An intensely moving tale of survival and madness along the river's edge. A father and son fishing lesson become a nightmarish voyage to the sea in this visionary testament to the lengths we will go for those we love. An exhilarating travelogue for a new generation about a journey along Colombia's Magdalena River, exploring life by the banks of a majestic river now at risk, and how a country recovers from conflict. An American writer of Argentine, Syrian, and Iraqi Jewish descent, Jordan Salama tells the story of the Río Magdalena, nearly one thousand miles long, the heart of Colombia. This is Gabriel García Márquez's territory—rumor has it Macondo was partly inspired by the port town of Mompox—as much as that of the Middle Eastern immigrants who run fabric stores by its banks. Following the river from its source high in the Andes to its mouth on the Caribbean coast, journeying by boat, bus, and improvised motobalinera, Salama writes against stereotype and toward the rich lives of those he meets. Among them are a canoe builder, biologists who study invasive hippos, a Queens transplant managing a failing hotel, a jeweler practicing the art of silver filigree, and a traveling librarian whose donkeys, Alfa and Beto, haul books to rural children. Joy, mourning, and humor come together in this astonishing debut, about a country too often seen as only a site of war, and a tale of lively adventure following a legendary river. A moving lyric meditation on the Congo River that explores the identity, chaos, and wonder of the Democratic Republic of Congo as well as race and the detritus of colonialism. With *The River in the Belly*, award-winning Congolese author Fiston Mwanza Mujila seeks no less than to reinitiate the Congo River in the imaginary of European languages. Through his invention of the "solitude"—a short poetic form lending itself to searing observation and troubled humor, prone to unexpected tonal shifts and lyrical u-turns—the collection celebrates, caresses, and chastises Central Africa's great river, the world's second largest by discharge volume. Drawing inspiration from sources as diverse as Soviet history, Congolese popular music, international jazz, and everyday life in European exile, Mwanza Mujila has fashioned a work that can speak to the extraordinary hopes and tragedies of post-independence Democratic Republic of the Congo while also mining the generative yet embattled subject position of the African diasporic writer in Europe longing for home. Fans of *Tram 83* will

discover in *River* the same incandescent, improvisatory verbal energy that so dazzled them in Mwanza Mujila's English-language debut. When a team of five explorers embarked on a 1,200-mile journey down the Rio Grande, the river that marks the southern boundary of Texas and the US-Mexico border, their goal was to experience and capture on film the rugged landscapes of this vast frontier before the controversial construction of a border wall changed this part of the river forever. The crew—Texas filmmaker Ben Masters, Brazilian immigrant Filipe DeAndrade, Texas conservationist Jay Kleberg, wildlife biologist Heather Mackey, and Guatemalan-American river guide Austin Alvarado—began the trip in El Paso, pedaling mountain bikes through the city's dry river bed. Their path took them on horseback through the Big Bend, down the Wild and Scenic stretch of the river in canoes, and back to bikes from Laredo to Brownsville. They paddled the last ten miles through a forest of river cane to the Gulf of Mexico. As they made their way to the Gulf, they met and talked with the people who know and live on the river—border patrol, wildlife biologists, ranchers, politicians, farmers, social workers, locals, and travelers. They climbed the wall (in twenty seconds). They encountered rare black bears, bighorn sheep, and birds of all kinds. And they sought to understand the complexities of immigration, the efficacy of a wall, and the impact of its construction on water access, wildlife, and the culture of the borderlands. *The River and the Wall* is both a wild adventure on a spectacular river and a sobering commentary on the realities of walling it off. Book one of the *Standing on the Promises* trilogy. After this groundbreaking, deeply moving trilogy about black LDS pioneers was first published, modern-day descendants came forward with further information, photographs, and more detailed history. In this new edition, the authors have corrected some errors and dramatized the experience of additional black pioneers. A young Indian woman, accompanied by her infant and her cruel husband, experiences joy and heartbreak when she joins the Lewis and Clark expedition seeking a way to the Pacific. *Return to the River* will describe a new ecosystem-based approach to the restoration of salmon and steelhead populations in the Columbia River, once one of the most productive river basins for anadromous salmonids on the west coast of North America. The approach of this work has broad applicability to all recovery efforts throughout the northern hemisphere and general applicability to fisheries and aquatic restoration efforts throughout the world. The Pacific Northwest is now embroiled in a major public policy debate over the management and restoration of Pacific salmon. The outcome of the debate has the potential to affect major segments of the region's economy - river transportation, hydroelectric production, irrigated agriculture, urban growth, commercial and sport fisheries, etc. This debate, centered as it is on the salmon in all the rivers, has created a huge demand for information. The book will be a powerful addition to that debate. A 15 year collaboration by a diverse group of scientists working on the management and recovery of salmon, steelhead trout, and wildlife populations in the Pacific Northwest Includes over 200 figures, with four-color throughout the book Discusses complex issues such as habitat degradation, juvenile survival through the hydrosystem, the role of artificial production, and harvest reform In this history of the black peasants of Amazonia, Oscar de la Torre focuses on the experience of African-descended people navigating the transition from slavery to freedom. He draws on social and environmental history to connect them intimately to the natural landscape and to Indigenous peoples. Relying on this world as a repository for traditions, discourses, and strategies that they retrieved especially in moments of conflict, Afro-Brazilians fought for autonomous communities and developed a vibrant ethnic identity that supported their struggles over labor, land, and citizenship. Prior to abolition, enslaved and escaped blacks found in the tropical forest a source for tools, weapons, and trade--but it was also a cultural storehouse within which they shaped their stories and records

of confrontations with slaveowners and state authorities. After abolition, the black peasants' knowledge of local environments continued to be key to their aspirations, allowing them to maintain relationships with powerful patrons and to participate in the protest cycle that led Getulio Vargas to the presidency of Brazil in 1930. In commonly referring to themselves by such names as "sons of the river," black Amazonians melded their agro-ecological traditions with their emergent identity as political stakeholders. NATIONAL BESTSELLER • From the best-selling author of *The Dog Stars* comes the story of two college students on a wilderness canoe trip—a gripping tale of a friendship tested by fire, white water, and violence. "A fiery tour de force ... I could not put this book down. It truly was terrifying and unutterably beautiful."—The Denver Post

Wynn and Jack have been best friends since college orientation, bonded by their shared love of mountains, books, and fishing. Wynn is a gentle giant, a Vermont kid never happier than when his feet are in the water. Jack is more rugged, raised on a ranch in Colorado where sleeping under the stars and cooking on a fire came as naturally to him as breathing. When they decide to canoe the Maskwa River in northern Canada, they anticipate long days of leisurely paddling and picking blueberries, and nights of stargazing and reading paperback Westerns. But a wildfire making its way across the forest adds unexpected urgency to the journey. One night, with the fire advancing, they hear a man and woman arguing on the fog-shrouded riverbank; the next day, a man appears on the river, paddling alone. Is this the same man they heard? And if he is, where is the woman? From this charged beginning, master storyteller Peter Heller unspools a headlong, heart-pounding story of desperate wilderness survival. With 15 of today's finest literary writers as your guides, this book will take you into the depths of the Grand Canyon for a ride you will never forget. For 12 days and 180 miles on the river, I am filled with awe--so struck by it, in fact, that if I have any courage at all, I shall never be the same.--Theresa Jordan. 100+ color photos.

On a series of solitary walks around London, a woman recalls the rivers she's encountered in prose reminiscent of Sebald. Emmy Pérez's *With the River on Our Face* flows through the Southwest and the Texas borderlands to the river's mouth in the Rio Grande Valley/El Valle. The poems celebrate the land, communities, and ecology of the borderlands while merging and diverging like the iconic river in this long-awaited collection. In this largely autobiographical story, the lively and nonstop dialogue portrays the excitement, humor, and independence of a hard-working steamboat crew on the upper Mississippi. The classic novel of fly fishing and spirituality republished with a new Afterword by the author. Since its publication in 1983, *The River Why* has become a classic. David James Duncan's sweeping novel is a coming-of-age comedy about love, nature, and the quest for self-discovery, written in a voice as distinct and powerful as any in American letters. Gus Orviston is a young fly fisherman who leaves behind his comically schizoid family to find his own path. Taking refuge in a remote cabin, he sets out in pursuit of the Pacific Northwest's elusive steelhead. But what begins as a physical quarry becomes a spiritual one as his quest for self-knowledge batters him with unforeseeable experiences. Profoundly reflective about our connection to nature and to one another, *The River Why* is also a comedic rollercoaster. Like Gus, the reader emerges utterly changed, stripped bare by the journey Duncan so expertly navigates. "Very few scholars in religious studies have achieved Haberman's combination of textual and ethnographic authority. The book is groundbreaking, building on his achievements in the study of the religious traditions of Braj; he is widely regarded as a major authority on this area of Hinduism's complex regional matrix. The superior scholarship, combined with the author's personal voice, gives the book additional resonance, bringing to light an urgent environmental and moral challenge."—Paul B. Courtright, co-editor, *From the Margins of Hindu Marriage: Essays in Gender, Religion, and Culture Poor* in

material possessions, Skeeter's kinfolk are rich in their appreciation of their beautiful natural surroundings. The river on which they live—with its food supply, steamboats, and floods—figures strongly in their lives as the source of life, change, and death. Though their life is a simple one, it's filled with friendship, loyalty, love, and compassion. Learning becomes fun for everyone in this book about the geography of north American rivers and about the animals that live in this habitat. The amazing artwork in this book will inspire kids in classrooms and at home to appreciate the world around us! The great rivers of North America are teeming with life and on the pages of *Over in a River*—from blue herons in the Hudson to salmon in the Columbia, and from dragonflies in the Rio Grande to mallards in the St. Lawrence. Children will "slither" like water snakes and "slide" like otters while singing to the tune of "Over in a Meadow." Read about the snake, beaver, frog, otter, dragonfly, and more that lives along the rivers! Kids love counting books, too! What a delightful way to learn about riparian habitats and geography at the same time! Backmatter Includes: Further information about rivers and the animals in this book! Music and song lyrics to "Over in the River" sung to the tune "Over in the Meadow"! **NATIONAL BESTSELLER** • At once an incredible adventure narrative and a penetrating biographical portrait—the bestselling author of *Destiny of the Republic* brings us the true story of Theodore Roosevelt's harrowing exploration of one of the most dangerous rivers on earth. The River of Doubt—it is a black, uncharted tributary of the Amazon that snakes through one of the most treacherous jungles in the world. Indians armed with poison-tipped arrows haunt its shadows; piranhas glide through its waters; boulder-strewn rapids turn the river into a roiling cauldron. After his humiliating election defeat in 1912, Roosevelt set his sights on the most punishing physical challenge he could find, the first descent of an unmapped, rapids-choked tributary of the Amazon. Together with his son Kermit and Brazil's most famous explorer, Cândido Mariano da Silva Rondon, Roosevelt accomplished a feat so great that many at the time refused to believe it. In the process, he changed the map of the western hemisphere forever. Along the way, Roosevelt and his men faced an unbelievable series of hardships, losing their canoes and supplies to punishing whitewater rapids, and enduring starvation, Indian attack, disease, drowning, and a murder within their own ranks. Three men died, and Roosevelt was brought to the brink of suicide. *The River of Doubt* brings alive these extraordinary events in a powerful nonfiction narrative thriller that happens to feature one of the most famous Americans who ever lived. From the soaring beauty of the Amazon rain forest to the darkest night of Theodore Roosevelt's life, here is Candice Millard's dazzling debut. A seek-and-find book on and around the river for little adventurers ages 3 and up. Guided Reading Level N In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His acquaintance with Venice, a city he loved, provided the inspiration for *Across the River and into the Trees*, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant,

bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, *Across the River and into the Trees* stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in *The New York Times Book Review* to call him "the most important author since Shakespeare." *Science Be Dammed* is an alarming reminder of the high stakes in the management—and perils in the mismanagement—of water in the western United States. It seems deceptively simple: even when clear evidence was available that the Colorado River could not sustain ambitious dreaming and planning by decision-makers throughout the twentieth century, river planners and political operatives irresponsibly made the least sustainable and most dangerous long-term decisions. Arguing that the science of the early twentieth century can shed new light on the mistakes at the heart of the over-allocation of the Colorado River, authors Eric Kuhn and John Fleck delve into rarely reported early studies, showing that scientists warned as early as the 1920s that there was not enough water for the farms and cities boosters wanted to build. Contrary to a common myth that the authors of the Colorado River Compact did the best they could with limited information, Kuhn and Fleck show that development boosters selectively chose the information needed to support their dreams, ignoring inconvenient science that suggested a more cautious approach. Today water managers are struggling to come to terms with the mistakes of the past. Focused on both science and policy, Kuhn and Fleck unravel the tangled web that has constructed the current crisis. With key decisions being made now, including negotiations for rules governing how the Colorado River water will be used after 2026, *Science Be Dammed* offers a clear-eyed path forward by looking back. Understanding how mistakes were made is crucial to understanding our contemporary problems. *Science Be Dammed* offers important lessons in the age of climate change about the necessity of seeking out the best science to support the decisions we make. During the early days of the Civil War, the Pruitt family takes in two mysterious young ladies who have fled New Orleans to come north to Illinois. An ALA Notable Book & Best Book for Young Adults. Reprint. In the "brilliant novel" (*The New York Times*) V.S. Naipaul takes us deeply into the life of one man — an Indian who, uprooted by the bloody tides of Third World history, has come to live in an isolated town at the bend of a great river in a newly independent African nation. Naipaul gives us the most convincing and disturbing vision yet of what happens in a place caught between the dangerously alluring modern world and its own tenacious past and traditions. A river is a thread, embroidering our world. This non-fiction picture book brings attention to the rivers that stitch and thread our world together. A meditation on movement of both society and nature, based on the author's experiences as an activist. In short, aphoristic chapters, Marquis explores the power of force and collectivity through the metaphor of water. As an activist, David Marquis founded the Oak Cliff Nature Preserve in Dallas, and has consulted with the Texas Conservation Alliance since 2011. He brings an unerring belief in the connective and healing power of nature to *The Water Always Wins*. "A sweeping and lively history of one of the most dramatic stories never told--of the greatest railroad war of all time, fought by the daring leaders of the Santa Fe and the Rio Grande to seize, control, and create the American West"-- *To the River* is the story of the Ouse, the Sussex river in which Virginia Woolf drowned in 1941. One idyllic, midsummer week over sixty years later, Olivia Laing walked. Woolf's river from source to sea. The result is a passionate investigation into how history resides in a landscape and how ghosts never quite leave the place they love. A proud and spirited woman whose life was stolen from her... A man of secrets accused of a terrible crime... In a place of new beginnings their destinies are joined—in a

gloriously romantic new work from the incomparable storyteller. The fiery and outspoken adopted daughter of one of England's most formidable women, Shemaine O'Hearn has made powerful enemies. And now her adversaries have found a way to remove the hot-blooded beauty from her life of privilege: by falsely convicting Shemaine of thievery and sending her in shackles to America, where she is to be sold in indentured servitude to the highest bidder. In a bustling port city in the colony of Virginia, she becomes the servant of Gage Thornton—a shipbuilder with a young child in need of a nanny. And despite whispered rumors condemning the handsome widower for the untimely death of his wife, Shemaine cannot ignore her desire for this caring, generous and enigmatic stranger who silently aches with his growing need for her—even as grave peril reaches out from across a vast ocean to threaten their flowering love.

The fiery and outspoken adopted daughter of one of England's most formidable women, Shemaine O'Hearn has made powerful enemies. Mia arrives at a small town by the river, carrying a secret. Her new neighbors, the Stonebrooks, immediately draw her interest. Soon, she meets brothers Alex and Jay. Mia is attracted to Alex, the older handsome brother. They begin dating, but Mia remains guarded, hiding behind an invisible barrier. She also befriends Jay, the gentle dreamer, who spends most of his time at the river, with his mysterious friend, Alina. As the three teens spend more and more time together, strange things start to happen. This brilliantly crafted story, told from the alternating perspectives of Mia, Alex, and Jay, creates a web of secrets. And secrets buried deep below the dark surface are the hardest to uncover. An exhilarating, powerful story from the bestselling author of *The River*. Some stories take generations to unfold. Gabriel Clarke has *The River* in his blood: *The River* that he loved as a child. *The River* that took his father, John. *The River* he feared, fled . . . and has come back to now. Jacob Fielding owes the last twenty years of his life to John Clarke—the stranger who drowned saving him and his brother from their own boyish recklessness. Since that day, Jacob's gratitude has extended to everyone around him . . . especially Gabriel, that brave man's son. But while the death of John Clarke became a powerful force for good in Jacob, it has been an unshakable source of darkness in another man. When gratitude and guilt meet at the River, two decades after that fateful day, Gabriel finds himself face-to-face with a stark choice for his own future: anger or forgiveness, hatred or love, death or life. So much more than an allegory, *Into the Canyon* will inspire you to love deeply, forgive extravagantly, and live large. Jake Clay, a Union soldier at the end of the Civil War, journeys through the country to return home, haunted by the thoughts of those who had died so that he could live. In 1955, armed with a penknife and instructions to keep the river on his right, Brooklyn-born artist Tobias Schneebaum set off into the jungles of Peru in search of a tribe of cannibals. Forgoing all contact with civilization, he lived as a brother with the Akaramas -- shaving and painting his body, hunting with Stone Age weapons, sleeping in the warmth of the body-pile. In this exciting adventure mixed with amazing scientific study, a young, exuberant explorer and geoscientist journeys deep into the Amazon—where rivers boil and legends come to life. When Andrés Ruzo was just a small boy in Peru, his grandfather told him the story of a mysterious legend: There is a river, deep in the Amazon, which boils as if a fire burns below it. Twelve years later, Ruzo—now a geoscientist—hears his aunt mention that she herself had visited this strange river. Determined to discover if the boiling river is real, Ruzo sets out on a journey deep into the Amazon. What he finds astounds him: In this long, wide, and winding river, the waters run so hot that locals brew tea in them; small animals that fall in are instantly

cooked. As he studies the river, Ruzo faces challenges more complex than he had ever imaged. The Boiling River follows this young explorer as he navigates a tangle of competing interests—local shamans, illegal cattle farmers and loggers, and oil companies. This true account reads like a modern-day adventure, complete with extraordinary characters, captivating plot twists, and jaw-dropping details—including stunning photographs and a never-before-published account about this incredible natural wonder. Ultimately, though, *The Boiling River* is about a man trying to understand the moral obligation that comes with scientific discovery—to protect a sacred site from misuse, neglect, and even from his own discovery. Winner of the Labriola Center American Indian National Book Award 2017 Mohawk midwife Katsi Cook lives in Akwesasne, an indigenous community in upstate New York that is downwind and downstream from three Superfund sites. For years she witnessed elevated rates of miscarriages, birth defects, and cancer in her town, ultimately drawing connections between environmental contamination and these maladies. When she brought her findings to environmental health researchers, Cook sparked the United States' first large-scale community-based participatory research project. In *The River Is in Us*, author Elizabeth Hoover takes us deep into this remarkable community that has partnered with scientists and developed grassroots programs to fight the contamination of its lands and reclaim its health and culture. Through in-depth research into archives, newspapers, and public meetings, as well as numerous interviews with community members and scientists, Hoover shows the exact efforts taken by Akwesasne's massive research project and the grassroots efforts to preserve the Native culture and lands. She also documents how contaminants have altered tribal life, including changes to the Mohawk fishing culture and the rise of diabetes in Akwesasne. Featuring community members such as farmers, health-care providers, area leaders, and environmental specialists, while rigorously evaluating the efficacy of tribal efforts to preserve its culture and protect its health, *The River Is in Us* offers important lessons for improving environmental health research and health care, plus detailed insights into the struggles and methods of indigenous groups. This moving, uplifting book is an essential read for anyone interested in Native Americans, social justice, and the pollutants contaminating our food, water, and bodies. A gripping, gritty and award-winning coming-of-age novel for young adult readers. When Te Arepa Santos is dragged into the river by a giant eel, something happens that will change the course of his whole life. The boy who struggles to the bank is not the same one who plunged in, moments earlier. He has brushed against the spirit world, and there is a price to be paid; an utu (revenge) to be exacted. Years later, far from the protection of whanau (family) and ancestral land, he finds new enemies. This time, with no one to save him, there is a decision to be made: he can wait on the bank, or leap forward into the river. At the 2013 NZ Post Childrens Book Awards *Into the River* was judged the Margaret Mahy Book of the Year. It also won the Young Adult Fiction category of the awards. An engaging coming-of-age novel, it follows its main protagonist from his childhood in small-town rural New Zealand to an elite Auckland boarding school, where he must forge his own way - including battling with his cultural identity. This prequel to Ted Dawe's award-winning novel *Thunder Road* is gritty, provocative, at times shocking, but always real and true. The awards' chief judge Bernard Beckett described a character "caught between two worlds ... the explicit content was presented as the danger of people being left adrift by society. And within that context, hard-hitting material is crucial; it is what makes the book authentic, real and important." The Deputy Chief Censor of Film and Literature ruled that the book is not offensive: "The book deals with some stronger content. There are sexual relationships between teenagers, encounters with possible child sexual exploitation, the use of illegal drugs and other criminal activities, violent assault, and a moderate level of

highly offensive language. These are well contextualised within an exciting fast moving narrative that has as its protagonist, a young teenage Maori boy from a rural community who is finding his way through the strange uncomfortable environment of a boys' boarding school and unfamiliar social mores. The story captures the raw and real extremes of adolescence in teenage boys along with their yearnings and obsessions. The book is notable for being one of the first in the New Zealand which specifically targets teenage boys and younger men - a genre that does not have great representation. The genre character is therefore significant. The content immerses the reader in action, wit, and intrigue, as well as a level of social realism, all likely to engage teen and young adult readers and with particular appeal for older boys and young men.' Sixty extraordinary portrait photographs, accompanied by a musical CD containing eighteen tracks by some of Iowa's finest musicians and songwriters, capture Iowa's vibrant, live music scene in a study of such artists as Dave Moore, Bo Ramsey, David Zollo, Pieta Brown, and Greg Brown. "Wonderfully written...Mr. Owen writes about water, but in these polarized times the lessons he shares spill into other arenas. The world of water rights and wrongs along the Colorado River offers hope for other problems." —Wall Street Journal An eye-opening account of where our water comes from and where it all goes. The Colorado River is an essential resource for a surprisingly large part of the United States, and every gallon that flows down it is owned or claimed by someone. David Owen traces all that water from the Colorado's headwaters to its parched terminus, once a verdant wetland but now a million-acre desert. He takes readers on an adventure downriver, along a labyrinth of waterways, reservoirs, power plants, farms, fracking sites, ghost towns, and RV parks, to the spot near the U.S.–Mexico border where the river runs dry. Water problems in the western United States can seem tantalizingly easy to solve: just turn off the fountains at the Bellagio, stop selling hay to China, ban golf, cut down the almond trees, and kill all the lawyers. But a closer look reveals a vast man-made ecosystem that is far more complex and more interesting than the headlines let on. The story Owen tells in *Where the Water Goes* is crucial to our future: how a patchwork of engineering marvels, byzantine legal agreements, aging infrastructure, and neighborly cooperation enables life to flourish in the desert—and the disastrous consequences we face when any part of this tenuous system fails. An epic saga based on true events of the American West --with the trailblazing fur trappers and the mountain men who lived it. This is an unforgettable journey into the untamed American frontier. Where nature is cruel, violence lurks behind every tree, and where only the strongest of the strong survive. This is a story of America. **TO THE RIVER'S END** Luke Ransom was just eighteen years old when he answered an ad in a St. Louis newspaper that would change his life forever. The American Fur Company needed one-hundred enterprising men to travel up the Missouri River--the longest in North America--all the way to its source. They would hunt and trap furs for one, two, or three years. Along the way, they would face unimaginable hardships: grueling weather, wild animals, hunger, exhaustion, and hostile attacks by the Blackfeet and Arikara. Luke Ransom was one of the brave men chosen for the job--and one of the few to survive . . . Five years later, Luke is a seasoned trapper and hunter, a master of his trade. The year is 1833, and the American Fur Company is sending him to the now-famous Rendezvous at Green River. For Luke, it may be his last job for the company. After facing death countless times, he is ready to strike out on his own. But when he encounters a fellow trapper under attack by Indians, his life takes an unexpected turn. A new friendship is forged in blood. And a dangerous new journey begins...
