Tiny Infinities Oct 06 2020 When Alice's dad moves out, leaving her with her troubled mother, she does the only thing that feels right: she retreats to her family's old Renaissance tent in the backyard, determined to live there until her dad comes home. In an attempt to keep at least one part of her summer from changing, Alice focuses on her quest to swim freestyle fast enough to get on her swim team's record board. But summers contain multitudes, and soon Alice meets an odd new friend, Harriet, whose obsession with the school's science fair is equal only to her conviction that Alice's best stroke is backstroke, not freestyle. Most unexpected of all is an unusual babysitting charge, Piper, who is mute—until Alice hears her speak. A funny and honest middle-grade novel, this sharply observed depiction of family, friendship, and Alice's determination to prove herself—as a babysitter, as a friend, as a daughter, as a person—rings loud and true.

Indonesia's Small Entrepreneurs Jul 27 2022 In the context of Makassar, on the eastern Indonesian island of Sulawesi, the book explores the socioeconomic and cultural relationships that make life for small entrepreneurs in Makassar so distinctive. Using a new framework for the study of small enterprises - the 'small enterprise integrative framework' - this book gives us a greater understanding of the organization and operations of small enterprises in developing countries, at both the micro and macro levels. The application of this new framework for research reveals the diversity of labour flexibility, networking and cluster styles amongst the enterprises studies, and the constraints they face for growth. Whilst the recent Southeast Asian economic crisis has been heralded by certain commentators as a new era for small enterprises in the region, the book concludes that local realities for the small enterprises in Makassar mean that, whilst for some it has been a time of shifting fortunes, others have continued trading on the margins.

Medieval Romance Feb 07 2021 Widely heard and read throughout the middle ages, romance literature has persisted for centuries and has lately re-emerged in the form of speculative fiction, inviting readers to step out of the actual world and experience the intriguing pleasure of possibility. *Medieval Romance* is the first study to focus on the deep philosophical underpinnings of the genre's fictional worlds. James F. Knapp and Peggy A. Knapp uniquely utilize Leibniz's "possible worlds" theory, Kant's aesthetic reflections, and

Gadamer's writings on the apprehension of language over time, to bring the romance genre into critical dialogue with fundamental questions of philosophical aesthetics, modal logic, and the hermeneutics of literary transmission. The authors' compelling and illuminating analysis of six instances of medieval secular writing, including that of Marie de France, the Gawain-poet, and Chaucer demonstrates how the extravagantly imagined worlds of romance invite reflection about the nature of the real. These stories, which have delighted readers for hundreds of years, do so because the impossible fictions of one era prefigure desired realities for later generations.
