Harry and Miles live with their father, an abalone fisherman, on the south-east coast of Tasmania. With their mum dead, they are left to look after themselves. When Miles isn't helping out on the boat they explore the coast, and Miles and his older brother, Joe, love to surf. Harry is afraid of the water. Everyday their dad battles the unpredictable ocean to make a living. He is a hard man, a bitter drinker who harbours a devastating secret that is destroying him. Unlike Joe, Harry and Miles are too young to leave home and so are forced to live under the dark cloud of their father's mood, trying to stay as invisible as possible whenever he is home. Harry, the youngest, is the most vulnerable and it seems he bears the brunt of his father's anger. What does multiculturalism mean in Mauritius? This question was the starting point of an ethnographic study on an island state in the Indian Ocean that had always been part of a global project and always been (post)colonial. The introduction of citizenship education at school in this Republic with its ethnically, religiously and linguistically diverse population serves as an example for the analysis of how different approaches to multicultural policy-making collide. The negotiations on the school subject illustrate the organisation of cultural difference by the state mainly through Indo-Mauritian and Creole nationalism. Winner of the 1999 Pulitzer Prize for Drama, the New York Drama Critics Circle Award, the Drama Desk Award, the Outer Critics Circle Award, the Lucille Lortel Award, and the Oppenheimer Award Margaret Edson's powerfully imagined Pulitzer Prize-winning play examines what makes life worth living through her exploration of one of existence's unifying experiences--mortality--while she also probes the vital importance of human relationships. What we as her audience take away from this remarkable drama is a keener sense that, while death is real and unavoidable, our lives are ours to cherish or throw away--a lesson that can be both uplifting and redemptive. As the playwright herself puts it, "The play is not about doctors or even about cancer. It's about kindness, but it shows arrogance. It's about compassion, but it shows insensitivity." In Wit, Edson delves into timeless questions with no final answers: How should we live our lives knowing that we will die? Is the way we live our lives and interact with others more important than what we achieve materially, professionally, or intellectually? How does language figure into our lives? Can science and art help us conquer death, or our fear of it? What will seem most important to each of us about life as that life comes to an end? The immediacy of the presentation, and the clarity and elegance of Edson's writing,

make this sophisticated, multilayered play accessible to almost any interested reader. As the play begins, Vivian Bearing, a renowned professor of English who has spent years studying and teaching the intricate, difficult Holy Sonnets of the seventeenth-century poet John Donne, is diagnosed with advanced ovarian cancer. Confident of her ability to stay in control of events, she brings to her illness the same intensely rational and painstakingly methodical approach that has guided her stellar academic career. But as her disease and its excruciatingly painful treatment inexorably progress, she begins to question the single-minded values and standards that have always directed her, finally coming to understand the aspects of life that make it truly worth living.

"A lyrical work of self-discovery that's shockingly intimate and insistently universal...Not so much briefly gorgeous as permanently stunning." –Ron Charles, The Washington Post

Poet Ocean Vuong's debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling. *On Earth We're Briefly Gorgeous* is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born – a history whose epicenter is rooted in Vietnam – and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, *On Earth We're Briefly Gorgeous* is as much about the power of telling one's own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Named a Best Book of the Year by: GQ, Kirkus Reviews, Booklist, Library Journal, TIME, Esquire, The Washington Post, Apple, Good Housekeeping, The New Yorker, The New York Public Library, Elle.com, The Guardian, The A.V. Set in the 1950s on the fringe of a country town, this is a thought-provoking and emotionally powerful snapshot of a Koori family which dramatises the struggle for decent housing, meaningful education, jobs and community acceptance. In the devastation that follows a major disaster, there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure, the provision of health and social services, the restoration of care delivery systems, and other critical recovery needs. In some cases, billions of dollars from public, private and charitable sources are invested to help communities recover. National rhetoric often characterizes these efforts as a "return to normal." But for many American communities, pre-disaster conditions are far from optimal. Large segments of the U.S. population suffer from preventable health problems, experience inequitable access to services, and rely on overburdened health systems. A return to pre-event conditions in such cases may be short-sighted given the high costs - both economic and social - of poor health. Instead, it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo. Capitalizing on these opportunities can advance the long-term health, resilience, and sustainability of communities - thereby better preparing them for future challenges. Healthy, Resilient, and Sustainable Communities After Disasters identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents. This book makes the case that disaster recovery should be guided by a healthy community vision, where health considerations are integrated into all aspects of recovery planning before and after a disaster, and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments. The conceptual framework presented in Healthy, Resilient, and Sustainable Communities After Disasters lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery. Healthy, Resilient, and Sustainable Communities After Disasters calls for actions at multiple levels to facilitate recovery strategies that optimize community health. With a shared healthy community vision, strategic planning that prioritizes health, and coordinated implementation, disaster recovery can result in a communities that are healthier, more livable places for current and future generations to grow and thrive - communities that are better prepared for future adversities.

Ours is essentially a tragic age, so we refuse to take it tragically. The cataclysm has happened, we are among the ruins, we start to build up new little habitats, to have new little hopes. It is rather hard work: there is now no smooth road into the future: but we go round, or scramble over the obstacles. We've got to live, no matter how many skies have fallen. This was more or less Constance Chatterley's position. The war had brought the roof down over her head. And she had realized that one must live and learn. A groundbreaking parenting guidebook addressing the trait of "high sensitivity" in children, from the psychologist and bestselling author of *The Highly Sensitive Person* whose books have sold more than 1 million copies. With the publication of *The Highly Sensitive Person*, pioneering psychotherapist Dr. Elaine Aron became the first person to identify the inborn trait of "high sensitivity" and to show how it affects the lives of those who possess it. In *The Highly Sensitive Child*, Dr. Aron shifts her focus to the 15 to 20 percent of children who are born highly sensitive—deeply reflective, sensitive to the subtle, and easily overwhelmed. These qualities can make for smart, conscientious, creative children, but also may result in shyness, fussiness, or acting out. As Dr. Aron shows in *The Highly Sensitive Child*, if your child seems overly inhibited, particular, or you worry that they may have a neurodevelopmental disorder, such as ADHD or autism, they may simply be highly sensitive. And raised with proper understanding and care, highly sensitive children can grow up to be happy, healthy, well-adjusted adults. Rooted in Dr. Aron's years of experience working with highly sensitive children and their families, as well as in her original research on child temperament, *The Highly Sensitive Child* explores the challenges of raising an HSC; the four keys to successfully parenting an HSC; how to help HSCs thrive in a not-so-sensitive world; and how to make school and friendships enjoyable. With chapters addressing the needs of specific age groups, from newborns to teens, *The Highly Sensitive Child* is the ultimate resource for parents, teachers, and the sensitive children in their lives. "The Chapman family was the first of New Zealand's legal dynasties. Henry Samuel Chapman was the first puisne judge of the Supreme Court; his son Frederick Revans Chapman was the first New Zealand born Supreme Court judge; and another son, Martin founded one of the country's leading legal firms, which still bears his name ... This book provides a record of the lives and careers of three significant figures in nineteenth and early twentieth century colonial history. It casts light on important aspects of society and law at that time; notably, the characteristics and values of the educated, aspirant classes, and the development of essentially English institutions and laws in the colonial environment." -- Back cover. Geoffrey Robertson QC has been at the centre of internationally high-profile legal cases for over three decades. From representing Princess Diana to Salman Rushdie, to his involvement in the celebrated criminal trials of Oz magazine and Gay News, Robertson is an unfailing champion of human rights, justice, freedom and democracy. In this captivating memoir, Robertson reveals what draws him to each case, his ingenious analysis and interpretation of the courtroom proceedings, and the legal and civic consequences – wrapping each case into a thrilling, rollercoaster sequence of events. Entertaining, scandalous and hugely insightful, *The Justice Game* provides a piercing behind-the-scenes look into courtroom cases, the practice of the law and the never-ending fight in striving to narrow the gap between the law and justice.
