[Teaching Translation from Spanish to English Sep 03 2020](#) While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

Spanish Made Easy - Lower beginner - Part 1 of 2 - Series 1 of 3 Oct 29 2022 We broke our new series on learning Spanish down into different learning stages. Start with the "Lower Beginner" books followed by the "Beginner" and "Upper Beginner" books. Next, progress to the "Intermediate" series, then test and reinforce your knowledge with the "Conversations" series. Our experienced educators and speakers possess the linguistic skills to help you understand and speak Spanish clearly. We are very proud to have developed a product that truly helps you learn Spanish quickly and easily, anytime and anywhere. This audiobook is divided into units. While it provides different learning patterns and accommodates various needs, this audiobook focuses on helping you improve your ability to understand, speak, and memorise Spanish. The sample will give you a taste of what you can look forward to. In Unit 1 you will hear Spanish decoded with each syllable spoken very slowly and clearly with repetition. Immediately before each sentence is spoken, you will hear the translation, so you will always understand what is being said. Unit 2 focuses solely on increasing your listening ability, which will improve your abilities to engage in dialogue with a native Spanish speaker. This chapter requires you to listen very carefully to nuances in the language. By Unit 3 you will already notice progress in your abilities to speak and understand Spanish. The spoken translation is followed by two repetitions in Spanish at a completely natural speed. While you are learning to process naturally spoken Spanish, Units 3 and 4 will help you memorise new vocabulary and full sentences. In Unit 5 you can test yourself on how much you have learned. If you are having difficulties, we suggest you revisit the listening, speaking, or memorisation section of Units 1, 2 3 or 4, according to what you need more help with. We developed our audiobooks to enable you to learn without an eBook. This gives you the opportunity to advance your Spanish language skills anywhere whether you're on the go or waiting around. As the audiobook is neatly arranged into many sub-units, it is also very practical for educators to navigate and use in classrooms or any time sensitive learning environment. Topics covered in this 2 part series: Part 1: - Greetings - Asking personal information - Asking about people or things - Talking about food - Talking about the current time and date Part 2: - Talking about the location of things - Describing things - Likes and dislikes - Talking about abilities - Talking about appearance - Talking about personality - Talking about the weather - Talking about the house (rooms and furniture)
