***Talking with Patients About the Personal Impact of Illness Oct 06 2020 This book explores the psychosocial impact of serious illness - its effect on a person's identity and relationships - and the doctor's role in counseling patients. Even the most seasoned physician often feels inadequate when it comes to discussing the personal impact of disability and serious illness with patients. It takes time, attention, and skill. Most physicians who are good at this learn what to say from observations of physicians they respect and the conversations they share with patients over many years of practice. Like everything else in medicine, there is a continuous learning curve. This book offers a beginning. It includes first-hand experiences and reflections on serious illness by physicians and patients, concrete advice on how to initiate discussions of difficult psychosocial issues, topics for organising discussion,***

suggested readings, and guides for patient interviews.' Much is written about patient-centered care and the patient experience. What sets this book apart is, first, Lenore Buckley's ability to tell stories about her own medical experience. These teaching tales give young physicians a sense of the task that their profession requires of them, while keeping that task within human proportions. Second and complementing that is her excellent compilation of quotations and stories from the memoirs of patients and physicians, especially physicians as patients. 'I hope this empathic, useful collection of materials for teaching and reflection finds its way into medical school curricula, and I hope it is one of those books that physicians return to during years of practice, especially when they sense that the treatment expert is crowding the witness out of the room. Patients need both doctors. Lenore Buckley shows how doctors are able to expect nothing less of themselves' - Arthur W Frank in the Foreword.

Talking with the Enemy Oct 18 2021 The decisions to negotiate in the South African and Israeli/Palestinian conflicts can be understood in terms of changed perceptions of threat among political elites and their constituents. As perceptions of an imminent threat to national survival receded, debate over national security policy became a focus of internal politics on the government sides in each case and prompted changes of leadership. The new leaders, F.W. de Klerk and Yitzhak Rabin, faced emerging threats at the national and international levels that made negotiation seem advantageous. Lieberfeld analyzes the decisions of the opposition ANC and PLO in terms of changing threat perceptions and incentives for compromise. Lieberfeld also evaluates developments since the breakthrough agreements. He concludes by identifying revised indicators of conflicts' ripeness for negotiated settlement and discussing their applicability to other cases of intense, protracted conflict.

*Talking with the Children of God Aug 04 2020 Grounded in direct, systematic observation by neutral observers, Talking with the Children of God is a unique study of the radical religious movement now known as The Family International. The book draws on extraordinarily candid interviews with the group's leaders and administrative staff. In revealing new information about the organization's history, beliefs, and use of prophecy, Gordon Shepherd and Gary Shepherd offer a highly detailed case study that is both an antidote to sensationalized coverage of the group and a means for understanding the transformational practices of new religious movements in general. One of the most controversial groups emerging from the Jesus People movement of the 1960s, the Family originally was known as The Children of God. Under leader David Berg, members proclaimed an apocalyptic "Endtime," shunned secular occupations, lived communally, and adopted unusual sexual practices that led to abuse scandals in the 1970s and 1980s. Following Berg's death in 1994, the organization began to dramatically alter its evangelization efforts and decision-making processes. Talking with the Children of God builds a picture of a complex organization with ten thousand core members worldwide, including details on the lives, careers, and responsibilities of the second generation and their efforts to defend their faith. The authors summarize the Family's history and beliefs as well as its controversial past. In particular, they analyze the organization's use of prophecy--or channeled revelations from Jesus and other spiritual beings--for making decisions and setting policy, revealing how this essentially democratic process works and how it shapes Family life and culture. These remarkable insights are the result of sixteen years of surveys and field observations conducted in Family member homes in sixteen countries, plus four days of face-to-face interviews with Family leaders and organizational staff. The volume also includes condensed transcripts of the interviews with analysis by Shepherd and Shepherd.*

*Walking and Talking with God Mar 11 2021 Do you desire a walking-and-talking relationship with God? How soul-satisfying would it be to have a 24/7 prayer life? Our Father in heaven longs for an abiding relationship with each of his children. That's what the Bible is all about--from cover to cover. That's what this biblically rich book is all about as well. Here you*

will find practical help to deepen your walk with God through prayer. You'll also be inspired to intercede for "everyone in your world" through a simple way to pray every day. You will also be motivated to remove any barriers to prayer in your life. *Walking and Talking with God* will help you go deeper in intimacy with God through prayer and will move you from praying just for your own needs to focusing on God's purposes for the world around you. As a result, may you see your own life and your world change in wonderful ways.

*Talking with My Father* Jul 15 2021 You'll explore the question of why and how you should pray, as well as the true nature of prayer. *Talking with My Father* reminds you that Jesus lived in constant communion with God. Jesus never taught His disciples how to preach, but how to talk to God—to enter into a spiritual conversation! For Jesus, prayer was as necessary as breathing—the very breath of life itself. In the same way, Christ calls you to a life of spiritual intimacy and offers the life-giving secrets of prayer.

*Nice Talking With You Level 2 Student's Book* May 05 2023 *Nice Talking with You* is a two-level oral communication series designed to get students talking. *Nice Talking with You Level 2* is designed for elementary and pre-intermediate students. It contains 12 topic-based units and two review units. Topics in Level 2 relate to the equivalent units in Level 1, and include *Going out, Fashion, Learning, Experience abroad, Health, and Careers*. Examples of strategies featured in *Nice Talking with You Level 2* are: introducing a new idea; making, accepting and declining invitations; changing the focus of a topic; and making an inference.

*Talking with Your Kids about God* May 25 2022 *Christian parenting is hard work--and it's getting harder. Parents have a deep desire to pass on their faith, but fear that today's increasingly skeptical and hostile world will eventually lead their kids to reject the truth of Christianity. That leaves many parents feeling overwhelmed--uncertain of what they can do to help their children, given the difficulty and extent of the faith challenges they will face. This practical and timely resource gives parents the confidence of knowing what to discuss with their children and how to discuss it in order to facilitate impactful conversations that will form the basis of a lifelong faith. In a friendly, parent-to-parent voice, Natasha Crain*

identifies 30 specific conversations about God that parents must have with their children, organizing them under the categories of - the existence of God - science and God - the nature of God - believing in God - the difference God makes Chapters are sequenced in a curriculum-oriented way to provide a cumulative learning experience, making this book a flexible resource for use in multiple settings: homes, church classes, youth groups, small groups, private Christian schools, and homeschools. Every chapter has a step-by-step conversation guide with discussion questions and tips, and content is readily adaptable for use with kids of any age (elementary through high school).

Endorsements: "My prayer is that God will use this book to both motivate and equip you to help your kids develop convictions about their faith."--From the foreword by Sean McDowell, PhD, Biola University professor, speaker, and author of more than eighteen books, including *A New Kind of Apologist* "I can't think of a more relevant or more needed book for parents raising kids in today's culture. This book on apologetics will lead parents in critical conversations that will help grow and guide kids to be lifelong followers of Christ."--Kristen Welch, author of *Raising Grateful Kids in an Entitled World* "Hey parents: Do you want to reduce the chances that your child will follow the crowd to the point of rejecting Christ and the values and truths you hold so dearly? Then you need to have the conversations that Natasha Crain so brilliantly describes in this book. Prevent heartbreak later by reading and heeding this book now!"--Frank Turek, PhD, president of CrossExamined Ministries and author of *I Don't Have Enough Faith to Be an Atheist* and *Stealing from God* "May this book lead to thousands more Moms and Dads engaging with their kids through an intelligent faith. And may there be tens of thousands more kids who feel loved because the adults in their lives take their questions seriously."--Jeff Myers, PhD, president, Summit Ministries

**The Grim Sleeper - Talking with America's Most Notorious Serial Killer, Lonnie Franklin Mar 30 2020 During the mid-1980s, a brutal killing spree began in Los Angeles as several women were murdered, having been sexually assaulted and shot in the chest with a .25 calibre gun. The man responsible was Lonnie David Franklin Jr. However, his identity wouldn't be revealed for almost thirty years, by which time he had become one of America's most prolific serial killers. At the time, Los Angeles was a city struggling under the weight of racial inequalities and a crack cocaine epidemic that was sweeping through its most deprived areas. Many in the communities of South Central felt that this caused a lack of interest on the part of the LAPD in properly investigating the these murders. In 2010, Franklin's escape from justice finally came to an end, and he was eventually convicted of the killings of nine women and one teenage girl in 2016, although it is suspected that he could be responsible for killing many, many more. In this book, investigative journalist Victoria Redstall delves into the mind of America's most notorious serial killer to discover the truth, in his own words, behind his appalling actions as well as speaking to neighbours, family members, victims' family members and police connected to the case. By visiting Franklin in prison and gaining his trust, she allows Franklin to reveal a terrifying lack of empathy for the victims whose lives he so brutally ended. This is a chilling and fascinating look into the crimes of the Grim Sleeper.**

**Talking to Strangers Jun 01 2020 Malcolm Gladwell, host of the**

podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

*Talking with Horses* Aug 28 2022 She falls in love with Zehun, a lieutenant of Attila the Hun, while he saves her from savages who want her dead. She returns the favor by saving Zehun seconds before he is sliced to pieces by Roman soldiers who have captured him. She places seven arrows into seven soldiers in as many seconds, shooting left and right with her bow. This happens in an action-packed fantasy world Emma Armbrust has created as a refuge from her autism. In real life, Emma's autism enables her to communicate with her jumping horse, Tower, as people and horses did millions of years before. Emma is eighteen years old, tall, blonde, and beautiful. She lives in the hills of Malibu, California, and she falls in love with Jules, a troubled young man who is her age and also a social outcast. There is just one problem: Zehun and Jules look exactly alike. They just live two thousand years apart. While Emma tries desperately to resolve her love triangle, she survives medication to make her normal and then rides Tower to National Grand Prix victory, thus, saving the family horse ranch from bankruptcy.

**Talking with the President Jan 21 2022 This book provides a pragmatic analysis of presidential language. Pragmatics is concerned with meaning in context, or the relationship between what we say and what we mean. John Wilson explores the various ways in which U.S. Presidents have used language within specific social contexts to achieve specific objectives. This includes obfuscation, misdirection, the use of metaphor or ambiguity, or in some cases simply lying. He focuses on six presidents: John F. Kennedy, Richard M. Nixon, Ronald W. Reagan, William F. Clinton, George W. Bush, and Barack H. Obama. These presidents cover most of the last half of the twentieth century, and the first decade of the twenty first century, and each has been associated with a specific linguistic quality. John F. Kennedy was famed for his quality of oratory, Nixon for his manipulative use of language, Reagan for his gift of telling stories, Clinton for his ability to engage the public and to linguistically turn arguments and descriptions in particular directions. Bush, on the other hand, was famed for his inability to use language appropriately, and Obama returns us to the rhetorical flourishes of early Kennedy. In the case of each president, a range of specific examples are explored in order to highlight the ways in which a pragmatic analysis may provide an insight into presidential language. In many cases, what the president says is not necessarily what the president means.**

**Talking With Cats Sep 28 2022 In Talking With Cats, Nichols takes us on a personal journey that enriches the spirit, informs the mind and becomes a map for healing and finding true inner happiness. The author does talk with cats; one of them is wise and thoughtful. Another is sarcastic, rude and funny. He is even ambushed by a horse, anxious to join him on his pilgrimage. On another day, he is attacked by a large German shepherd dog—with a very different outcome than expected. More importantly, he talks with the people who have come to the Camino de Santiago to heal their spirit and find a meaningful life. This Story is written with a sense of wonder and reverence for nature, earth and all life. Discover the real heart, soul and spirit of the Camino as you meet the people who walk it, the warm hospitality of the volunteers who care for it, and the rich culture and history of the Spanish people who have inherited the unique DNA of pride and service. During 500 miles, walk with Nichols through the Basque country, the Spain of Old Castile and Leon, and the ancient, proud Celtic tribes of Galicia. Savor the wines, learn about the cuisine, and hear the stories of mystical northern Spain. Talking With Cats is not a guide to a place or a destination. It is a guide to our hearts, walking, and the spiritual journey that heals, instructs, and returns us to an authentic life and a sustainable earth.**

**Doctors Talking with Patients/patients Talking with Doctors Dec 20 2021** Medical visits are often less effective and satisfying than they would be if doctors and patients better understood the communication most needed for attainment of mutual health goals. Here, professors of medicine and psychology join forces to help us understand this vital issue, and the means to best facilitate

communication that brings more effective medical care and happier, healthier consumers. The verbal and nonverbal exchanges that take place between doctor and patient affect both participants, and can result in a range of positive or negative psychological reactions - including comfort, alarm, irritation, or resolve. The authors set out specific principles and recommendations for improving doctor-patient relationships. They describe the process of communication, analyse social and psychological factors that colour doctor-patient exchanges, and detail changes that can benefit both parties.

*Seeing the Dead, Talking with Spirits* May 01 2020 Recounts one woman's discovery of her ability to heal through contact with spirits and reveals how others can awaken this same gift in their own lives • Explains how reconnecting with our inner sense of joy is the first step in healing • Shows how to rid our life of the traumas from the past that hinder our spiritual development, including unresolved traumas from past lives • Provides a roadmap that others can use for rediscovering their own connections to the spirit world Like many others who have discovered that they have a healing vocation, Alexandra Leclere began meeting with other healers and shamans to learn how to put her gift to use. At one of these gatherings she was shocked to find that she was the only one who could see the spirit of a deceased woman that was being honored there--a sign that marked the beginning of a remarkable adventure that taught her how to use her gift for healing herself and others. Despite the extraordinary powers of clairsentience and clairvoyance revealed to her through her work with the spirit world, Alexandra Leclere shows that the greatest gift she has received since her shamanic awakening is the ability to experience unconditional joy. Often the pain caused by unresolved psychological traumas from the past--including past lives--is the key obstacle restricting access to the powers offered by the spirits. The first step in healing requires reconnecting with the joy that resides within us. Once this connection has been established, we are all

capable of restoring our connection to the spirit world. Alexandra Leclere's story provides a roadmap for finding our way back.

*Talking with Doctors Apr 23 2022 Without any warning, in September 1999, David Newman was told he had a rare and life-threatening tumor in the base of his skull. In the compressed space of five weeks, he consulted with leading physicians and surgeons at four major medical centers. The doctors offered drastically differing opinions; several pronounced the tumor inoperable and voiced skepticism about the effectiveness of any nonsurgical treatment. Talking with Doctors is the story of Newman's efforts, at a time of great stress and even impending death, to wend his way through the dense thicket of medical consultations in search of a physician and a treatment that offered the possibility of survival. It is the story, especially, of the harrowing process of assessing conflicting "expert" opinions and, in so doing, of making sense of the priorities, personalities, and vulnerabilities of different doctors. All too often, he found, the leading specialists to whom he was sent were strangers in the consulting room-and strangers who became stranger still, both cognitively and emotionally, when ambiguous findings pushed them to the outer limits of their training and experience. Newman writes poignantly of his sense of powerlessness and desperation, of the painstaking means by which he ascertained what could be known about his tumor, and of the fortuitous events that finally led him to life-saving help. Talking with Doctors is a compelling, absorbing, unsettling story that touches a collective raw nerve about the experience of doctors and medical care when life-threatening illness leads us to subspecialists at major medical centers. Probing the nature of medical authority and the grounds of a trusting doctor-patient relationship, Newman illuminates with grace and power what it now means for a patient to participate in life-and-death medical decisions.*
