Reports of the Incidents of fall of large ice blocks from the sky have been appearing in media since times. These ice chunks, also known as “ Blue ice ” or “ Aircraft Ice ” happen to be the frozen mixture of human bio-waste and liquid disinfectant, that emerge in the form of the leakage from the defective toilet lines from a commercial airliner or any other transport category aircraft carrying passengers. The book gives an account of more than 600 such cases of ice fall worldwide extracted from various languages. Many people believe that the colour of ice blocks fallen from the aircraft toilets must be Blue or Green, but as a matter of fact, it could be of any colour, blue, green, yellowish, rusty, muddy, ash, white, dirty, or colourless. These ice blocks are potential hazards that are likely to

endanger the lives and properties on the ground. As, the incidents are generally viewed from the perspective of weather and therefore, no preventive measures are contemplated against them. However, a majority of them are actually found to be aviation-related, and thus there appears to be some possibility of minimising them provided appropriate precautionary measures are taken and implemented in the matter by the airlines, regulatory authorities for aviation and other concerned.

"This is the first occasion that a book on the topic of ice-fall from the sky has been written by an aviation expert, who has done it after conducting high-quality research work considering various aeronautical aspects as well as the facts & figures related to aviation - Satendra Singh, Former DGCA, India"

'Unique World Records'. Exploring the evolution of song and dance in the popular Hindi film, this book examines how these quintessential elements have been and continue to be theorized. As song 'picturizations', as they are frequently called, have evolved, shifting from little more than impromptu moves around tree trunks to highly choreographed affairs featuring scores of professional dancers and exotic backgrounds, their theorization has also developed beyond the initial, peremptory dismissals of earlier critics. Featuring a landmark collection of essays from leading theorists, as well as newer contributions from up-and-coming scholars, this book develops new and exciting ways of thinking about song and dance in Hindi cinema and, in turn, explores how these elements work to (re)define popular Hindi cinema in the twenty-first century. This collection will be of interest to students and scholars of Hindi cinema, musicals, and global popular cultures. It was originally published as a special issue of South Asian Popular Culture. The world of literature is excited about the arrival of the first book of world records to set five records at the same time, but there is another amazing achievement to note. This book has managed to enter the Top 10 of the most translated texts of humanity in its first edition as can be seen in the same WIKIPEDIA which will soon have to integrate this new achievement, something extremely rare in the industry

of edition and more in the books of world records that so far most translations were in a maximum of 36 languages, so that many languages have for the first time a book of world records worldwide or on the continents. The last book to enter this ranking took 80 years to complete, which shows how difficult it is to secure a place in this select group. However, the first book of world records managed to enter the Top 10 in its first edition, which is an impressive feat that has left many literary experts speechless. Moreover, this book also managed to be the third in the list of most translated books in the world and the most translated e-book in the world. These achievements testify to the global reach of this work, which was translated into 328 different languages in its first edition, covering 100% of the countries of the world. The OFFICIAL WORLD RECORD association, responsible for this impressive achievement, demonstrates its ingenuity and ability to internalize itself in the publishing industry. This organization is one of only two international record keeping associations capable of registering records globally, while the other is a fully private company. Obtaining its recognition means obtaining a unique and very special prestige and global category that only the few and the best can achieve or aspire to have in the world. In short, the first book of world records to set five records at the same time in a single book has

managed to enter the Top 10 of the most translated texts of mankind in its first edition, an impressive achievement which underlines its importance. And its global reach. in the world of literature and for everyone to have the opportunity to buy it in their native language, sales will be made through a global book site such as AMAZON. This book is a real gem for anyone interested in world records and literature, and a testament to human ingenuity and creativity in achieving extraordinary achievements across the globe. The OFFICIAL WORLD RECORD association is a recognized organization committed to its mission of recording and recognizing world records. The approval of a notarial deed by the College of Notaries of the European Union and its recognition as an NGO in the United States and Spain are proof of the organization's seriousness and commitment. The association has a notarial act approval from the College of Notaries of the European Union, which makes it an official and recognized body in Europe. This act has been approved by the rest of the associations of notaries in the world through a process called apostille carried out in The Hague, which makes it the only organization of global registers that is not motivated by partisan or economic interests like any private company would do. In addition, the priorities of the organization are to improve the social inclusion of people with a certain

type of disability, the environment, and the defense of human rights, as well as just causes and action. As spokesperson for their defense by holding records around the world.
