By combining the research and insights of the scientific community and expertise of the crafts people, this unique book brings readers into a sustained and inclusive conversation, one where academic and industrial thought leaders, coffee farmers, and baristas are quoted, each informing and enriching each other. From on-farming processes to consumer benefits, the reader is given a deeper appreciation and understanding of coffee's complexity and is invited to form their own educated opinions on the ever changing situation, including potential routes to further shape the coffee future in a responsible manner. Presents a novel synthesis of coffee research and real-world experience that aids understanding, appreciation, and potential action. Includes contributions from a multitude of experts who address complex subjects with a conversational approach. Provides expert discourse on the coffee value chain, from agricultural and production practices, sustainability, post-harvest processing, and quality aspects to the economic analysis of the consumer value proposition. Markets of Paris Aug 03 2020 The only complete guide to every street market and market district in Paris, with beautiful full color photographs throughout Perhaps the most pleasurable way for any visitor to feel at home in Paris—and one of the easiest ways to get to know the city—is to meander through any of its dozens of street markets. It's also the best way to find a wide variety of uniquely French gifts—from antique books and botanical prints to flea market finds and household goods—not to mention legendary cheeses, produce, and bounty of the French countryside. The authors have explored and described every market in every neighborhood. They also have included streets that are devoted to selling one type of thing—from the centuries-old booksellers along the Seine to those lined with stores selling items as varied as fabric and discounted designer clothing. And, for everyone who feels their time in the city is all too short, they have suggested itineraries based on the opening days of the markets with local restaurant recommendations. Also included are tips, translations of important phrases, and pointers on what to look for so that the visitor will be able to make the most of this exhilarating and fun French experience. All the market information is supplemented by sidebars that round out the experience, including a listing of favorite wine bars, a visit to the wood oven in the cellar of the famous bakery Poilane, and

strolls down the best shopping streets in Paris.

Simple objects elegantly made of leather are featured everywhere on maker blogs, photo-sharing sites, tutorials, and craft marketplaces. Leather is in the real world, too, in heavily curated hipster boutiques and well-edited coffee shops that sell sundries. *Idiot's Guides: Leather Crafts* offers 20 projects (illustrated with copious step-by-step photos), ranging from beginner to advanced, each one building on the skills that have been taught in prior projects. Unlike most existing books on leathercraft, which come with a heavy whiff of the '70s, this one has a sleek, modern aesthetic. The projects are functional, and the minimal, elegant embellishment and natural finishes will keep them timeless.

Making is Connecting Apr 30 2020 SECOND UPDATED EDITION, WITH THREE ALL-NEW CHAPTERS The first edition of *Making is Connecting* struck a chord with crafters, YouTubers, makers, music producers, artists and coders alike. David Gauntlett argues that through making things, people engage with the world and create connections with each other. Online and offline, we see that people want to make their mark, and to make connections. This shift from a 'sit-back-and-be-told culture' to a 'making-and-doing culture' means that a vast array of people are exchanging their own ideas, videos, and other creative material online, as well as engaging in real-world crafts, music projects, and hands-on experiences. Drawing on evidence from psychology, politics, philosophy, and economics, Gauntlett shows that this everyday creative engagement is necessary and essential for the happiness and survival of modern societies. This fully revised second edition includes many new sections as well as three brand new chapters on creative processes, do-it-yourself strategies, and platforms for creativity.
