Davin Jamison is already burned out when he receives an honorable discharge from the United States Army. After he lands a job in Manhattan, Kansas, his life seems to be on track until his boss lays him off. As a father and husband, Davin already feels the pressure as the provider. But when his wife continually reminds him of his failed military career, an angry David abandons his family for a new

beginning in Arkansas. Anxious to see Kansas in his rear mirror, Davin pushes his motorcycle to its limits. After he speeds past a trooper, the officer pursues him on a death-defying chase into Topeka that grabs news coverage and the attention of two men who bail him out of jail. Donald Walker and Richard Sharpe have been searching for the right driver to represent them in the Transcontinental American Race. As an alternative to prison, they invite Davin to participate in a coast-to-coast race with sixteen others that include an Englishman, an ex-marine, and a beautiful Porsche test driver. As the race begins, Davin soon learns that speed limits are simply suggestions. In this fast-paced tale, a young man leaves everything behind to learn what he is truly made of during a transcontinental race through America. Text of opinions of Federal and State Courts and administrative tribunals under statutes relating to minimum wages, maximum hours, overtime

compensation, child labor, equal pay, wage stabilization, with tables of cases. The humor and innocence of the United States Navy Sailor is captured in the unique and sportive tales of a salty master chief set in the final quarter of the twentieth century. Sweepers sweepers man your brooms is a phrase readily recognized by any Sailor who ever woke up on a United States Navy ship. In his Navy memoirs Retired Navy Master Chief Jeff Zahratka, a twenty six year veteran chronicles rich adventures that carry the reader to exotic settings from Karachi Pakistan to Severmorsk Russia. Sweepers Sweepers is a colorful story with uncanny notice of the odd occurrences that take place between the life lines of Navy ships and isolated shore establishments not a story about bombs, battles, or spectacular explosions, Sweepers Sweepers Man Your Brooms is his story about how people of great diversity coexist in eighty-man bedrooms while living out of devices

known as coffin lockers. Consistently found in the effectuation of extraordinary events, the ubiquitous American Sailor may be found crawling through garbage in an equatorial Shellback initiation or baring their derrieres at a Soviet aircraft carrier while traversing the Cape of Good Hope. He may be discovered in hand to hand combat, not with a human enemy manned up at a fire control console on an Aegis cruiser, but with a toilet brush in a Greek hotel room, fighting to the death with a mutated species of an ancient Hellenic centipede. The author fails miserably at camouflaging his affection for the city of Pittsburgh and his long time devotion to their high powered sports teams. He provides many insightful moments relating to being a fan from afar through some of the greatest years in Steeler and Pirate sports history. The story is a rich and historically accurate account of a caste of characters from seaman recruits with attitudes honed on tough urban streets, to

brown juice spitting good ole boys that learned to love the sea. There are associations and first hand opinions on the actions of young naval officers who today are among the top ranking leaders of the force. Sweepers Sweepers Man Your Brooms is a tapestry of the social morays, historical events, and military technologies that define the character of the Navy for the last thirty years. The reader will experience sufficient history to educate, and an infusion of personal opinion which will serve as a catalyst for debate. Above all; however, the story will remind Americans why they love Sailors, and remind old Sailors of why they love the Navy. Conveys in dramatic detail the high-risk, covert operations of a nuclear attack submarine during the zenith of the Cold War Captain Alfred Scott McLaren served as commander of the USS Queenfish (SSN 651) from September 1969 to May 1973, the very height of the Cold War. As commander, McLaren led at least six major clandestine operations, including the first-ever exploration of the entire Siberian Continental Shelf: a perilous voyage detailed in his previous book *Unknown Waters*. *Emergency Deep: Cold War Missions of a Submarine Commander* conveys the entire spectrum of Captain McLaren's experiences commanding the

USS Queenfish, mainly in the waters of the Russian Far East and also off Vietnam. McLaren offers a riveting and deeply human story that illuminates the intensity and pressures of commanding a nuclear attack submarine in some of the most difficult circumstances imaginable. Relying on his own notes and records, as well as discussions with former officers and shipmates, McLaren focuses on operational matters both great and small. He recounts his unique perspectives on attack-submarine tactics and exploratory techniques in high-risk or uncharted areas, matters of leadership and team-building and the morale of his crews, and the innumerable and often unforeseen ways his philosophy of command played out on a day-to-day basis, with consequences that ran the gamut from the mundane to the dire and life-threatening. Readers are also treated to significant new information and insight on submarine strategy, maneuvers, and

culture. Such details illuminate and bring to life, with both great humor and gravitas, the intensity and pressures on those engaged in covert missions on nuclear attack submarines.
