Originally published in 2015 by Faber and Faber in Great Britain. The play examines gender and power relationships through the lens of 17th-century witchcraft trials in England. The classic thriller of Dr. Josef Mengele's nightmarish plot to restore the

Third Reich. Alive and hiding in South America, the fiendish Nazi Dr. Josef Mengele gathers a group of former colleagues for a horrifying project—the creation of the Fourth Reich. Barry Kohler, a young investigative journalist, gets wind of the project and informs famed Nazi hunter Ezra Lieberman, but before he can relay the evidence, Kohler is killed. Thus Ira Levin opens one of the strangest and most masterful novels of his career. Why has Mengele marked a number of harmless aging men for murder? What is the hidden link that binds them? What interest can they possibly hold for their killers: six former SS men dispatched from South America by the most wanted Nazi still alive, the notorious “Angel of Death”? One man alone must answer these questions and stop the killings—Lieberman, himself aging and thought by some to be losing his grip on reality. At the heart of *The Boys from Brazil* lies a frightening contemporary nightmare, chilling and all too possible. This guide will cover the 2021 PMP Exam. Who are the women who became engineers in the 1970s and 1980s? How have they fared in the most male-dominated

profession in America? This is the first book to answer these questions. It explores the backgrounds, family lives, work experiences, and attitudes of engineers in order to explain the unequal patterns of career development for women, who generally hold lower positions and receive fewer promotions than their male counterparts. McIlwee and Robinson synthesize two theoretical approaches frequently used to explain the status of women in the workforce--gender role and structural theories--providing new insights into improving women's careers in traditionally male occupations. This study guide for medical students preparing for clinical skills examinations covers all key areas, as well as presenting the information in a 'question and answer' format, designed to facilitate both individual and group study. A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In *Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado. Originally presented as the author's thesis (Ph. D.-- University of Pennsylvania) This book provides a wide

spectrum of readers with comprehensive but easily understandable protocols for the assessment and training of wheelchair skills. The Wheelchair Research Team at Dalhousie University and the Capital District Health Authority in Halifax (lead by the author) have focused on wheelchair safety and performance for three decades, as exemplified through the Wheelchair Skills Program. This is considered the top such program in the world. This new book is largely based on this program which has been accessed and utilized by over 75,000 people in 177 countries since 2007. Incensed and hopeful, impassioned and lucid, this volume focuses on mankind's ability to adapt to the impending ecological revolution. Explores the reasons for the diverse pattern of ownership in America. This book explains why different industries and national economies exhibit different distributions of ownership forms. The thunderous roar of exploding depth charges was a familiar and comforting sound to the crew members of the USS Barb, who frequently found themselves somewhere between enemy fire and Davy Jones's locker. Under the leadership of her fearless skipper, Captain Gene Fluckey, the Barb sank the greatest tonnage of any American sub in World War II. At the same time, the Barb did far more than merely sink ships-she changed forever the way submarines stalk and kill their prey. This is a gripping adventure chock-full of "you-are-there" moments. Fluckey has drawn on logs, reports, letters, interviews, and a recently discovered illegal diary kept by one of his torpedomen. And in a fascinating twist, he uses archival documents from the Japanese Navy to give its version of events. The unique story of the Barb begins with its men, who had the confidence to become unbeatable. Each team helped develop innovative ideas, new tactics, and new strategies. All strove for personal excellence, and success became contagious. Instead of lying in wait under the waves, the USS Barb pursued enemy ships on the surface, attacking in the swift and precise style of torpedo boats. She was the first sub to use

rocket missiles and to creep up on enemy convoys at night, joining the flank escort line from astern, darting in and out as she sank ships up the column. Surface-cruising, diving only to escape, "Lucky Fluckey" relentlessly patrolled the Pacific, driving his boat and crew to their limits. There can be no greater contrast to modern warfare's long-distance, videogame style of battle than the exploits of the captain and crew of the USS Barb, where they sub, out of ammunition, actually rammed an enemy ship until it sank. Thunder Below! is a first-rate, true-life, inspirational story of the courage and heroism of ordinary men under fire. The leading and definitive reference on the surgical and prosthetic management of acquired and congenital limb loss. Describes 140 major careers in the Army, Navy, Air Force, Marine Corps, and Coast Guard. "The rise and fall of kings and nations!"--Cover. "One of the 12 best business books of all time.... Timeless principles of empowering leadership." - USA Today "The best how-to manual anywhere for managers on delegating, training, and driving flawless execution." —FORTUNE Since Turn the Ship Around! was published in 2013, hundreds of thousands of readers have been inspired by former Navy captain David Marquet's true story. Many have applied his insights to their own organizations, creating workplaces where everyone takes responsibility for his or her actions, where followers grow to become leaders, and where happier teams drive dramatically better results. Marquet was a Naval Academy graduate and an experienced officer when selected for submarine command. Trained to give orders in the traditional model of "know all-tell all" leadership, he faced a new wrinkle when he was shifted to the Santa Fe, a nuclear-powered submarine. Facing the high-stress environment of a sub where there's little margin for error, he was determined to reverse the trends he found on the Santa Fe: poor morale, poor performance,

and the worst retention rate in the fleet. Almost immediately, Marquet ran into trouble when he unknowingly gave an impossible order, and his crew tried to follow it anyway. When he asked why, the answer was: "Because you told me to." Marquet realized that while he had been trained for a different submarine, his crew had been trained to do what they were told—a deadly combination. That's when Marquet flipped the leadership model on its head and pushed for leadership at every level. *Turn the Ship Around!* reveals how the Santa Fe skyrocketed from worst to first in the fleet by challenging the U.S. Navy's traditional leader-follower approach. Struggling against his own instincts to take control, he instead achieved the vastly more powerful model of giving control to his subordinates, and creating leaders. Before long, each member of Marquet's crew became a leader and assumed responsibility for everything he did, from clerical tasks to crucial combat decisions. The crew became completely engaged, contributing their full intellectual capacity every day. The Santa Fe set records for performance, morale, and retention. And over the next decade, a highly disproportionate number of the officers of the Santa Fe were selected to become submarine commanders. Whether you need a major change of course or just a tweak of the rudder, you can apply Marquet's methods to turn your own ship around. Many know her as the reclusive Chicago nanny who wandered the city for decades, constantly snapping photographs, which were unseen until they were discovered in a seemingly abandoned storage locker. When the news broke that Maier had recently died and had no surviving relatives, Maier shot to stardom almost overnight. Bannos contrasts Maier's life has been created, mostly by the men who have profited from her work. Maier was extremely conscientious about how her work was developed, printed, and cropped, even though she also made a clear choice never to display it. "...profoundly moving..." - Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions

about their grandad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.
