The route follows a general direction but no particular trail, thus causing little or no impact and allowing hikers to experience the beautiful sub-alpine region of the High Sierra in a unique way. This guidebook offers a selection of 38 routes from simple day walks, high mountain scrambles to very demanding multi-day treks in the striking Sierra Nevada, the highest mountain range in mainland Spain. Easily accessible from Granada and Malaga, it is a world of soaring, snow-clad peaks and deep valleys, far removed from the crowded beaches of the Costa del Sol just two hours away. The routes are spread across the national park, with attractive towns and villages such as Trevelez, Lanjaron, Hoya de la Mora and Cumbres Verdes serving as potential bases for a walking holiday. From more leisurely outings in the Cumbres Verde area to ascents of mainland Spain's highest summit, Mulhacen, there are routes to suit a range of abilities, although most require a reasonable degree of fitness, navigational skill and experience of high mountain terrain. Whilst some of the routes are day or half-day walks, others take advantage of the region's network of mountain shelters or offer an opportunity to wild camp. Also included are three longer traverses: 'Los Tres Picos' (the Spanish Three Peaks - Veleta, Mulhacen and Alcazaba), 'Los Tres Miles' Integral (a multi-day trek covering all the major 3000m peaks in the range) and an overview of the 302km Sulayr GR240. The walks can be enjoyed most of the year, however conditions may prove too hot at the peak of summer and extra care and equipment will be required in snow

or ice: the descriptions assume summer conditions, but include additional notes for winter walking. The guide also includes advice on transport, bases and safety, a tick-list of the 3000m peaks and a Spanish-English glossary. Easy Access to National Parks enables those with physical disabilities to enjoy our national parks -- from Olympic National Park in Washington State to Everglades National Park in Florida and from Yosemite National Park in California to Acadia National Park in Maine. Those with mobility problems, vision and hearing impairments, seniors, families with young children -- anyone looking for gentle, low-effort hiking opportunities will find this thoroughly researched guide an invaluable resource. Features include:

- Practical advice on planning safe and rewarding visits to fifty national parks, with in-depth descriptions of fifteen parks designated as "Best Visits" for their exceptional accessibility --
- Accessible park attractions and services, including trails, viewpoints, camp-grounds, lodging, restaurants, visitor centers, museums, ranger-conducted programs, tours, recreational opportunities, and much more --
- Tips on natural and human history, climate and terrain, and plant and animal life --
- Twenty color photographs, twelve black-and-white photographs, and twenty maps

"Magnificent." -- Holly Black, New York Times Book Review

Sometimes, coming home is only the beginning... Don't miss this reader favorite McKettrick tale from #1 New York Times bestselling author Linda Lael Miller. Sierra McKettrick felt like a fraud. She might be moving to her family's ancestral ranch with her son, but being a McKettrick by blood wasn't enough to make her fit in. To make matters worse, from the moment she'd met the Triple M's ranch hand, he'd gotten under Sierra's skin. With his rugged body and tender compassion, Travis Reid was a temptation she didn't need or want. But as Sierra began to form a connection to one of her ancestors, Hannah McKettrick--also a woman with a young son and an inconvenient attraction to the wrong man--Sierra started to realize that there were some bonds that even time couldn't break. And there were some charmed places where even the loneliest of people could find home...and love. Originally published in 2006

Story Behind the Book “After writing the twelve-book Christy Miller series for teens, a new character showed up on the pages of the final novel. Her name was Sierra Jensen, and she was so compelling as a teenage character that readers began asking for a series about Sierra in order to hear more about her life choices. Our family had just moved to Portland at the time, and I found it easy to picture a sixteen-year-old like Sierra shopping at the local vintage clothing stores, hanging out with friends at a garage band concert, and serving at the homeless shelter on weekends.” —Robin Jones Gunn

Analyzes the massive turmoil afflicting the nation of Sierra Leone, 1995-2002, and the efforts of outside forces to bring stability to that small country. The taxonomy of intervention ranged from private mercenary armies, through the Economic Community of West African States, to the U.N. and the U.K. In every case, those who intervened encountered a common set of difficulties that had to be overcome. Unsurprisingly, they also discovered challenges unique to their own org. and political circumstances. Serving soldiers can often profit vicariously from the mistakes of others as recounted in detailed case studies of historical events. ¿A cautionary tale that political leaders and military planners contemplating intervention in Africa ignore at their peril.¿
