Phineas at Bay Feb 13 2022 "Phineas at Bay is at once an entertaining romp and a serious inquiry into how Victorian problems are also our own. It is a pleasure to read."—Nicholas Birns, author of *Understanding Anthony Powell*. Set in 1890s England, Phineas at Bay picks up where Anthony Trollope's Palliser series left off: now two decades after the unconventional marriage of Phineas Finn, an Irish Catholic, to the Viennese Jewish widow Marie "Madame Max" Goesler. Phineas has become an almost entirely independent member of Parliament, nominally belonging to the Liberal Party. But his independence has come at a cost. Having made no political gains, his own party no longer takes him seriously. But an awakening of his political and social conscience leads him to revitalize his political activism and become involved in the newly forming Labor Party. Meanwhile the rivalry between Socialist Jack Chiltern and the newest member of Parliament, Savrola Vavasor, the two suitors of Phineas's orphaned niece, Clarissa Riley, draws Phineas into becoming the maître d'arms at a violent duel. And alongside all the other action, the beautiful Lady Elizabeth Eustace adds to the drama with her shady past and her entanglements with Jack and her ex-husband, a clergyman with a dark reputation of his own. Scholar and lawyer John F. Wirenius sets the Victorian-era author's pointed satire loose on today's political and social excesses, creating a novel that can be read alone or in conjunction with Trollope's novels.

Saving Upper Newport Bay Sep 20 2022 During Orange County's population boom in the early 1960s, the Robinson family moved to Newport Beach. A short walk from their home was Upper Newport Bay, where they and their neighbors could play on North Star Beach, water ski on the bay's calm water, or dig in the shallow mudflats for fresh clams for dinner. But land developers and local government officials had a different use for the open space in mind—build a private harbor much like the bustling lower Newport Bay and Balboa Island. In 1963, 14-year-old Jay Robinson rode his bike down to North Star Beach and found a newly erected “private property” sign. His parents, Frank and Frances Robinson, would soon find themselves embroiled in one of the most important ecological battles in California, with friends, neighbors, newspapers, the government, and the courts all taking sides. Saving Upper Newport Bay is the story of two ordinary people's life-changing journey, which ultimately impacted the history and ecology of southern California. This book was produced on the 50th anniversary of The Newport Bay Conservancy, which focuses exclusively on the conservation and restoration of Upper Newport Bay. Included are full color photos depicting the history of the bay.

Gibbous Moon Oct 29 2020 A gibbous moon arrives in shadow and light. First at waxing then at waning, two moons in one cycle just shy of full. Poet Dennis Cooley's eloquent words merge with photographer/composer Michael Matthews' decadent abstract photographs. These two celebrated artists draw connections and parallels to each other's masterful art forms, tying the two together seamlessly. The antecedent and subsequent illuminate the night sky with their dance; the shadows and the light taking turns at showing us the way through the darkness.

Theodosius Jan 20 2020 Emperor Theodosius (379-95) was the last Roman emperor to rule a unified empire of East and West and his reign represents a turning point in the policies and fortunes of the Late Roman Empire. In this imperial biography, Stephen Williams and Gerry Friell bring together literary, archaeological and numismatic evidence concerning this Roman emperor, studying his military and political struggles, which he fought heroically but ultimately in vain. Summoned from retirement to the throne after the disastrous Roman defeat by the Goths at Adrianople, Theodosius was called on to rebuild the armies and put the shattered state back together. He instituted a new policy towards the barbarians, in which diplomacy played a larger role than military might, at a time of increasing frontier dangers and acute manpower shortage. He was also the founder of the established Apostolic Catholic Church. Unlike other Christian emperors, he suppressed both heresy and paganism and enforced orthodoxy by law. The path was a difficult one, but Theodosius (and his successor, Stilicho) had little choice. This new study convincingly demonstrates how a series of political misfortunes led to the separation of the Eastern and Western empires which meant that the overlordship of Rome in Europe dwindled into mere ceremonial. The authors examine the emperor and his character and the state of the Roman empire, putting his reign in the context of the troubled times.

The Southern Tradition at Bay Jan 24 2023 While Richard M. Weaver is best known for the classic *Ideas Have Consequences*, the foundation of his career was this study of his native South. Calling the Southern tradition "the last non-materialist civilization in the Western world," he traced its roots to feudalism, chivalry, religiosity, and aristocratic conventions. The Old South, he concluded, "may indeed be a hall hung with splendid tapestries in which no one would care to live; but from them we can learn something of how to live." Weaver's exploration of the ideals and ideas of the Southern tradition as expressed in the military histories, autobiographies, diaries, and novels of the era following the Civil War—especially those written by the men and women on the losing side—is offered to a new generation of readers for whom that tradition has fallen into disrepute and who can scarcely imagine a life rooted in nature, the soil, and a powerful sense of honor. *The Southern Tradition at Bay* is, as Jeffrey Hart noted, the work of a man who admired what "is admirable indeed, and that is the foundation of wisdom and indeed sanity."

Britain at Bay Apr 27 2023 A sweeping, groundbreaking epic that combines military with social history, to illuminate the ways in which Great Britain and its people were permanently transformed by the Second World War. Here is the many-faceted, world-historically significant story of Britain at war. In looking closely at the military and political dimensions of the conflict's first crucial years, Alan Allport tackles questions such as: Could the war have been avoided? Could it have been lost? Were the strategic decisions the right ones? How well did the British organize and fight? How well did the British live up to their own values? What difference did the war make in the end to the fate of the nation? In answering these and other essential questions he focuses on the human contingencies of the war, weighing directly at the roles of individuals and the outcomes determined by luck or chance. Moreover, he looks intimately at the changes in wartime British society and culture. *Britain at Bay* draws on a large cast of characters--from the leading statesmen and military commanders who made the decisions, to the ordinary men, women, and children who carried them out and lived through their consequences--in a comprehensible and compelling single history of forty-six million people. For better or worse, much of Britain today is ultimately the product of the experiences of 1938-1941.

Ethiopia at Bay Oct 21 2022 ... what people are saying about this book ... 'A marvelous recounting of Ethiopian and world history during those years. Mandatory reading for anyone interested in Third World relations and certainly for anyone who seeks to understand contemporary Ethiopian or Horn of Africa affairs.'?Foreign Service Journal?A significant primary source in its first hand account by a meticulously observant insider.'?Foreign Affairs?Commands attention and respect. John Spencer's personal, candid, and basically reliable record will have an honored place in the contemporary annals of that tortured country.'?Times Literary Supplement?Spencer is one of the very few living people in a position to describe Ethiopia's efforts to survive during those years.'?Library Journal?Spencer was privy to many important decisions. Of particular interest is his account of Haile Sellassie's disenchantment with the U.S.'?Publisher's Weekly?After the hard fate which befell the Emperor and his notables, Spencer is maybe the only one of the old regime's key persons still alive. There is hardly a single page one would want to miss.'?Sture Linner in Svenska Dagbladet?I found *Ethiopia at Bay* intensely interesting, sad and even tragic in the Greek mode. What a series of missed opportunities, anachronistic colonial arrogances, and western shortsightedness! The book would be enormously instructive to students of international relations generally.'?Lincoln Gordon, former President, Johns Hopkins University?Valuable indeed, Especially significant is Spencer's cogent analysis of the Emperor himself. Recommended for college, university, and larger public libraries.'?Choice.

Memory at Bay Mar 26 2023 Winner of the prestigious Prix Carbet--an award won by such distinguished authors as Maryse Condé, Jamaica Kincaid, and Raphaël Confiant-- *Memory at Bay* is now available in an English translation that brings to life this powerful novel by one of Haiti's most vital authors, Évelyne Trouillot. Trouillot introduces us to a bedridden widow of a notorious dictator

(in effect, a portrait of Papa Doc Duvalier) and the young émigré who attends to her needs but who harbors a secret--the bitter loss she feels for her mother, a victim of the dictator's atrocities. The story that unfolds is a deftly plotted psychological drama in which the two women in turn relive their radically contrasting accounts of the dictator's regime. Partly a retelling of Haiti's nightmarish history under Duvalier, and partly an exploration of the power of memory, Trouillot's novel takes a suspenseful turn when the aide contemplates murdering the old widow. *Memory at Bay* was praised by the Prix Carbet committee for the way it treats the enigmas of destiny and for a pairing of characters whose voices bring the narrative to the edge of the ineffable. Down by the Bay Nov 10 2021 San Francisco Bay is the largest and most productive estuary on the Pacific Coast of North America. It is also home to the oldest and densest urban settlements in the American West. Focusing on human inhabitation of the Bay since Ohlone times, *Down by the Bay* reveals the ongoing role of nature in shaping that history. From birds to oyster pirates, from gold miners to farmers, from salt ponds to ports, this is the first history of the San Francisco Bay and Delta as both a human and natural landscape. It offers invaluable context for current discussions over the best management and use of the Bay in the face of sea level rise.

The Roman Empire at Bay, AD 180-395 Jun 17 2022 *The Roman Empire at Bay* is the only one volume history of the critical years 180-395 AD, which saw the transformation of the Roman Empire from a unitary state centred on Rome, into a new polity with two capitals and a new religion--Christianity. The book integrates social and intellectual history into the narrative, looking to explore the relationship between contingent events and deeper structure. It also covers an amazingly dramatic narrative from the civil wars after the death of Commodus through the conversion of Constantine to the arrival of the Goths in the Roman Empire, setting in motion the final collapse of the western empire. The new edition takes account of important new scholarship in questions of Roman identity, on economy and society as well as work on the age of Constantine, which has advanced significantly in the last decade, while recent archaeological and art historical work is more fully drawn into the narrative. At its core, the central question that drives *The Roman Empire at Bay* remains, what did it mean to be a Roman and how did that meaning change as the empire changed? Updated for a new generation of students, this book remains a crucial tool in the study of this period.

Patton at Bay Apr 03 2021 For General George S. Patton, Jr., the battle for Lorraine during the fall and winter of 1944 was a frustrating and grueling experience of static warfare. Plagued by supply shortages, critical interference from superiors, flooded rivers, fortified cities, and the highly-

determined German army, Patton had little opportunity to wage a fast armored campaign. Rickard examines Patton's generalship during these bitter battles and suggests that Patton was unable to adapt to the new realities of the campaign, thereby failing to wage the most effective warfare possible. By the beginning of the Ardennes offensive, Patton had crippled his worthy opponent, but had suffered the highest casualties of any campaign that he conducted during the war. Until now, his better known exploits in Sicily and Normandy have overshadowed this campaign. Relying on a broad range of sources, this treatment of Patton's operational performance in Lorraine goes beyond the official history. It describes Patton's philosophy of war and explains why it essentially failed in Lorraine. Supplemented by full orders of battle, casualty and equipment losses, and excellent maps, Patton at Bay is a penetrating study of America's best fighting general.
