Modern Classical Optics Oct 13 2021 The book gives accounts of non-quantum optical phenomena and of instruments and technology based on them, at a level suitable for the last two years of an honours degree in physics and for graduates starting out. Topics covered include the conventional (diffraction, coherence, thin films, holography...) but also the less conventional (étendue, Gaussian beams, laser cavities, cd reader, confocal microscope...) which belong in today's university courses, for example, to support laser physics. Even the conventional material has frequently been given a fresh presentation by giving a tidier-than-usual route through a calculation, or finding insightful connections with other parts of physics, or simply avoiding common errors. Problems offer opportunities for checking the reader's basic understanding, or for taking a careful route through reasoning, or for checking orders of magnitude. But most problems contain exploratory and critical material: investigating possible alternative approaches, asking searching questions about fundamentals, or solving apparent paradoxes.

Inner Drives Aug 11 2021 "There are immeasurably powerful dramatic principles that have governed storytelling for millennia, yet the powerful dimension they can bring to the inner life of characters has been forgotten. This inspiring and practical book delves into the fascinating world of archetypes, mythology, and the chakra system to reveal the deepest sources of character motivation and action for a single purpose: to enhance your storytelling abilities." "Filled with examples and exercises, Inner Drives may be used to structure character arcs, devise backstories, boost conflict, pair up couples, and form ensembles - resulting in strong, believable characters to drive your story." "Pamela Jaye Smith's information will help writers, directors, designers, development executives, and actors build on their existing skills to gain a creative advantage in attracting audiences to their work."--BOOK JACKET.

The Age of Catastrophe Apr 18 2022 One of Germany's leading historians presents an ambitious and masterful account of the years encompassing the two world wars. Characterized by global war, political revolution and national crises, the period between 1914 and 1945 was one of the most horrifying eras in the history of the West. A noted scholar of modern German history, Heinrich August Winkler examines how and why Germany so radically broke with the normative project of the West and unleashed devastation across the world. In this total history of the thirty years between the start of World War One and the dropping of atomic bombs on Hiroshima and Nagasaki, Winkler blends historical narrative with political analysis and encompasses military strategy, national identity, class conflict, economic development and cultural change. The book includes astutely observed chapters on the United States, Japan, Russia, Britain, and the other European powers, and Winkler's distinctly European perspective offers insights beyond the accounts written by his British and American counterparts. As Germany takes its place at the helm of a unified Europe, Winkler's fascinating account will be widely read and debated for years to come.

The Great Conspiracy (Civil War Classics) Jan 04 2021 To commemorate the 150th Anniversary of the end of the Civil War, Diversion Books is publishing seminal works of the era: stories told by the men and women who led, who fought, and who lived in an America that had come apart at the seams. The events leading up to the Civil War reveal a country divided by more than just a belief in, or revulsion of, slavery. It reveals a country still forming, even as it fissures and breaks apart. It reveals an industrial north and an agricultural south evolving into enemies even as they mutually benefit one another. It reveals politicians playing to their bases, riling up young men especially to take up arms against their fellow countrymen. This astonishing historical work chronicles all this and more, exploring the fractious ideologies and the most important figures who led the country into its bloodiest conflict.

Journey to the Center of the Earth Sep 11 2021 One day, a mysterious note fell from one of my uncle's ancient manuscripts. This note contained the clue that would guide a man to the center of the planet. My uncle was determined to follow the clue and discover what no man had found before. Our discoveries are brought to life in this striking graphic novel adaptation. Graphic Planet is an imprint of Magic Wagon, a division of ABDO Group. Grades 5-8.

The Devil's Children Jun 08 2021 A number of cases of serious child abuse have resulted from beliefs that children may be possessed by evil spirits and may then be given the power to bewitch others. Misfortune, failure, illness and even death may be blamed on them. The 'cure', nowadays called deliverance rather than exorcism, is to expel the spirits, sometimes by violent means. This book draws together contributions on aspects of possession and witchcraft from leading academics and expert practitioners in the field. It has been put together following conferences held by Inform, a charity that provides accurate information on new religions as a public service. There is no comparable information publicly available; this book is the first of its kind. Eileen Barker, founder of Inform, introduces the subject and Inform's Deputy Director goes on to detail the requests the charity has answered in recent years on the subject of children, possession and witchcraft. This book offers an invaluable resource for readers, whether academic or practitioner - particularly those in the fields of the safeguarding of children, and their education, health and general welfare.

Palenque Feb 26 2023 Palenque is one of the best known and oldest Mayan archaeological sites. But recently little has been published on the ongoing work here. Marken's collection brings the archaeological record of Palenque up to date. Chapters cover a wide range of topics from architecture to hieroglyphic texts, from broad issues of chronology to settlement to theoretical and methodological issues concerning architectural excavations. Palenque represents an important update of research for any Mayan archaeologist. *Papers and Proceedings of the ... General Meeting of the American Library Association* Dec 03 2020

Yale Classics (Vol. 2) Dec 27 2022 This collection is based on the required reading list of Yale Department of Classics. Originally designed for students, this anthology is meant for everyone eager to know more about the history and literature of this period, interested in poetry, philosophy and rhetoric of Ancient Rome. Latin literature is a natural successor of Ancient Greek literature. The beginning of Classic Roman literature dates to 240 BC. From that point on, Latin literature would flourish for the next six centuries. Latin was the language of the ancient Romans, but it was also the lingua franca of Western Europe throughout the Middle Ages. Consequently, Latin Literature outlived the Roman Empire and it included European writers who followed the fall of the Empire, from religious writers like Aquinas, to secular writers like Francis Bacon, Baruch Spinoza, and Isaac Newton. This collection presents all the major Classic Roman authors, including Cicero, Virgil, Ovid and Horace whose work intrigues and fascinates readers until this day. Content: Plautus: *Aulularia Amphitryon* Terence: *Adelphoe* Ennius: *Annales* Catullus: *Poems and Fragments* Lucretius: *On the Nature of Things* Julius Caesar: *The Civil War* Sallust: *History of Catiline's Conspiracy* Cicero: *De Oratore Brutus* Horace: *The Odes* *The Epodes* *The Satires* *The Epistles* *The Art of Poetry* Virgil: *The Aeneid* *The Georgics* Tibullus: *Elegies* Propertius: *Elegies* Cornelius Nepos: *Lives of Eminent Commanders* Ovid: *The Metamorphoses* Augustus: *Res Gestae Divi Augusti* Lucius Annaeus Seneca: *Moral Letters to Lucilius* Lucan: *On the Civil War* Persius: *Satires* Petronius: *Satyricon* Martial: *Epigrams* Pliny the Younger: *Letters* Tacitus: *The Annals* Quintilian: *Institutio Oratoria* Juvenal: *Satires* Suetonius: *The Twelve Caesars* Apuleius: *The Metamorphoses* Ammianus Marcellinus: *The Roman History* Saint Augustine of Hippo: *The Confessions* Claudian: *Against Eutropius* Boethius: *The Consolation of Philosophy* Plutarch: *The Rise and Fall of Roman Supremacy* Romulus Poplicola Camillus Marcus Cato Lucullus Fabius Crassus Coriolanus Cato the Younger Cicero

The Archaeology of Political Organization Jul 22 2022 In this volume, Barbara Stark examines settlement in the coastal plain of lowland Mesoamerica, which was richly endowed with fertile soil and valued tropical resources such as jaguars, cacao, avian species with bright plumage, and cotton. The book provides basic archaeological data about regional settlement from three decades of survey research in south-central Veracruz in the western lower Papaloapan basin, a region with low density urbanism. The data reveals political and social change, with consolidation of wealth by elite families during the Late Classic period. The political analysis considers archaeological evidence related to several organizational principles: collective versus autocratic, corporate versus exclusionary/network, and segmentary (unspecialized versus specialized). Many variables related to these principles used by other scholars are either suited to historically documented states, not archaeological ones, or ambiguous. Many published studies either focus on a particular city or use documents or other evidence drawn from the top of the settlement hierarchy, characterizing the whole society politically from a biased sample. This political analysis is regional in scope and attentive to variation in the settlement hierarchy, providing a guidepost to analysis of political principles with archaeological data.

Classic and Romantic Music Mar 30 2023 This book examines the concepts of 'classic' and 'romantic' in their historical contexts and discusses the varying interpretations they have undergone, separately and in relation to each other. For each period, the author surveys the development of style characteristics, the treatment of rhythm, meter, and tempo, of harmony and tonality, of motive and theme, genres and forms. He also considers such problems as national styles and the social position of music.

Clear and Simple as the Truth Sep 23 2022 At a time when writing skills have virtually disappeared, what can be done? If only people learned the principles of verbal correctness, the essential rules, wouldn't good prose simply fall into place? Thomas and Turner say no. Attending to rules of grammar, sense, and sentence

structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole-in-one.
