Traditional histories of the Civil  
War describe the conflict as a

war between North and South.  
Kenneth W. Noe suggests it  
should instead be understood  
as a war between the North,  
the South, and the weather. In  
The Howling Storm, Noe retells  
the history of the conflagration  
with a focus on the ways in  
which weather and climate  
shaped the outcomes of battles  
and campaigns. He further  
contends that events such as  
floods and droughts affecting  
the Confederate home front  
constricted soldiers' food

supply, lowered morale, and undercut the government's efforts to boost nationalist sentiment. By contrast, the superior equipment and open supply lines enjoyed by Union soldiers enabled them to cope successfully with the South's extreme conditions and, ultimately, secure victory in 1865. Climate conditions during the war proved unusual, as irregular phenomena such as El Niño, La Niña, and similar oscillations in the Atlantic Ocean disrupted weather patterns across southern states. Taking into account these meteorological events, Noe rethinks conventional explanations of battlefield victories and losses, compelling

historians to reconsider long-held conclusions about the war. Unlike past studies that fault inflation, taxation, and logistical problems for the Confederate defeat, his work considers how soldiers and civilians dealt with floods and droughts that beset areas of the South in 1862, 1863, and 1864. In doing so, he addresses the foundational causes that forced Richmond to make difficult and sometimes disastrous decisions when prioritizing the feeding of the home front or the front lines. The Howling Storm stands as the first comprehensive examination of weather and climate during the Civil War. Its approach, coverage, and

conclusions are certain to reshape the field of Civil War studies. As Storm Breaking opens, the western allies, led by Karal, Karsite Sunpriest and delegate to the Valdemaran Court, and the Adepts Firesong and An'desha, have traveled deep into the Dorisha Plains to locate the ancient ruins of the Tower of Urtho, Mage of Silence, creator of the gryphons. Legend has it that below the Tower, deeply buried beneath the plains, is Urtho's Vault, hidden stronghold of some of the most powerful magical weapons ever devised - weapons that Urtho himself felt were too dangerous to use. With the help of the Shin'a'in plainsmen, they have

successfully excavated this ancient arsenal, and risked their lives triggering one of these antique but potent tools of death to unleash a monstrous burst of mage-energy. With this explosion of magical power, Karal, Firesong, and their companions have temporarily counteracted the ever-increasing waves of the mage storms. But they know that this desperate action will not save them - they have bought themselves precious time, but are still far from a permanent solution. They know now that the mage storms are an "echo" through time of the prehistoric Cataclysm which destroyed Urtho's Tower, created the vast and barren

Dorisha Plains, and permanently warped their world more than two thousand years ago. And they also know that if they don't find a way to banish these magical vibrations they will culminate in another Cataclysm - this time destroying their world for good. But the Vault is not the only thing buried for centuries below the Dorisha Plains, and camped in the ruins of what once was the workplace of the most ingenious mage their world has ever known, the desperate allies soon come to realize that their solution may lie beneath the dust at their feet. The saving of their world just might be accomplished by the work of a man who has

been dead for millennia! The award-winning national bestseller, *Walking with the Wind*, is one of the most important records of the American civil rights movement as told by a true American hero, John Lewis, who Cornel West called a "national treasure." An eloquent and gripping first-hand account of the turbulent struggle for civil rights and the willingness and courage to change the course of history. Forty years ago, a teenaged boy named John Lewis stepped off a cotton farm in Alabama and into the epicenter of the struggle for civil rights in America. The ideals of nonviolence which guided that critical time of

American history established him as one of the movement's most charismatic and courageous leaders. Lewis's leadership in the Nashville Movement—a student-led effort to desegregate the city of Nashville using sit-in techniques based on the teachings of Gandhi—established him as one of the movement's defining figures and set the tone for the major civil rights campaigns of the 1960s. During this decade, he was repeatedly a victim of violence and intimidation, but his singular belief in non-violent action, inspired by his mentor, Dr. Martin Luther King, was a defining characteristic of his leadership

and vision. In 1986, he ran and won a congressional seat in Georgia, and remains in office to this day. *Walking with the Wind* is the story of an American hero. A boy from rural Alabama whose journey led him to Washington, and whose vision and perseverance changed a nation. CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of

immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index. Imagine if you lost your parents - not just in place, but in time. Jake D Jones mum and dad have gone missing and they could be anywhere in the world - at any time in history. Because the D Jones family have an astonishing secret, which for years they've managed to keep - even from each other. They belong to the History Keepers : a secret society which travels through the centuries to prevent evil enemies from meddling with Time itself. In the quest to find his parents, Jake is whisked

from 21st Century London to 19th century France, the headquarters of the mysterious History Keepers, where he discovers the truth about his family's disappearance - and the dastardly Prince Zeldt's plan to destroy the world as we know it ... Music, myth, and horror blend in this romantic, atmospheric fantasy debut about a teen girl who must fight a powerful evil that's invaded her Prince Edward Island home—perfect for fans of *An Enchantment of Ravens*. There's a certain wild magic in the salt air and the thrum of the sea. Beet MacNeill has known this all her life. It added spice to her childhood adventures with her older

cousin, Gerry, the two of them thick as thieves as they explored their Prince Edward Island home. So when Gerry comes up the path one early spring morning, Beet thinks nothing of it at first. But he is soaking wet and silent, and he plays a haunting tune on his fiddle that chills Beet to the bone. Something is very, very wrong. Things only get worse when Marina Shaw saunters into town and takes an unsettling interest in Gerry's new baby. Local lore is filled with tales of a vicious shape-shifting sea creature and the cold, beautiful woman who controls him—a woman who bears a striking resemblance to Marina. Beet is determined to

find out what happened to her beloved cousin, and to prevent the same fate from befalling the handsome new boy in town who is winning her heart, whether she wants him to or not. Yet the sea always exacts a price... Jake Djones' folks have gone missing and they could be anywhere in the world - at any time in history. For the Djones family have an astonishing secret. They belong to the History Keepers: a secret society which travels through the centuries to prevent evil enemies from meddling with history itself. It's the Age of Elegance in the summer playground of the affluent and powerful. Amid the pristine, island-dotted lakes and pine-

scented forests of the Canadian wilderness, the young and carefree amuse themselves with glittering balls and friendly competitions. The summer of 1914 promises to be different when the ambitious and destitute son of a disowned heir joins his wealthy family at their cottage on Wyndwood Island. Through Jack's introduction into the privileged life of the aristocratic Wyndhams and their social circle, he seeks opportunities and alliances to better himself, including in his schemes, his beautiful and audacious cousin, Victoria. But their charmed lives begin to unravel with the onset of the Great War, in which many are destined to

become part of the "lost generation." This richly textured tale takes the reader on an unforgettable journey from romantic moonlight cruises to the horrific sinking of the Lusitania, from regattas on the water to combat in the skies over France, from extravagant mansions to deadly trenches - from innocence to nationhood. The Summer Before The Storm, the first of the epic "Muskoka Novels," evokes a gracious, bygone era that still resonates in this legendary land of lakes. Jake travels through time to search for his lost parents. "[A] tremendous new book." —The Boston Globe "Carney and Miklian write vividly in the

fashion of a cinematic disaster flick." —The Washington Post The deadliest storm in modern history ripped Pakistan in two and led the world to the brink of nuclear war when American and Soviet forces converged in the Bay of Bengal In November 1970, a storm set a collision course with the most densely populated coastline on Earth. Over the course of just a few hours, the Great Bhola Cyclone would kill 500,000 people and begin a chain reaction of turmoil, genocide, and war. The Vortex is the dramatic story of how that storm sparked a country to revolution. Bhola made landfall during a fragile time, when Pakistan was on the brink of a

historic election. The fallout ignited a conflagration of political intrigue, corruption, violence, idealism, and bravery that played out in the lives of tens of millions of Bangladeshis. Authors Scott Carney and Jason Miklian take us deep into the story of the cyclone and its aftermath, told through the eyes of the men and women who lived through it, including the infamous president of Pakistan, General Yahya Khan, and his close friend Richard Nixon; American expats Jon and Candy Rhode; soccer star-turned-soldier Hafiz Uddin Ahmad; and a young Bengali revolutionary, Mohammed Hai. Thrillingly paced and written with

incredible detail, *The Vortex* is not just a story about the painful birth of a new nation but also a universal tale of resilience and liberation in the face of climate emergency that affects every single person on the planet. On March 12, 1888, a massive snow storm struck the northeastern United States, crippling New York City. In this exciting and moving account, Jim Murphy brings the Blizzard of 1888 to life, detailing the experiences of workers, families, and rescuers as they face the natural disaster that forever changed life in the United States--Cover. \*One of Bloomberg's Best Books of the Year\* The master geopolitical forecaster and New York Times

bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles—particularly, an eighty-year "institutional cycle" that has defined us

(there are three such examples—the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year "socio-economic cycle" that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s—a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability, and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of

marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining. In *Storm Kings*, Lee Sandlin retraces America's fascination and unique relationship to tornadoes and the weather. From Ben Franklin's early experiments, to "the great storm debates" of the nineteenth century, to heartland life in the early twentieth century, Sandlin shows how tornado chasing helped foster the birth of meteorology, recreating with vivid descriptions some of the most devastating storms in America's history. Drawing on

memoirs, letters, eyewitness testimonies, and numerous archives, Sandlin brings to life the forgotten characters and scientists that changed a nation and how successive generations came to understand and finally coexist with the spiraling menace that could erase lives and whole towns in an instant. From the author of the Jack Ryan series comes an electrifying #1 New York Times bestseller—a standalone military thriller that envisions World War 3... A chillingly authentic vision of modern war, *Red Storm Rising* is as powerful as it is ambitious. Using the latest advancements in military technology, the world's

superpowers battle on land, sea, and air for ultimate global control. It is a story you will never forget. Hard-hitting. Suspenseful. And frighteningly real. "Harrowing...tense...a chilling ring of truth."—TIME  
Orphaned by the Border Wars, Alina Starkov is taken to become the protégée of the mysterious Darkling, who trains her to join the magical elite in the belief that she is the Sun Summoner, who can destroy the monsters of the Fold. The thrilling sequel to H2O DEADLY TO THE LAST DROP . Ninety-seven percent of the population is dead. And the killer rain keeps falling. Ruby's not sure she can make it on her own much longer. So when a

chance encounter leads her to a camp with the last boy she may ever kiss (it's not easy to date during an apocalypse), Ruby gratefully accepts the army's protection. But safety comes with a price: If Ruby wants to stay, she must keep her eyes-and her mouth-shut. Except Ruby stumbles across a secret she can't possibly keep. Horrified, she flips out and fights back-only to make the most shocking discovery of all... Praise for H2O: "Creepy and realistic. H2O left me thirsting for more." -Kristen Simmons, author of Article 5 and Breaking Point "Ruby's candid, addicting narration brought this terrifying and wholly plausible story to life.

This is a book you'll devour all at once—from the safety of your umbrella!" -Jessica Khoury, author of Origin and Vitro  
The stages of the creative process—from “unlearning” to beginning again—seen through examples from the practice of artists, architects, poets, and others. Although each instance of creativity is singular and specific, Kyna Leski tells us, the creative process is universal. Artists, architects, poets, inventors, scientists, and others all navigate the same stages of the process in order to discover something that does not yet exist. All of us must work our way through the empty page, the blank screen, writer's block, confusion,

chaos, and doubt. In this book, Leski draws from her observations and experiences as a teacher, student, maker, writer, and architect to describe the workings of the creative process. Leski sees the creative process as being like a storm; it slowly begins to gather and take form until it overtakes us—if we are willing to let it. It is dynamic, continually in motion; it starts, stops, rages and abates, ebbs and flows. In illustrations that accompany each chapter, she maps the arc of the creative process by tracing the path of water droplets traveling the stages of a storm. Leski describes unlearning, ridding ourselves of preconceptions;

only when we realize what we don't know can we pose the problem that we need to solve. We gather evidence—with notebook jottings, research, the collection of objects—propelling the process. We perceive and conceive; we look ahead without knowing where we are going; we make connections. We pause, retreat, and stop, only to start again. To illustrate these stages of the process, Leski draws on examples of creative practice that range from Paul Klee to Steve Jobs, from the discovery of continental drift to the design of Antoni Gaudí's Sagrada Familia. Creativity, Leski tells us, is a path with no beginning

or end; it is ongoing. This revelatory view of the creative process will be an essential guide for anyone engaged in creative discovery. The Creative Process Unlearning Problem Making Gathering and Tracking Propelling Perceiving and Conceiving Seeing Ahead Connecting Pausing Continuing 'A vibrant tale of betrayal, intrigue and revolution' Anthony Ryan 'A thrilling, fantastical adventure that introduces a beguiling new world' S. A. Chakraborty In the city of Bassa, Danso is a clever scholar on the cusp of achieving greatness—only he doesn't want it. Instead, he prefers to chase forbidden stories about what lies outside

the city walls. The Bassai elite claim there is nothing of interest. The city's immigrants are sworn to secrecy. But when Danso stumbles across a warrior wielding magic that shouldn't exist, he's put on a collision course with Bassa's darkest secrets. Drawn into the city's hidden history, he sets out on a journey beyond its borders. But the chaos left in the wake of his discovery threatens to destroy the empire. Award-winning author Suyi Davies Okungbowa begins a thrilling new epic fantasy series of violent conquest, buried histories and forbidden magic. Praise for *Son of the Storm* 'A contender for best new fantasy series of the year'

SFX 'Everything I love to see in a fantasy story: masterful, fully-realised worldbuilding, morally complex characters, thoughtful and piercing interrogations of power . . . Damn good stuff!' Jenn Lyons 'An elaborately plotted tale of ancient magics and world-shattering politics. I, like many others, will be impatiently waiting for the next instalment!' Andrea Stewart 'An original and fully conceived new world of fantasy teeming with brilliant possibilities' P. Djèlí Clark 'An epic fantasy set apart by how deftly Okungbowa unfurls his intricate, richly imagined world' A. K. Larkwood 'Forgotten magic propels a richly drawn story of ambition, conspiracy and the

elusiveness of belonging' Fonda Lee 'Bold characters, bloody action and brutal politics. I thoroughly enjoyed it!' James Islington Introduces the world of Roshar through the experiences of a war-weary royal compelled by visions, a highborn youth condemned to military slavery, and a woman who is desperate to save her impoverished house. Junger's great book matter-of-factly conveys the mysterious glamour of war, the exhilaration of its excess and intensity and, not least, the undeniable glory of men bravely preparing for battle as for "some terrible silent ceremonial that portends human sacrifice." Enter the

world of Renaissance Venice, where the competition for fame and fortune can mean life or death... Artists flock here, not just for wealth and fame, but for revolutionary color. Yet artist Giorgione "Zorzo" Barbarelli's career hangs in the balance. Competition is fierce, and his debts are piling up. When Zorzo hears a rumor of a mysterious new pigment, brought to Venice by the richest man in Europe, he sets out to acquire the color and secure his name in history. Winning a commission to paint a portrait of the man's wife, Sybille, Zorzo thinks he has found a way into the merchant's favor. Instead he finds himself caught up in a

conspiracy that stretches across Europe and a marriage coming apart inside one of the floating city's most illustrious palazzi. As the water levels rise and the plague creeps ever closer, an increasingly desperate Zorzo isn't sure whom he can trust. Will Sybille prove to be the key to Zorzo's success or the reason for his downfall? Atmospheric and suspenseful and filled with the famous artists of the era, *The Color Storm* is an intoxicating story of art and ambition, love and obsession. Driven from his home by the Ku Klux Klan and still reeling from the death of his mother, Nathan moves with his father and grandfather to the desolate Pea Island on the

Outer Banks of North Carolina to start a new life. Fortunately, life on Pea Island at the end of the 19th century is far from quiet. The other island residents include the surfmen--the African American crew of the nearby U.S. Life-Saving Station--and soon Nathan is lending an extra hand to these men as they rescue sailors from sinking ships. Working and learning alongside the courageous surfmen, Nathan begins to dream of becoming one himself. But the reality of post-Civil War racism starts to show itself as he gradually realizes the futility of his dream. And then another dream begins to take shape, one that Nathan refuses to let

anyone take from him. More heart-stopping action and suspense from the bestselling author of Amazonia and Subterranean. . . . "Rollins writes with intelligence, clarity, and a refreshing sense of humor."—Kirkus Reviews In his five previous thrillers, James Rollins, the king of speculative adventure writing, has taken readers on mind-expanding journeys spanning from the top of the world to deep within the earth's surface. In this latest voyage of imagination combining hard science with explosive page-turning excitement—his most breathtaking yet—he explores the mysterious sands of the Arabian peninsula. Twenty

years ago, a wealthy British financier disappeared near Ubar, the fabled lost city buried beneath the sands of Oman. Now, an expedition of scientists, led by the financier's daughter, is finally setting off for the legendary metropolist to unlock the desert's secrets. What they find, however, is more beautiful than they ever dreamed—and far deadlier. Within Ubar is a powerful energy source that could fuel the entire earth above—if it can be harnessed. But before they can resurface, the explorers become trapped. For the same life-giving force that can save the world is about to set off a giant, sweeping storm awesome enough to annihilate

everything in its wake . . . Complemented by an author introduction, the screenplay for a six-hour television miniseries follows the residents of Little Tall Island as they prepare to cope with both a dangerous storm and an mysteriously evil force The second instalment of the internationally acclaimed series which follows the adventures of Jake DJones and the extraordinary secret service that protects the true course of history . . . It's their deadliest mission yet: track down Agata Zeldt, the most evil woman in history, as she plots to topple the empire of ancient Rome and throw the world into turmoil. Jake and his friends are forced to travel further

back into history than ever before to save the day. Well, all of the days actually. In this exciting sequel, the History Keepers embark upon another rollercoaster adventure, taking them from the snowy wilds of Sweden to the streets of Rome at the height of its glory. Their search leads them to Circus Maximus, the colossal stadium at the heart of the ancient world. It will be the race of their lives . . . Paul Harvey illustrates how black Christian traditions provided theological, institutional, and personal strategies for cultural survival during bondage and into an era of partial freedom. At the same time, he covers the ongoing tug-of-war between themes of

"respectability" versus practices derived from an African heritage; the adoption of Christianity by the majority; and the critique of the adoption of the "white man's religion" from the eighteenth century to the present. The book also covers internal cultural, gendered, and class divisions in churches that attracted congregants of widely disparate educational levels, incomes, and worship styles. *Through the Storm, Through the Night* provides a lively overview to the history of African American religion, beginning with the birth of African Christianity amidst the Transatlantic slave trade, and tracing the story through its

growth in America. Paul Harvey successfully uses the history of African American religion to portray the complexity and humanity of the African American experience. Twenty years ago, the Persian Gulf War captured the attention of the world as the first test of the U.S. Army since the Vietnam War and the first large-scale armor engagement since World War II. Saddam Hussein's invasion of Kuwait and his subsequent ouster by the U.S.-led coalition are keys to understanding today's situation in the Middle East. The coalition partnerships cemented in that initial operation and in the regional peacekeeping operations that

followed provided the basis for a growing series of multinational efforts that have characterized the post-Cold War environment. Moreover, the growing interoperability of U.S. air, sea, and land forces coupled with the extensive employment of more sophisticated weapons first showcased in Desert Storm have become the hallmark of American military operations and the standard that other nations strive to meet. From internationally bestselling author and celebrated actress Celia Imrie, an epic novel set against the backdrop of the sinking of the Titanic. Nice, France, 1911: After three years of marriage, Marcella Navratil

has finally had enough. Her husband, Michael, an ambitious tailor, may have charmed her during their courtship, but their few years of marriage have revealed a cruel and controlling streak. The 21-year-old mother of two is determined to get a divorce. But while awaiting the Judges' decision on the custody of their children, Michael receives news that changes everything. Meanwhile fun-loving New York socialite Margaret Hays is touring Europe with some friends. Restless, she resolves to head home aboard the most celebrated steamer in the world. But as the ship sets sail for America, carrying two infants bearing false names,

the paths of Marcella, Michael and Margaret cross and nothing will ever be the same again. Orphans of the Storm dives into the waters of the past to unearth a sweeping, epic tale of the sinking of the Titanic that radiates with humanity and hums with life. "Seamlessly interweaves five love stories that, together, chronicle sixty years of Bangladeshi history. Shahryar, a recent PhD graduate and father of nine-year-old Anna, must leave the US when his visa expires. In their last remaining weeks together, we learn Shahryar's history, in a village on the Bay of Bengal, where a poor fisherman and his wife are preparing to face a

storm of historic proportions. That story intersects with those of a Japanese pilot, a British doctor stationed in Burma during World War II, and a privileged couple in Calcutta who leaves everything behind to move to East Pakistan following the Partition of India. Inspired by the 1970 Bhola cyclone, in which half a million people perished overnight, the structure of this riveting novel mimics the storm itself. Building to a series of revelatory and moving climaxes, it shows the many ways in which families love, betray, honor, and sacrifice for one another. At once grounded in history and fantastically imaginative, *The Storm*

explores the humanity that connects us beyond the surface differences of race, religion, and nationality. It is an epic novel in the tradition of Khaled Hosseini's *The Kite Runner* and Rohinton Mistry's *A Fine Balance*, by a singularly gifted and perceptive new writer.-- "Gripping. . . . splendid history. A brilliantly clear and accessible account of the war in all its theaters. Roberts's prose is unerringly precise and strikingly vivid. It is hard to imagine a better-told military history of World War II." -New York Times Book Review Andrew Roberts's acclaimed new history has been hailed as the finest single-volume account of this epic conflict.

From the western front to North Africa, from the Baltic to the Far East, he tells the story of the war—the grand strategy and the individual experience, the brutality and the heroism—as never before. Meticulously researched and masterfully written, *The Storm of War* illuminates the war's principal actors, revealing how their decisions shaped the course of the conflict. Along the way, Roberts presents tales of the many lesser-known individuals whose experiences form a panoply of the courage and self-sacrifice, as well as the depravity and cruelty, of the Second World War. "Jennifer L. Armentrout is a master of weaving rich contemporary

realism with magic and mayhem. Her characters will grab hold of your heart and refuse to let go. Every page left me wanting more."—New York Times bestselling author Brigid Kemmerer

**BOOK ONE IN THE NEW YORK TIMES BESTSELLING HARBINGER SERIES, PERFECT FOR FANS OF ROMANTIC FANTASY** Meet Trinity Marrow, a girl with an explosive secret whose hiding place has just been discovered... Eighteen-year-old Trinity may be going blind, but she can see and communicate with ghosts and spirits. Her gift is the reason she's been in hiding for years in a compound guarded by Wardens—shape-shifters who protect

humankind from demons. If the demons discover the truth about Trinity, they'll devour her to enhance their powers. When Wardens from another clan arrive with reports that something is killing both demons and Wardens, Trinity's world implodes. Not the least because one of the outsiders is the most annoying and fascinating person she's ever met. Zayne has secrets of his own—but working together becomes imperative once demons breach the compound and Trinity's secret comes to light. To save her family and maybe the world, she'll have to trust Zayne. But all bets are off as a supernatural war is unleashed... The Harbinger

Series: Storm and Fury Rage and Ruin Grace and Glory Can't get enough of Zayne? Read about his past in The Dark Elements series: The Dark Elements Series: Bitter Sweet Love (ebook-only prequel) White Hot Kiss Stone Cold Touch Every Last Breath The definitive history of Katrina: an epic of citymaking, revealing how engineers and oil executives, politicians and musicians, and neighbors black and white built New Orleans, then watched it sink under the weight of their competing ambitions. Hurricane Katrina made landfall in New Orleans on August 29, 2005, but the decisions that caused the disaster extend across the

twentieth century. After the city weathered a major hurricane in 1915, its Sewerage and Water Board believed that developers could safely build housing away from the high ground near the Mississippi. And so New Orleans grew in lowlands that relied on significant government subsidies to stay dry. When the flawed levee system surrounding the city and its suburbs failed, these were the neighborhoods that were devastated. The homes that flooded belonged to Louisianans black and white, rich and poor. Katrina's flood washed over the twentieth-century city. The flood line tells one important story about

Katrina, but it is not the only story that matters. Andy Horowitz investigates the response to the flood, when policymakers reapportioned the challenges the water posed, making it easier for white New Orleanians to return home than it was for African Americans. And he explores how the profits and liabilities created by Louisiana's oil industry have been distributed unevenly among the state's citizens for a century, prompting both dreams of abundance—and a catastrophic land loss crisis that continues today. Laying bare the relationship between structural inequality and physical infrastructure—a relationship that has shaped all

American cities—Katrina offers a chilling glimpse of the future disasters we are already creating. It is a day in the country, and everything is hot and still. Then the hazy sky begins to shift. Something is astir, something soundless. At the dawn of the twentieth century, a great confidence suffused America. Isaac Cline was one of the era's new men, a scientist who believed he knew all there was to know about the motion of clouds and the behavior of storms. The idea that a hurricane could damage the city of Galveston, Texas, where he was based, was to him preposterous, "an absurd delusion." It was 1900, a year when America felt

bigger and stronger than ever before. Nothing in nature could hobble the gleaming city of Galveston, then a magical place that seemed destined to become the New York of the Gulf. That August, a strange, prolonged heat wave gripped the nation and killed scores of people in New York and Chicago. Odd things seemed to happen everywhere: A plague of crickets engulfed Waco. The Bering Glacier began to shrink. Rain fell on Galveston with greater intensity than anyone could remember. Far away, in Africa, immense thunderstorms blossomed over the city of Dakar, and great currents of wind converged. A wave of atmospheric turbulence slipped

from the coast of western Africa. Most such waves faded quickly. This one did not. In Cuba, America's overconfidence was made all too obvious by the Weather Bureau's obsession with controlling hurricane forecasts, even though Cuba's indigenous weathermen had pioneered hurricane science. As the bureau's forecasters assured the nation that all was calm in the Caribbean, Cuba's own weathermen fretted about ominous signs in the sky. A curious stillness gripped Antigua. Only a few unlucky sea captains discovered that the storm had achieved an intensity no man alive had ever experienced. In Galveston,

reassured by Cline's belief that no hurricane could seriously damage the city, there was celebration. Children played in the rising water. Hundreds of people gathered at the beach to marvel at the fantastically tall waves and gorgeous pink sky, until the surf began ripping the city's beloved beachfront apart. Within the next few hours Galveston would endure a hurricane that to this day remains the nation's deadliest natural disaster. In Galveston alone at least 6,000 people, possibly as many as 10,000, would lose their lives, a number far greater than the combined death toll of the Johnstown Flood and 1906 San Francisco Earthquake. And

Isaac Cline would experience his own unbearable loss. Meticulously researched and vividly written, Isaac's Storm is based on Cline's own letters, telegrams, and reports, the testimony of scores of survivors, and our latest understanding of the hows and whys of great storms. Ultimately, however, it is the story of what can happen when human arrogance meets nature's last great uncontrollable force. As such, Isaac's Storm carries a warning for our time. The women in an Arctic village must survive a sinister threat after all the men are wiped out by a catastrophic storm in this "gripping novel inspired by a real-life witch

hunt. . . Beautiful and chilling" (Madeline Miller, bestselling author of Circe). When the women take over, is it sorcery or power? Finnmark, Norway, 1617. Twenty-year-old Maren Magnasdatter stands on the craggy coast, watching the skies break into a sudden and reckless storm. All forty of the village's men were at sea, including Maren's father and brother, and all forty are drowned in the otherworldly disaster. For the women left behind, survival means defying the strict rules of the island. They fish, hunt, and butcher reindeer—which they never did while the men were alive. But the foundation of this new feminine frontier begins to

crack with the arrival of Absalom Cornet, a man sent from Scotland to root out alleged witchcraft. Cornet brings with him the threat of danger—and a pretty, young Norwegian wife named Ursa. As Maren and Ursa are drawn to one another in ways that surprise them both, the island begins to close in on them, with Absalom's iron rule threatening Vardø's very existence. "The Mercies has a pull as sure as the tide. It totally swept me away to Vardø, where grief struck islanders stand tall in the shadow of religious persecution and witch burnings. It's a beautifully intimate story of friendship, love and hope. A haunting ode

to self-reliant and quietly defiant women." (Douglas Stuart, Booker Prize winning author of Shuggie Bain) "A complex tale of war, politics, and lust for power." —The Guardian War built the Kisian Empire. War will tear it down. Seventeen years after rebels stormed the streets, factions divide Kisia. Only the firm hand of the god-emperor holds the empire together. But when an unexpected betrayal destroys a tense alliance with neighboring Chiltae, all that has been won comes crashing down. In Kisia, Princess Miko Ts'ai is a prisoner in her own castle. She dreams of claiming her empire, but the path to power could rip it, and her family, asunder. In

Chiltae, assassin Cassandra Marius is plagued by the voices of the dead. Desperate, she accepts a contract that promises to reward her with a cure if she helps an empire fall. And on the border between nations, Captain Rah e'Torin and his warriors are exiles forced to fight in a foreign war or die. As an empire dies, three warriors will rise. They will have to ride the storm or drown in its blood. *We Ride the Storm* is the epic launch of a bold and brutal fantasy series, perfect for readers of Mark Lawrence, John Gwynne, and Brian Staveley. Praise for *The Reborn Empire*: "An exciting new author in fantasy." —Mark Lawrence, author of *Red Sister*

"Imaginative worldbuilding, a pace that builds perfectly to a heart-pounding finale and captivating characters. Highly recommended." —John Gwynne, author of *The Shadow of the Gods* *The Reborn Empire* *We Ride the Storm* *We Lie with Death* *We Cry for Blood* *We Dream of Gods* For more from Devin Madson, check out: *The Vengeance Trilogy* *The Blood of Whisperers* *The Gods of Vice* *The Grave at Storm's End* Christopher Zyda confronts the long-buried and painful memories of his harrowing fifteen-year journey in *The Storm: One Voice from the AIDS Generation*, a heart-wrenching love story and coming-of-age tale during the

early years of the AIDS crisis in Los Angeles. It all begins in the spring of 1983, when Chris, a twenty-one-year-old UCLA English Literature major and aspiring writer, risks ostracism when he comes out of the closet to his fraternity brothers just as the AIDS pandemic is beginning to explode in gay communities across the United States. Soon afterward, Chris meets and falls in love with Stephen, a graduate of Yale University and Law School, and the two of them build a life together as their friends start to fall sick and die from the spreading storm of AIDS. Stephen begins showing symptoms of AIDS in early 1986, and Chris faces a difficult

choice as he is certain that he, too, eventually will be stricken by the disease. He abandons his writing career and attends the UCLA business school so that he can earn enough money to pay for healthcare during Stephen's illness. *The Storm* is filled with heart, optimism, and love, interspersed with Los Angeles history, gay and lesbian history, AIDS history, and the backdrop of the 1980s and 1990s. It is an unflinching and, at times, raw memoir of perseverance, integrity, forgiveness, the power of love, spiritual growth, *Carpe Diem*, dreams, and, most of all: survival and ultimate triumph. 2020 Museum of African American History Stone Book

Award 2020 Lillian Smith Book Award Finalist, 2020 Pauli Murray Book Prize For generations, historically Black colleges and universities (HBCUs) have been essential institutions for the African American community. Their nurturing environments not only provided educational advancement but also catalyzed the Black freedom struggle, forever altering the political destiny of the United States. In this book, Jelani M. Favors offers a history of HBCUs from the 1837 founding of Cheyney State University to the present, told through the lens of how they fostered student activism. Favors chronicles the development

and significance of HBCUs through stories from institutions such as Cheyney State University, Tougaloo College, Bennett College, Alabama State University, Jackson State University, Southern University, and North Carolina A&T. He demonstrates how HBCUs became a refuge during the oppression of the Jim Crow era and illustrates the central role their campus communities played during the civil rights and Black Power movements. Throughout this definitive history of how HBCUs became a vital seedbed for politicians, community leaders, reformers, and activists, Favors emphasizes what he calls an

unwritten "second curriculum" at HBCUs, one that offered students a grounding in idealism, racial consciousness, and cultural nationalism. An accessible book that examines the mathematics of weather prediction *Invisible in the Storm* is the first book to recount the history, personalities, and ideas behind one of the greatest scientific successes of modern times—the use of mathematics in weather prediction. Although humans have tried to forecast weather for millennia, mathematical principles were used in meteorology only after the turn of the twentieth century. From the first proposal for using mathematics

to predict weather, to the supercomputers that now process meteorological information gathered from satellites and weather stations, Ian Roulstone and John Norbury narrate the groundbreaking evolution of modern forecasting. The authors begin with Vilhelm Bjerknes, a Norwegian physicist and meteorologist who in 1904 came up with a method now known as numerical weather prediction. Although his proposed calculations could not be implemented without computers, his early attempts, along with those of Lewis Fry Richardson, marked a turning point in atmospheric science.

Roulstone and Norbury describe the discovery of chaos theory's butterfly effect, in which tiny variations in initial conditions produce large variations in the long-term behavior of a system—dashing the hopes of perfect predictability for weather patterns. They explore how weather forecasters today formulate their ideas through state-of-the-art mathematics, taking into account limitations to predictability. Millions of variables—known, unknown, and approximate—as well as billions of calculations, are involved in every forecast, producing informative and fascinating modern computer simulations of the Earth

system. Accessible and timely, *Invisible in the Storm* explains the crucial role of mathematics in understanding the ever-changing weather. Some images inside the book are unavailable due to digital copyright restrictions. This first novel in Jack Whyte's riveting Arthurian series tells how the story of Camelot may have actually come to be. We all know the story—how Arthur pulled the sword from the stone and how Camelot came to be. But how did it really happen? The Roman citizens of Britain faced a deadly choice: leave to live in a corrupt Roman world, or stay amidst the violence of the warring factions of Picts, Celts, and

invading Saxons. For Publius Varrus and Caius Britannicus, there is only one answer. They will stay, try to preserve the best of Roman life, and create a new culture from the wreckage. In doing so, they will plant the seeds of a legend. For these two men are Arthur's great-grandfathers and their actions will shape a nation...and forge the sword known as Excalibur.
