Those who study kendo regard promotion examinations and matches as vehicles for cultivating self-discipline. Preparing to take a grading is especially motivating compared to regular training. It is,

however, also a tremendous disappointment when you fail. There are those who manage to pass each examination without ever failing, and others who reach an impasse. So, what is the difference between these two groups? If you can figure this out, even just a little, you are one step closer to finding success. There are many things needed for success in an examination, not least of which is impressing the judges with resonating strikes. There is no way to achieve your goal without knowing how to accomplish this. The content of this book is based on lessons I learned from my sensei, my personal experiences in the dojo, and what I read in books and instruction manuals along the way. I hope that you will find the information in this small volume useful reference material as you tread down the path of kendo. A beautifully illustrated guide to the colorful gardens that surround the Smithsonian museums along the National Mall, each unique in its design, plant materials, and purpose. Many visitors are surprised to learn that the Smithsonian Institution includes extensive gardens and landscape areas. All have been designed to complement the museums they border and to enhance the overall museum experience. Imagine having the Smithsonian's resources and knowledge to solve the problems that confront every gardener: holding four-season interest, experimenting with exotic plants, designing a garden that reflects the architecture around it, creating a contemplative space, recreating historic or themed gardens, and much more. The Smithsonian Gardens are wide ranging: gardens that reflect distinct cultural influences; a rose garden; an intimate, four-season wonder filled with a vast selection of plants; an ever-changing backdrop and contemplative haven for viewing large-scale works of art; an eco-sensitive Native American habitat considered an extension of the building; an urban space dedicated to butterfly gardening; historical gardens that reflect the classic American flower garden and the Victory gardens of World War II; a classical oasis that invites reflection and contemplation; a historic

courtyard turned all-season favorite with architectural pinache; the greenhouses that support these gardens and the museums with orchid displays, seasonal interest, and plant materials; and a garden collection that includes both furniture displayed in garden settings and extensive collections documenting historic and contemporary American gardens. A popular entrepreneur explains the true happiness comes not from wealth but from inner contentment and shares personal stories of his own rise to success and how he never failed to remain grounded during the process. A highly provocative, mindbending, beautifully designed, and visionary look at the landscape of our rapidly evolving digital era. 50 years after Marshall McLuhan's ground breaking book on the influence of technology on culture in *The Medium is the Massage*, Basar, Coupland and Obrist extend the analysis to today, touring the world that's redefined by the Internet, decoding and explaining what they call the 'extreme present'. *THE AGE OF EARTHQUAKES* is a quick-fire paperback, harnessing the images, language and perceptions of our unfurling digital lives. The authors offer five characteristics of the Extreme Present (see below); invent a glossary of new words to describe how we are truly feeling today; and 'mindsources' images and illustrations from over 30 contemporary artists. Wayne Daly's striking graphic design imports the surreal, juxtaposed, mashed mannerisms of screen to page. It's like a culturally prescient, all-knowing email to the reader: possibly the best email they will ever read. Welcome to *THE AGE OF EARTHQUAKES*, a paper portrait of Now, where the Internet hasn't just changed the structure of our brains these past few years, it's also changing the structure of the planet. This is a new history of the world that fits perfectly in your back pocket. 30+ artists contributions: With contributions from Farah Al Qasimi, Ed Atkins, Alessandro Bavo, Gabriele Basilico, Josh Bitelli, James Bridle, Cao Fei, Alex Mackin Dolan, Thomas Dozol, Constant Dullaart, Cecile B Evans, Rami Farook, Hans-Peter Feldmann, GCC, K-Hole, Liam Gillick, Dominique

Writing a book is fun and easy--yes, FUN AND EASY--but it may not always feel that way. How do you find the time to write? How do you keep momentum? How do you deal with the horror of showing anyone a single sentence of your work-in-progress? The answers remain fun and easy, and author Elizabeth Sims will take your hand, dispel your worries, and show you how it's done in this stress-free guide to accomplishing your dream of writing your book. In *You've Got a Book in You*, Elizabeth is that encouraging voice guiding you through the entire process, from finding the right time and place to gathering all of your creative tools to diving right in and getting it done--page by page, step by step. It's easier than you think, and it all starts right here, right now. "This guide is witty, warm, and wise--and wonderfully down-to-earth as well. Elizabeth Sims doesn't just tell you that you've got a book in you, she shows you how to pour it out using your own creative spirit, common sense, and persistence." ~Lori L. Lake, author of *The Gun Series* and *The Public Eye Mystery Series* "If you're searching for the spark of inspiration to get started writing a book, and the nourishment to sustain you to THE END, Elizabeth Sims's *You've Got a Book in You* will show you how to find it in yourself." ~Hallie Ephron, award-winning author of *There Was an Old Woman* "You won't find an easier-to-follow or more inspirational writing guide." ~L.J. Sellers, author of the bestselling Jackson mysteries "By focusing the high beams of her intelligence (and humor!) on the twisty trail of book-writing, in *You've Got a Book in You*, Elizabeth Sims proves herself a true writer's friend. As she guides you from the creation of a "working title" through her (brilliant!) "Making-It-Better Process," this well-established pro plays her most impressive cards--stacking the deck in favor

of YOU!" ~Jamie Morris, Director, Woodstream Writers "Elizabeth Sims packs a twelve-week writing course into 280 pages. Inspirational and yet extremely hands-on, You've Got a Book In You will give newbies confidence to forge ahead and will remind veteran writers why they began writing in the first place--for the joy of it. I won't be surprised when the brilliant terms 'stormwriting' and 'heartbrain' become part of every writer's lexicon." ~Julie Compton, author of Tell No Lies and Keep No Secrets "The book is encouraging and inspiring, practical and witty. As a seasoned writer, I appreciate the reminders about the importance of putting yourself on a writing schedule. No more excuses. The many 'writing blasts' are very helpful and will get any writer out of the starting blocks. I especially enjoyed the section, 'Writing with the Masters.' What better way to get inspired, get a feel for different styles, and get jump-started on your writing? Excellent advice that I plan to incorporate in my future classes. I concur with Sims that 'writer's block' is greatly exaggerated. Is there any other profession that claims such a phenomenon? 'Excuse, me, but I have 'book-keeping block,' 'playing music block,' or 'painting block' today? I don't think so. Get yourself on a schedule, read some Sims, write with the masters, and you'll be on your way. You'll be glad you met this friend on your journey to becoming a successful writer." ~Gesa Kirsch, Ph.D., Professor of English, Director of Valente Center for the Arts and Sciences, Bentley University Analyzes the art of reading and suggests ways to approach literary works, offering techniques for reading in specific literary genres ranging from fiction, poetry, and plays to scientific and philosophical works. A Guide to Qualitative Field Research provides readers with clear, practical, and specific instructions for conducting qualitative research in the field. In the expanded Third Edition, Carol A. Bailey gives increased attention to the early and last stages of field research, often the most difficult: selecting a topic, deciding upon the purpose of your research, and writing the final paper, all in her signature reader-friendly writing style. This edition features research examples from graduate and undergraduate students to make examples meaningful to fellow students; a new "Putting It All Together" feature, with examples of how different parts of the research process interact; and more emphasis on the "nuts and bolts" of research, such as what to include in an informed consent form, a proposal, and the final paper. New to this Edition: Objectives features help students focus on the skills they need to develop and can be used as the basis for evaluating whether the skills have been achieved. Expanded coverage of research in virtual settings ensures that readers get a well-rounded understanding of both in-person and digital research methods. Examples of research conducted by students help students generate ideas for their own research, provides concrete examples of the material discussed in the guide, and illustrates that field research is not just done by advanced scholars. "Bert Herrman, probably the world's most respected expert on handballing, offers the

Tapping into her years publicizing such authors as pediatrician Dr. T. Berry Brazelton, poet Mary Oliver, and economist John Kenneth Galbraith, Da Capo Press Senior Director of Publicity Lissa Warren covers book promotion with a publicist, without a publicist, and when a publicist isn't getting results. Each chapter details what happens to a book once it's off press, and how authors can be helpful in the promotion process -- or even spearhead it if need be -- to get the coverage they deserve. Warren's advice is buttressed by her stories of authors -- the enterprising, the shy, the well-prepared, and the novice -- relating tours gone awry, best-sellers made and nearly made, and great and not-so-great author/publicist collaboration. The Savvy Author's Guide to Book Publicity covers everything from how to write press material, targeting the right shows and publications, following up effectively with the media, and hiring people who can help ensure that every bookseller and consumer has a chance to hear an author's message loud and clear.
