Afterwards it will compare them with regard to three common gender roles of that time, and it will show that all three marriages are more or less built upon these common gender-specific ideas.

Approaches to Teaching Hurston's Their Eyes Were Watching God and Other Works Jun 24 2020 Zora Neale Hurston emerged as a celebrated writer of the Harlem Renaissance, fell into obscurity toward the end of her life, yet is now recognized as a great American author. Her novel *Their Eyes Were Watching God* is popular among general readers and is widely taught in universities, colleges, and secondary schools. A key text of African American and women's literature, it has also been studied by scholars interested in the 1930s, small-town life, modernism, folklore, and regionalism, and it has been viewed through the lenses of dialect theory, critical race theory, and transnational and diasporan studies. Considering the ubiquity of Hurston's work in the nation's classrooms, there have been surprisingly few book-length studies of it. This volume helps instructors situate Hurston's work against the various cultures that engendered it and understand her success as short story writer, playwright, novelist, autobiographer, folklorist, and anthropologist. Part 1 outlines Hurston's publication history and the reemergence of the author on the literary scene and into public consciousness. Part 2 first concentrates on various approaches to teaching *Their Eyes*, looking at Hurston's radical politics and use of folk culture and dialect; contemporary reviews of the novel, including contrary remarks by Richard Wright; Janie's search for identity in Hurston's all-black hometown, Eatonville; and the central role of humor in the novel. The essays in part 2 then take up Hurston's other, rarely taught novels, *Jonah's Gourd Vine*, *Moses, Man of the Mountain*, and *Seraph on the Suwanee*. Also examined here are Hurston's anthropological works, chief among them *Mules and Men*, a staple for many years on American folklore syllabi, and *Tell My Horse*, newly reconsidered in Caribbean and postcolonial studies.

„*Their Eyes Were Watching God*“ - Analysis of the main conflicts and some metaphorical images of the novel Nov 29 2020 Studienarbeit aus dem Jahr 2005 im Fachbereich Amerikanistik - Literatur, Freie Universität Berlin, Sprache: Deutsch, Abstract: *Their Eyes Were Watching God* is the story of a woman's life. Protagonist Janie recapitulates her way from youth to her forties and shows the growing-up of a woman in the search for love. On the sideways Zora Neale Hurston points out the life of African-American people and their problems on the turn of the twentieth century until the 1930s. The objective of this paper is to point out the main conflicts and metaphorical images used in the book. As the novel is to some extent a biography of a woman's way to love the first to mention is the eternal conflict between men and women. Like a painter Hurston draws the traditional roles of the sexes and the contradictions of her time - a time of feminine emancipation in all aspects. Emancipation also plays a role in the obvious generation conflict personated in Nanny, Janie's grandmother. Somehow incidental, but flashing now and then, and sharp in her observations Hurston works up the racial issue of black and white living together in the American society around 60 years after slavery has officially ended. These are the more general conflicts of the book, while within the story opens the conflict within the black community. A subtle comparison of the life in Eatonville and the Everglades - inseparable of course from the totally differing feelings of Janie in both places. In the course of the novel Hurston uses strong, picturesque metaphorical language to describe the inner world of Janie's thoughts and feelings. This paper can only give a few examples for these images. The tree image stands for her love life and sexuality - first in bloom when she becomes a woman. The mule stands as a symbol for the submission of women through men.

Zora Neale Hurston, *Haiti*, and *Their Eyes Were Watching God* Mar 22 2020 Zora Neale Hurston wrote her most famous novel, *Their Eyes Were Watching God*, while in Haiti on a trip funded by a Guggenheim fellowship to research the region's transatlantic folk and religious culture; this work grounded what would become her ethnography *Tell My Horse: Voodoo and Life in Haiti and Jamaica*. The essays in *Zora Neale Hurston, Haiti, and "Their Eyes Were Watching God"* persuasively demonstrate that Hurston's study of Haitian Voudoun informed the characterization, plotting, symbolism, and theme of her novel. Much in the way that Voudoun and its North American derivative Voodoo are syncretic religions, Hurston's fiction enacts a syncretic, performative practice of reference, freely drawing upon Greco-Roman, Judeo-Christian, and Haitian Voudoun mythologies for its political, aesthetic, and philosophical underpinnings. *Zora Neale Hurston, Haiti, and "Their Eyes Were Watching God"* connects Hurston's work more firmly to the cultural and religious flows of the African diaspora and to the literary practice by twentieth-century American writers of subscribing in their fictional texts symbols and beliefs drawn from West and Central African religions.

Nineteen Eighty-Four Jul 26 2020 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
