Alice Neel: Uptown Feb 16 2022 Known for her portraits of family, friends, writers, poets, artists, students, singers, salesmen, activists, and more, Alice Neel created forthright, intimate, and, at times, humorous paintings that quietly engaged with political and social issues. In *Alice Neel, Uptown*, writer and curator Hilton Als brings together a body of paintings and works on paper of African-Americans, Latinos, Asians, and other people of color for the first time. Highlighting the innate diversity of Neel's approach, the selection looks at those whose portraits are often left out of the art-historical canon and how this extraordinary painter captured them; "what fascinated her was the breadth of humanity that she encountered," Als writes. The publication, which opens with a foreword by Jeremy Lewison, advisor to The Estate of Alice Neel, explores Neel's interest in the diversity of uptown New York and the variety of people

amongst whom she lived. This group of portraits includes well-known figures such as playwright, actress, and author Alice Childress; the sociologist Horace R. Cayton, Jr.; the community activist Mercedes Arroyo; and the widely published academic Harold Cruse; alongside more anonymous individuals of a nurse, a ballet dancer, a taxi driver, a businessman, and a local kid who ran errands for Neel. In short and illuminating texts on specific works written in his characteristic narrative style, Als writes about the history of each sitter and offers insights into Neel and her work, while adding his own perspective. A contemporary and personal approach to the artist's oeuvre, Als's project is "an attempt to honor not only what Neel saw, but the generosity of her seeing." This catalogue is published on the occasion of the 2017 exhibitions of Neel's paintings and drawings at David Zwirner, New York, and Victoria Miro, London.

The Ice Bucket Challenge Apr 25 2020 While everyone knows of the Ice Bucket Challenge, the viral craze that swept the nation in summer 2014, too few know the truly inspirational story behind it. Pete Frates was a man at war with his own body. A man whose love for others was

unshakable. A man who refused to fight alone, and in so doing mobilized a global army to combat one of the most devastating diseases on earth: ALS, or Lou Gehrig's disease. When disease crippled Frates, the former Boston College baseball star turned tragedy into inspiration. Pete's story is a testament to the power of love, the steadfastness of family, the generosity of strangers, and the compassion of crowds. Half of the authors' proceeds will go to the Frates family.

Borges and Kafka Sep 30 2020 Sarah Roger investigates Jorge Luis Borges's development as an author in light of Franz Kafka's influence, and in consideration of Borges's relationship with his father, Jorge Guillermo Borges (Borges pere, a failed author). Borges believed that much of Kafka's writing derived from his personal experiences, particularly his relationship with his father. This book looks at how reading Kafka helped Borges mediate and make productive use of his own relationship with his father, and it offers a thorough analysis of Borges pere's writing, which is supplemented by an appendix that reprints Borges pere's poetry for the first time. Borges and Kafka also provides extensive analysis of Kafka's presence in Borges's critical writing, his translations, and the stories that he modelled on Kafka. Particular attention is paid to the concepts that Borges identified as Kafka's obsessions: subordination, infinity, and hierarchical relationships, which Borges referred to as the "patria potestad." Roger's analysis is accompanied by an annotated bibliography documenting every mention of Kafka in Borges's writing and a list of every Kafka text Borges read. Kafka's influence is especially evident in the stories where Borges was openly

imitating Kafka--"La loteria en Babilonia" (1941), "La biblioteca de Babel" (1941), and "El Congreso" (1971)--but it features throughout Ficciones. Reading Borges's writing in light of his interest in Kafka demonstrates his focus not just on the individual's subordinate place in an infinite hierarchy but also on the repercussions these circumstances had for a struggling author like Borges, who was seeking to define himself through his writing.

Berlin - The Symphony Continues Jun 08 2021 The sudden fall of the Berlin Wall is one of the defining images of the late twentieth century. The subsequent unification of Germany and the decision to return Berlin to its status as capital has made the constant changes within the city a matter of public interest. It also offered Berlin the opportunity to create a new image for itself, one that can serve as a counterbalance to the politically charged recent history of Berlin as the capital of Nazi Germany and former East Berlin as the capital of the German Democratic Republic. Poised between capitalist Western Europe and the former communist powers in Eastern Europe, Berlin occupies a fascinating geopolitical space. This anthology presents a unique glimpse into the various constituencies that make up Berlin and that impact the city's challenges and promises.

It's All In The Mind Oct 24 2022 British popular culture would probably be very different had Larry Stephens not been born. We could now be living in a world without the Carry On films or Monty Python, and we may never have heard of Tony Hancock, Peter Sellers or Spike Milligan. Stephens' promising career as a jazz pianist was interrupted by the war, and after

serving as an officer with the commandos he moved to London and struck up a friendship with Tony Hancock, becoming the sole writer of his stage material. Hancock introduced him to Peter Sellers, Harry Secombe, Spike Milligan and Michael Bentine and together they created The Goon Show, arguably the world's most influential comedy programme. As one of the main writers throughout its nine-year run, Stephens' experiences and acquaintances became themes and characters within the show. For the first time, the life and work of this unsung hero of British comedy has been thoroughly explored. Using unrivalled access to Larry Stephens' personal archive of letters, photographs and artwork, plus interviews with Stephens' many notable friends, family members, comrades and colleagues, *It's All In The Mind* tells the story of a boy from the Black Country whose short life had an enduring impact.

Gold Oct 12 2021 The dying begins now. "I am Solomon. Remember my name." How could the world forget? The cardinals were dead, murdered with the eyes of the world watching intently. The people that were supposed to protect them had failed spectacularly. The promise had been for forty days and forty nights of fear. Now the dying has begun with that first burning body in Trafalgar Square. The media speculate that it is an attack on faith, that Solomon is out to destroy all symbols of Christianity. They fear for the holy relics, the Shroud of Turin, the Spear of Destiny, all of the fragments of the true cross, anything and everything sacred to Rome, but it is much more than that. Forty days and forty nights of fear. Can the world survive the nerve-shredding anxiety that kind of fear brings with it without turning on itself? As the first ghost planes falls out of the sky, all of its passengers and crew dead, killed by some toxic nerve agent released by one of Solomon's sleeper agents, the answer seems to be a resounding no. The enemy is too big. Too strong. The stakes too high. But that impossible fight was exactly the kind of threat his team of misfits had been assembled to face down. They were the only ones capable of acting outside the law, no restrictions on how far they can go to protect the Realm, no action too extreme - because they aren't there. They don't exist. Everything they do and have done is deniable. PRAISE FOR STEVEN SAVILE AND

Die Musealisierung der Migration hat Konjunktur. Mit kritischem Blick untersucht dieses Buch nun erstmals Formen und Funktionen der verstärkten Repräsentation von

Migration in Museen und Ausstellungen. Wie wird die multikulturelle Gesellschaft inszeniert? Welche Interessen und Konflikte treten dabei zutage? Was lässt sich aus Projekten in Übersee für Deutschland und Europa lernen? Mit der Diskussion solcher Fragen leistet die Studie, die sich gleichermaßen an Kulturwissenschaftler, Kulturpolitiker und Museumsmacher wendet, einen wichtigen Beitrag zur Debatte um Geschichtspolitik und Erinnerung in der Einwanderungsgesellschaft.

Stress Echocardiography Jan 03 2021 This sixth edition is enriched by over 300 figures, 150 tables and a video-companion collecting more than 100 cases also presented in the format of short movies and teaching cartoons. This extensively revised and enlarged edition of this long-seller documents the very significant advances made since the fifth (2009) edition and is entirely written by Eugenio Picano, a pioneer in the field sharing his lifetime

experience with the help of an international panel of 50 contributors from 22 countries representing some of the best available knowledge and expertise in their respective field. In a societal and economic climate of increasing pressure for appropriate, justified and optimized imaging, stress echocardiography offers the great advantages of being radiation-free, relatively low cost, and with a staggering versatility: we can get more (information) with less (cost and risk). For a long time, the scope and application of stress echo remained focused on coronary artery disease. In the last ten years, it has exploded in its breadth and variety of applications. From a black-and-white, one-fits-all approach (wall motion by 2D-echo in the patient with known or suspected coronary artery disease) now we have moved on to a omnivorous, next-generation laboratory employing a variety of technologies (from M-Mode to 2D and pulsed, continuous, color and tissue Doppler, to lung ultrasound and real time 3D echo, 2D speckle tracking and myocardial contrast echo) on

patients covering the entire spectrum of severity (from elite athletes to patients with end-stage heart failure) and ages (from children with congenital heart disease to the elderly with low-flow, low-gradient aortic stenosis). [AF Press Clips](#) Feb 22 2020
