This book will show you how a simple writing tool can easily be turned into an effective self-defense weapon with just a little knowledge, practice, determination and imagination. This is to my knowledge, the first manual ever written that deals primarily with the use of the pen as a self-protection tool. Some of the areas this book will cover include choosing the best pen for self-defense, carrying methods, how to grip the pen for most effectiveness, the right to self-defense and the law, vulnerable areas of the body and specific techniques and tactics to use the pen for self-defense. The key to defending yourself must always begin with the realization that your own body has numerous areas that can be used as a self-defense tool. The straight stick has probably been used as a self-defense tool since a human made the first footprints on earth. Through the ages variations of the stick and staff have been created to make a better self-defense tool. The straight stick was turned into spears and swords. Understanding the basic use of the straight police baton makes it possible to use numerous other objects for self-defense. In fact, the same techniques taught for using the police baton relate to a host of stick fighting and sword arts such as Hanbo-Jutsu, Jo-Jutsu, Wakizashi-Jutsu and similar weapon combat systems. It is hoped this book will provide a basic overview of the many ways a straight baton can be used for self-defense, control and takedowns for law enforcement, security officers and martial artists studying weapons.
