From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinksmanship - and transformed his understanding of mercy and justice forever.--Back cover. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times Two wealthy nine-year-olds living in a Mexican village in 1947 steal the town hooker's life savings and flee to an impoverished section, where they are set upon and abused by the desperate children who live there. When Aldous Huxley wrote his famous novel Brave New World, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, Brave New World Revisited is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. Brave New World Revisited condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in Brave New World Revisited are still startlingly relevant, lending a chilling credibility to Aldous Huxley's unsettling predictions. ""The Yellow Wallpaper"" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century.Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a ""temporary nervous depression - a slight hysterical tendency"", a diagnosis common to women during that period" Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting results). This book offers a much needed alternative to the more traditional texts used to teach writing instruction. Grounded in history, the book clarifies changing theoretical and practical approaches to teaching writing, critically assessing each approach in relation to the social and political movements of the day, both within and beyond the university. The author takes us inside the real world of writing instruction; not only from the viewpoint of instructor, but as seen through the eyes of students struggling to make sense of the expectations of writing class. Mitchell emphasizes that "writing" entails far more than putting words to paper, and delves into contextually variable culturally defined expectations, that include multiple linguistic forms - both oral and written - highlighting the complexity of writing(s), while engaging the reader in lively academic debates about language and society.

Max is used to being called Stupid. And he is used to everyone being scared of him. On account of his size and looking like his dad. Kevin is used to being called Dwarf. And he is used to everyone laughing at him. On account of his size and being some cripple kid. But greatness comes in all sizes, and together Max and Kevin become Freak The Mighty and walk high above the world. An inspiring, heartbreaking, multi-award winning international bestseller. Originally published in 1948, at the height of post-World War II optimism and confidence in collective security, *Ideas Have Consequences* uses "words hard as cannonballs" to present an unsparing diagnosis of the ills of the modern age. Widely read and debated at the time of its first publication, the book is now seen as one of the foundational texts of the modern conservative movement. In its pages, Richard M. Weaver argues that the decline of Western civilization resulted from the rising acceptance of relativism over absolute reality. In spite of increased knowledge, this retreat from the realist intellectual tradition has weakened the Western capacity to reason, with catastrophic consequences for social order and individual rights. But Weaver also offers a realistic remedy. These difficulties are the product not of necessity, but of intelligent choice. And, today, as decades ago, the remedy lies in the renewed acceptance of absolute reality and the recognition that ideas—like actions—have consequences. This expanded edition of the classic work contains a foreword by New Criterion editor Roger Kimball that offers insight into the rich intellectual and historical contexts of Weaver and his work and an afterword by Ted J. Smith III that relates the remarkable story of the book's writing and publication.

But the "person" in a personal essay is always a written construct, a fabricated character, its confessions and reminiscences as rehearsed as those of any novelist. In this first book-length study of the personal essay, Carl Klaus unpacks this made-up self and the manifold ways in which a wide range of essayists and essays have brought it to life. By reconceiving the most fundamental aspect of the personal essay—the I of the essayist—Klaus demonstrates that this seemingly uncontrived form of writing is inherently problematic, not willfully devious but bordering upon the world of fiction. He develops this key idea by explaining how structure, style, and voice determine the nature of a persona and our perception of it in the works of such essayists as Michel de Montaigne, Charles Lamb, E. B. White, and Virginia Woolf. Realizing that this persona is shaped by the force of culture and the impress of personal experience, he explores the effects of both upon the point of view, content, and voice of such essayists as George Orwell, Nancy Mairs, Richard Rodriguez, and Alice Walker. Throughout, in full command of the history of the essay, he calls up numerous passages in which essayists themselves acknowledge the element of impersonation in their work, drawing upon the perspectives of Joan Didion, Edward Hoagland, Joyce Carol Oates, Leslie Marmon Silko, Scott Russell Sanders, Annie Dillard, Vivian Gornick, Loren Eiseley, James Baldwin, and a host of other literary guides. Finally, adding yet another layer to the made-up self, Klaus succumbs to his addiction to the personal essay by placing some of the different selves that various essayists have called forth in him within the essays that he has crafted so carefully for this book. Making his way from one essay to the next with a persona variously learned, whimsical, and poignant, he enacts the palimpsest of ways in which the made-up self comes to life in the work of a single essayist. Thus over the course of this highly original, beautifully structured study, the personal essay is revealed to be more complex than many readers have supposed. With its lively analyses and illuminating examples, The Made-Up Self will speak to anyone who
