Among the many contributors to Sports Car Market over the years, few have amassed the devoted and loyal following that John Draneas has with his monthly column, Legal Files. Thanks to a sharp mind that can reduce the most complex legal issues to their most salient points, Draneas never fails to educate and entertain with his thoughtful prose. With his unique insights and perspectives on the hobby, The Best of Legal Files is an indispensable resource for collectors and enthusiasts to learn from the mistakes made by others. The best hot rods are art on four wheels, and this book, a collection of studio photography of the cars produced by the world's top hot-rod builders, is nothing less than a gallery of the best of American hot rodding. Profiling top builders like Pete Chapouris, Roy Brizio, Vern Tardel, Troy Trepanier, and 15 others and featuring studio portraits of their most outstanding custom creations, this book celebrates the uniquely American marriage of mechanical know-how to an inspired sense of style and design. Built from the ground up, pieced together from salvaged parts, rebuilt with classic looks and futuristic technology—these are automotive works of art, as powerful on the page as they are on the street. Through the stunning portraiture of master photographer Peter Harholdt, Art of the Hot Rod captures these magnificent creations as never seen before. This How to Restore Norton Commando manual is aimed at owners and enthusiasts of the legendary Norton Commando, and covers all areas of restoration from the sourcing of the bike to its completion as a fully restored machine. Starting with advice on the different models, spares availability and where best to source a bike to restore, the book then covers the complete dismantling and restoration of the bike. Describing the engine, frame, gearbox, wheels, suspension and forks, brakes, ancillaries, bodywork, and electrics, the text is illustrated with hundreds of clear colour photos. What really sets this manual apart is the style in which it is written: not as some dull and distant workshop manual but in a friendly, humorous manner by an enthusiast of many years who is able to involve and entertain the reader, as well as providing a thorough and detailed restoration guide. This is the fourth restoration guide from an author whose previous works have been a massive hit with mechanics, enthusiasts and restorers throughout the world. Great physical change begins with a psychological one: Change your mind, change your body. - EAT MORE CARBS - BURN FAT - BUILD MUSCLE - QUICK-FIX RECIPES - NO GYM REQUIRED - CHEAT EVERY OTHER DAY All in Good Time is the remarkable story of George Daniels (1926-2011), the master craftsman, who was born into poverty but raised himself to become the greatest watchmaker of the twentieth century. Daniels stands alone in modern times as the inventor of the revolutionary co-axial escapement, the first substantial advance in portable mechanical timekeeping over the lever escapement, which has dominated ever since its invention in 1759. Daniels's love of mechanics embraced not only the minute, however - he was also a passionate collector and driver of historic motorcars. This revised and expanded edition of his autobiography also contains a new section that illustrates and discusses over thirty of the pocket and wrist-watches Daniels himself made over the years. Witness here the triumph of intelligence, ingenuity, matchless skill and singularity of purpose over the most unpromising of beginnings. Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques. The Norton Commando is a motorcycle with an ohv pre-unit parallel-twin engine, produced by the Norton Motorcycle Company from 1967 until 1977. With over 700 colour photographs, this book provides step-by-step guides to restoring every component of this classic bike. Topics covered include how to find a worthy restoration project; setting up a workshop with key tools and equipment; dismantling the motorcycle to restore the chassis, engine cradle and swing arm; restoring the isolastic suspension, forks and steering; tackling the engine, transmission, carburettors, electrics, ignition and instruments and, finally, overhauling wheels and brakes, and replacing tyres. There is also a chapter on the assembly of a restored 'Five Times Machine of the Year' motorcycle. Traces the history of this German automobile manufacturer, and offers specifications and descriptions of its most important stock and racing models About the book: In the 1960s and 1970s American automakers produced millions of muscle cars: high-performance cars more adept at competition than transportation. The baby boom generation snapped up these cars and proceeded to use them as intended, drag and street racing the cars until there was nothing left of them. No longer minimum-wage high schoolers, today's boomers enjoy more disposable income than any generation in history. And many of them are spending that income on

highly collectible muscle cars. Because so few muscle cars survived the abuse of young drivers back in the day, muscle car prices have skyrocketed, with mundane muscle cars commanding six-figure prices and the most significant muscle cars surpassing the million-dollar mark. Respected muscle car expert Colin Comer and top photographer David Newhardt tell the story of each of these rarest of rare cars in *Million-Dollar Muscle Cars*, the only book dedicated to these top-flight cars.
