Verbal Arts in Madagascar Feb 01 2021 Verbal Arts in Madagascar combines a history of the encounter between Europeans and colonized people with a groundbreaking analysis of four types of Malagasy folklore: riddles, proverbs, hainteny (dialogic exchanges of traditional metaphors), and oratory. In this richly textured study, Lee Haring has collected several hundred witty, imaginative texts and translated them into English for the first time. Verbal Arts in Madagascar contains the first history of the collecting of folklore in Madagascar from 1820 to the present. Haring contends that when European investigators recorded this "native culture" they created a vision of "folklore" which served French domination by trivializing Malagasy reality. Now, through comparison and analysis of texts gathered during a century and a half by foreigners, Haring shows that the four types of folklore examined make use of a pervasive two-sided dialogic structure. Although Haring works from texts transcribed and published at least seventy years ago, his analysis always highlights the performance of folklore in actual social settings. By drawing upon the observations of collectors and upon information presented in chronicles, ethnographies, reports, and other historical documents, Haring successfully reconstructs the performances of the texts and the social context in which the performances took place. Verbal Arts in Madagascar pioneers an integrated approach to past folklore studies into contemporary theory. It will especially interest students and scholars in folklore, history, African studies, and anthropology

Roald Dahl Jan 24 2023 From one of our finest literary biographers comes a brilliant biography of Roald Dahl: the much-loved author and creator of countless iconic literary characters. Roald Dahl was one of the world's greatest storytellers. He conceived his vocation as that of any fearless explorer and, in his writing for children, he was able to tap into a child's viewpoint throughout his life. He crafted tales that were exotic in scenario, frequently invested with a moral, and filled with vibrant characters that endure in public imagination to the present day. In this brand-new biography, Matthew Dennison re-evaluates the traditional narrative surrounding Dahl—that of school sporting hero, daredevil pilot, and wartime spy-turned-author—and examines surviving primary resources as well as Dahl's extensive literary output to tell the story of a man who identified as a rule-breaker, an iconoclast, and a romantic—both insider and outsider, war hero and child's friend.

A Hundred Thousand Hours Mar 14 2022 Poetry. Translated from the Norwegian by Rebecca Wadlinger. The book-length poem A HUNDRED THOUSAND HOURS is both one of the most celebrated and controversial volumes published in Norway in the past couple decades. A HUNDRED THOUSAND HOURS revolves around a mother-daughter relationship that exists between alternating forces of harmony and hysteria. Dahle's stanzas showcase multiple voices and surprise readers as a home becomes a museum, a cemetery, and a place where furniture comes to life. Dahle's work is fragmentary and eerie an illustrious example of Scandinavian surrealism."

Latter-Day Christianity Dec 23 2022 With the rapid and visible growth of the Church of Jesus Christ of Latter-day Saints, it was inevitable that doctrinal differences would arise between the Latter-day Saints and people of other faiths. Members of the LDS Church profess to be Christians, yet others doubt or do not understand this claim. The contributors to Latter-day Christianity hope that the 10 essays contained in this full-color, illustrated book will help Latter-day Saints who want to explain their beliefs and will be useful to people outside the LDS Church who want a simple and clear statement of those beliefs. The essays

address such topics as whether Latter-day Saints are Christian and what they believe about God, the Bible, personal revelation, human deification, salvation, and proselytization.

How to Read a Folktale Jun 24 2020 How to Read a Folktale offers the first English translation of Ibonia, a spellbinding tale of old Madagascar. Ibonia is a folktale on epic scale. Much of its plot sounds familiar: a powerful royal hero attempts to rescue his betrothed from an evil adversary and, after a series of tests and duels, he and his lover are joyfully united with a marriage that affirms the royal lineage. These fairytale elements link Ibonia with European folktales, but the tale is still very much a product of Madagascar. It contains African-style praise poetry for the hero; it presents Indonesian-style riddles and poems; and it inflates the form of folktale into epic proportions. Recorded when the Malagasy people were experiencing European contact for the first time, Ibonia proclaims the power of the ancestors against the foreigner. Through Ibonia, Lee Haring expertly helps readers to understand the very nature of folktales. His definitive translation, originally published in 1994, has now been fully revised to emphasize its poetic qualities, while his new introduction and detailed notes give insight into the fascinating imagination and symbols of the Malagasy. Haring's research connects this exotic narrative with fundamental questions not only of anthropology but also of literary criticism.

Reading with the Grain of Scripture Nov 29 2020 Christianity Today Book Award in Biblical Studies (2021) "All these essays illustrate, in one way or another, how I have sought to carry out scholarly work as an aspect of discipleship—as a process of faith seeking exegetical clarity." Richard Hays has been a giant in the field of New Testament studies since the 1989 publication of his *Echoes of Scripture in the Letters of Paul*. His most significant essays of the past twenty-five years are now collected in this volume, representing the full fruition of major themes from his body of work: the importance of narrative as the "glue" that holds the Bible together the figural coherence between the Old and New Testaments the centrality of the resurrection of Jesus the hope for New Creation and God's eschatological transformation of the world the importance of standing in trusting humility before the text the significance of reading Scripture within and for the community of faith Readers will find themselves guided toward Hays's "hermeneutic of trust" rather than the "hermeneutic of suspicion" that has loomed large in recent biblical studies.

The enterprise proved successful, resulting in high-level reviews written by well-known scientists appearing in the Journal. The reviews represent emerging and rapidly growing fields of research in fundamental as well as applied areas of biochemistry, such as medicine, biotechnology, agriculture and nutrition. Novel methodological and technological approaches which stimulate biochemical research are also included. The authors of the reviews are explicitly asked to be critical, selective, evaluative and interdisciplinary oriented. The reviews should encourage young scientists to think independently and creatively, and inform active investigators about the state of the art in a given field.
