The book is divided into several sections covering Warren Buffett's personal business management: . Managing one's life - focuses on Buffett's insistence on a good education, picking one's heroes early in life, and staying away from things that damage you personally. The authors also discuss Buffett's belief that challenges make life interesting. . Managing One's Career - Buffett believes that you should work at something that you are passionate about. Do what you like and you will find a way to make money. Do what you hate and you will be miserable even if you are rich. . Managing Employees - place honesty on the same level as intelligence as a managerial attribute. How to keep managers inspired and working hard. . Managing the Business - Buffett has learned that companies that have a durable competitive advantage over their competitors consistently earn more money year after year and are the easiest to manage. . Managing of Personal Money - discover the simple rules that Buffett uses for buying other businesses and how he has incorporated them into his own personal investment style. is on the volatile border between India and Pakistan. *Gujarat: The History of the Indian State from the Ancient Indus Valley Civilization to Today* looks at the region, the various civilizations that lived there, and what took place there over the last 5,000 years. Along with pictures and a bibliography, you will learn about Gujarat like never before. This book, first published in 1992, examines the attitudes of local elites – the hinge between Indian state and rural society – towards protest and participation in development, illuminating arguments about the nature of the state as well as the development process. It looks at the role of local elites in India both as the representatives of the state and of the rest of rural society, and explains their importance in the country's development. The book deals with the elites' contribution to the credibility of the state and examines the strategies through which they manipulate the allocation of resources and influence the pace and direction of social change. It contrasts the rural elites in two areas, one more economically advanced than the other. The elites in the first area were shown to be capable of combining institutional participation with radical protest, whilst in the other they tended to rely on state channels to achieve reform. The author concludes that despite the different settings, both groups were informed, active and responsive to political conditions. This contrasts with the conventional view that local elites of the dominant castes oppress the lower ones by obstructing reforms, for reasons of self-interest. The twenty-three stories in *The Greatest Gujarati Stories Ever Told* represent some of the finest short fiction in Gujarati literature. Selected and edited by translator and writer Rita Kothari, this collection features established literary masters such as K. M. Munshi, Dhumketu, Himanshi Shelat, Dalpat Chauhan, Nazir Mansuri, and Mona Patrawalla, as well as accomplished new voices such as Panna Trivedi, Abhimanyu Acharya, Raam Mori, and others. In K. M. Munshi's epistolary 'A Letter', a childbride is worked to her death as she yearns for her husband's affection; in Neerav Patel's 'Creamy Layer', the politicized, urban, and upwardly mobile Mr and Mrs Vaghela must confront the deep chasm that has grown between them and their family in the village; in Panna Trivedi's 'Maajo', the story's eponymous young narrator longs for butter-soft skin and a Shah Rukh-like glance from a young man on the train; in 'Saubhagyavati: The Fortunate Wife', Dwiref explores the selfish and oppressive nature of marital sex; in 'A Drop of Blood' Jayant Khatri looks at how violent acts engender more violence; Mona Patrawalla explores the tribal region of the Dangs and paints a hair raising picture of the violent forms of power wielded by the Parsi landlords there in 'The Black Horse'; in Dashrath Parmar's 'Nandu', the narrator struggles to hide his caste in the face of insistent questions; in 'Jumo Bhishti' by Dhumketu, we see the wonderful bond between Jumo and his beloved buffalo, Venu; and in Abhimanyu Acharya's 'Chunni', a young woman, Shaili, navigates the world of dating in a city far away from home-these and other stories in the collection are passionate, profound, and timeless, showcasing a range of styles and offering a variegated and singular picture of Gujarat. The book has been divided into 30 chapters which denote 30 days in which each chapter symbolises a day, and the author aims to improve and sharpen the memory of all its readers in just 30 days! Basically, each chapter contains all the necessary steps and methods, one must practise in one's daily life to increase and strengthen the faculties of one's brain. #v&spublishers On the power of subconscious mind. Shows how full literacy can be achieved for minority language communities and brings together examples of good practice and recent research. The cultural universe of urban, English-speaking middle class in India shows signs of growing inclusiveness as far as English is concerned. This phenomenon manifests itself in increasing forms of bilingualism (combination of English and one Indian language) in everyday forms of speech - advertisement jingles, bilingual movies, signboards, and of course conversations. It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly, but steadily rising, activity of English translation from Indian languages. Since the eighties this has led to a frenetic activity around English translation in India's academic and literary circles. Kothari makes this very current phenomenon her chief concern in *Translating India*. The study covers aspects such as the production, reception and marketability of English translation. Through an unusually multi-disciplinary approach, this study situates English translation in India amidst local and global debates on translation, representation and authenticity. The case of Gujarati - a case study of a relatively marginalized language - is a unique addition that demonstrates the micro-issues involved in translation and the politics of language. Rita Kothari teaches English at St. Xavier's College, Ahmedabad (Gujarat), where she runs a translation research centre on behalf of Katha. She has published widely on literary sociology, postcolonialism and translation issues. Kothari is one of the leading translators from Gujarat. Her first book (a collaboration with Suguna Ramanathan) was on English translation of Gujarati poetry (*Modern Gujarati Poetry: A Selection*, Sahitya Akademi, New Delhi, 1998). Her English translation of the path-breaking Gujarati Dalit novel *Angaliyat* is in press (*The Stepchild*, Oxford University Press).

*She is currently working on an English translation of Gujarati short stories by women of Gujarat, a study of the nineteenth-century narratives of Gujarat, and is also engaged in a project on the Sindhi identity in India. This is one of the many inspiring books from the renowned "Motivator" Dr. G. Francis Xavier. Evidently, this harvest of stories has been gleaned from lands he visited and books he read. Xavier, who conducts full-house personal growth courses has brought out this compendium in an interactive form, making the reader give the answers at the end of the story, which is a novel approach. Stories and examples are the best way to inspire, and this volume can be gifted to anyone. It is useful for preachers, speakers and teachers. The book appeals to readers of all ages except the morose and irredeemable negaholics (negative thinking addicts) and anti-reading teenagers. It has stories to inspire and promises uninterrupted chuckles till the end. There are also quotations on success. "Ottoman naval technology underwent a transformation under the rule of Sultan Selim III. New types of sailing warships such as two- and three-decked galleons, frigates and corvettes began to dominate the Ottoman fleet, rendering the galley-type oared ships obsolete. This period saw technological innovations such as the adoption of the systematic copper sheathing of the hulls and bottoms of Ottoman warships from 1792-93 onwards and the construction of the first dry dock in the Golden Horn. The changing face of the Ottoman Navy was facilitated by the influence of the British, Swedish and French in modernising both the shipbuilding sector and the conduct of naval warfare. Through such measures as training Ottoman shipbuilders, heavy reliance on help from foreign powers gave way to a new trajectory of modernization. Using this evidence Zorlu argues that although the Ottoman Empire was a major and modern independent power in this period, some technological dependence on Europe remained."--Bloomsbury publishing. This book is a historical study of modern Gujarat, India, addressing crucial questions of language, identity, and power. It examines the debates over language among the elite of this region during a period of significant social and political change in the late nineteenth and early twentieth centuries. Language debates closely reflect power relations among different sections of society, such as those delineated by nation, ethnicity, region, religion, caste, class, and gender. They are intimately linked with the process in which individuals and groups of people try to define and project themselves in response to changing political, economic, and social environments. Based on rich historical sources, including official records, periodicals, literary texts, memoirs, and private papers, this book vividly shows the impact that colonialism, nationalism, and the process of nation-building had on the ideas of language among different groups, as well as how various ideas of language competed and negotiated with each other. Language, Identity, and Power in Modern India: Gujarat, c.1850–1960 will be of particular interest to students and scholars working on South Asian history and to those interested in issues of language, society, and politics in different parts of the modern world. In his translator's preface to the revised edition of Gandhiji's autobiography, Mahadev Desai stated: It has now undergone careful revision, and from the point of view of language, it has had the benefit of careful revision by a revered friend, who, among many other things, has the reputation of being an eminent English scholar. The identity of the 'revered friend' was not disclosed, nor were the extent and nature of changes recorded. This concordance table reconstructs the entire process of revision and provides a detailed analysis of the changes made by Sir V S Srinivasas Sastri. Why do some states provide infrastructure and social services to their citizens, and others do not? In Development in Multiple Dimensions, Alexander Lee examines the origins of success and failure in the public services of developing countries. Comparing states within India, this study examines how elites either control, or are shut out of, policy decisions and how the interests of these elites influence public policy. He shows that social inequalities are not single but multiple, creating groups of competing elites with divergent policy interests. Since the power of these elites varies, states do not necessarily focus on the same priorities: some focus on infrastructure, others on social services, and still others on both or neither. The author develops his ideas through quantitative comparisons and case studies focusing on four northern Indian states: Gujarat, West Bengal, Bihar, and Himachal Pradesh, each of which represents different types of political economy and has a different set of powerful caste groups. The evidence indicates that regional variation in India is a consequence of social differences, and the impact of these differences on carefully considered distributional strategies, rather than differences in ideology, geography, or institutions. **#v&spublishers The Power of Now in Gujarati The No. 1 New York Times bestseller, The Power of Now is a guide to spiritual enlightenment from a man who is emerging as one of this generation's clearest, most inspiring teachers. Eckhart Tolle is not aligned with any particular religion but does what all the great masters have done: shows that the way, the truth, and the light already exist within each human being. There is no need to look elsewhere. During February-March 2002, Eckhart traveled to India to enlighten people on the spiritual path through a series of talks in Chennai and Mumbai, and an eight-day Spiritual Retreat held in Rishikesh. The Indian edition of The Power of Now, already in its twentieth reprint, has sold over two million copies. The Gujarati translation of this book will spread his teaching to an even wider audience. At the heart of this book, which has already been translated into almost all the major languages of the world, is Eckhart's own story of early despair that culminated in a life-transforming experience of enlightenment at the age of twenty-nine. He emerged to share insights on the perils of the mind, the power of the present, and the accessibility of one's true nature. "I want to make three promises. First, I will not hesitate to make any efforts to fulfill any responsibility that the people of the country put on my shoulders. Second, I will not do anything for my personal benefit and third, I will not work with any malafide intentions. I assure you for these three things." -Narendra Modi**

**The popularity of Narendra Damodardas Modi has increased multifold after he became the Prime Minister of India. He has achieved fame within the country and all over the world. Narendra Modi has also earned himself a new place of pride in the countries who have keen interest in India. Everyone is watching him for his next steps with eagerness and interest. Apart from Pakistan, many superpowers like USA, Britain and China are very anxious to improve their ties with us. Everyone hopes that India will witness a new dawn of progress on its horizon. This is also an acid test of how he will face and solve the challenges posed by the nation, how he will give a direction to the aspirations of millions of citizens and how he will fulfil the promises made by him before the election. This may not be new to him, as he has been regularly confronting challenges since his childhood. There are numerous questions but they also have answers because ever since he took up the reins of Gujarat for the first time in 2001, he has never looked back. Now, he holds the command of the entire country in his hands. He did this because he is a great leader. A Mahanayak- a great leader indeed! Kumar Pankaj, an experienced journalist has studied the entire journey of Narendra Modi, starting from his childhood to the present position he holds today, in great depth. This work, by the successful author of 'Namo mantra of Narendra Modi', is worth preserving.**

**Publisher Description From the fifth to the nineteenth centuries, the people of western India built stone cisterns to collect the water of the monsoon rains and keep it accessible for the remaining dry months of the year. These magnificent structures-known as stepwells or stepped ponds-are much more than utilitarian reservoirs. Their lattice-like walls, carved columns, decorated towers, and intricate sculpture make them exceptional architecture., while their very presence tells much about the region's ecology and history. For these past 500 years, stepwells have been an integral part of western Indian communities as sites for drinking, washing, and bathing, as well as for colorful festivals and sacred rituals. Steps to Water traces the fascinating history of stepwells, from their Hindu origins, to their zenith during Muslim rule, and eventual decline under British occupation. It also reflects on their current use, preservation, and place in Indian communities. In stunning color and quadtone photographs and drawings, Steps to Water reveals the depth of the stepwells' beauty and their intricate details, and serves as a lens on these fascinating cultural and architectural monuments. The autumnal Navaratri festival—also called Durg Puja, Dassehra, or Dasain—is the most important Hindu festival in South Asia and wherever Hindus settle. A nine-night-long celebration in honor of the goddess Durga, it ends on the tenth day with a celebration called "the victorious tenth" (vijayadashami). The rituals that take place in domestic, royal, and public spaces are closely connected with one's station in life and dependent on social status, economic class, caste, and gender issues. Exploring different aspects of the festival as celebrated in diverse regions of South Asia and in the South Asian diaspora, this book addresses the following common questions: What does this festival do? What does it achieve, and how? Why and in what way does it sometimes fail? How do mass communication and social media increase participation in and contribute to the changing nature of the festival? The contributors address these questions from multiple perspectives and discuss issues of**

agency, authority, ritual efficacy, change, appropriation, and adaptation. Because of the festival's reach beyond its diverse celebrations in South Asia, its influence can be seen in the rituals and dances in many parts of Western Europe and North America. Looking at the 19th and 20th centuries, and drawing on scholarly sources, this book traces the history of Gujarat from the time of the Indus Valley civilization, where Gujarati society came to be a synthesis of diverse cultures, to the state's encounters with the Turks, Marathas and the Portuguese.

Dr Brown presents a political study of the first clearly defined period in Mahatma Gandhi's Indian career, from 1915 to 1922. The period began with Gandhi's return from South Africa as a stranger to Indian politics, witnessed his dramatic assertion of leadership in the Indian National Congress of 1920 and ended with his imprisonment by the British after the collapse of his all-India civil disobedience movement against the raj. Focusing on Gandhi, this book nevertheless investigates the changing nature of Indian politics. It aims to study precisely what Gandhi did, on whom he relied for support, how he interacted with other nationalist leaders and how he saw his own role in Indian public life. Unlike the usual interpretation of Gandhi's rise to power as based on a charismatic appeal to the Indian masses, this study argues that his influence depended on a capacity to generate a network of lesser leaders, or subcontractors, who would organise their constituencies for him, whether these were caste, communal or economic groups or whole areas.

Raise your children in a bilingual fashion with this coloring book that captures the power of Treasure Island's story along with a dual language storytelling that is perfect for parents who want to raise their children in a bilingual environment. The birthplace of Mahatma Gandhi and the land that produced Mohammad Ali Jinnah, the founder of Pakistan, Gujarat has been at the centre-stage of South Asia's political iconography for more than a century. As Gujarat, created as a separate state in 1960, celebrates its golden jubilee this collection of essays critically explores the many paradoxes and complexities of modernity and politics in the state. The contributors provide much-needed insights into the dominant impulses of identity formation, cultural change, political mobilisation, religious movements and modes of communication that define modern Gujarat. This book touches upon a fascinating range of topics – the identity debates at the heart of the idea of modern Gujarat; the trajectory of Gujarati politics from the 1950s to the present day; bootlegging, the practice of corruption and public power; vegetarianism and violence; urban planning and the enabling infrastructure of antagonism; global diasporas and provincial politics – providing new insights into understanding the enigma of Gujarat. Going well beyond the boundaries of Gujarat and engaging with larger questions about democracy and diversity in India, this book will appeal to those interested in South Asian Studies, politics, sociology, history as well as the general reader. This book was published as a special issue of South Asian History and Culture. **agriculture & irrigation, food & cash crops, climate, rain, temperature, pressure & winds, metals & non-metals, mining, fuel, industries, transport and other important demographic information** Key information and data about countries of the world and world statistics #v&spublishers "In these two volumes, scholars of political science, sociology, and history adopt a common set of concepts to analyse patterns of change in the ideological and structural foundations of dominance in India from the colonial period to the mid-1980s. Departing from modernist theories, these scholars set out an interactional framework of society-state relations where caste, class, ethnicity, and dominance are treated as structures and processes, interacting with each other and with increasingly powerful state institutions. These comparative studies provide an explanation of how state policies undermine the religious legitimacy of the hierarchical social order and, at the same time, facilitate the manipulation of linguistic, communal, caste, and ethnic loyalties to diffuse class polarization. The analyses show that subordinate low caste-cum-class groups are mounting increasingly militant challenges to the hold of the upper castes and classes over state institutions which have provided the most important avenue of social mobility in modern India"--Provided by publisher.
