The class bully loves to tease Katie Woo until she decides to ignore him. When Maggie gets chopsticks, she has difficulty using them and everyone at the table seems to have a different advice on holding them. Woo the little ghost is fed up with everything and goes in search of something better but he needs to watch out! 3 yrs+ “The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational.” —Kevin Kwan, author of Crazy Rich Asians Amy Tan’s beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary Amy Tan: Unintended Memoir on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery. Hi! I'm Katie Woo. I am writing an opinion piece for my school paper. I wasn't sure what to write about until JoJo and Pedro made me mad. Now I'm going to tell everyone just what rotten friends they can be. While I'm at it, I'll teach you how to write an opinion piece, too. Why should we meditate? How can crystals heal the mind and body? Why is visualization so powerful - and so effective? Alternative therapies, healing modalities, and spiritual practices are often referred to as 'woo-woo,' - but many of these approaches are actually supported by compelling scientific evidence. In this dynamic and thought-provoking book, David R. Hamilton PhD dives deeper into the true nature of consciousness and presents the cutting-edge research behind energy healing, crystals, meditation, and more. You'll discover: · The science behind some of today's most popular alternative practices · How your thoughts, emotions, and beliefs have healing power · The benefits of nature and a holistic approach to healing · A fascinating link between consciousness and human connection · The relationship between suppressed emotions and disease The ideas behind some of these holistic therapies have been around for millennia - but now we have scientific evidence demonstrating how they can contribute to physical, emotional, and energetic healing too. It's time to embrace the truth: That woo-woo really does work. Explains that the selling of ideas is a matter of encouraging others to share one's beliefs in a guide for salespeople that invites readers to self-assess their persuasion personality and build on natural strengths. The fifth novel in the Chief Inspector Gamache series, from worldwide phenomenon and number one New York Times bestseller Louise Penny When Chief Inspector Gamache arrives in picturesque Three Pines, he steps into a village in chaos. A man has been found bludgeoned to death, and there is no sign of a weapon, a motive or even the dead man's name. As Gamache and his colleagues start to dig under the skin of this peaceful haven for clues, they uncover a trail of stolen treasure, mysterious codes and a shameful history that begins to shed light on the victim's identity - and points to a terrifying killer... 'The best Gamache so far' Globe and Mail 'Ingenious and unexpected' Guardian 'A cracking storyteller, who can create fascinating characters, a twisty plot and wonderful surprise endings' Ann Cleeves Have you been single longer than the Jews wandered the desert? Or are you newly single and hoping to hook up with a hot MOT\*? Either way, Tamar Caspi is on a mission to help you find your Chosen One... and who better to do that than the advice columnist from the massively popular dating site JDate.com? In How to Woo a Jew, your very own Jewish Carrie Bradshaw takes you through each facet of the dating world—from traditional Jewish matchmaking and mixers to modern online dating portals, from honing your Jewdar to kosher sex. Whatever mishegas you’ve made of your love life, Caspi has words of wisdom—and a few enlightening quizzes, charts, and illustrations—to help you find your Jewish soul mate. \*Member of the Tribe Katie celebrates the Fourth of July with Pedro and JoJo. You may need The Art of War to defeat your enemies, but if you prefer to win them over, read The Art of Woo G. Richard Shell and Mario Moussa know what it takes to drive new ideas through complex organizations. They have advised thousands of executives from companies such as Google, Microsoft, and General Electric to organizations like the World Bank and even the FBI's hostage rescue training program. In The Art of Woo, they present their systematic, four- step process for winning over even the toughest bosses and most skeptical colleagues. Beginning with two powerful self-assessments to help readers find their "Woo IQ," they show how relationship-based persuasion works to open hearts and minds. "Ranging across history, from Charles Lindbergh to Sam Walton, the authors examine how savvy negotiators use persuasion - not confrontation-to achieve goals." -U.S. News & World Report The first authoritative English-language collection of interviews with the Asian director of Broken Arrow, Face/Off, and Mission Impossible II Mystery in a series Katie Woo loves playing

with her friends JoJo and Pedro. They do everything together, from losing teeth to looking for ghosts. Even when they argue, they always make up in the end. After all, there's nothing like a good friend. "Ilyon Woo presents the earliest child custody laws of this country with vivid relevance . . . both legal and feminist details are fascinating" (St. Louis Post-Dispatch). The Great Divorce is the dramatic, richly textured story of one of nineteenth-century America's most infamous divorce cases, in which a young mother single-handedly challenged her country's notions of women's rights, family, and marriage itself. In 1814, Eunice Chapman came home to discover that her three children had been carried off by her estranged husband. He had taken them, she learned, to live among a celibate, religious people known as the Shakers. Defying all expectations, this famously petite and lovely woman mounted an epic campaign against her husband, the Shakers, and the law. In its confrontation of some of the nation's most fundamental debates—religious freedom, feminine virtue, the sanctity of marriage—her case struck a nerve with an uncertain new republic. And its culmination—in a stunning legislative decision and a terrifying mob attack—sent shockwaves through the Shaker community and the nation beyond. With a novelist's eye and a historian's perspective, Woo delivers the first full account of Eunice Chapman's remarkable struggle. A moving story about the power of a mother's love, The Great Divorce is also a memorable portrait of a rousing challenge to the values of a young nation. "Modern Americans, bombarded with stories of celebrity divorces, probably assume that the tabloid breakup is a recent phenomenon. This lively, well-written and engrossing tale proves them wrong." —The New York Times Book Review

Katie Woo wanted to help her mom, so she started dinner on her own. She was enjoying her time in the kitchen when she heard a strange noise.. Was there a ghost cooking up something too? In this pioneering guide, two business authorities introduce the new discipline of Service Design and reveal why trying new strategies for pleasing customers isn't enough to differentiate your business—it needs to be designed for service from the ground up. Woo, Wow, and Win reveals the importance of designing your company around service, and offers clear, practical strategies based on the idea that the design of services is markedly different than manufacturing. Bestselling authors and business experts Thomas A. Stewart and Patricia O'Connell contend that most companies, both digital and brick-and-mortar, B2B or B2C; are not designed for service—to provide an experience that matches a customer's expectations with every interaction and serves the company's needs. When customers have more choices than ever before, study after study reveals that it's the experience that makes the difference. To provide great experiences that keep customers coming back, businesses must design their services with as much care as their products. Service Design is proactive—it is about delivering on your promise to customers in accordance with your strategy, not about acceding to customer dictates. Woo, Wow, and Win teaches you how to create "Ahhh" moments when the customer makes a positive judgment, and to avoid "Ow" moments—when you lose a sale or worse, customer trust. Whether you're giving a haircut, selling life insurance, or managing an office building, your customer is as much a part of your business as your employees are. Together, you and customers create a bank of trust; fueled by knowledge of each other's skills and preferences. This is Customer Capital, the authors explain, and it is jointly owned. But it's up to you to manage it profitably. Innovative yet grounded in real world examples, Woo, Wow, and Win is the key strategy for winning customers—and keeping them. 150+ Dot Marker Coloring Pages for Toddlers "Thank you for being an amazing resource for us mommas out there. I feel good about using anything I get from Woo! Jr. with my babies!" --Kristina, Parent Engage your emerging little artist with fun coloring pages inside of Woo! Jr.'s My First Book of Dot Marker Coloring. With over 150 dot marker coloring pages for kids, the opportunities to develop the artist within are endless! Help your child develop fine motor skills while learning primary colors, secondary colors, and more with coloring activities for toddlers ages 2 to 4 years old. Toddlers learn best when engaged and having fun! Do a dot marker coloring activity to strengthen hand-eye coordination, and learn colors through dot marker coloring pages filled with familiar shapes and images. Activities for toddlers are a must-have to spark curiosity! Between ages 2 and 4, toddlers grow exponentially and are eager to learn about themselves and the world around them. My First Book of Dot Marker Coloring is full of coloring pages that combine art with educational concepts to support early learning. In the full color My First Book of Dot Marker Coloring, you'll find: Fundamental Learning Concepts - our big dot illustrations include letters, numbers, shapes, colors, and animals to support early learning Bold Lines - supports fine motor skill development and helps toddlers stay within the line 150+ Dot Marker Coloring Pages - guaranteed to keep toddlers engaged and parents from running out of activities Engaging Way to Learn Colors - the bold, colorful illustrations in our big dot marker activity book support color matching and recognition of familiar shapes If books like Dot Markers Activity Book: ABC Animals, Dot Markers Activity Book: Easy Guided BIG Dots, or Dot Markers Activity Book: Cute Dinosaurs interest you, then you'll love Woo! Jr.'s My First Book of Dot Marker Coloring! I bet you've probably heard about a nymph...or not. Maybe you heard about them in a class back in like fourth grade. Maybe it was in one of those movies that you watch with a box of popcorn. Well their versions are definitely wrong. Movies are a pretty bad source of information when it comes to creatures like us. Nymph's are really beings created with the Earth itself. We are the keepers of earth. After we become of age we reach our maximum power. For ages, Nymph's have shaped the world that it is today. Well, this isn't the other nymph's story, it's mine. Luna's life has been burned to ashes, literally. All of her family except for her brother has died in a horrible fire caused by the narcs, a race of paranormal hunters. For centuries they have killed beings like her, but that was twelve years ago. Now Luna is sixteen and living a normal human life with her older brother, Jay. Of course she can never be really human for she is a half nymph, but she tries. That peaceful life that they've created is shattered when Jay goes on a business trip. Luna faces a new dangerous power, love. She meets Kaden. A narc that is handsome and caring. Together they face an enemy who steals Luna's necklace that keeps her humanity in check, without it she can go insane. Kaden and Luna try to sort out their teenage hormonal selves and the paranormal ones as well. When Sam, their enemy, cuts the necklace he shreds Luna's sanity. It turns her into something that she feared about for years. Can she still love? Can Kaden save her? This book focuses on Lam Woo, a wellknown, highly successful Chinese building contractor whose company was based in Hong Kong at the beginning of the twentieth century. It is also about the marginal group of people he exemplifies, those who joined the Chinese diaspora because of poverty and political turmoil and were later driven back home because of discrimination and other difficulties. An important contribution to Hong Kong Studies, this book provides a window onto the sociopolitical conditions in Hong Kong leading up to and following the 1911 revolution that established the Republic of China and the following two decades. In studying Lam Woo's life and family, we catch a glimpse of the lives of a unique segment of the Hong Kong Chinese community—namely, the educated, westernized Chinese, mainly Christians, some of whom supported the revolution to overthrow the Qing dynasty and helped to establish Hong Kong's influential YMCA. Professor Chan, who has written several books on Hong Kong History, draws on rich archival sources, and historical photographs to illustrate the life of a man who was a pioneer builder of majestic heritage buildings

throughout Hong Kong such as St. Paul's Church, St. Paul's Coeducational College, the Diocesan Boys' School, and St. Stephen's College, all of which remain in use today. This book is a significant historical study that rediscovers an important but less studied part of Hong Kong's development during the early twentieth century. For instance, the book details Lam Woo's efforts in rebuilding the port facilities and docks that helped the colony's transformation into a glamorous, international port. The author also discusses how Lam Woo's contributions to the building of the roads encircling the New Territories and the bridges linked different parts of the territory with mainland China, where water and food supplies would later come from. In the later part of the book, the author highlights how Lam Woo, a devout Anglican, contributed to the expansion of the Chinese Anglican Church community. As one of the founders of St. Paul's Church, he promoted the establishment of the Hong Kong YMCA, with its emphasis on character training in "the development of body, mind, and spirit" for young people. The book emphasizes that his most lasting legacy for Hong Kong and his native Guangzhou was through his philanthropist activities in education. Lam Woo supported education for girls and founded St. Paul's Girls' School, the forerunner of the notable St. Paul's Coeducational College, founded a primary and a secondary school in his native village, and donated extensively to Lingnan University. The first edition of *John Woo: The Films* (McFarland, 1999) was the earliest English-language volume to address the motion picture output of the celebrated Hong Kong director. The book dealt with Woo's film career from his professional beginnings in 1968 through his first three Hollywood releases (*Hard Target*, *Broken Arrow* and *Face/Off*), situating his work within Asian and Western cinematic and cultural traditions. This second edition offers a wealth of additional information, including treatment of John Woo's Hollywood productions *Mission: Impossible II*, *Windtalkers* and *Paycheck*. Also featured is material on Woo's epic *Red Cliff*, filmed in China. A new foreword is provided by Tony Williams, author of *John Woo's Bullet in the Head*. Instructors considering this book for use in a course may request an examination copy [here](#).

Judy Lee's life has not turned out the way she'd imagined. She's divorced, she's broke, and her dreams of being a painter have fallen by the wayside. Her co-worker Roger might be a member of the Yakuza gang, but he's also the only person who's asked her on a date in the last year. Meanwhile, her bother Kevin, an former professional tennis player, has decided to donate a kidney to their ailing father — until it turns out that he's not a genetic match. His father reluctantly tells him he was adopted, but the only information Kevin is given about his birth parents is a nude picture of his birth mother. Ultimately Kevin's quest to learn the truth about his biological parents takes him across lines he never thought he'd cross: from tony Princeton to San Francisco's seedy Tenderloin district, from the squeaky clean tennis court to the gritty adult film industry. Told in alternating chapters from the points of view of Judy and Kevin, *Love Love* is a story about two people figuring out how to live, how to love, and how to be their best selves amidst the chaos of their lives. Fiction. Asian American Studies.

On the inside, Miramar Woo is a kick-ass kung fu heroine with rock star flash, sassy attitude, and an insatiable appetite for adventure, but she is forced to watch helplessly as her family unravels in the aftermath of her father's unexpected death. Her younger siblings suddenly and mysteriously become savants, in possession of uncanny talents nicknamed The Gifts. As her siblings are swept up into the fantastic world of fame and fortune and her mother fights off madness, Miramar is left behind, feeling talentless and abandoned with no idea who she really is or who she wants to become. She is utterly on her own. Although Emily Carr is now considered a Canadian legend, the most enduring image is that of her pushing a beat-up old pram into downtown Victoria, loaded with dogs, cats, birds—and a monkey. Woo, a Javanese macaque whom Carr adopted in 1923, has become inextricably linked with Carr in the popular imagination. But more than that, in her short lifetime Woo became equally connected to Carr's life and art. Born to a strictly religious family, Carr was never able to reconcile her wild and passionate nature with the stifling mores of the well-to-do Victorian society in which she was raised. Over the years, she increasingly turned to the company of animals to find the love and trust missing from her human relationships. Across the world in an Indonesian jungle lagoon, Woo (like Carr) was parted from her mother at a young age. The tiny ape with a "greeny-brown" pelt and penetrating golden eyes was then shipped across the world. When Carr spotted Woo in a pet store, she recognized a kindred spirit and took her home. Woo was many things to Carr—a surrogate daughter, a reflection of herself, a piece of the wild inside her downtown Victoria boarding house. Welcoming the mischievous Woo into her life, Carr also welcomed a freedom that allowed a full blooming of artistic expression and gave Canada and the world great art unlike any other before or since. However, despite Carr's clear love for Woo, her chaotic life did not always allow Carr to properly care for her. Tragically, after Carr was hospitalized due to heart failure, she arranged for Woo to be sent to the Stanley Park Zoo. Bereft of Carr, Woo died alone in her cage only a year later.

Hayter-Menzies approaches his subject from a contemporary perspective on bringing wild animals into captivity while remaining empathetic to the unique relationship between artist and monkey. The idea for this publication came about as an extension of the exhibition *Juergen Teller: Woo*, held at the Institute of Contemporary Arts in London in 2013. In the run-up to his show, Teller was invited to curate a selection of photographs in the ICA Fox Reading Room, a confined space located away from the main galleries. His initial plan was to cover an area of wall with "tear sheets"—proof pages relating to his commercial photography. As the project developed, Teller would eventually plaster the entire space with images spanning a 20-year period, including family portraits, magazine assignments, recent ad campaigns, landscapes and various personal projects. The combined effect of seeing his images juxtaposed like this, so they formed hitherto unforeseen relationships across time, would so inspire Teller that, during the course of his show, he would passionately launch himself into the production of this book. Setting itself apart from more conventional exhibition catalogues, *Woo* brilliantly relays the raw impact of the original installation, unlocking a new and exciting dialogue across an impressive body of work. The must-read summary of G. Richard Shell and Mario Moussa's book: "The Art of Woo: Using Strategic Persuasion to Sell Your Ideas". This complete summary of the ideas from G. Richard Shell and Mario Moussa's book "The Art of Woo" shows that selling ideas involves a different strategy to selling objects: you must use "relationship-based persuasion" which isn't based on coercion or hard-selling, but agreement. You not only want to sell your idea, but you want to carry on selling it, and sell future ones to a receptive audience. In their book, the authors explain their four-step process to achieving this that you can follow in your own business. This summary is a must-read for both established businesses and new entrepreneurs. Added-value of this summary: • Save time • Understand key concepts • Expand your knowledge To learn more, read "The Art of Woo" and discover the key to selling to customers who come back again and again. In this jaw-dropping, darkly comedic memoir, a young woman comes of age in a dysfunctional Asian family whose members blamed their woes on ghosts and demons when in fact they should have been on anti-psychotic meds. Lindsay Wong grew up with a paranoid schizophrenic grandmother and a mother who was deeply afraid of the "woo-woo"—Chinese ghosts who come to visit in times of personal turmoil. From a young age, she witnessed the woo-woo's sinister effects; at the age of six, she found herself living in the food court of her suburban mall, which her

mother saw as a safe haven because they could hide there from dead people, and on a camping trip, her mother tried to light Lindsay's foot on fire to rid her of the woo-woo. The eccentricities take a dark turn, however, when her aunt, suffering from a psychotic breakdown, holds the city of Vancouver hostage for eight hours when she threatens to jump off a bridge. And when Lindsay herself starts to experience symptoms of the woo-woo herself, she wonders whether she will suffer the same fate as her family. On one hand a witty and touching memoir about the Asian immigrant experience, and on the other a harrowing and honest depiction of the vagaries of mental illness, *The Woo-Woo* is a gut-wrenching and beguiling manual for surviving family, and oneself. During the energy unfolding in 2019, I found myself working through the darkness of ego death. Within that space, I listened intently to my Spirit guides as they told me to walk away from my social media connections for the upcoming 2020 Lent season, and I am not even what you would call a religious person. Then they told me that I needed to start a YouTube channel reading tarot cards. I may have laughed out loud at that point because I had never touched a tarot deck. However, I have learned over my lifetime when Spirit has a strong opinion, listen. What followed was an enlightened journey that has brought me through the mystic world of shamanism, training with some of the most amazing teachers from around the globe. This practice hasn't just changed the way I work with my clients, but it has changed the entire shape of my life. I was guided to share my personal shamanic awakening with you, and these are my stories. I hope that they will bring you smiles, tears, moments of awareness and joy. In the end, I hope that the fire in my heart sparks the fire in your heart, opening you up to your own personal shamanic practice. The shamanic journey space is a little bit like meditation, but filled with imagination. If your inner child is seeking a space to color outside of the lines, then this book is for you. Aho. Barbara xx Barbara Christensen is a gifted intuitive medium, that channels Spirit to bring clients a diverse approach to wellness. She is a successful author, holds a diploma in nutrition and created the Paleo Vegeo lifestyle movement. Barbara also holds certificates in fitness, various energy modalities (reiki, quantum biofeedback, Access, shamanism) and is a Certified Aromatherapist. She has been working with individuals and business owners for over two decades using her unique talents to bring clarity and wholeness into the lives of others. Barbara is also the creator of the YouTube channel, Mindset Unicorn, where she helps light your life path through unique tarot readings working with Spirit in the akashic records, inner knowing and with her shamanic teachings. These energies and guides help her to decode and enlighten the human experience of the soul's journey. Barbara also works with mirror souls to open healing in the channeled container of love that both souls are working within, often described as "twin flame" union. "Working with the energy of the Universe is within us all. The secret is to open your mind to explore the truth of who you are. We are all rainbows made up of star dust!" - Barbara Christensen A gonzo style first person journey through a riotous, music filled night out in Brixton, boomeranging through space, time, gigs, major life events and a cultural war against musical mediocrity, yuppie incursion and political alienation. David likes his family the way it has always been, just him and Mom and Dad. He never wanted to be a big brother. And he certainly didn't want Jin Woo, the little baby from Korea, to join the family. Now Jin Woo is getting all the attention, and David feels as if no one cares about him anymore. But then a surprising letter helps him to understand that being a brother can mean being surrounded with more love than ever. Eve Bunting and Chris Soentpiet bring the same deep emotion that distinguished their previous collaboration, *So Far from the Sea*, to this moving story of an adoptive family that has love to spare. A comprehensive and original account of the rise of Korea's developmental state, *Race to the Swift* by Jung-en Woo argues that Korea's industrial growth is neither a miracle nor a cultural mystery, but the outcome of a previously misunderstood political economy. The Life Gardening Project is designed to help people cultivate change in themselves and their lives. Based on the ancient Taoist principle of "wu wei," which means living in harmony with the Tao as the fullness of life, Jim Downton uses the playful adaptation "Woo Way" to develop learning processes that enhance the lives of people today. He has been developing and teaching the principles of The Woo Way for many years at the University of Colorado in Boulder and in community workshops. The Woo Way is an experiential journey that opens greater access to personal freedom and leads to more balance and wholeness. Automatic patterns are replaced with conscious choices. Personal suffering and stress are significantly reduced while happiness, contentment, and wisdom expand. It is mind and life altering work. Like digging the ground to plant a garden, the work takes effort. By cultivating new thinking and behavior, you discover that life doesn't have to be such a struggle. It can be easier and more fun. As you nourish that ease and playfulness, you realize the words of the Woo Master: "Reduce burden on mind and watch feet do little dance." Permafrost Hydrology systematically elucidates the roles of seasonally and perennially frozen ground on the distribution, storage and flow of water. Cold regions of the World are subject to mounting development which significantly affects the physical environment. Climate change, natural or human-induced, reinforces the impacts. Knowledge of surface and ground water processes operating in permafrost terrain is fundamental to planning, management and conservation. This book is an indispensable reference for libraries and researchers, an information source for practitioners, and a valuable text for training the next generations of cold region scientists and engineers. Katie and her parents are off to the mall for a day of shopping. While her mom looks for a new dress, her dad is checking out the lawn mowers and televisions. And Katie is nowhere to be found. Does Katie even know that she's lost? Have you ever wondered why a rainbow is curved? Or why left-handers aren't extinct? How a sunflower is like a synchronised swimmer, or a lightning bolt is like a blood vessel? The answer to all these questions and more can be summed up in one simple word: MATHS. As the inimitable Eddie Woo explains, maths is not just about numbers. Maths is about patterns, and our universe is extraordinarily patterned. With enthusiasm and wonder, Eddie is here to help us discover these patterns. With engaging clarity and entertaining anecdotes, Eddie demonstrates the intricacy of maths in all the things we love - from music in our iPods to our credit cards. Filled with humour and heart, this book will fascinate, entertain and illuminate the maths that surrounds us. This is a specially formatted fixed layout ebook that retains the look and feel of the print book. **LONGLISTED FOR THE ABIA GENERAL NON-FICTION BOOK OF THE YEAR 2019 PRAISE FOR EDDIE WOO** "I never thought I'd read a maths book cover to cover, let alone sing its praises. Eddie Woo makes maths fun, accessible and relevant. Now we can all benefit from his extraordinary skill as a teacher." JENNY BROCKIE, journalist and TV host "Not just a great teacher, Woo's Wonderful World of Maths shows Eddie to be a storyteller too. Is there anything the Woo cannot do?" ADAM SPENCER, Ambassador for Mathematics, University of Sydney An old game helps a new kid find his footing. It is David's first day at his brand-new school. He doesn't know anyone. At recess, he stands alone and watches the other children enjoying their activities on the playground, from practicing soccer moves and climbing monkey bars to playing hopscotch and daydreaming in the grass. Bundled deep inside David's pocket is a string of rubber bands, knotted and ready for a game of elastic skip. But will anyone want to try that game? he wonders. Will anyone want to play with him? Sometimes you've got to stretch yourself to find the place where you belong.
