprehensive overview but also pointing towards new and exciting directions of study. The interdisciplinary and global approach provides a thorough introduction and includes thirty-two essays on topics such as: Spatial theory and practice Critical methodologies Work sites Cities and the geography of urban experience Maps, territories, readings. The contributors to this volume demonstrate how a variety of romantic, realist, modernist, and postmodernist narratives represent the changing social spaces of their world, and of our own world system today.

The Most Dangerous Game May 30 2020 From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (The Telegraph). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —Criterion

Character, Narrator, and Simile in the Iliad Dec 18 2021 Jonathan L. Ready offers the first comprehensive examination of Homer's similes in the *Iliad* as arenas of heroic competition. This study concentrates primarily on similes spoken by Homeric characters. The first to offer a sustained exploration of such similes, Ready shows how characters are made to contest through and over simile not only with one another but also with the narrator. Ready investigates the narrator's similes as well. He demonstrates that Homer amplifies the feat of a successful warrior by providing a competitive orientation to sequences of similes used to describe battles. He also offers a new interpretation of Homer's extended similes as a means for the poet to imagine his characters as competitors for his attention. Throughout this study, Ready makes innovative use of approaches from both Homeric studies and narratology that have not yet been applied to the analysis of Homer's similes.

The Aesthetics of Island Space Oct 28 2022 Oxford Textual Perspectives is a series of informative and provocative studies focused upon literary texts (conceived of in the broadest sense of that term) and the technologies, cultures, and communities that produce, inform, and receive them. It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies. By engaging with the materiality of the literary text, its production, and reception history, and frequently testing and exploring the boundaries of the notion of text itself, the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well-known works. The Aesthetics of Island Space discusses islands as central figures in the modern experience of space. It examines the spatial poetics of islands in literary texts, from Shakespeare's *The Tempest* to Ghosh's *The Hungry Tide*, in the journals of explorers and scientists such as James Cook and Charles Darwin, and in Hollywood cinema. It traces the ways in which literary and cinematic islands have functioned as malleable spatial figures that offer vivid perceptual experiences as well as a geopoetic oscillation between the material energies of words and images and the energies of the physical world. The chapters focus on America's island gateways (Roanoke and Ellis Island), visions of tropical islands (Tahiti and imagined South Sea islands), the islands of the US-Canadian border region in the Pacific Northwest, and the imaginative appeal of mutable islands. It argues that modern voyages of discovery posed considerable perceptual and cognitive challenges to the experience of space, and that these challenges were negotiated in complex and contradictory ways via poetic engagement with islands. Discussions of island narratives in postcolonial theory have broadened understanding of how islands have been imagined as geometrical abstractions, bounded spaces easily subjected to the colonial gaze. There is, however, a second story of islands in the Western imagination which runs parallel to this colonial story. In this alternative account, the modern experience of islands in the age of discovery went hand in hand with a disintegration of received models of understanding global space. Drawing on and rethinking (post-)phenomenological, geocritical, and geopoetic theories, *The Aesthetics of Island Space* argues that the modern experience of islands as mobile and shifting territories implied a dispersal, fragmentation, and diversification of spatial experience, and it explores how this disruption is registered and negotiated by both non-fictional and fictional responses.

Discovering Voice Dec 26 2019 *Discovering Voice* is a collection of classroom exercises that helps students deeply understand the reading and writing of complex text. The lessons, which cover diction, detail, figurative language, imagery, syntax, and tone, help students understand voice in what they read and encourage them to develop a strong, personal voice in their own writing. Every voice lesson includes a quotation selected from a wide range of fiction and nonfiction text, two discussion questions, and an exercise that encourages students to practice what they have learned about the elements of voice. These lessons are specifically designed for students in middle and high school. The lessons provide focused practice for a specific element of voice and take only 10 to 20 minutes of class time. *Discovering Voice* lessons fit well with any curriculum. As students work with the elements that comprise voice, they will improve their ability to critically analyze text. Students will also learn to apply the elements of voice to their own writing, creating a clear voice of their own.
